#### 1. Summary of Significant Accounting Policies

#### A. Accounting Practices

The financial statements of the Company are presented on the basis of accounting practices prescribed or permitted by the Tennessee Department of Insurance.

The Tennessee Insurance Department recognizes only statutory accounting practices prescribed or permitted by the state of Tennessee for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Tennessee Insurance Law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Tennessee. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices. No deviations currently exist.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the state of Tennessee is shown below:

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. These estimates are based on knowledge of current events and anticipated future events, and accordingly, actual results could differ from those estimates.

#### C. Accounting Policy

Premiums are reported as earned in the period in which members are entitled to receive services, and are net of retroactive membership adjustments. Retroactive membership adjustments result from enrollment changes not yet processed, or not yet reported by an employer group or the government. Premiums received prior to such period are recorded as advance premiums.

Benefits incurred and loss adjustment expenses include claim payments, capitation payments, pharmacy costs net of rebates, allocations of certain centralized expenses, legal and administrative costs to settle claims, and various other costs incurred to provide health insurance coverage to members, as well as estimates of future payments to hospitals and others for medical care provided prior to the date of the statements of admitted assets, liabilities and surplus. Capitation payments represent monthly contractual fees disbursed to participating primary care physicians, and other providers who are responsible for providing medical care to members. Pharmacy costs represent payments for members' prescription drug benefits, net of rebates from drug manufacturers.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments include investments mainly in U.S. Government obligations with a maturity of twelve months or less from the date of purchase. Short-term investments are recorded at amortized cost. The carrying value of short-term investments approximates fair value due to the short-term maturities of the investments.
- (2)-(4) Investments are valued and classified in accordance with methods prescribed by the NAIC. Bonds with an NAIC rating of 1 or 2 are carried at amortized cost, with all other bonds being recorded at the lower of amortized cost or fair value; redeemable preferred stocks are carried at amortized cost; and non-redeemable preferred stocks are carried at fair value.

The Company regularly evaluates investment securities for impairment. The Company considers factors affecting the investee, factors affecting the investee operates within, and general debt and equity market trends. The Company also considers the length of time an investment's fair value has been below carrying value, the near term prospects for recovery to carrying value, and the Company's intent and ability to hold the investment until maturity or market recovery is realized. If and when a determination is made that a decline in fair value below the cost basis is other-than-temporary, the related investment is written down to its estimated fair value through earnings.

Amortization of bond premium or discount is computed using the scientific interest method.

Income from investments is recorded on an accrual basis. For the purpose of determining realized gains and losses, the cost of securities sold is based upon specific identification. Investment income due and accrued over 90 days past due is nonadmitted.

(5) The Company estimates the fair value of its investments in mortgage loans on real estate using a discounted cash flow method based on rating, maturity and future income when compared to the expected yield for mortgages having similar characteristics. The rating for mortgages in good standing is based on property type, location, market conditions, occupancy, debt service

coverage, loan to value, caliber of tenancy, borrower and payment record. Problem mortgages are priced to reflect their monetary value to the Company, considering such things as the degree of default, whether or not the payments are still being made, interest rate, maturity and operating performance of the underlying collateral.

- For loan backed and structured securities where the securities fair value is less then the amortized cost, the Company considers several factors to determine if the security's impairment is other-than-temporary. If the Company has the intent to sell the security or if the Company does not have the intent and ability to retain the security until recovery of its fair value, the related investment is written down to its estimated fair value through earnings. If, however, the Company has the intent and ability to retain the security until recovery of its fair value, the Company considers factors affecting the investee, factors affecting the industry the investee operates within, and general debt and equity market trends. The Company also considers the length of time an investment's fair value has been below carrying value and the near term prospects for recovery to carrying value. If the determination is made, based on these factors, that the Company does expect to recover the entire amortized cost of the security, then an other-than-temporary impairment has not occurred. If, however, the determination is made that the Company does not expect to recover the entire amortized cost of the security based on the factors noted above, the Company recognizes a realized loss in earnings for the non-interest related decline. No loss is recognized for the interest impairment.
- (7) The Company accounts for its investments in subsidiaries using the audited statutory equity method of accounting.
- (8) The Company accounts for its investments in joint ventures, partnerships and LLC's using the audited statutory equity method of accounting.
- (9) The Company participates in a securities leading program to maximize investment income. The Company loans certain investment securities for short periods of time in exchange for collateral initially equal to at least 102 percent of the fair value of the investment securities on loan. The fair value of the loaned investment securities is monitored on a daily basis, with additional collateral obtained or refunded as the fair value of the loaned investment securities fluctuates. The collateral, which may be in the form of cash or U.S. Government securities, is deposited by the borrower with an independent lending agent.
- (10)-(11) The estimates of future medical benefit payments are developed using actuarial methods and assumptions based upon claim payment patterns, medical cost inflation, historical development such as claim inventory levels and claim receipt patterns, and other relevant factors. Corresponding administrative costs to process outstanding claims are estimated and accrued. Estimates of future payments relating to services incurred in the current and prior periods are continually reviewed by management and adjusted as necessary.

