Solid Waste Planning Region  
5 - YR Update

Planning Region: Fentress 25

Clerk

*Note: Send one original copy of the report to the permanent file. If the planning region did not provide two copies of the report, then make a working copy and send the original to the permanent file.*

1. Write in the name of the person completing this report Sason Thompson  
a "cc" for all letters sent to the chairperson.
2. (may be attached as a separate list):  
Was a list of board members provided?  Yes  No  
*If yes, continue to question four and verify the term of each member is current.  
If no, skip question and go directly to question.*
3. Was the term of each member current?  Yes  No  
*Continue to question.*
4. See page 14:  
Did the chairperson of the board sign and date the report?  Yes  No  
*Continue to question.*
5. See page 14:  
Did the county executive, (each local Government body) sign and date the report?  Yes  No  
*Continue to question.*
6. Which reviewer was assigned to this report?  Brian  Bob  Becky  
*Continue to question.*
7. On what date was the report sent to the reviewer? 09/25/01  
*Continue to question.*
8. What is the deadline for the review (i.e., 90 working days from received stamp)? 12/25/01  
*Attach routing page to the report and give it to the reviewer.*

*Note: The letter will be addressed to the chairperson. The cc list will include the County Executive, Development District Director, person who prepared the report, and the CTAS contact. Modify (with date, names, cc, etc.) and print the letter entitled "5YrUpdtlnmerg." and give letter to Linda Rigsby for Ron Graham's signature. After letter is signed, Linda copies the letter for the cc list and one for the file. Linda then mails the letters and sends a copy of the letter to Patty to be placed in the permanent file.*

**RE: Fentress County Solid Waste Planning Region  
5-Year Update to the 10 Year Plan**

Dear Ms. Gorham:

The following attachments were unintentionally omitted yesterday when the 5-Year Update to the 10-Year Plan for the Fentress County Solid Waste Planning Region was sent from our office. If possible could, I have these attachments included in the submitted plans. Sorry for any inconvenience that this may have caused.

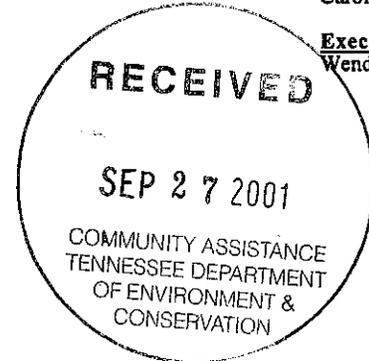

If you have any question,  
Please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Jason Thompson".

Jamestown, TN 38556

Dear Mr. Norris:

Thank you for a prompt response to our request for additional information concerning the Fentress County MSW Planning Region's Five-Year Update to the Ten-Year Solid Waste Plan. The information has been reviewed and the Five-Year Update is hereby approved.

This revised plan is intended to serve as a guideline for the region's solid waste reduction activities during the upcoming ten-year period. Tennessee Code Annotated §68-211-815 requires that it be consistent with the state solid waste plan, with the provisions of this part, with all other applicable provisions of law, and, with any regulation promulgated by the department. Any changes or updates in this plan must be identified and reported in the region's Annual Progress Report and the next Five-Year Update.

If you have comments or need our assistance, please contact me at the Division of Community Assistance, [bknight@mail.state.tn.us](mailto:bknight@mail.state.tn.us) or telephone (615) 532-0082.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Knight".

RE: Five-Year Update to Ten-Year Solid Waste Plan

Dear Mr. Norris:

The Five-Year Update to Fentress County's Ten-Year Solid Waste Plan has been reviewed by division staff and we find that several sections of the report need additional information and/or further clarification. We offer the following comments based on that review and other pertinent information:

#### CHAPTER 1-SUMMARY

- Section 1.1-Implementation Schedule. Landfill construction, MRF construction, and application for recycling center equipment are listed in the report; however, these all take place in the first five (5) quarters of the ten-year planning horizon. **Please revisit the planning schedule and advise what, if anything, is planned for the latter years of the period.**

#### CHAPTER 2-GENERAL INFORMATION

- Section 2.11-Solid Waste Program Costs & Revenues. **Please provide a more detailed description of the region's costs and revenues involved in public funding for solid waste programs. Be sure to include capital cost considerations, staffing requirements, and operating expenses. List any new expenses and fees or revenues anticipated.**

#### CHAPTER 3-WASTE STREAM

- Section 3.3-Estimated percentage of land filled waste for each listed category. Use "land filled waste" listed in Section 1, instead of *total generated waste*.
- Section 3.4-Total Waste Generated Calculation. **The total waste generation figure (12,298.65 tons) includes 56 tons of unmanaged waste not shown in the flow diagram in Section 1.3 or in Attachment D.**

RE: Five-year Update to Ten-year Solid Waste Plan  
Fentress County Municipal SW Planning Region

Dear Mr. Norris:

Thank you for your timely submission of the Fentress County Municipal SW Planning Region County Five-year Update to Ten-year Solid Waste Plan. We received your plan on September 25, 2001. Division staff will complete the review within the next 90 days as required by The Solid Waste Act of 1991.

If you need additional information or have further questions, please contact me at 615-532-0744.

Sincerely,

Becky Gorham

**ALL RDT LAND COMPANY**

- 1/4 cup mayonnaise
- 1/4 cup finely chopped onion
- 1/4 teaspoon dry mustard
- 1/4 teaspoon salt
- 1/4 teaspoon black pepper
- 2 tablespoons margarine
- Combine all ingredients in a bowl and mix well. Shape into 4 cakes. Melt margarine in frying pan over medium heat. Cook salmon cakes until browned, about 5 minutes on each side.
- Shepherd's Pie**
- 1 can beef stew
- 1 cup shredded cheddar cheese
- 1/3 cup milk, made with powdered milk
- 1/3 cup instant potato flakes
- 1/2 teaspoon salt
- 2 tablespoons margarine
- Heat oven to 350 degrees. Heat

**UCDD Fentress Co. Solid Waste Region Five Year Update Public Hearing**

The Upper Cumberland Development District is in the process of preparing a 5-year Update to the 10-Year Plan for the Fentress County Solid Waste Region as required by the Solid Waste Act of 1991. The 5 year Update will address how the region will meet its solid waste management needs such as solid waste reduction, recycling, waste collection and disposal capacity over the next ten years. Persons who wish to provide input to the plan are encouraged to attend a public hearing on the proposed plan on July 31, 2001 at 6:00 p.m. in the Fentress County Small Courthouse. Fentress County Executive David Beady

with cheese. Return to oven for 10 minutes or until cheese melts.

**Barbecued Green Beans**

- 2 cans green beans, drained
- 1 small onion, chopped
- 4 pork slices, cut in pieces
- 1/2 cup ketchup
- 1/2 cup brown sugar

Brown pork with onions and continue until onions are soft. Stir in green beans. Mix ketchup and brown sugar. Pour over beans. Do not stir. Cook over low heat for 30 minutes. Stir just before serving.

RESOLUTION NO. \_\_\_\_\_  
A RESOLUTION  
CREATING FENTRESS COUNTY'S  
MUNICIPAL SOLID WASTE PLANNING REGION

**WHEREAS**, the adoption of the Subtitle D landfill regulations by the United States Environmental Protection Agency and companion regulations adopted by the Tennessee Solid Waste Control Board will impact on both the cost and method of disposal of municipal solid waste; and

**WHEREAS**, at the urging and support of a coalition of local government, environmental, commercial, and industrial leaders, the 97th Tennessee General Assembly enacted T.C.A. §68-211-801 et seq., titled "Solid Waste Management Act of 1991"; and

**WHEREAS**, with the view that better planning for solid waste will help control the additional costs that will be imposed by the new landfill regulations, help protect the environment, provide an improved solid waste management system, better utilize our natural resources, and promote the education of the citizens of Tennessee in the areas of solid waste management including the need for and desirability of reduction and minimization of solid waste, local governments in Tennessee supported and worked for the passage of this Act; and

**WHEREAS**, one of the stated public policies of this Act is to institute and maintain a comprehensive, integrated statewide program for solid waste management; and

**WHEREAS**, as per T.C.A. §68-211-811, the nine development districts in the State of Tennessee have completed a district needs assessment which are inventories of the solid waste systems in Tennessee; and

**WHEREAS**, Fentress County's Board of County Commissioners has

given consideration to the needs assessment prepared by Upper Cumberland development district;

**WHEREAS**, T.C.A §68-211-813, requires that counties in the State of Tennessee form municipal solid waste regions no later than December 12, 1992; and

**WHEREAS**, the Act's stated preference is the formation of multi-county regions with counties having the option of forming single or multi-county municipal solid waste regions; and

**WHEREAS**, the State of Tennessee will provide grant monies of varying amounts to single county, two county, and three or more county municipal solid waste regions to assist these regions on developing their municipal solid waste region plans; and

**WHEREAS**, the primary and prevailing purpose of the municipal solid waste regions are the preparation of municipal solid waste regional plans which among other requirements must identify how each region will reduce its solid waste disposal per capita by twenty-five percent (25%) by December 31, 1995, and a planned capacity assurance of its disposal needs for a ten (10) year period; and

**WHEREAS**, the development of a municipal solid waste regional plan that results in the most cost effective and efficient management of municipal solid waste is in the best interest of the citizens of Fentress County.

**NOW THEREFORE BE IT RESOLVED**, by the Board of County Commissioners of Fentress County, Tennessee, acting pursuant to T.C.A. §68-211-801 et seq., that there is hereby established a Municipal Solid Waste Region for and by Fentress County, Tennessee; and

**BE IT FURTHER RESOLVED**, that pursuant to T.C.A. §68-211-813

(a) (2), that the Board of County Commissioners of Fentress County, Tennessee finds and determines that Fentress County shall be and shall constitute a single county municipal solid waste region due to the following: Fentress County Citizens have resolved to control their own destiny and have passed a local option sales tax increase to help fund solid waste efforts; and

**BE IT FURTHER RESOLVED**, that pursuant to T.C. A. §68-211-813 (b) (1), a Municipal Solid Waste Region Board is hereby established to administer the activities of this Region; and

**BE IT FURTHER RESOLVED**, that this Municipal Solid Waste Region Board shall be composed of seven members; and

**BE IT FURTHER RESOLVED**, that pursuant to T.C.A. 68-211-813 (b) (1) five Board Members shall be appointed by the County Executive and approved by this Board of County Commissioners and, due to the fact that the City of Jamestown collects or provides disposal services through its own initiative or by contract, the City of Jamestown shall have a Board member appointed by the Mayor of City of Jamestown and approved by the City of Jamestown; and due to the fact that the City of Allardt collects or provides disposal services through its own initiative or by contract, the City of Allardt shall have a Board member appointed by the Mayor of City of Allardt and approved by the City of Allardt; and

**BE IT FURTHER RESOLVED**, that members of the Board of Municipal Solid Waste Region shall serve a six (6) year term except that two members appointed by the County Executive shall have a two (2) year term, that two members appointed by the County Executive shall have a four (4) year term, that one member appointed by the County Executive shall have a six (6) year term, and that one member appointed by the Mayor

of the City of Jamestown shall have a four year term; and that one member appointed by the Mayor of the City of Allardt shall have a six year term; and

**BE IT FURTHER RESOLVED**, that this Municipal Solid Waste Region Board shall have all powers and duties as granted it by T.C.A. §68-211-813 et seq. and in addition, in the performance of its duty to produce a municipal solid waste region plan, it shall be empowered to utilize existing Fentress County governmental personnel, to employ or contract with persons, private consulting firms, and/or governmental, quasi-governmental, and public entities and agencies and to utilize Fentress County's services, facilities and records in completing this task; and

**BE IT FURTHER RESOLVED**, that at the Municipal Solid Waste Region Board's initial organization meeting it shall select from its members a chair, vice-chair, and secretary and shall cause the establishment of a municipal solid waste advisory committee whose membership shall be chosen by the Board and whose duties are to assist and advise the Board; and

**BE IT FURTHER RESOLVED**, that the Municipal Solid Waste Region Board, in furtherance of its duty to produce a municipal solid waste region plan, is authorized to apply for and receive funds from the State of Tennessee, the federal government, Fentress County, the City of Jamestown, City of Allardt, and donations and grants from private corporations and foundations; and

**BE IT FURTHER RESOLVED**, that Fentress County shall receive, disburse and act as the fiscal agent for the administration of the funds of the Municipal Solid Waste Region and the Region's Board; and

**BE IT FURTHER RESOLVED**, that upon the passage of this

Resolution and at no later date than December 31, 1992, the County Clerk of Fentress County shall transmit a copy of this Resolution to the Tennessee State Planning Office.

RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF FENTRESS COUNTY, TENNESSEE this the \_\_\_\_ day of \_\_\_\_\_, 1992, the welfare of the citizens of Fentress County requiring it.

### Geographically

Over three-fourths of the county's landscape is found within the Cumberland Plateau Province; the remaining one-fourth lies in the Eastern Highland Rim region. Stratigraphic units underlying the Cumberland Plateau section of the country include Pennsylvanian age conglomerates, sandstones, shales and siltstones. In the Highland Rim Region limestones of Mississippian age predominate.

With the single exception of its northwest side, the Cumberland Plateau dominates all of the county's landscape. The surface of the plateau is gently rolling tableland that has a relief usually less than 100 feet. Along the county's eastern border the elevation of the plateau is 1600 feet; however, on the western side of the county and along U. S. Highway 127 the elevation gradually rises to 1700 feet.

Ridges and hills rising above the plateau surface are non-existent, while stream valleys usually consist of shallow drainage-ways. However, on the eastern side of the county, several precipitous stream gorges have cut below the general surface of the plateau. The two most prominent gorges are Clear Creek, along the county's southern boundary, and White Oak Creek, several miles east of Jamestown. Both of these gorges and their tributaries have depths of 200 to 400 feet and represent the most rugged terrain in the plateau area of the county. Along the county's eastern border, these stream gorges are found within Big South Fork National Park. This recently established park is an area of rugged scenic beauty with spectacular bluffs and lush forests that are characteristic of the Cumberland Plateau. Of the park's 105,000 total acres, 14,957 acres are in Fentress County.

On the western edge of the plateau, the escarpment that separates it from the Highland Rim is highly irregular owing to the headward erosion of the Wolf and Obey Rivers and their tributaries. The average height of the escarpment from the valley floors to the rim of the plateau is slightly over 400 feet. Situated northwest of Jamestown between the valleys of the Obey and Wolf Rivers lies Reynolds Mountain. This is not a mountain in the traditional sense, but a broad massive outlier jutting outward from the main body of the plateau.

The valleys of the Wolf and Obey Rivers constitute the Highland Rim region of the county. Both valleys, along with numerous tributary streams that drain into them, have deeply dissected the western side of the plateau. Their width varies from one to two miles, while the elevation of their floors is around 500 feet.

Fentress County drains into two major drainage basins, the Tennessee and the Cumberland. The southern tip of the county drains into Clear Creek which flows eastward to the Emory River in Morgan County. The Emory joins the Tennessee River in Roane County. The eastern part of the county is drained primarily by White Oak Creek and Laurel and Clear Forks. All of these flow eastward into the South Fork of the Cumberland River in Scott County. The Wolf and Obey Rivers drain the county's western side, both flowing westward into Pickett County. These two rivers are also a part of the Cumberland River System.

The highest elevation, 1,870 feet, is located on the Cumberland Plateau in the southwest panhandle area of the county. This point, found on the Clarkrange Highway (State Route 62), is situated 0.5 miles northeast of the Fentress Putnam County line and is designated on the topographic map as Bench Mark 25-33-8 (Clarkrange 108 NE).

The lowest elevation, 651 feet, is found in the west-central area of the county on the Obey River. This is the normal pool level of Dale Hollow Reservoir (Riverton 334 NE).

RE: Five-year Update to Ten-year Solid Waste Plan  
Fentress County SW Region 25  
Region Member: Fentress  
**Update Due — September 27, 2001**

Dear Mr. Norris:

As you are aware, the Solid Waste Management Act of 1991 requires the Solid Waste Regions to plan, monitor, and report on solid waste activities. One of the requirements of this legislation was for each region to prepare a Ten-year Solid Waste Management Plan. The legislation also requires that Five-year updates to those plans be prepared and submitted to the state for review. The Fentress County Region's Ten-year plan was approved on September 27, 1996; therefore, your Five-year Update is due to this office by **September 27, 2001**. Please note that the Update is expected to consider the next Ten-year planning horizon, and will become your current Ten-year Plan upon approval by this office.

Also required by the Solid Waste Act is submittal of a Needs Assessment report for all of the counties within each Development District. The initial Assessment was due by September 30, 1992; with revisions due by April 1, 1999 and every five years after that. The SW Needs Assessment for the counties and municipalities within your region was received on April 7, 1999. Please contact Mr. Jason Thompson with the Upper Cumberland Development District to determine the status of your Region's Needs Assessment report. The Needs Assessment will provide much of the information necessary for the preparation of the Five-year Update to your Ten-year Plan.

The Five-year update to your Ten-year Solid Waste Management Plan is an important tool for your Region. If you have any questions, please do not hesitate to contact me at 615-532-0744.

Sincerely,

*Becky Gorham*

Mr. Kevin Norris, Chairman  
Fentress County Municipal SW Planning Region 25  
3950 S York Highway  
Jamestown, TN 38556

Dear Mr. Norris:

Thank you for a prompt response to our request for additional information concerning the Fentress County MSW Planning Region's Five-Year Update to the Ten-Year Solid Waste Plan. The information has been reviewed and the Five-Year Update is hereby approved.

This revised plan is intended to serve as a guideline for the region's solid waste reduction activities during the upcoming ten-year period. Tennessee Code Annotated §68-211-815 requires that it be consistent with the state solid waste plan, with the provisions of this part, with all other applicable provisions of law, and, with any regulation promulgated by the department. Any changes or updates in this plan must be identified and reported in the region's Annual Progress Report and the next Five-Year Update.

If you have comments or need our assistance, please contact me at the Division of Community Assistance, [bknight@mail.state.tn.us](mailto:bknight@mail.state.tn.us) or telephone (615) 532-0082.

Sincerely,

A handwritten signature in black ink, appearing to read "R. G. Knight".

RE: Five-Year Update to Ten-Year Solid Waste Plan

Dear Mr. Norris:

The Five-Year Update to Fentress County's Ten-Year Solid Waste Plan has been reviewed by division staff and we find that several sections of the report need additional information and/or further clarification. We offer the following comments based on that review and other pertinent information:

**CHAPTER 1-SUMMARY**

- Section 1.1-Implementation Schedule. Landfill construction, MRF construction, and application for recycling center equipment are listed in the report; however, these all take place in the first five (5) quarters of the ten-year planning horizon. **Please revisit the planning schedule and advise what, if anything, is planned for the latter years of the period.**

**CHAPTER 2-GENERAL INFORMATION**

- Section 2.11-Solid Waste Program Costs & Revenues. **Please provide a more detailed description of the region's costs and revenues involved in public funding for solid waste programs. Be sure to include capital cost considerations, staffing requirements, and operating expenses. List any new expenses and fees or revenues anticipated.**

**CHAPTER 3-WASTE STREAM**

- Section 3.3-Estimated percentage of land filled waste for each listed category. Use "land filled waste" listed in Section 1, instead of *total generated waste*.
- Section 3.4-Total Waste Generated Calculation. **The total waste generation figure (12,298.65 tons) includes 56 tons of unmanaged waste not shown in the flow diagram in Section 1.3 or in Attachment D.**

Mr. Kevin Norris

October 9, 2001

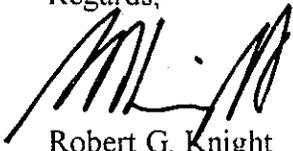

Page 2

✓ **CHAPTER 7-PROBLEM WASTES**

- **Section 7.7-Collection Sites. The region must list the sites that collect oil, other auto fluids, and lead acid batteries.**

The region's response to these comments is due on or before **December 10, 2001**. If you should have questions or need assistance, please contact me at [bknight@mail.state.tn.us](mailto:bknight@mail.state.tn.us) or telephone (615) 532-0082.

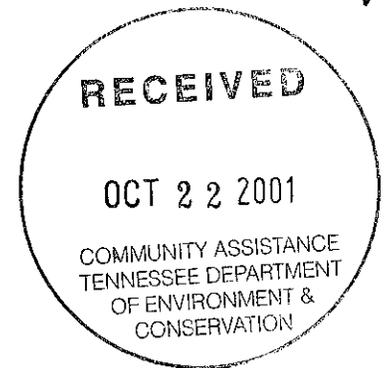

Regards,

Robert G. Knight

Planning, Reporting, and Waste Reduction

cc: The Honorable David Beaty, Fentress County Executive  
Ms. Faye Dalton, Waste Reduction Coordinator, Fentress County  
Mr. Jason Thompson, (SWM), Upper Cumberland Development District  
Ms. Chris Garkovich, SW Management Consultant, CTAS  
Mr. Rob Howard, EC, Cookeville Environmental Assistance Center

✓ **Chapter 1-SUMMARY**

Section 1.1-Implementation Schedule.

See Attachment "C"

✓ **Chapter 2-GENERAL INFORMATION**

Section 2.11-Solid Waste Program Costs & Revenues.

In 1992, the County Citizens passed a 1% sales tax in which half goes to the school system and the other half to cover solid waste budget for Fentress County Recycling. The Solid Waste Department receives .33 cents of each dollar collected in property taxes to fund the program. This figure has been lowered to .22 cents this year to fund the Solid Waste Region and will limit the amount of spending on equipment and labor that will be needed in the future. The commercial businesses are charged \$15.00 per dump and this is processed by monthly billing and used in the Solid Waste Budget. The average income of the tipping fees for commercial businesses is estimated at \$10,000.00 per month. The recycling program contributes an estimated \$2,500.00 per month to the Solid Waste Budget from the sell of recycled goods.

The Solid Waste Department has 25 employees to service the Region and this number seems to be adequate for the current need but the number would need to be larger if the region decides to start a landfill operation which is being considered.

See Attachment "D"

✓ **Chapter 3-WASTE STREAM**

Section 3.3-Estimated percentage of land filled waste for each listed category.

<b>Yard Waste:</b>	<b>2.1%</b>
<b>Construction/Demolition :</b>	<b>9.26%</b>
<b>Tires:</b>	<b>.46%</b>
<b>Recyclables:</b>	<b>13.21%</b>
<b>White Goods:</b>	<b>2.63%</b>
<b><u>Regular Municipal Solid Waste:</u></b>	<b><u>72.34%</u></b>
<b>Total:</b>	<b>100%</b>

**RE: Fentress County Solid Waste Planning Region  
5-Year Update to the 10 Year Plan**

Dear Mr. Knight:

Upon receiving your letter dated October 9, 2001 requesting additional information for the Fentress County 5 Year Update I have attached the following responses.

If you have any question,  
Please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive that reads "Jason Thompson".

RE: Five-Year Update to Ten-Year Solid Waste Plan

Dear Mr. Norris:

The Five-Year Update to Fentress County's Ten-Year Solid Waste Plan has been reviewed by division staff and we find that several sections of the report need additional information and/or further clarification. We offer the following comments based on that review and other pertinent information:

#### CHAPTER 1-SUMMARY

- Section 1.1-Implementation Schedule. Landfill construction, MRF construction, and application for recycling center equipment are listed in the report; however, these all take place in the first five (5) quarters of the ten-year planning horizon. **Please revisit the planning schedule and advise what, if anything, is planned for the latter years of the period.**

#### CHAPTER 2-GENERAL INFORMATION

- Section 2.11-Solid Waste Program Costs & Revenues. **Please provide a more detailed description of the region's costs and revenues involved in public funding for solid waste programs. Be sure to include capital cost considerations, staffing requirements, and operating expenses. List any new expenses and fees or revenues anticipated.**

#### CHAPTER 3-WASTE STREAM

- Section 3.3-Estimated percentage of land filled waste for each listed category. Use "land filled waste" listed in Section 1, instead of *total generated waste*.
- Section 3.4-Total Waste Generated Calculation. **The total waste generation figure (12,298.65 tons) includes 56 tons of unmanaged waste not shown in the flow diagram in Section 1.3 or in Attachment D.**

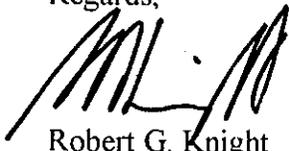

Mr. Kevin Norris  
October 9, 2001  
Page 2

## CHAPTER 7-PROBLEM WASTES

- *Section 7.7-Collection Sites.* **The region must list the sites that collect oil, other auto fluids, and lead acid batteries.**

The region's response to these comments is due on or before **December 10, 2001**. If you should have questions or need assistance, please contact me at [bknight@mail.state.tn.us](mailto:bknight@mail.state.tn.us) or telephone (615) 532-0082.

