

Certified EHR Technology

In order to receive a first year payment in 2011 through the TennCare/Medicaid EHR Provider Incentive Program, eligible providers and hospitals must demonstrate that they have adopted, implemented and/or upgraded to certified EHR technology. CMS has selected several companies to review and certify systems/modules for use by providers. An updated list is available for review at the following CMS web site: <http://onc-chpl.force.com/ehrcert>. This list will be updated weekly as new systems and modules are certified for provider consideration and use.

CMS Call-In Conferences

The Atlanta Regional Office will be conducting two call-in conferences to provide more information about the EHR Provider Incentive Program. The first conference call is devoted to Eligible Hospitals, while the second conference is geared towards Eligible Professionals. Following is the information about both calls:

Tuesday, November 16, 2010
