NOTES TO FINANCIAL STATEMENTS

Note 1 - Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of UnitedHealthcare Plan of the River Valley, Inc. (the Company) are presented on the basis of accounting practices prescribed or permitted by the Illinois Department of Insurance (the Department).

The Department recognizes only statutory accounting practices, prescribed or permitted by the State of Illinois, for determining and reporting the financial condition and results of operations of a health maintenance organization, for determining its solvency under Illinois Insurance Law. The state prescribes the use of the National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual (NAIC SAP) in effect for the accounting periods covered in the financial statement.

1-8. No significant differences exist between the practices prescribed or permitted by the State of Illinois and those prescribed or permitted by the NAIC SAP which materially affect the statutory basis net income, capital and surplus, and total admitted assets, as illustrated in the table below (in thousands):

Note 2 - Accounting Changes and Corrections of Errors

In 2012, the Company implemented Statement of Statutory Accounting Principles (SSAP) No. 101, Income Taxes – A Replacement of SSAP No. 10R and SSAP No. 10. The new statement includes revised guidance for tax contingencies, non-elective deferred tax asset admissibility test along with significant modifications to the deferred tax asset admissibility test. A change resulting from the adoption of this revised statement should be accounted for prospectively. As a result of the adoption, the Company recalculated the non-admitted deferred tax asset balance as of December 31, 2011 in accordance with SSAP No. 101. This resulted in an increase to the net deferred tax asset of approximately \$8,246,000 and a corresponding decrease of approximately \$8,246,000 to the non-admitted deferred tax asset balance. The cumulative effect of this change in accounting principle was recorded by the Company in accordance with SSAP No. 3, *Accounting Changes and Corrections of Errors* and is reflected as an increase to unassigned funds in the accompanying statutory basis financial statements as of June 30, 2012.

Note 20 – Fair Value Measurement

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1 — Quoted (unadjusted) prices for identical assets in active markets.

Level 2 — Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets
- Quoted prices for identical or similar assets in inactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.)
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.)
- Inputs that are derived principally from or corroborated by other observable market data

Level 3 — Unobservable inputs that cannot be corroborated by observable market data.

NOTES TO FINANCIAL STATEMENTS

The estimated fair values of bonds and short-term investments (investments) are based on quoted market prices, where available. The Company obtains one price for each security primarily from a third-party pricing service (pricing service), which generally uses quoted or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, making adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, non-binding broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds. As the Company is responsible for the determination of fair value, it performs quarterly analyses on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to prices reported by its custodian, its investment consultant and third-party investment advisors. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to test the reasonableness of the reported prices. Based on the Company's internal price verification procedures and review of fair value methodology documentation provided by independent pricing services, the Company has not historically adjusted the prices obtained from the pricing service.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

The following table presents information about the Company's financial assets that are measured and reported at fair value at June 30, 2012 and December 31, 2011, in the statutory basis statements of admitted assets, liabilities, and capital and surplus according to the valuation techniques the Company used to determine their fair values (in thousands):

	June 30, 2012			Total Fair Value
	Quoted Prices in Active Markets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	
Corporate bonds	\$ -	\$ 807	\$ -	\$ 807

	Quoted Prices in Active Markets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	Total Fair Value
Corporate bonds	\$ -	1,147	\$ -	\$ 1,147

There were no transfers between Levels 1 and 2 as of June 30, 2012 and December 31, 2011.

The Company does not have any financial assets with a fair value hierarchy of level 3.

NOTES TO FINANCIAL STATEMENTS

The aggregate fair value by hierarchy of all financial instruments as of June 30, 2012 and December 31, 2011 is presented in the table below (in thousands):

There were no financial instruments that were not practicable to estimate at fair value.

Fair values of investments are based on quoted market prices, where available. The Company obtains one price for each security primarily from a third-party pricing service (pricing service), which generally uses quoted or other observable inputs for the determination of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source, prices reported by its custodian, its investment consultant and third-party investment advisors. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to test the reasonableness of the reported prices. The Company's internal price verification procedures and review of fair value methodology documentation provided by independent pricing services has not historically resulted in adjustment in the prices obtained from the pricing service.