Regards,

Robert G. Knight

RE: Five-year Update to Ten-year Solid Waste Plan  
Fentress County Municipal SW Planning Region

Dear Mr. Norris:

Thank you for your timely submission of the Fentress County Municipal SW Planning Region County Five-year Update to Ten-year Solid Waste Plan. We received your plan on September 25, 2001. Division staff will complete the review within the next 90 days as required by The Solid Waste Act of 1991.

If you need additional information or have further questions, please contact me at 615-532-0744.

Sincerely,

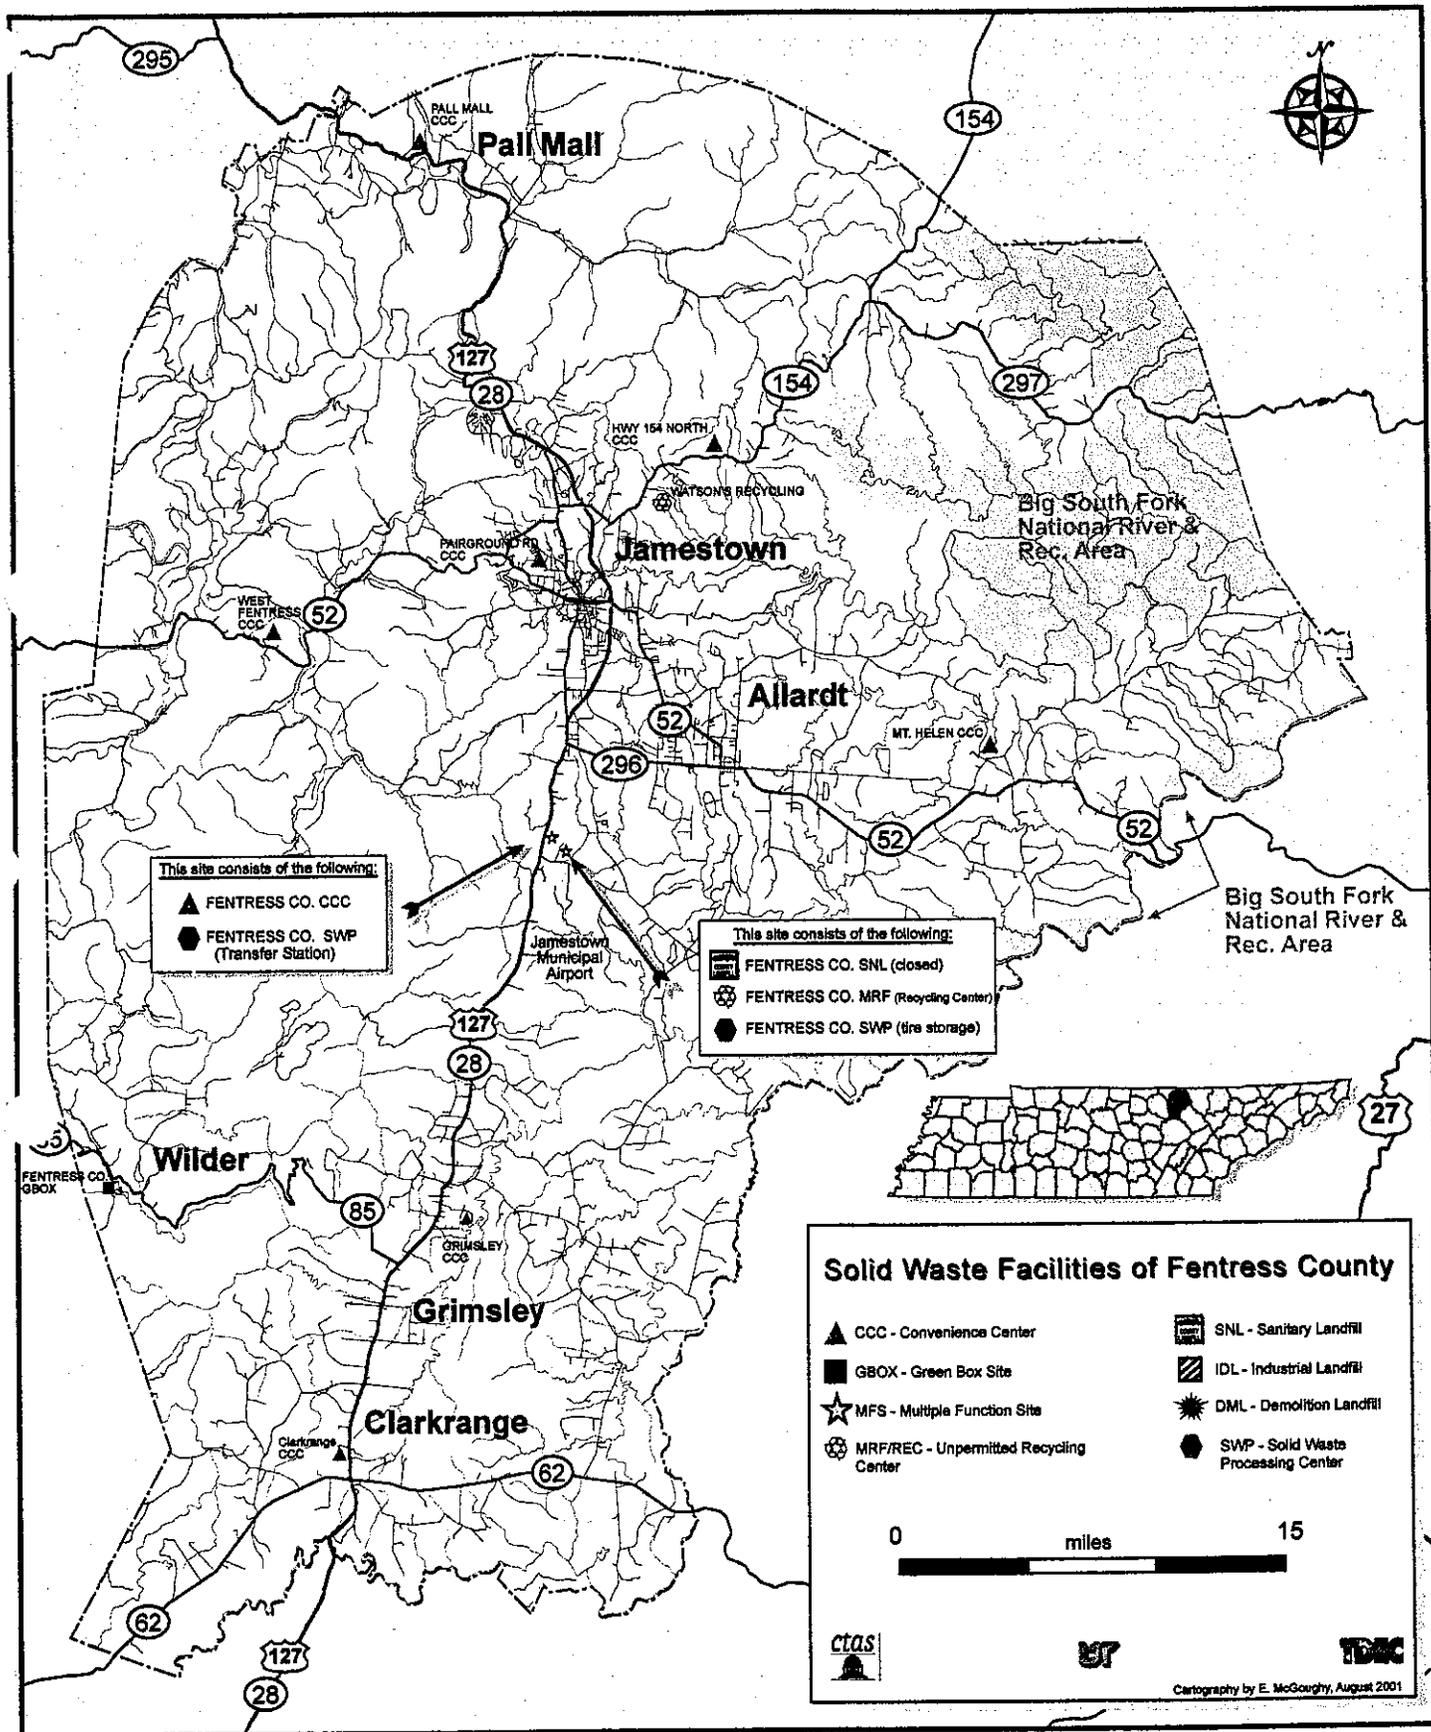

A handwritten signature in cursive script that reads "Becky Gorham".

# Chapter 1: Summary

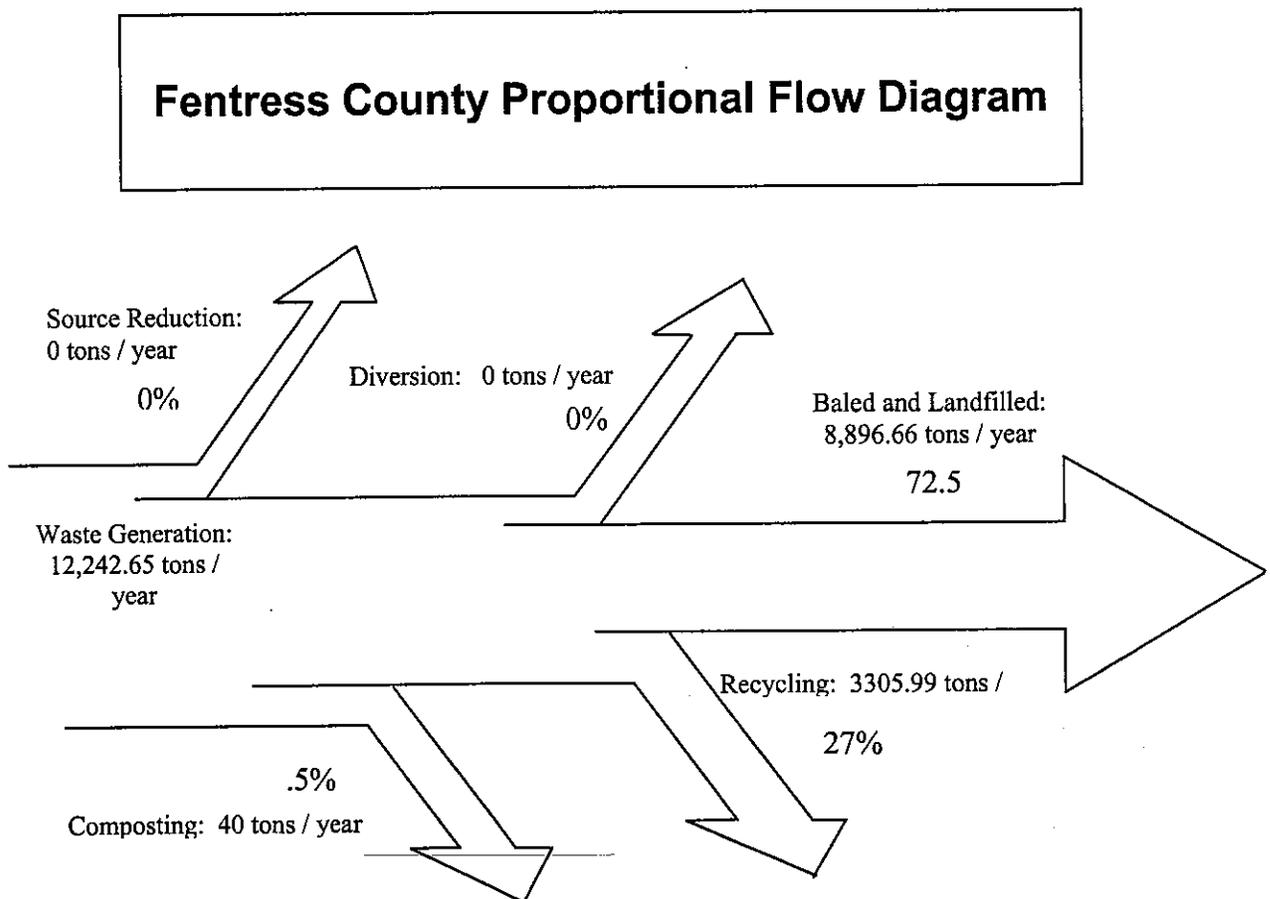

**Statutory Authority (edited) - T.C.A. 68-211-815 (b):** Each plan shall include a timetable for implementation of the plan.

