WRITING ASSESSMENT

Write your final composition here.

I think that you should be able to get your full licence's when you are age 16 and not 17. I can see the restrictes on the permit because you are learning to drive and you can learn better driving skills that a way, but come on do you realy think that some body that is 16 is realy going to listen to the driving restrictes so why don't they have it like it knows to be at the of 16 you had unrestricted licences.

I think that at the age of 16 is better because when you are 17 you are about 18 you realy don't care the way you drive but when you are 16 you care about what your parents might do if you get a speeding ticket or reckes driving. But then I can see the point of the restricted system.
