

THE NATIONAL  
CRANIOFACIAL  
ASSOCIATION

**In the State of Tennessee, 1 to 2 out of every 1,000 babies is born with a craniofacial birth defect.**

**Parents of these children need somewhere to turn for valuable information, financial assistance, and reassurance.**

**With your gift to FACES,  
doubt is replaced with knowledge,  
loneliness is replaced with connections,  
and helplessness is replaced with hope.**