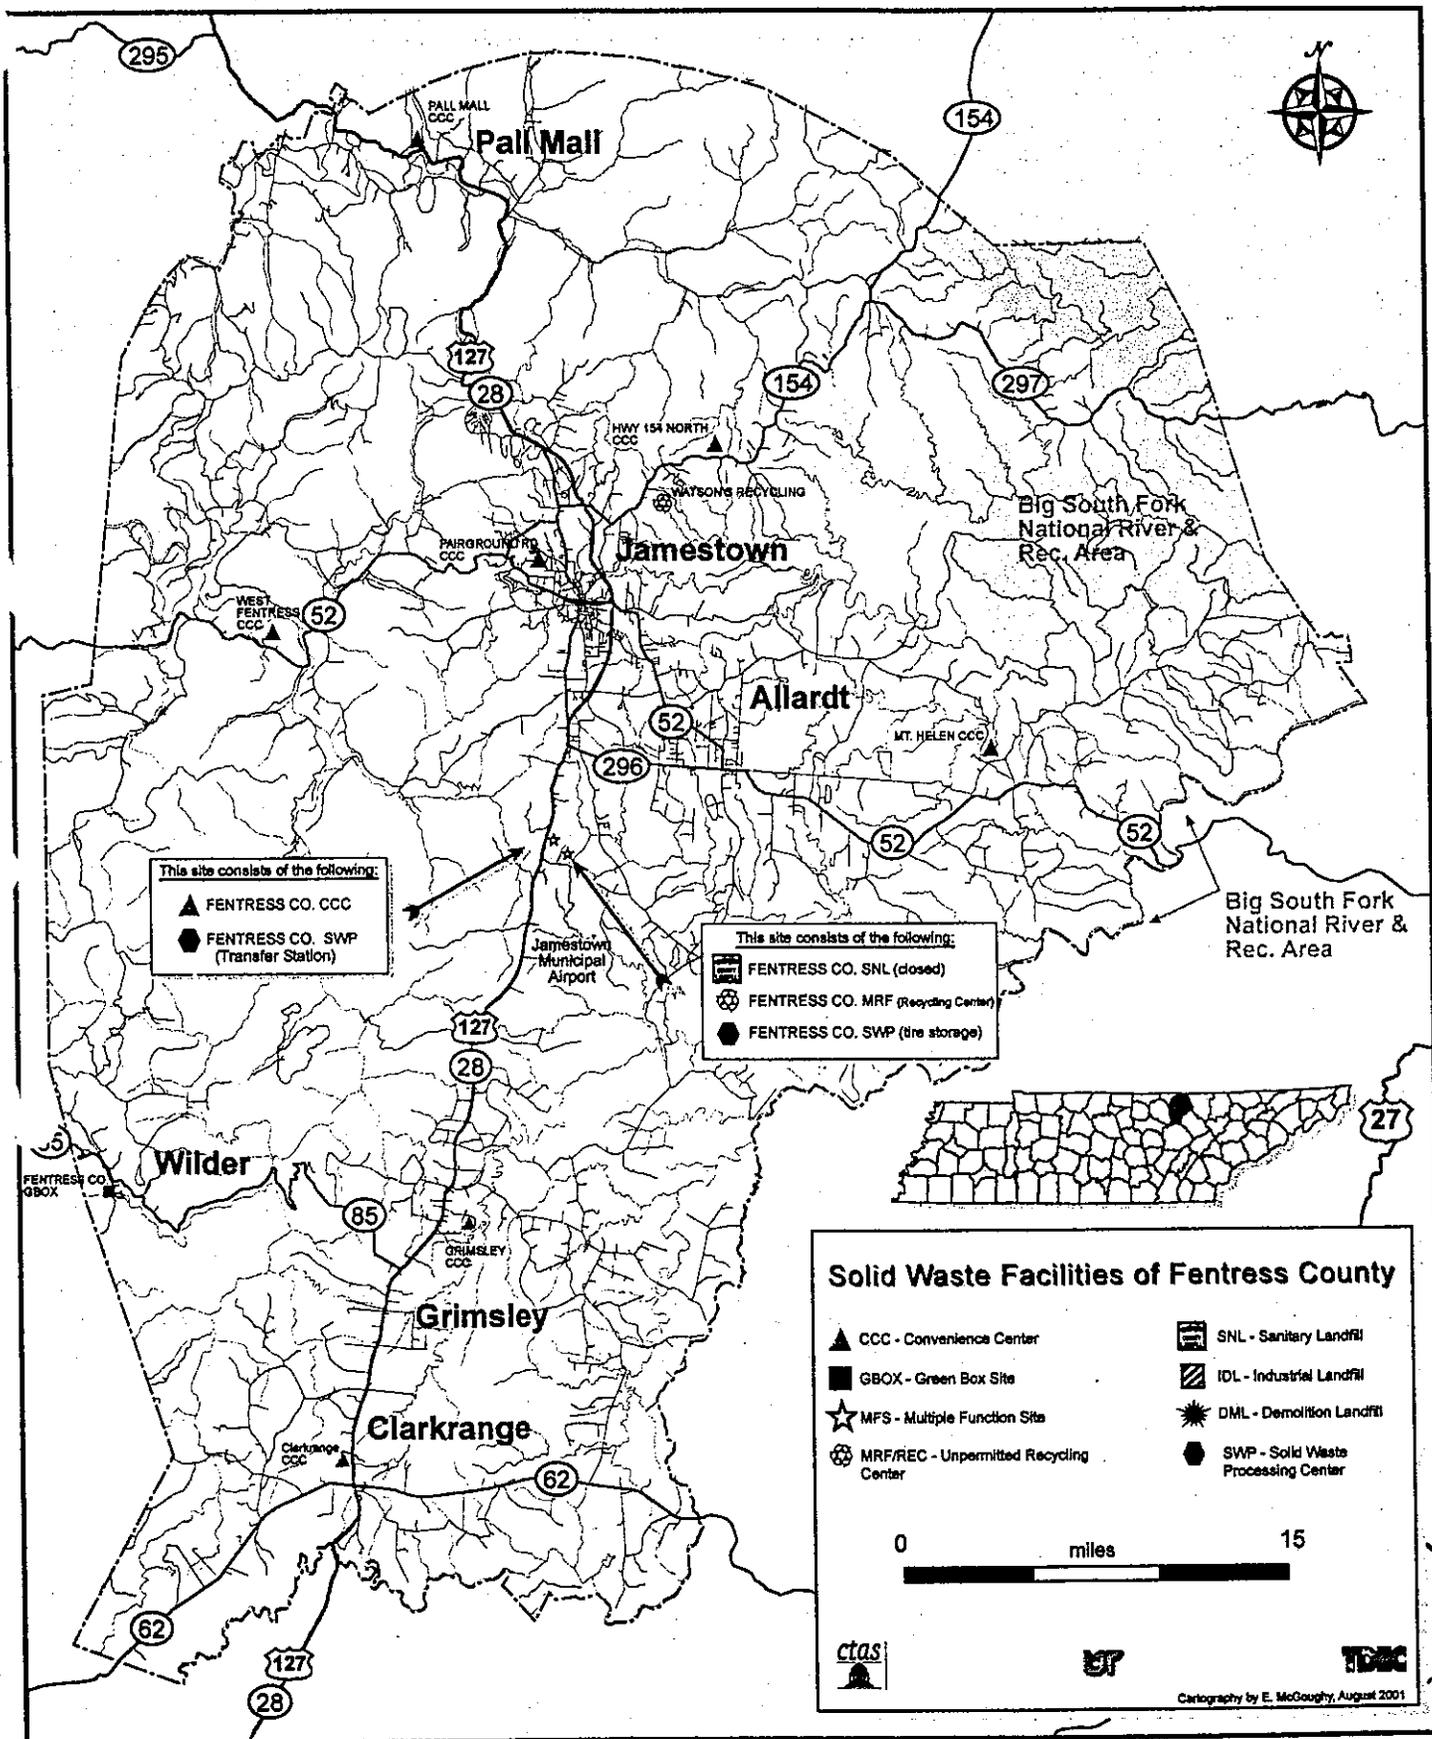

Summarize the information contained in this update in less than ten pages. This summary document should be appropriate for broad dissemination.

Evaluate each of the major elements discussed in Chapters 2 through 8 in terms of strengths and weaknesses. Compare existing systems to needs assessed and minimum mandates contained in the law. Outline plans for the future with regard to each element and the jurisdictions expected to implement each element.

In order to illustrate the narrative:

1. Include an implementation schedule illustrating current and planned facilities and programs. **See Attachment A**
2. Map facilities and programs where appropriate on a base systems map for each county in the Region. (See Chapters 4, 5, 6, and 7. Contact the University of Tennessee CTAS for help with mapping efforts.) ~~See Attachment B~~ *next page*
3. Prepare a flow diagram illustrating the waste stream in the Region (See Chapter 3, Question 4). **See Below**

COPY

# Chapter 2: General Information about the Region

**Statutory Authority (edited) - T.C.A. 68-211-815 (b):** Each plan shall include demographic information, and a current system analysis, including costs, using a full-cost accounting model; revenues; and adoption of uniform financial accounting systems; and an evaluation of multi-county solid waste disposal Regions with an explanation of the reasons for adopting or failing to adopt a multi-county Regional approach.

**Sources – Many of the questions in this and subsequent Chapters come directly from the Development District Solid Waste Needs Assessment guidance document. The questions here are taken from Chapter II of the Needs Assessment. You are encouraged to use the Needs Assessments for counties in this Region as a source, but take care to update information and bear in mind that the Assessments are a “county by county” analysis while Five-Year Updates call for a Regional analysis. In addition to the usual local sources, the U.S. Census Bureau (704-344-6144) may be a useful source. The University of Tennessee projections may also be useful.**

1. Identify the Region by name, and list counties and municipalities that comprise the Region.

## The Fentress County Region

**Municipalities:  
The City of Allardt  
The City of Jamestown**

2. Total Population of Region (list by county; provide source of information and year)

**The Fentress County Solid Waste Region has a total population of 16, 625 citizens.  
Information Source: Census data 2000**

3. Provide a complete list of Regional Solid Waste Board members and their term expiration dates. Top the list by stating how many members are on the board (set by the original Regional formation resolution) and whom they represent. Then include a current list of Regional board members (and any vacant positions), term of office and expiration for each, whether appointed by a county executive or mayor (and name the jurisdiction represented), whether confirmed by a county commission, or city council, and the year confirmed. Identify the chairman.

**The board consists of six members and one chairman. Five members represents the county and one represents the City of Jamestown and one represents the City of Allardt. The representatives of the county where appointed by the county executive and confirmed by the county commission in the years in attachment G. The representatives of the cities of Jamestown and Allardt were appointed by the mayor and confirmed by the city councils in the years in attachment G.**

## Chapter 2: General Information about the Region

4. A. Has the Region formed a Part 9 Solid Waste Authority?\* If yes, please provide the following information:

No

B. Has the Region dissolved a Part 9 Solid Waste Authority? If yes, please describe.

No

5. Please list three contacts for solid waste information for your Region.

**David Beaty**  
County Executive  
Fentress County Courthouse  
P.O. Box 1128  
Jamestown, Tennessee 38556-1128  
Phone:  
(931) 879-7713  
Fax:  
(931) 8791579

**Faye Dalton**  
Waste Reduction Manager  
P.O. Box 1169  
Jamestown, Tennessee 38556  
Phone:  
(931) 879-1135  
Fax:  
(931) 879-1765

**Keven Norris**  
Region Board Chairman  
P.O. Box 1169  
Jamestown, Tennessee 38556  
Phone:  
(931) 879-1135  
Fax:  
(931) 879-1765

6. Briefly describe the activities and workings of the Region's Solid Waste Board and/or Part 9 Authority Board if one exists. Describe the Board meeting schedule, involvement with concerned entities in planning decisions, process for addressing public, and timeliness of submittal of Annual Progress Reports and Solid Waste Plans. In addition to planning, does the Board meet its responsibilities with regard to permit review?

