Scoring & Interpretation

** A "Yes" answer to questions A, B, or C means high danger and automatically triggers a referral. To determine whether a referral should be made when answers to A, B, or C are "No," add the numbers that have been circled, and divide the sum by 29 to determine their score. If a mother has left some of the items blank, add up the numbers that have been circled by the mother, and divide the sum by the number of questions she answered. A score of 2.3 or greater indicates that a referral needs to be made.
