

ANNUAL REPORT OF THE TENNESSEE EMERGENCY COMMUNICATIONS BOARD

Fiscal Year 2020

Pursuant to Tenn. Code Ann. §§ 7-86-128(b)(3)¹ and 7-86-315,² the Tennessee Emergency Communications Board ("Board" or "TECB") hereby submits its annual report to the Governor, Speakers of the General Assembly and the Senate and House Finance, Ways and Means Committees. This annual report covers the Board's activities from July 1, 2019 through June 30, 2020.

² Tenn. Code Ann. § 7-86-315 states:

¹Tenn. Code Ann. § 7-86-128(b)(3) states in pertinent part:

The board shall report annually to the finance, ways and means committees of the senate and house of representatives on the financial status and solvency of emergency communications districts, status of the implementation of a uniform statewide 911 system and the status, level and solvency of the 911 Emergency Communications Fund.

The board shall report annually to the governor and the speakers of the general assembly on the activities of the board for the preceding year. The board shall receive and consider from any source whatsoever, whether private or governmental, suggestions for amendments to this chapter.

Statement of the Chairman

On behalf of the members of the Tennessee Emergency Communications Board, I ampleased to present you with the Board's annual report for fiscal year 2020.

The Board began the fiscal year focusing on 911 telecommunicator training and education. The Board provided an average of more than nine hundred (900) hours of training each month through its online training platform. COVID-19 presented many challenges to Tennessee's 911 community and greatly impacted the Board's ability to provide in-person training courses. However, the Board is proud that our online training platform was available to fill the gap and provide those valuable training resources in a safe and secure environment.

The Board continued to move forward with its Next Generation 911 ("NG911") project. NG911 is replacing the state's 911 infrastructure with an internet protocol ("IP") platform that will improve 911 call delivery, enhance interoperability and increase the ease of communication between emergency communications districts, allowing the immediate transfer of 911 calls, caller information, and other data statewide. Over 20 million calls have been processed over NG911 with an average of over 260,000 calls each month. Eighty-seven percent of all calls to 911 in Tennessee are wireless calls.

As part of NG911, the Board provides Text-to-911 capabilities to Tennessee's one hundred emergency communications districts. Districts must "opt in" to Text-to-911; however, the service has been successfully deployed in several counties and many other deployments are underway.

The financial integrity of the emergency communications districts ("ECDs") across Tennessee continues to be one of the Board's highest priorities. The Board and its staff worked diligently throughout the year to guide and assist districts with financial matters, and the Board is pleased to announce that none of the districts are financially distressed.

I would like to again express my gratitude to the hundreds of 911 professionals in Tennessee. As a result of their hard work and dedication Tennessee remains a national leader in 911 and continues to provide its citizens and guests with high-quality 911 service throughout Tennessee. It has been an honor to serve as the chairman of the Tennessee Emergency Communications Board.

Respectfully,

Mike Hooks Chairman

Introduction

The Tennessee Emergency Communications Board, a division of the Department of Commerce and Insurance, was created "for the purpose of assisting emergency communications district boards of directors in the area of management, operations, accountability and establishing emergency communications for all citizens of the state."¹ The TECB is funded through a monthly 911 surcharge on communications services capable of connecting to 911.²

The TECB exercises financial and operational oversight over the state's one hundred (100) emergency communications districts, which are statutorily created municipalities responsible for administering and facilitating local 911 call taking and dispatching services.³ The TECB is also charged with establishing technical, dispatcher training and operating standards concerning acceptable uses of revenue.⁴

The TECB works on the local, state and federal levels to facilitate the technical, financial and operational advancement of Tennessee's 911 system and its ECDs. As part of this advancement, the TECB is currently engaged in a revolutionary project to modernize the state's aging 911 infrastructure, converting it from analog to digital. This Next Generation 911 project involves the construction and management of a statewide IP platform that will vastly improve 911 call delivery, provide additional layers of redundancy and enhance interoperability between ECDs. The TECB's progress on this project makes Tennessee a national leader in 911.

Tennessee Emergency Communications Board Members

Mike Hooks Chairman Director, Roane County ECD

Dan Springer Public Citizen Representative

Hon. Gary Davis Mayor, Bradley County

Mark Archer Director, Henry County ECD

Jennifer White Director, Loudon County ECD Phillip Noel Vice Chairman Director, Bedford County ECD

Greg Cothron Designee, Comptroller of the Treasury

Hon. Jill Holland Mayor, City of McKenzie

Steve Martini Director, Williamson County ECD

Tennessee Emergency Communications Board Staff

Curtis S. Sutton Executive Director

James Barnes Fiscal Director

Amber McDonald Director of Government & External Affairs

Barbara Shank Administrative Service Assistant **Benjamin Glover** Assistant Director & General Counsel

Eddie Burchell Chief, E911 Technical Service

Jamison Peevyhouse Training Coordinator

Vanessa Williams Executive Assistant

Tennessee Emergency Communications Board Advisory Committees

The TECB is required to appoint a technical advisory committee and other advisory committees for the purpose of providing and receiving information to the TECB.⁵ The following committees have been established and the individuals identified for each were committee members for all or part of the fiscal year.