**The Fentress County board meets every 3 months on a regular schedule. The board works very closely with the planning commission on issues and concerns in the region. The board runs articles in the local newspaper informing the public on issues being discussed and actions being taken. The board reviews all reports or plans that are submitted for approval and ensures they are submitted in a timely manner. The board meets all its responsibilities in regards to permit review.**

# Chapter 2: General Information about the Region

7. Describe the Region's rationale for formation (its decision to be either single or multi-county). Is the current structure satisfactory?

Fentress County solid waste officials conducted meetings with neighboring counties before the single county region resolution was adopted. Neighboring counties were proposing to adopt single county region resolutions and the county officials were undecided about waste collection and disposal options as required by state law. Specifically, Fentress County was unable to find a neighboring county with which to form a multi-county region. Due to inadequate equipment and landfill space available to Fentress County to the end of the 1992 fiscal year, county officials elected to form a single county region and immediately began plans for collection and disposal. Meetings between County Planning Commission Members and County Commissioners were also conducted. On October 19, 1992 the County Commission passed the required Resolution declaring Fentress County a single county region as defined by the Solid Waste Management Act of 1991. Collection and disposal operations were enacted immediately that would coordinate with the long-range collection and disposal plan.

8. List all municipalities in the Region that have door to door collection service. Include county and municipal population.

City/Town Name	County	2000 Population
City of Allardt	Fentress County	642

9. Describe the Region, generally, geographically, and demographically.

### Generally

The region consists of Fentress County Tennessee. The City of Allardt and Jamestown are the only municipalities that are contained within the region. The majority of the industry and businesses are located within these locations with parks at varying locations along its borders. The majority of the county is rural in nature and has been greatly effected by several industries being moving out in recent years. The total area of the region is 498.7 square miles with a population of 16,625.

### Geographically

See Attachment L

### Demographically

See Attachment K

10. Does the Region (or Part 9 Authority, city or other jurisdiction within) charge a fee for solid waste services?

Yes

## Chapter 2: General Information about the Region

If yes, please identify each SW fee, when it was instituted and by what legal authority, what jurisdiction collects it, by what means it is collected, how much, and how often.

**Commercial businesses are charged \$15.00 per dump and this is processed by monthly billing.**

**In 1992 the County citizens passed a 1% sales tax in which half goes to the schools system and the other half to cover solid waste budget for Fentress County Recycling.**

11. Describe the costs and revenues involved in public funding for solid waste programs and expenses in the Region. Be sure to include capital cost considerations, staffing requirements, and operating expenses. It may be best to go jurisdiction by jurisdiction (cities, counties, Part 9 authorities). Is the current system satisfactory? Are revenues meeting costs? What new expenses and/or new fees or revenues are needed or anticipated?

**The current system is running better than satisfactory. The revenues are more than meeting cost. The Solid Waste Board is considering a possible landfill site in the County in which would affect the structure of the Solid Waste/Sanitation Fund.**

12. The Solid Waste Management Act states that each city, county, or Part 9 solid waste authority in the Region shall use uniform financial accounting methods and account for solid waste activities with a named designated special revenue or enterprise fund (for publicly owned landfills or incinerators) [T.C.A. 68-211-874(a)]. Do all the relevant jurisdictions in the Region meet with this requirement? **Yes**
13. Include a proposed 10-year solid waste budget for the Region.

**See Attachment C**

14. List the contacts in the Region for information regarding solid waste budgets.

**David Beaty**  
County Executive  
Fentress County Courthouse  
P.O. Box 1128

(931) 879-1765

# Chapter 3: Waste Stream

## (Characterization of Total Generated, Disposed Tonnage, 25% Reduction and Diversion Analysis, Description of Reduction and Diversion Programs)

**Statutory Authority (edited) - T.C.A. 68-211-815 (b):** Each plan shall include a current system analysis, including waste streams, with data concerning types and amounts generated; anticipated growth trends for the next ten-year period; a description of waste reduction activities designed to attain the 25% reduction and diversion required by T.C.A 68-211-861; and, a description of the responsibilities of the various participating jurisdictions.

The Law with regard to the State's **Twenty-Five Percent Reduction and Diversion Goal** up until June 1999 was as follows:

The goal of the State is that each **municipal solid waste planning Region** must have reduced by 25% the amount of waste disposed annually **per capita** in Class I landfills and incinerators in 1989 by December 31, 1995 [T.C.A. 68-211-861]. Landfill, incinerator, and transfer station operators must report a waste amount in tons through the use of scales [T.C.A. 68-211-862].

Legislation by the Tennessee General Assembly changes the way we calculate our 25% reduction and diversion goal. Most notably, the base year is revised from 1989 to 1995 and the new goal year for reaching 25% reduction and diversion is 2003. This guidance document will not dwell on reduction numbers and numerical progress (that is the role of Annual Progress Reports) as much as it will on a reporting and analysis of current and proposed reduction and diversion programs in the Region. Regions will use 1995 as the base year for the 1999 annual reports due in March of 2000.

Regardless of the base year used, the method used to calculate this reduction focuses on reductions in waste disposed in Class I landfills and incinerators. Needs and trends with regard to this waste stream should be identified in order to aid waste reduction efforts in the future.

**Sources – Many of the questions in this Chapter come directly from the Development District Solid Waste Needs Assessment guidance document –Chapter III. You are encouraged to use the Needs Assessments for counties in this Region as a source, but take care to update information and bear in mind that the Assessments are a “county by county” analysis while Five-Year Updates call for a Regional analysis. Base your answers on this chapter on landfill and incinerator records, on your experience in the county, on Division of Community Assistance Records, and on local interviews.**

1. For the most recent calendar year, how many tons of solid waste were generated within the Region and disposed of in Class I landfills or incinerators located in or out of the Region? Please “show your work” by providing a breakdown of tonnages and sources of information. **Note: Regional annual progress reports ask a similar question and the answers should be consistent.**

**8,896.66 Tons , The Fentress County Annual Progress Report for 2000.**

2. Estimate the percentages of the tons reported in #1 above using the following categories:
  - Residential **50%**
  - Commercial **20%**

## Chapter 3: Waste Stream

- Industrial 20%
- Institutional (school, hospital, prison) 10%

Other (including special)

N/A

**The total should equal 100%.**

## Chapter 3: Waste Stream

3. Estimate the percentage of the tons reported in #1 above using these categories:

- |   |    |                                       |     |
|---|----|---------------------------------------|-----|
| • Yard waste                              | 3  | • Recyclables                         | 33% |
| • Construction/Demolition waste(Class IV) | 0% | • White goods                         | 1%  |
| • Tires                                   | 1% | • Regular Municipal Solid Waste       | 62% |
|   |    | • <b>The total should equal 100%.</b> |     |

4. To calculate the Total Generated waste stream (for the most recent calendar year), first estimate tons annually reduced or diverted within the Region. Consider

- (1) source reduction (especially industrial practices); **0 Tons**
- (2) recycling (include composting); **3,345.99 Tons**
- (3) diversion (to Class III/IV landfills); and **0 Tons**
- (4) unmanaged waste (burned in backyards, illegal dumps, ditches), **56 Tons**

Then add these four items to tons reported in #1 above (regarding the disposed waste stream). Again, these should be products of the waste stream generated only within the Region (no imports) regardless of whether they are reused or disposed.

Total Generated waste stream for the Region consists of tons estimated in #1 plus the estimates for the four items mentioned above.

**Total estimated waste stream generated: 12,298.65 Tons**

Estimate each of the four items as a percentage of the total generated waste stream. Remember to calculate using similar units (tons). Make a waste flow diagram illustrating your estimates. Use the Example Proportional Flow Diagram shown in Chapter 1

**See Attachment D**

- (1) source reduction (as a percentage of the Total Generated waste stream for the Region); **0%**
- (2) recycling (as a percentage of the Total Generated waste stream for the Region); **98%**
- (3) diversion (as a percentage of the Total Generated waste stream for the Region); **0%**
- (4) unmanaged waste (as a percentage of the Total Generated waste stream for the Region) **2%**

Discuss your reasons for making the estimates in all four cases above. Make specific mention of programs or facilities that would account for the estimate.

(1) Source Reduction: **None**

## Chapter 3: Waste Stream

(2) Recycling: **The Waste Reduction Manager supplied the percentage of Recycled materials based on the number of tons sold of each item.**

**(recycling is very effective for the region thanks to education efforts)**

(3) Diversion: **None**

(4) Unmanaged Waste: **The tons were collected from the Waste Reduction Manager for litter cleanup efforts in the region. (TNSWEP, Keep Tennessee Beautiful Programs)**

5. **2** Discuss any recent demographic trends that may affect waste disposal and generation figures in the Region. Are large groups of people moving into or out of the area for any special reason?

**In recent years, Fentress County has had some of its largest employers to shut down operations in the County, which in turn has caused a slow down of Industrial waste being added to the waste stream. The general population has stayed virtually unchanged in the last 10 years and is not expected to grow significantly larger in the next 5 to 10 years.**

6. **3** Discuss the economic condition of the Region. Who are major employers? Is the unemployment rate high or low? What economic factors could affect the content and volume of the waste stream and waste reduction efforts in the Region?

**The region has been effected by a loss of industry in the last couple of years. The regions unemployment rate is very high (9.5%). The major employer in the region is the Fentress County General Hospital. This affects the waste stream since there is not extreme amounts of industrial waste entering the waste stream. Also there are not many people from outside the county coming into the county to work and bringing their garbage with them.**

7. **1** Please list the top five contributors to the overall waste stream generated in the Region AND DISPOSED IN CLASS I LANDFILLS OR INCINERATORS (reported in #1 of this chapter). This list should be an estimate based on local inquiry and landfill records. Bear in mind that often more than one disposal facility (either in or out of the county) serves the Region. The list may include major industries, prisons, colleges, major medical facilities, airports, or other institutions. For urban areas, it may be necessary to list more than five to give a full view of the county situation. Provide the following information on each contributor listed:

# Chapter 3: Waste Stream

## Major Contributors to the Region's Waste Disposal

### **Fentress County General Hospital**

Hwy. 52 Jamestown, TN 38556

(931)879-8171

Mixed Commercial

3%

8. Do jurisdictions in the Region have clean up and litter prevention programs in place such as litter grant programs? If yes, please describe the program or programs briefly and list the contacts you have with the programs.

**Yes – TNSWEP and Keep Tennessee Beautiful**

**The Region has had success with the "Clean Fentress County Project" in March through June 56 tons of roadside litter and illegal dumps were collected and properly disposed.**

## Chapter 3: Waste Stream

Two employees work with County prisoners to pickup roadside and illegally dumps throughout the County. In addition, an environmental officer issues citations to people who dump illegally. The Schools promote recycling throughout the year, have special events in the spring, and fall.

The contacts for these programs are :

Faye Dalton, Waste Reduction Manager

9 Margaret Pile, Solid Waste Board (Fentress Co. S. W. Board Member)

9. Legislation passed by the General Assembly in 1999 adds consideration of an "economic growth adjustment formula" analysis for reporting solid waste disposal figures and progress toward the 25% waste reduction and diversion goal from year to year. The economic growth formula would include factors like growth rate, employment rates, and taxable transactions in the Region, in addition to population changes.

Does the Region perceive that this option would express progress on the State's 25% waste reduction goal in a more equitable fashion (a more fair representation of the Region's actual progress)?

**No**

Explain your answer. (More information on the proposed economic growth adjustment formula will be available from the Division of Community Assistance).

