WHERE?
Dyersburg State Community College
Student Center
1510 Lake Road
Dyersburg, TN 38024

WHY?
To learn about our water resources....
& how to protect them!

Help Protect Our Water Resources!!

WHAT IS A WATERSHED? Well.....It's simply a land area that drains into a particular stream or lake. EVERYONE lives in a watershed!

A healthy watershed is important because these waters supply our drinking water, water for agriculture, habitat for plants and animals as well as recreational opportunities like swimming, fishing and boating.

The North Fork Forked Deer River Watershed is almost 1000 square miles! (Carroll, Crockett, Dyer, Gibson, Henderson & Madison counties)

It is up to all of us to protect and improve the water resources where we live!

Hands-On Exhibits

Door Prizes

Light Refreshments

Learn & have fun!

Come on out and find out how to get involved.