⁵ See Tenn. Code Ann. §§ 7-86-308 and 7-86-309.

Operations Advisory Committee

The TECB's Operations Advisory Committee provides technical and operational recommendations to the TECB. Its members include:

David Alexander, Director, Hardin County ECD John Allman, Director of Information Technology, Brentwood ECD Allen Bull, Director, Knox County ECD Jeff Carney, Director of Operations, Hamilton County ECD Mark Grant, Dyersburg Police Department Monica Moore, Director, Haywood County ECD Eric Ritzman, Director, Cumberland County ECD Virginia Smelser, Director, Sullivan County ECD

Policy Advisory Committee

The TECB's Policy Advisory Committee advises the TECB on policy matters, particularly issues impacting both 911 and other governmental agencies, as well as issues arising during legislative sessions. Committee members are selected to reflect a balance of interests, locations and demographics, and include representatives of ECDs of various sizes and locations, county and municipal governments, and representatives from the associations of Police & Fire Chiefs and Sheriffs, as well as emergency management agencies. Its members include:

Dale Blevins, Director, Carter County ECD Eric Carpenter, Director, Hamblen County Tonya Jetton, Director, Sumner County ECD Carolann Mason, Director, Fayette County ECD Kristy Meggs, Director, Carroll County ECD Linda Nichols, Director, Cheatham County ECD Eric Ritzman, Director, Cumberland County ECD Steve Smith, Director Rutherford County ECD Justin Whipple, Director, Benton County ECD

Technical Advisory Committee

Pursuant to Tenn. Code Ann. § 7-86-308, a Technical Advisory Committee composed of representatives of 911 service suppliers and non-wireline service providers is appointed for the purpose of providing and receiving operational and technical information and advice on all aspects of wireless enhanced 911 service. Its members include:

Angel Archo, Comcast Dan Collyer, Board Member, Hamilton County ECD Lawson Dripps, AT&T Rich Johnston, West Safety Services

Training Advisory Committee

During FY2016, the TECB formed a Training Advisory Committee for the purpose of reviewing the state's telecommunicator/dispatcher training requirements promulgated pursuant to Tenn. Code Ann. § 7-86-205 and to make recommendations to ensure these requirements provide Tennesseans with the highest level of 911 service. The committee is comprised of ECD directors, training coordinators and other individuals representing fire, EMS and law enforcement. Its members include:

Danielle Ferguson, Supervisor, Williamson County ECD Cynthia Gunter, Administrative Manager, Bradley County ECD Lesley Hughes, Training Coordinator, Carter County ECD Sean Lovejoy, Manager, Memphis Police Department Linda Nichols, Director, Cheatham County ECD Cynthia Samples, Shift Supervisor, Hamblen County ECD Jennifer Schwendimann, Training Coordinator, Williamson County ECD Virginia Smelser, Director, Sullivan Co. ECD Lynn Thompson, Assistant Director, Maury County ECD

GIS Committee

In November 2019, the Board voted to create a nine (9) member special Geographic Information Systems ("GIS") & Addressing committee to explore possible solutions to the various GIS issues. Its members include:

Angela Bledsoe, GIS and CAD Database Coordinator, Bradley County ECD Andrew Griswold, GIS Analyst, Department of Finance and Administration Ryan Janikula, GIS Manager, Loudon County ECD Lesley Musick, GIS Coordinator, Washington County ECD Ernie Qualls, GIS Specialist, Lincoln County ECD Karen Velliquette, GIS Analyst, Rhea and Roane County ECD Justin Whipple, Director, Benton County ECD James Wood, Public Safety Sector Manager, True North Geographic Technologies HeeChong Yu, GIS Analyst, Department of the Military

The 911 Emergency Communications Fund

The 911 Emergency Communications Fund is a separate fund of deposits in the state treasury comprised of 911 surcharges collected by the TECB and interest accumulated on those deposits.⁶ The 911 surcharge is the TECB's sole recurring revenue source. It is levied on communications services that are capable of contacting a public safety answering point ("PSAP") by entering or dialing the digits 911.

Disbursements from the fund are limited solely to the operational and administrative expenses of the TECB. Authorized operational and administrative expenditures include distributing a statutorily-determined amount of base funding to each ECD, implementing and maintaining an IP-based NG911 network, and funding the Tennessee Regulatory Authority for the Tennessee Relay Services/Telecommunications Devices Access Program ("TRS/TDAP"), which provides assistance to those Tennesseans whose disabilities interfere with their use of communications services and technologies.