**In Fentress County the solid waste stream is heavily effected by industry and the fluctuation of industry into and out of the County in the recent years and near future will pose inconsistent figures if this is used.**

10. Use of a new base year (1995) and new goal year (2003) to achieve the 25% waste reduction and diversion goal are also in the 1999 legislation. Regions may provide documentation to adjust their 1995 base year figures for progress already made in ongoing reduction programs. Explain how the proposed base year change might affect your Region.

**This would not benefit Fentress County in that the percentage of waste generated versus the population would create a larger difference for the region to have to catch up with in their goal of reaching 25% reduction.**

# Chapter 3: Waste Stream

For more information regarding existing and proposed new base year figures for your Region, please see the lists of figures currently recorded for 1989 and reported for 1995, attached in Appendix B-6 and B-7, or contact the Division of Community Assistance.

Jurisdiction by jurisdiction analysis of waste reduction and diversion programs in your Region is important, in part because of sanctions and qualitative analysis of the Region's progress toward the 25% waste reduction and diversion goal. Under the sanction process, outlined in T.C.A. 68-211-861, individual cities, counties, or Part 9 Solid Waste Authorities that are not fulfilling their obligations to reduce or divert within the Region may be sanctioned individually. In addition, the 1999 legislative package allows any Region not meeting the goal quantitatively (by the disposal-based method in the statute which compares a given base year to the current year) to be judged qualitatively. In either case (sanctions or qualitative analysis) it is important for the plan to list expectations with regard to each individual jurisdiction in the Region.

11. List each county, city, or Part 9 Authority in the Region. Discuss current reduction or diversion programs sponsored by each and the success level enjoyed by the current programs. Be sure to include information about how and to what extent programs are funded or generate revenues. If the jurisdiction has a drop off program, tell about what types of materials are collected and how much. Be sure and detail any yard waste or composting programs as the Department intends to give additional emphasis to these programs in the future. List proposed programs and discuss ten year trends and needs. Discuss how the jurisdictions in the Region work together. Describe education programs and opportunities in each jurisdiction and encouragement that the commercial and industrial sectors receive from these jurisdictions. These jurisdiction-by-jurisdiction descriptions should cover all the topics listed here plus any other that would fully explain efforts in the given jurisdiction.

## Fentress County

Fentress County has seven Convenience Center sites and one Convenience Center/Transfer Station to serve the population and it works very well. All the sites collect recycled materials, which in turn are brought to the Recycling Center to be stored until it can be transported. The County fund is the main contributor to the Solid Waste Department but any monies that are made in the sell of recyclable materials and grants also fund it. The County receives approximately 27% of its total generated waste as recycled waste and landfills approximately 73%. The centers accept oil, aluminum, paper, white goods, metal, plastic, newspaper, batteries and cardboard at all locations. The County and Cities work very close together to ensure proper collection from the citizens is met. The region has been very good about changing from road side dumps to using

## **Chapter 3: Waste Stream**

the sites and will has set up educational plans to educate the children and as many citizens as possible.

### **City of Allardt**

The City of Allardt has door to door collection that is taken to the county operated Transfer Station and prepared for shipment to Scott County Landfill.

### **City of Jamestown**

The household waste and recyclables are dropped off at the county operated convenience center in town (25% of the population). The current system runs very effective and no new changes are foreseen in the future.

# Chapter 4: Collection and Transportation

## House-to-House Collection, Convenience Centers, and Green Boxes)

**Statutory Authority (edited) - T.C.A. 68-211-815 (b):** Each plan shall include a current system analysis, including collection capability, with data describing the different types of collection systems and the populations and areas which receive and do not receive such services.

**Countywide Collection Assurance -** Each county shall assure that one or more collection systems is available to meet the needs of the residents of the county [T.C.A. 68-211-851(a)]. Unattended green boxes are not an acceptable option to fulfill the minimum requirements of this mandate. See Appendix B-8 for a fact sheet regarding countywide collection assurance.

**Sources –** Many of the questions in this Chapter come directly from the Development District Solid Waste Needs Assessment guidance document –Chapter IV. You are encouraged to use the Needs Assessments for counties in this Region as a source, but take care to update information and bear in mind that the Assessments are a “county by county” analysis while Five-Year Updates call for a Regional analysis.

- List collection services available in the Region (in the county or counties and cities within) and basic information regarding the services. The table heading below provides an example of how the information could be shown. The first column, marked “Service,” is for identification, like house-to-house, convenience centers, or green boxes. The second column “Available to” indicates who is served by the service like: the City of X (list county names if multi-county Region), rural residents along Z Road and Y Pike, or individual customers. The third column describes who pays for the service, whether local government or individual customers. The fourth column provides for a brief description which may include a number (of convenience centers, for example) and general geographic description (like “one in the north and one in the south” or “throughout the county”). For private haulers, include the name of the hauler in the description column, the phone number, and number of trucks in the fleet serving this Region. It is not necessary to make a line for each convenience center and for each green box in the county. Simply name the number of each and generally where they are in the county. For example, in the case of green boxes, this may be “6 boxes near the shore of the lake in the park”.

<b>Service</b>	<b>Available to</b>	<b>Paid for by</b>	<b>Description</b>
Door-to-door	City of Allardt	Town General Fund	Throughout the town
Convenience Centers	Fentress County	Sales Tax	(8) Spread throughout the County
Green Boxes	General Public	Sales Tax	Wilder and Davidson Communities

- Describe how each county in the Region meets the Collection Assurance requirements mandated in the Solid Waste Management Act of 1991 (T.C.A. 68-211-851). See Appendix B-8 for a fact sheet regarding minimum collection requirements.

**There are eight (8) Convenience Centers at locations around the county. This provides adequate collection per the requirement.**

- Based on the information available and your experience working in the county, discuss collection needs in the Region, and trends anticipated over the next ten years. This is your opportunity to

## Chapter 4: Collection and Transportation

discuss aspects of the county (or counties) collection system(s) that were perhaps missed in previous questions and to help planners with new directions the county and its Region may wish to pursue. City systems within the Region may also be relevant here. This is also a good place to discuss a system that is working particularly well.

**The County has seven manned Convenience Center sites and one convenience center/Transfer Station and this is more than adequate for the size of the county. The City of Allardt has city pick-up, which works well. The County would probably benefit from a County owned landfill and will discuss the prospect of their own landfill in the near future.**

**Include existing and proposed collection systems in the Region as part of the Regional systems map requested in the Chapter 1: Summary.**

# Chapter 5: Recycling

## (Reduction Programs, Processing and Composting Facilities)

**Statutory Authority (edited) - T.C.A. 68-211-815 (b):** Each plan shall include a recycling plan, including a description of current public and private recycling efforts and planned efforts to enhance recycling with the county or Region.

**Recyclable Collection Assurance** - If collection sites are not otherwise available, each county must provide at least one collection site for recyclables [T.C.A. 68-211-863].

**Sources** – Many of the questions in this Chapter come directly from the Development District Solid Waste Needs Assessment guidance document –Chapter V. You are encouraged to use the Needs Assessments for counties in this Region as a source, but take care to update information and bear in mind that the Assessments are a “county-by-county” analysis while Five-Year Updates call for a Regional analysis.

1. Does the Region (or county, city or Part 9 Authority within) have a recycling or waste reduction coordinator? If yes, please provide the following information:

**Faye Dalton**  
Waste Reduction Manager  
P.O. Box 1169  
Jamestown, Tennessee 38556  
Phone:  
(931) 879-1135  
Fax:  
(931) 879-1765

2. List the waste reduction programs in the Region. The description should include whether the program is publicly or privately sponsored; if the program is open to all or to a limited group; if materials are dropped off or picked up; if the program is curbside; if the owner/sponsor is a for-profit collector or end-user; if the program is an in-house industrial, commercial or government recycling or reduction program; etc.

- ✓ For each recycling program, please provide the following information:

- **Fentress County Recycling**
- **Faye Dalton**
- **(931) 879-1135**
- **P.O. Box 1169**  
**Jamestown, TN. 38556**
- **Paper, Metal, White Goods, Plastic, Cardboard and Tires**
- **Curbside and Drop-off**

- ✓ List materials processing facilities in the Region.

**None**

- ✓ List composting facilities in the Region:

Soil Conservation Office  
Dwight Dixon  
(931) 879-8212

# Chapter 5: Recycling

452 Mark Twain Ave. Jamestown, Tn. 38556  
16, 625, 2000 Census Data

**There are 12 farmers participating in a composting program setup by the Fentress County Region.**

3. Based on the information available and your experience working in the county, please describe progress and setbacks in recycling and reduction efforts in the Region. Be sure and include marketing efforts on the part of local programs, their principal end-users, successes and failures in marketing and hope for assistance or change in marketing. Do jurisdictions in the Region cooperate on marketing efforts? Feel free to describe unusual or successful programs that others may wish to emulate. Describe what would assist the counties (and programs within) in their efforts. Please include any future plans for additional recycling, reduction, or end-use programs you are aware of.

**The Region has achieved progress by both schools and convenience centers creating increases in recycling. The Waste Oil Program also assisted in reduction. It would greatly help if Fentress County could get grants for more recycling containers. The County is currently looking at starting a composting facility for use by individuals.**

4. The law requires that every county within the Region have at least one recycling drop-off facility available to all county residents. The facility does not have to be publicly owned or collect a specified volume or type of recyclable. However, a collection facility must be available for a least one material that is actually recycled (marketed and reused). Please list recycling collection site(s) for each county in the Region and describe the facility or program (a similar question is asked in Regional Annual Progress Reports).

Site Name	County	Items Collected	Description
Hwy 154	Fentress	Paper, Glass, Aluminum, Plastic, Metal, Etc. is accepted at all locations.	All are Conv. Centers and the Woodyard location operates as a Transfer Station.
Pall Mall	Fentress		
West	Fentress		
Fentress			
Mt. Helen	Fentress		
Grimsley	Fentress		
Clarkrange	Fentress		
Fairgrounds	Fentress		
Woodyard	Fentress		

Include existing and proposed recycling facilities in the Region listed in this Chapter as part of the Regional systems map requested in the Chapter 1: Summary.

# Chapter 6: Disposal

## (Landfills, Incinerators, Waste to Energy Facilities, Transfer Stations, and Waste Imports and Exports)

**Statutory Authority (edited) - T.C.A. 68-211-815 (b):** Each plan shall provide a current system analysis, including disposal capability, with an analysis of the remaining life expectancy of landfills or other disposal facilities; anticipated capacity needs; planned capacity assurance; and descriptions of planned or needed facilities.

**Countywide Disposal Assurance –** Each county shall assure that one or more disposal systems is available to meet the needs of the residents of the county [T.C.A. 68-211-851(a)].

**Full Financial Disclosure and Accountability –** Any county, solid waste authority, and municipality that operates a Class I landfill and/or incinerator shall account for financial activities related specifically to that landfill and/or incinerator in an enterprise fund. A uniform solid waste financial accounting system and chart of accounts developed by the comptroller of the treasury shall be used [T.C.A. 68-211-874 (a)].

**Sources –** Many of the questions in this Chapter come directly from the Development District Solid Waste Needs Assessment guidance document –Chapter VI. You are encouraged to use the Needs Assessments for counties in this Region as a source, but take care to update information and bear in mind that the Assessments are a “county by county” analysis while Five-Year Updates call for a Regional analysis. In addition to the landfill and incinerator operators themselves, The Division of Solid Waste Management’s estimated life survey will be a useful source.

1. Please list all the landfills, transfer stations, Municipal Solid Waste incinerators, Landfill Gas to Energy facilities, and Waste to Energy facilities in the Region.