The Company assesses the profitability of its contracts for providing health insurance coverage to its members when current operating results or forecasts indicate probable future losses. The Company records a premium deficiency liability in current operations to the extent that the sum of expected future medical costs, claim adjustment expenses and maintenance costs exceed related future premiums. Investment income is not contemplated in the calculation of the premium deficiency liability.

Management believes the Company's benefits payable and loss adjustment expense are adequate to cover future claims and loss adjustment expense payments required, however, such estimates are based on knowledge of current events and anticipated future events and, therefore, the actual liability could differ from the amounts provided.

(12) Real estate held for production of income is carried at depreciated cost.

Equipment is stated at cost less accumulated depreciation. Depreciation expense is computed using the straight-line method over estimated useful lives generally ranging from three to five years. Improvements to leased facilities are depreciated over the shorter of the remaining lease term or the anticipated life of the improvement.

The Company recognizes an asset or liability for the deferred tax consequences of temporary differences between the tax bases of assets or liabilities and their reported amounts in the financial statements. The temporary differences will result in taxable or deductible amounts in future years when the reported amounts of the assets or liabilities are recovered or settled.

- (13) The Company estimates anticipated Pharmacy Rebate Receivables using the analysis of historical recovery patterns.

- 20. Fair Value Measurements
  - A. (1) The fair value of financial assets at December 31, 2010 were as follows:

	2010				
	Fair Value	Quoted Prices for Identical Assets in Active Markets  (Level 1)	Significant Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	
Assets					
US treasury and agency					
obligations	1,330,761		1,330,761		
Total invested assets	\$ 1,330,761	<u>s</u> -	\$ 1,330,761	<u>s</u> .	

⁽²⁾ There were no fair value measurements using significant unobservable inputs. The Company reports transfers between fair value hierarchy levels at the end of the reporting period. There were no transfers between the fair value hierarchy levels between December 31, 2009 and 2010.

⁽³⁾ Fair value of actively traded debt securities are based on quoted market prices. Fair value of other debt securities are based on quoted market prices of identical or similar securities or based on observable inputs like interest rates generally using a market valuation approach, or, less frequently, an income valuation approach and are generally classified as Level 2. The Company generally obtains one

quoted price for each security from a third party pricing service. These prices are generally derived from recently reported trades for identical or similar securities, including adjustments through the reporting date based upon observable market information. When quoted prices are not available, the third party pricing service may use quoted market prices of comparable securities or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include benchmark yields, reported trades, credit spreads, broker quotes, default rates and prepayment speeds. The Company is responsible for the determination of fair value and as such, the Company performs analysis on the prices received from the third party pricing service to determine whether the prices are reasonable estimates of fair value. The Company's analysis includes a review of monthly price fluctuations as well as a quarterly comparison of the prices received from the pricing service to prices reported by the Company's third party investment advisor. Based on the Company's internal price verification procedures and review of fair value methodology documentation provided by the third party pricing service, there were no material adjustments to the prices obtained from the third party pricing service during the year ended December 31, 2010.

- B. No assets or liabilities were measured at fair value on a non-recurring basis.

G. Subprime Mortgage Related Risk Exposure

The Company consults with its external investment managers to assess its subprime mortgage related risk exposure. Certain characteristics are utilized to determine if a mortgage-backed security has subprime exposure. The main characteristics reviewed when determining this are the collateral and structure of the security, the loan purpose, loan documentation, occupancy, geographical location, loan size and type. Subprime mortgage borrowers typically have lower credit scores, lower loan balances and higher loan-to-values than other conforming loans. Management's practices include reviewing quantitative and qualitative credit models that analyze loan-level collateral composition, historical underwriter performance trends, the impact of macroeconomic factors, and issuer risks; as well as reviewing the estimation of security cash flows and monthly model calibrations.

(1) Direct exposure through investments in sub-prime mortgage loans.