During fiscal year 2020, total cash receipts of \$108,777,745 were collected from the 911 surcharge. This was comprised of \$21,948,324 from prepaid cell phone service sales and \$86,829,421 from standard 911 service charges. The TECB had total expenditures of \$106,109,190 for the fiscal year. Payments to ECDs totaled over \$89 million, constituting 83.9% of the total expenditures. Payments to ECDs included \$86 million for statutory distributions and \$3 million for recurring non-mandated controller subsidy distributions. Payments to individual districts are identified in Exhibit D.

The TECB provided corporate cost recovery to wireless telecommunications providers in the amount of \$42,426 while investing over \$11.7 million to advance NG911 in the state. Approximately \$3.3 million were expended for administration, including contracts with technical consultants and for ECD telecommunicator training. The 911 Funding

⁶ See Tenn. Code Ann. § 7-86-303.

Modernization and IP Transition Act of 2014 requires the TECB to reimburse the Public Utilities Commission ("PUC") for TRS/TDAP. The TECB reimbursed the PUC over \$1.3 million for these services and programs.

The 911 Funding Modernization and IP Transition Act of 2014 also requires the TECB to annually distribute to each ECD a base amount equal to the average total recurring annual revenue the ECD received for fiscal years 2010 through 2012.⁷ The Act guarantees no ECD will receive less than the total amount it received in fiscal year 2012. The adjusted base amounts for each ECD are identified in Exhibit G.

Status of Next Generation 911 Modernization Project

Traditional 911 infrastructure does not fully support the next generation of IP devices and advancements in 911 technology currently becoming available. In order to advance 911 congruently as telecommunications technology advances, the TECB began a project to replace Tennessee's 911 infrastructure with a platform that will provide 911 with the capabilities our citizens expect from modern telecommunications technology.

The project, referred to as NG911, involves utilization of the state's secure and privatly, outsourced multiprotocol label switching network called "NetTN," provided by AT&T and managed by Strategic Technology Solutions in the Tennessee Department of Finance and Administration. The new network improves redundancy, reliability and 911 call delivery. It enhances interoperability and increases the ease of communication between ECDs, allowing immediate transfer of 911 calls, caller information and other data on a statewide level.

On September 27, 2018, the TECB voted to proceed with moving from AT&T's microDATA-based Internet protocol selective routing solution to its nationwide ESInet[™] with Next Generation Core Services solution. This decision includes a transition to the automatic location identification platform also supported by the AT&T nationwide solution. This migration allows the State of Tennessee to continue its leadership in NG911 and will enable the TECB to deliver enhanced technology services, including deployment of Text-to-911. Four percent of PSAPs in Tennessee are live and now accepting Text-to-911 requests for service. Another 28% of PSAPs have placed requests to go live with Text-to-911 with the wireless service providers and another 24% of PSAPs are in some stage of deployment of Text-to-911.

In fiscal year 2020, the TECB spent \$11,780,453 implementing and maintaining the NG911 project, including projects to integrate with and adapt the Net TN system for NG911 purposes; financing start-up costs of the statewide hosted controller or Call Handling as a Service program; maintaining the twenty-four hour network operations center to assist PSAPs with technical issues; and purchasing Esri GIS software licensing.

⁷ See Tenn. Code Ann. § 7-86-303(e).

The TECB projects annual recurring operational costs of approximately \$16.5 million to maintain the NG911 program.

Financial Status of Emergency Communications Districts

The TECB monitors the financial health of all one hundred (100) ECDs in Tennessee. Districts that are deemed to meet the statutory definition of "financially distressed" are subject to the TECB's supervision and evaluation pursuant to Tenn. Code Ann. § 7-86-304(d). The TECB is pleased to report none of Tennessee's one hundred (100) ECDs were determined to be financially distressed during the 2020 fiscal year based on analysis of FY2019 audit reports.

- Two (2) districts had three (3) consecutive years of negative change in net position meeting the definition for consideration of distressed status for the first time and two (2) districts with three (3) years of negative change in FY2018 had another consecutive year of negative change. These four (4) districts had depreciation expense greater than their negative change and were evaluated by TECB and determined not distressed in consideration of state law and TECB Policy No. 6. All four (4) districts have been advised of the assistance available from the Board and are working with staff to address their negative change in net position.
- Nine (9) districts had a first year of negative change in net position; and five (5) of those districts had depreciation expenses greater than the negative change. The remaining four (4) were notified and offered assistance in accordance with Policy 6.
- Five (5) districts had a second consecutive year of negative change in net position and four (4) of those districts had depreciation expenses greater than the negative change. The remaining district was notified and offered assistance in accordance with Policy 6.