**The Fentress County Region currently does not have a landfill, landfill gas to energy facility or waste to energy facility. The region currently transports its waste to the Scott County privately owned Landfill (Volunteer Regional Landfill).**

**The Region does have one Transfer Station at:**

**Woodyard Transfer Station**

**Jerry Brown, Operator**

**(931) 879-5988**

**3275 South York Hwy**

**Jamestown, Tn. 38556**

**Permit Number: Z737774396**

**The station receives waste from all the convenience centers and is sent to Scott County.**

# Chapter 6: Disposal

Identify Class I waste exported from or imported to the Region. Include origin and destination. Name the relevant county and Region. The table headings below provide example formats for presenting your information

## CLASS I WASTE EXPORTED

Exported to: County/Region/State	Exported to: Facility Name And Owner	Estimated Tonnage Exported from Region to Class I Landfills
<i>Scott Co./ Scott Region/TN</i>	<i>Volunteer Regional Landfill, Scott Solid Waste (Liberty Waste)</i>	<i>8840.66</i>

## CLASS I WASTE IMPORTED

Imported from: County/Region/State	Imported to: Facility Name And Owner	Estimated Tonnage of Imported Class I Waste Disposed in the facility
<i>None</i>	<i>None</i>	<i>None</i>

2. Based on the information available and your experience working in the Region, evaluate disposal needs. Is efficient disposal assured at a reasonable price for the ten year planning horizon? What changes in the disposal system are being contemplated? What changes should be contemplated with consideration to anticipated growth and disposal demands?

**The Fentress County Region has had good success working with Volunteer Regional Landfill and will continue to use them in the future. The Region has begun looking at the option of opening their own landfill in the near future.**

3. Of the facilities listed in this chapter, which have planned capacity assurance of less than ten years? Five years?

**None**

4. Are all publicly held Class I landfills or incinerators in the Region accounting for financial activities in an enterprise fund as required by law?

**Not Applicable**

**Include existing (and any proposed) disposal facilities in the Region listed in this Chapter as part of the Regional systems map requested in the Chapter 1: Summary.**

# Chapter 7: Problem Wastes

## (Household Hazardous Wastes, Waste Tires, Waste Oil, Automotive Fluids, Lead Acid Batteries)

**Statutory Authority (edited) - T.C.A. 68-211-815 (b):** Each plan shall include a strategy for the disposal of household hazardous wastes.

**Problem Waste Disposal Assurance** - If collection sites are not otherwise available, each county must provide either directly or by contract, at least one collection site for waste tires, used automotive fluids, lead acid batteries, and used oil [T.C.A. 68-211-866(b)].

Sources – Many of the questions in this Chapter come directly from the Development District Solid Waste Needs Assessment guidance document –Chapter VII. You are encouraged to use the Needs Assessments for counties in this Region as a source, but take care to update information and bear in mind that the Assessments are a “county by county” analysis while Five-Year Updates call for a Regional analysis. Other important sources are local Contacts and State Division of Community Assistance

1. Has this county taken advantage of the State's household hazardous waste mobile collection service in the last two years? Please describe.

**Yes, In April 2001, approximately 152 households participated in the visit of the Household Hazardous Waste Mobile Collection Service.**

2. Does a jurisdiction within the Region operate a permanent household hazardous waste collection center? If yes, please provide the following information:

**No, The County does not have a permanent HHW facility. The County uses the mobile unit when available. The Waste Reduction Manager is the contact person for HHW in Fentress County.**

3. Briefly discuss the Region's (and jurisdictions within) level of success with household hazardous waste collection and level of satisfaction with the State program. Include changes area officials would like to make or see made. Describe plans for a local household hazardous waste program.

**In April 2001, approximately 152 households participated in the visit of the Household Hazardous Waste Mobile Collection Service and the service was considered very successful. The Region needs a permanent HHW facility and will probably try to establish the facility at the Fairgrounds convenience center location in the near future.**

4. Describe the Region's efforts to see that waste tire collection mandates are met. Bear in mind that at least one site (public or private) per county must be available to local citizens for the county or counties to be in compliance with the law. List the site(s) available. Describe what happens to waste tires in the Region once they are collected.

**The County has a site that has been permitted since 1995. It is advertised so that the public knows that it exists. The tires are currently being shredded and then landfilled.**

Discuss the Region's level of satisfaction with waste tire collection efforts in the area and the State waste tire program. What changes are foreseen? What changes are needed?

## Chapter 7: Problem Wastes

The County is satisfied with the State Waste Tire Program but, would like to see them schedule their dates in a more timely fashion. The larger tires tend to be a problem and would like to see the State make resources available to deal with the larger tires.

6. Do counties in the Region have a problem with waste tire dumping? If yes, describe specific sites and discuss the problem.

The Fentress County Region has a very few number of tire dumps that are cleaned up annually and are in different locations each time. In March –June of 2000 the Region cleaned up 56 tons of various materials along the roadsides this accounted for the majority of waste tire dumps that has been reported. At Hwy. 52 (Old Rock Quarry) an estimated 90-110 thousand tires have been removed from an illegal dumpsite by landowner in the last year.

7. Describe the Region's efforts to see that oil and auto fluid collection site mandates, and lead acid battery collection site mandates, are met. Bear in mind that at least one site (public or private) per county must be available to local citizens for the county or counties to be in compliance with the law. List the site(s) available.

The region has six businesses that accept used oil and one business that accepts oil and other auto fluids.

Total of seven that accepts used oil.

Include existing and proposed problem waste disposal facilities in the Region listed in this Chapter as part of the Regional systems map requested in the Chapter 1: Summary.

# Chapter 8: Solid Waste Education

**Statutory Authority (edited) - T.C.A. 68-211-815 (b):** Each plan shall include a description of education initiatives aimed at businesses, industries, schools, citizens and others, which addresses recycling, waste reduction, collection and other goals of the Solid Waste Management Act of 1991.

**Solid Waste Education Planning -** In order to legitimize their programs and enhance their standing for education awards and grant money, each Region and local jurisdictions within should form comprehensive education action plans. [T.C.A. 68-21-(842-848)].

**Sources –** Many of the questions in this Chapter come directly from the Development District Solid Waste Needs Assessment guidance document –Chapter VIII. You are encouraged to use the Needs Assessments for counties in this Region as a source, but take care to update information and bear in mind that the Assessments are a “county by county” analysis while Five-Year Updates call for a Regional analysis. You may wish to consult the Division of Community Assistance’s Pathway’s to Education reference book.

1. Please list persons or organizations that are active in efforts to educate the public regarding solid waste matters in the Region. It is appropriate to list a program like Keep Tennessee Beautiful (formerly Clean Tennessee), Keep America Beautiful, or Tennessee Solid Waste Education Program (TNSWEP). It is also appropriate to list an individual like a reporter, an extension agent, school teacher, or a local official who has made special efforts to help educate school children or adults in the county regarding solid waste issues. Include any in-house industrial solid waste education programs. Describe the nature of each effort and level of participation.
  - TNSWEP – Litter Grant Program
  - Fentress Co. – Faye Dalton
  - Fentress Co.
  - (931) 879-1135
  - P.O. Box 1169, Jamestown, Tn. 38556
  - Students, City residents
  - Each Fall & in April, go into the schools and target students. Target a City to get involved.
2. Based on the information available and your experience working in the Region, please describe outstanding needs in the area of public solid waste education. What progress has been made and what is planned? Should more be done to keep the public informed? How can the State and technical assistance agencies assist in this effort? Has the county or its Region filed an education action plan and made use of the Division of Community Assistance’s Pathways to Education book?

The children are very excited about recycling and are very good about learning new way to recycle. The public has been very well informed to date but could always use more information through media resources. The technical assistance agencies could do some speaking at the schools and be involved in the school recycling programs.

The Region plans to continue the recycling effort in the schools and also plans to run more newspaper articles to increase public Awareness. The Region has filed an education action plan and has taken advantage of the “Pathways to Education” book.

## **Chapter 8: Solid Waste Education**

### **Chapter 9: Flow Control and Permit Review**

**Statutory Authority (edited) - T.C.A. 68-211-814** – The Solid Waste Management Act grants Regional Solid Waste Boards certain rights and responsibilities with regard to controlling the flow of waste (into and out from the Region) and the review of permits for potential new solid waste facilities in the Region.

The areas of flow control and permit review are quite complex and Regional Boards acting in these areas should seek legal counsel. The Division of Community Assistance provides guidance in the Fact Sheet found in Appendix B-9.

1. Does the Region or jurisdictions within make any attempt to control the flow of waste? If yes, please explain.

**The Fentress County Municipal Solid Waste Region has no existing disposal facility, thus it has not addressed out of region waste flow control.**

2. Does the Region foresee any outstanding issues with regard to permit review or flow Control?

**Being a single county region with no disposal facility, flow control is not addressable at this time. At such time as the region needs to address this issue the region board will take this matter under advisement and make a final determination.**

# Chapter 10: Five-Year Plan Update Review

## (Public Hearing, Planning Commission review, County Commission or Part 9 Authority Review and Approval)

**Statutory Authority (edited) - T.C.A. 68-211-815 (b)(15) -** The plan should include certification that the Region's Part 9 Authority (if one has been formed) or the county legislative body of each county in the Region has reviewed and approved the Region's plan (or Five-Year Update).

**T.C.A. 68-211-814 (b)(6) -** Before submitting a plan required by this part, each municipal solid waste Region shall hold a **public hearing** on the proposed plan or revised plan.

1. Describe the required public hearing held after the Revised Plan (Five-Year Update) was completed. The meeting should be held at a central location in the Region and open to the general public. What day was the meeting held? Where? What was the level of participation? Summarize comments. Include a copy of the public notice, and indicate when and where it was published.

**What Day: (July 31, 2001)**

**Where: (Fentress County Courthouse)**

**Attendance: (9)**

**Comments: (Discussion of possible new landfill and benefits and negative impact)**

**Public Notice: (The Fentress County Courier Newspaper)**

**When Published: (The Public Notice ran on July 18 ,2001)**

**Where Published: (Fentress County)**

**Copy of Public Notice: See Attachment E**

2. Local planning Commissions in the Region should be made aware of the Five-year Update and given an opportunity to review it. Was this done? Include comments and responses.

**The Fentress County Region does not have any type of Planning Department but the county planning commission has overviewed the plan before encouraging its approval by the County Commission.**

3. Please include a copy of a resolution from every county in the Region approving the Five-Year Plan update. The Department will not approve your plan without this documentation. If a Part 9 Authority has been formed, please include a copy of the resolution of approval from the Authority Board of Directors.

**The 5-Year plan for Fentress County has been approved by the Fentress County Commission on August 20, 2001 and has been submitted. (Copy of Resolution See attachment F)**

# Appendix A: Essential Regional Documents and Information

## Please submit the following with your 5-Year Update Report:

1. **Solid Waste Regional Board List:** Top the list by stating how many members are on the board (set by the original Regional formation resolution) and who they represent. Then include a current list of Regional board members (and any vacant positions), including terms of office and expiration, whether appointed by a county executive or mayor (and name the jurisdiction represented), whether confirmed by a county commission, or city council, and the year confirmed. Identify the chairman.

**See Attachment G**

2. **Regional Formation Resolution:** Include a copy of the Region's formation resolution.

**See Attachment H**

3. **Part 9 Authority Information:** If the Region has formed a solid waste authority under the Solid Waste Authority Act of 1991, then include a copy of the resolution creating the Authority. In addition include a list of Authority Board of Directors and the name and address of the chairman. State briefly the mission and purpose of the Authority and all jurisdictions represented on the Authority.

**Not Applicable**

4. **A Proposed Regional Budget for the ten-year planning horizon:** Include a budget for the Region for the next 5 years. This budget is not binding; it is a projection based on current data and trends for all jurisdictions in the Region. Any assumptions should be fully explained. Costs should equal revenues. A sample budget form is provided.

**See Attachment J**

# Fentress County Proportional Flow Diagram

**...you'll be glad your air conditioner BROKE**

**...well almost**

Don't you hate it when service people promise so much—but deliver so little?

Call us. We promise the best central air service and replacements in town. Just one call will prove we can restore your unit to original specifications. Or we can install a new, quality air conditioning system for less than you thought possible.

For prompt, professional service, there's only one call to make. Call your comfort system specialist.

