

Have you enrolled in the TennCare Medicaid Electronic Health Records (EHR) Incentive Program?

The TennCare Medicaid EHR Provider Incentive Program provides a financial incentive to eligible providers and hospitals to promote the transition to certified Electronic Health Record technology (CEHRT). Providers who practice using CEHRTs are in the forefront of improving quality, reducing costs, and addressing health disparities. Since January 2011, *7,570 payments* to eligible providers totaling over *\$246.9 million* have been made. Have you gotten yours?

Here's the kicker: 2016 is the last year an eligible provider (professional or hospital) can enroll and begin attesting in the EHR Provider Incentive Program. **It's NOW or NEVER!!!**

Go here <http://www.tn.gov/tenncare/topic/how-to-register-attest> to see if you are eligible to participate.

The TennCare Medicaid EHR Support Team recommends that new providers looking to participate in the EHR Provider Incentive Program take a **"3-STEP APPROACH."**