Emergency Communications Districts Audits

The TECB may act upon any adverse findings noted in ECD audits and order such action as may be necessary to remedy the adverse findings.⁸

⁸ § 7-86-304. Uniform financial accounting system -- Audit -- Annual budgets -- Supervision of financially distressed districts

The following schedule is a comparison of reported findings in ECD audit reports for the last three (3) years. Fiscal year 2019 findings for each ECD are found in Attachment F.

Reported Material Weaknesses/Findings from Audit Reports

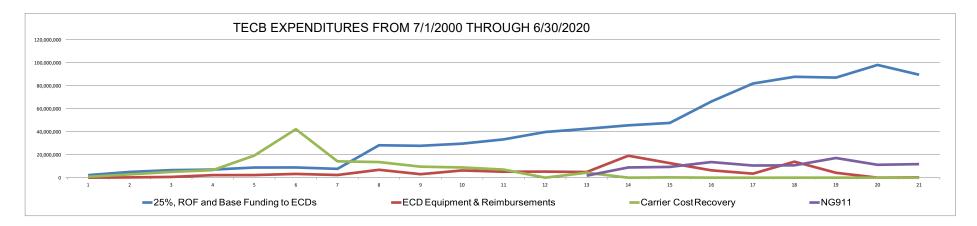

<u>2017</u>	<u>2018</u>	<u>2019</u>	
27	24	17	Expenses exceeded budget
13	14	13	Segregation of duties
20	8	2	Management lacks skills & knowledge to apply GAAP
106	4	5	Policy & procedure requirements
0	1	0	Inappropriate check signatures
1	4	3	Inadequate supporting documents
5	0	5	Deficiencies recording transactions
50	1	0	Banking issues
2	1	1	Surety bond coverage
0	0	1	Retirement plan not reconciled
0	0	0	Inappropriate use of funds
65	62	47	Total

Other TECB Activities

The TECB is committed to ensuring 911 telecommunicators are providing Tennesseans with the highest level of 911 service. The TECB fulfills this commitment by providing numerous education and training opportunities for 911 districts and telecommunicators. In FY2020, the TECB continued to provide an on-line training service at no cost to Tennessee's 911 telecommunicators through a contract with Virtual Academy ("V-Academy"). This training initiative has been an enormous success, averaging more than nine hundred (900) hours of training each month in FY2020. The V-Academy platform provides a direct benefit to the frontline operations of 911 in Tennessee, saving local jurisdictions significant time and money. It allows local 911 personnel to meet Tennessee's training requirements while reducing travel, staffing and tuition costs on ECDs. During FY2020, there were over 2500 users registered on the platform and over 11,800 hours of content was delivered to Tennessee's 911 telecommunicators.

Note: Cash basis shown here may differ from accrual basis. * ROF = Recurring Operational Funding

A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

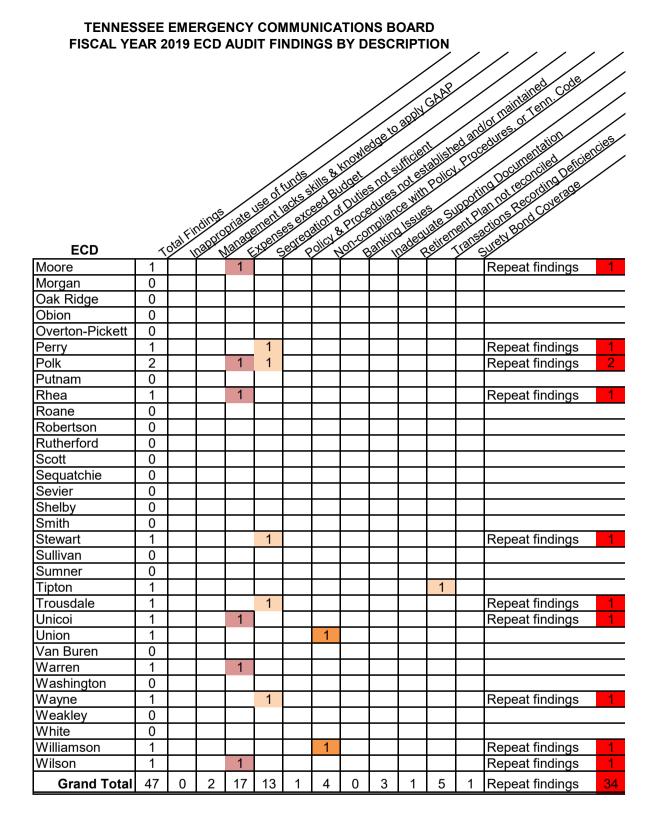

A compliance issue results from requirements of certain provisions of laws, regulations, contracts, and grant agreements. Noncompliance could have a direct and material effect on the determination of financial statement amounts. Material instances of noncompliance are required to be reported under Government Auditing