The Company has no direct exposure through investment to sub-prime mortgage loans.

- (2) Indirect exposure to sub-prime mortgage risk through investments in the following securities:
  - a. Residential mortgage backed securities No substantial exposure noted.
  - b. Collateralized debt obligations No substantial exposure noted.
    c. Structured Securities (including principal protected notes) No substantial exposure noted.
  - d. Debt Securities of companies with significant sub-prime exposure No substantial exposure noted.
  - e. Equity securities of companies with significant sub-prime exposure No substantial exposure noted.
  - f. Other Assets No substantial exposure noted.
- (3) Underwriting exposure to sub-prime mortgage risk through Mortgage Guaranty coverage, Financial Guaranty coverage, Directors and Officers liability coverage, or Errors and Omissions liability coverage.

Not Applicable.

(4) Classification of mortgage related securities is primarily based on information from outside data services, including rating agency actions. When considering our exposure, the Company evaluated the percentage of full documentation loans, percent of owner occupied properties, FICO scores, average margin for ARM loans, percent of loans with prepayment penalties, the existence of non-traditional underwriting standards, among other factors.

#### 22. Events Subsequent

The Company is not aware of any events or transactions occurring subsequent to the close of the books for this statement which may have a material effect on its financial condition. Subsequent events have been considered through February 23, 2011 for the statutory statement issued on February 23, 2011.

#### ACTUARIAL OPINION December 31, 2010

#### **IDENTIFICATION SECTION**

I, Frank M. Amrine, Actuarial Director and Appointed Actuary, am an employee of Preferred Health Partnership of Tennessee, Inc. and a member of the American Academy of Actuaries. I was appointed on October 31, 2008 in accordance with the requirements of the annual statement instructions. I meet the Academy qualification standards for rendering the opinion.

#### **SCOPE SECTION**

I have examined the assumptions and methods used in determining loss reserves, actuarial liabilities and related items listed below, as shown in the annual statement of the organization as prepared for filing with state regulatory officials, as of December 31, 2010.

A.	Claims unpaid (Page 3, Line 1);	\$ 0

D.	Aggregate health policy reserves (Page 3, Line 4)	\$ 0
	including unearned premium reserves, premium	
	deficiency reserves and additional policy reserves	
	from the Underwriting and Investment Exhibit -	
	Part 2D;	
E.	Aggregate life policy reserves (Page 3, Line 5);	\$ 0
F.	Property/casualty unearned premium reserves	\$ 0
	(Page 3, Line 6);	
G.	Aggregate health claim reserves (Page 3, Line 7);	\$ 0
H.	Any other loss reserves, actuarial liabilities, or related	
	items presented as liabilities in the annual statement;	
	Not Applicable	
	and	
I.	Specified actuarial items presented as assets in the	
	annual statement.	
	Not Applicable	

#### RELIANCE SECTION

The company has no asset or liability records or data that were relied upon in determining reserve liabilities. There are no entries, other than \$0, in the Underwriting and Investment Exhibit Part - 2B of the company's current annual statement.

#### PREFERRED HEALTH PARTNERSHIP OF TENNESSEE, INC.

#### ACTUARIAL OPINION December 31, 2010

#### **OPINION SECTION**

In my opinion, the amounts carried in the balance sheet on account of the items identified above:

- A. Are in accordance with accepted actuarial standards consistently applied and are fairly stated in accordance with sound actuarial principles,
- B. Are based on actuarial assumptions relevant to contract provisions and appropriate to the purpose for which the statement was prepared,
- C. Meet the requirements of the Insurance Laws and regulations of the State of Tennessee,
- D. Make a good and sufficient provision for all unpaid claims and other actuarial liabilities of the organization under the terms of its contacts and agreements,
- E. Are computed on the basis of assumptions and methods consistent with those used in computing the corresponding items in the annual statement of the preceding year-end,
- F. Include appropriate provision for all actuarial items that ought to be established.

The Underwriting and Investment Exhibit -- Part 2B was reviewed for reasonableness and consistency with the applicable Actuarial Standards of Practice.

Actuarial methods, considerations, and analyses used in forming my opinion conform to the relevant Standards of Practice as promulgated from time to time by the Actuarial Standards Board, which standards form the basis of this statement of opinion.

This opinion was prepared for, and is to be relied upon only by Preferred Health Partnership of Tennessee, Inc., Humana Inc., and the Insurance Division of the Tennessee Department of Commerce and Insurance.