**Precision Heating & Cooling**

P.O. Box 334 • Allardt, TN 38504  
**(931) 879-2234**

**TRANE** 24 HOUR EMERGENCY SERVICE

**ALL RDT LAND COMPANY**

- 1/4 cup mayonnaise
- 1/4 cup finely chopped onion
- 1/4 teaspoon dry mustard
- 1/4 teaspoon salt
- 1/4 teaspoon black pepper
- 2 tablespoons margarine
- Combine all ingredients in a bowl and mix well. Shape into 4 cakes. Melt margarine in frying pan over medium heat. Cook salmon cakes until browned, about 5 minutes on each side.
- Shepherd's Pie**
- 1 can beef stew
- 1 cup shredded cheddar cheese
- 1/3 cup milk, made with powdered milk
- 1/3 cup instant potato flakes
- 1/2 teaspoon salt
- 2 tablespoons margarine
- Heat oven to 350 degrees. Heat

**UCDD Fentress Co. Solid Waste Region Five Year Update Public Hearing**

**Update Public Hearing**

The Upper Cumberland Development District is in the process of preparing a 5-year Update to the 10-Year Plan for the Fentress County Solid Waste Region as required by the Solid Waste Act of 1991. The 5-year Update will address how the region will meet its solid waste management needs such as solid waste reduction, recycling, waste collection and disposal capacity over the next ten years. Persons who wish to provide input to the plan are encouraged to attend a public hearing on the proposed plan on July 31, 2001 at 6:00 p.m. in the Fentress County Small Courthouse, Fentress County Executive David Beatty

\*\*all cheese. Return to oven for 10 minutes or until cheese melts.

**Barbecued Green Beans**

- 2 cans green beans, drained
- 1 small onion, chopped
- 4 pork slices, cut in pieces
- 1/2 cup ketchup
- 1/2 cup brown sugar

Brown pork with onions and continue until onions are soft. Stir in green beans. Mix ketchup and brown sugar. Pour over beans. Do not stir. Cook over low heat for 30 minutes. Stir just before serving.

record. Joan prevailed in the point game by pitching 93 ring.

RESOLUTION NO. \_\_\_\_\_  
A RESOLUTION  
CREATING FENTRESS COUNTY'S  
MUNICIPAL SOLID WASTE PLANNING REGION

WHEREAS, the adoption of the Subtitle D landfill regulations by the United States Environmental Protection Agency and companion regulations adopted by the Tennessee Solid Waste Control Board will impact on both the cost and method of disposal of municipal solid waste; and

WHEREAS, at the urging and support of a coalition of local government, environmental, commercial, and industrial leaders, the 97th Tennessee General Assembly enacted T.C.A. §68-211-801 et seq., titled "Solid Waste Management Act of 1991"; and

WHEREAS, with the view that better planning for solid waste will help control the additional costs that will be imposed by the new landfill regulations, help protect the environment, provide an improved solid waste management system, better utilize our natural resources, and promote the education of the citizens of Tennessee in the areas of solid waste management including the need for and desirability of reduction and minimization of solid waste, local governments in Tennessee supported and worked for the passage of this Act; and

WHEREAS, one of the stated public policies of this Act is to institute and maintain a comprehensive, integrated statewide program for solid waste management; and

WHEREAS, as per T.C.A. §68-211-811, the nine development districts in the State of Tennessee have completed a district needs assessment which are inventories of the solid waste systems in Tennessee; and

WHEREAS, Fentress County's Board of County Commissioners has

given consideration to the needs assessment prepared by Upper Cumberland development district;

**WHEREAS**, T.C.A §68-211-813, requires that counties in the State of Tennessee form municipal solid waste regions no later than December 12, 1992; and

**WHEREAS**, the Act's stated preference is the formation of multi-county regions with counties having the option of forming single or multi-county municipal solid waste regions; and

**WHEREAS**, the State of Tennessee will provide grant monies of varying amounts to single county, two county, and three or more county municipal solid waste regions to assist these regions on developing their municipal solid waste region plans; and

**WHEREAS**, the primary and prevailing purpose of the municipal solid waste regions are the preparation of municipal solid waste regional plans which among other requirements must identify how each region will reduce its solid waste disposal per capita by twenty-five percent (25%) by December 31, 1995, and a planned capacity assurance of its disposal needs for a ten (10) year period; and

**WHEREAS**, the development of a municipal solid waste regional plan that results in the most cost effective and efficient management of municipal solid waste is in the best interest of the citizens of Fentress County.

**NOW THEREFORE BE IT RESOLVED**, by the Board of County Commissioners of Fentress County, Tennessee, acting pursuant to T.C.A. §68-211-801 et seq., that there is hereby established a Municipal Solid Waste Region for and by Fentress County, Tennessee; and

**BE IT FURTHER RESOLVED**, that pursuant to T.C.A. §68-211-813

(a) (2), that the Board of County Commissioners of Fentress County, Tennessee finds and determines that Fentress County shall be and shall constitute a single county municipal solid waste region due to the following: Fentress County Citizens have resolved to control their own destiny and have passed a local option sales tax increase to help fund solid waste efforts; and

**BE IT FURTHER RESOLVED**, that pursuant to T.C. A. §68-211-813 (b) (1), a Municipal Solid Waste Region Board is hereby established to administer the activities of this Region; and

**BE IT FURTHER RESOLVED**, that this Municipal Solid Waste Region Board shall be composed of seven members; and

**BE IT FURTHER RESOLVED**, that pursuant to T.C.A. 68-211-813 (b) (1) five Board Members shall be appointed by the County Executive and approved by this Board of County Commissioners and, due to the fact that the City of Jamestown collects or provides disposal services through its own initiative or by contract, the City of Jamestown shall have a Board member appointed by the Mayor of City of Jamestown and approved by the City of Jamestown; and due to the fact that the City of Allardt collects or provides disposal services through its own initiative or by contract, the City of Allardt shall have a Board member appointed by the Mayor of City of Allardt and approved by the City of Allardt; and

**BE IT FURTHER RESOLVED**, that members of the Board of Municipal Solid Waste Region shall serve a six (6) year term except that two members appointed by the County Executive shall have a two (2) year term, that two members appointed by the County Executive shall have a four (4) year term, that one member appointed by the County Executive shall have a six (6) year term, and that one member appointed by the Mayor

of the City of Jamestown shall have a four year term; and that one member appointed by the Mayor of the City of Allardt shall have a six year term; and

**BE IT FURTHER RESOLVED**, that this Municipal Solid Waste Region Board shall have all powers and duties as granted it by T.C.A. §68-211-813 et seq. and in addition, in the performance of its duty to produce a municipal solid waste region plan, it shall be empowered to utilize existing Fentress County governmental personnel, to employ or contract with persons, private consulting firms, and/or governmental, quasi-governmental, and public entities and agencies and to utilize Fentress County's services, facilities and records in completing this task; and

**BE IT FURTHER RESOLVED**, that at the Municipal Solid Waste Region Board's initial organization meeting it shall select from its members a chair, vice-chair, and secretary and shall cause the establishment of a municipal solid waste advisory committee whose membership shall be chosen by the Board and whose duties are to assist and advise the Board; and

**BE IT FURTHER RESOLVED**, that the Municipal Solid Waste Region Board, in furtherance of its duty to produce a municipal solid waste region plan, is authorized to apply for and receive funds from the State of Tennessee, the federal government, Fentress County, the City of Jamestown, City of Allardt, and donations and grants from private corporations and foundations; and

**BE IT FURTHER RESOLVED**, that Fentress County shall receive, disburse and act as the fiscal agent for the administration of the funds of the Municipal Solid Waste Region and the Region's Board; and

**BE IT FURTHER RESOLVED**, that upon the passage of this

Resolution and at no later date than December 31, 1992, the County Clerk of Fentress County shall transmit a copy of this Resolution to the Tennessee State Planning Office.

RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF FENTRESS COUNTY, TENNESSEE this the \_\_\_\_ day of \_\_\_\_\_, 1992, the welfare of the citizens of Fentress County requiring it.

### Geographically

Over three-fourths of the county's landscape is found within the Cumberland Plateau Province; the remaining one-fourth lies in the Eastern Highland Rim region. Stratigraphic units underlying the Cumberland Plateau section of the country include Pennsylvanian age conglomerates, sandstones, shales and siltstones. In the Highland Rim Region limestones of Mississippian age predominate.

With the single exception of its northwest side, the Cumberland Plateau dominates all of the county's landscape. The surface of the plateau is gently rolling tableland that has a relief usually less than 100 feet. Along the county's eastern border the elevation of the plateau is 1600 feet; however, on the western side of the county and along U. S. Highway 127 the elevation gradually rises to 1700 feet.

Ridges and hills rising above the plateau surface are non-existent, while stream valleys usually consist of shallow drainage-ways. However, on the eastern side of the county, several precipitous stream gorges have cut below the general surface of the plateau. The two most prominent gorges are Clear Creek, along the county's southern boundary, and White Oak Creek, several miles east of Jamestown. Both of these gorges and their tributaries have depths of 200 to 400 feet and represent the most rugged terrain in the plateau area of the county. Along the county's eastern border, these stream gorges are found within Big South Fork National Park. This recently established park is an area of rugged scenic beauty with spectacular bluffs and lush forests that are characteristic of the Cumberland Plateau. Of the park's 105,000 total acres, 14,957 acres are in Fentress County.

On the western edge of the plateau, the escarpment that separates it from the Highland Rim is highly irregular owing to the headward erosion of the Wolf and Obey Rivers and their tributaries. The average height of the escarpment from the valley floors to the rim of the plateau is slightly over 400 feet. Situated northwest of Jamestown between the valleys of the Obey and Wolf Rivers lies Reynolds Mountain. This is not a mountain in the traditional sense, but a broad massive outlier jutting outward from the main body of the plateau.

The valleys of the Wolf and Obey Rivers constitute the Highland Rim region of the county. Both valleys, along with numerous tributary streams that drain into them, have deeply dissected the western side of the plateau. Their width varies from one to two miles, while the elevation of their floors is around 500 feet.

Fentress County drains into two major drainage basins, the Tennessee and the Cumberland. The southern tip of the county drains into Clear Creek which flows eastward to the Emory River in Morgan County. The Emory joins the Tennessee River in Roane County. The eastern part of the county is drained primarily by White Oak Creek and Laurel and Clear Forks. All of these flow eastward into the South Fork of the Cumberland River in Scott County. The Wolf and Obey Rivers drain the county's western side, both flowing westward into Pickett County. These two rivers are also a part of the Cumberland River System.

The highest elevation, 1,870 feet, is located on the Cumberland Plateau in the southwest panhandle area of the county. This point, found on the Clarkrange Highway (State Route 62), is situated 0.5 miles northeast of the Fentress Putnam County line and is designated on the topographic map as Bench Mark 25-33-8 (Clarkrange 108 NE).

The lowest elevation, 651 feet, is found in the west-central area of the county on the Obey River. This is the normal pool level of Dale Hollow Reservoir (Riverton 334 NE).

RE: Five-year Update to Ten-year Solid Waste Plan  
Fentress County SW Region 25  
Region Member: Fentress  
Update Due — September 27, 2001

Dear Mr. Norris:

As you are aware, the Solid Waste Management Act of 1991 requires the Solid Waste Regions to plan, monitor, and report on solid waste activities. One of the requirements of this legislation was for each region to prepare a Ten-year Solid Waste Management Plan. The legislation also requires that Five-year updates to those plans be prepared and submitted to the state for review. The Fentress County Region's Ten-year plan was approved on September 27, 1996; therefore, your Five-year Update is due to this office by September 27, 2001. Please note that the Update is expected to consider the next Ten-year planning horizon, and will become your current Ten-year Plan upon approval by this office.

Also required by the Solid Waste Act is submittal of a Needs Assessment report for all of the counties within each Development District. The initial Assessment was due by September 30, 1992; with revisions due by April 1, 1999 and every five years after that. The SW Needs Assessment for the counties and municipalities within your region was received on April 7, 1999. Please contact Mr. Jason Thompson with the Upper Cumberland Development District to determine the status of your Region's Needs Assessment report. The Needs Assessment will provide much of the information necessary for the preparation of the Five-year Update to your Ten-year Plan.

The Five-year update to your Ten-year Solid Waste Management Plan is an important tool for your Region. If you have any questions, please do not hesitate to contact me at 615-532-0744.

Sincerely,

*Becky Gorham*

Becky Gorham  
Planning, Reporting and Waste Reduction

C: The Honorable David Beaty, Fentress County Executive  
Mr. Jason Thompson, Upper Cumberland Development District  
Ms. Faye Dalton, Waste Reduction Coordinator, Fentress County  
Ms. Chris Garkovich, SW Management Consultant  
Mr. Rob Howard, Environmental Coordinator, Cookeville Environmental Assistance Center
