

Stop the Spread of **MRSA**

MRSA

- ☺ **Wash your hands often**
- ☹ **Do not touch skin infections**
- ☺ **Cover infections with a bandage taped on all sides**
- ☹ **Do not share clothing or personal hygiene items (make-up, deodorant, razors, bar soap)**
- ☺ **Take antibiotics until all gone**
- ☺ **Report skin infections to your school nurse**

MRSA is a type of “Staph” infection resistant to many antibiotics