Note 21 - Other Items

The Company recorded receivables related to retroactive policies and estimated withholds of approximately \$42,004,000 and \$6,923,000 as of December 31, 2011 for TennCare Medicaid and CHOICES, respectively. As of June 30, 2012, the Company has collected approximately \$49,406,000 and \$12,272,000 in Medicaid and CHOICES retroactive premiums and estimated withholds related to prior year, respectively. Currently, there is approximately \$5,509,000 and \$14,000 in retroactive receivables and estimated withholds recorded for the prior year for TennCare Medicaid and CHOICES, respectively. The amounts above exclude activity related to the rate change accrual in 2011.

The Company continues to refine the accrual related to potential revenue take backs for members without services on the CHOICES product. The impact of further refining the estimates due to updated information and additional history with the CHOICES product could result in a reduction to the amounts previously reported as net premium income. However, the Company is unable to accurately estimate the financial impact of the change at this time and any change would be reflected in operating results in the period in which the change in the estimate is identified.

The Company elected to use rounding in reporting amounts in the notes to statutory basis statements.

NOTES TO FINANCIAL STATEMENTS

Note 22 - Events Subsequent

Effective July 1, 2012, the Company entered into a revised subordinated revolving credit agreement with UnitedHealth Group, Incorporated (UnitedHealth Group). The Company now holds a \$200,000,000 subordinated revolving credit with UnitedHealth Group. Interest on the outstanding balance shall be payable at an interest rate of LIBOR plus a margin of 0.50%. This agreement may be terminated without penalty by either party or will terminate immediately if the Company is no longer under common ownership and control of UnitedHealth Group.

Note 23 - Reinsurance

No significant change.

Note 24 - Retrospectively Rated Contracts & Contracts Subject to Redetermination

The Company has Medicare business which is subject to a retrospective rating feature related to Part D premiums. The Company has estimated accrued retrospective premiums related to Part D premiums based on guidelines determined by the Center for Medicare and Medicaid Services. The formula is tiered and based on medical loss ratio. The amount of Part D earned premiums subject to retrospective rating was approximately \$45,514,000 and \$76,658,000 representing 2.3% and 2.0% of total net premiums written as of June 30, 2012 and December 31, 2011, respectively.

The Company has contracts with the federal government through the Office of Personnel Management to administer the Federal Employees Health Benefit Program. The Company is subject to rate adjustments through audits by the Office of Personnel Management. The amount of earned premiums subject to retrospective rating was approximately \$8,946,000 and \$20,106,000 representing 0.4% and 0.5% of total net premiums written as of June 30, 2012 and December 31, 2011, respectively.

Pursuant to the Health Reform Legislation, the Company is required to maintain specific minimum loss ratios. These minimum loss ratios apply to comprehensive major medical coverage and vary depending on group size. The following table discloses the minimum medical loss ratio rebates required pursuant to the Health Reform Legislation for the period ended June 30, 2012 (in thousands):

The liability for claims unpaid, accrued medical incentive pool and bonus amounts, aggregate health claim reserves and health care receivables as of December 31, 2011 were approximately \$377,734,000. As of June 30, 2012, approximately \$303,973,000 has been paid for incurred claims attributable to insured events of prior years. Reserves remaining for prior years are now approximately \$30,297,000 as a result of re-estimation of unpaid claims. Therefore, there has been approximately \$43,464,000 favorable prior year development since December 31, 2011 to June 30, 2012. The primary drivers consists of favorable development as a result of ongoing analysis of loss development trends related to the release and reestablishment of \$18,300,000 in known environmental claims and approximately \$26,369,000 in retroactivity for inpatient, outpatient, physician, and pharmacy claims. At December 31, 2011, the Company recorded approximately \$39,237,000 of favorable development related to insured events of prior years primarily as a result of ongoing analysis of loss development trends related to the release and reestablishment of approximately \$22,329,000 in known environmental claims offset by approximately \$1,827,000 of unfavorable retroactivity for inpatient, outpatient, physician, and pharmacy claims. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. Included in this favorable development is the impact related to retrospectively rated policies. As a result of the prior-year effects, on a regular basis, the Company adjusts revenue and the corresponding liability and/or receivable related to retrospectively rated policies and the impact of the change is included as a component of change in unearned premium reserves and reserve for rate credits in the statutory basis statements of operations.

NOTES TO FINANCIAL STATEMENTS

These costs are included in the management service fees paid by the Company to UHS-RV as a part of its management agreement. The following table discloses paid CAE and incurred CAE for the six months ended June 30, 2012 and the year ended December 31, 2011, and the balance in the unpaid claim adjustment expenses reserve as of June 30, 2012 and December 31, 2011 (in thousands):
