

Counties	INELIGIBLE - Protected Borrower Areas	ELIGIBLE - Unserved & Underserved
INELIGIBLE - Federal/State Funded		Water

Broadband data are developed from a combination of direct provider outreach and data collection, FCC Form 477 broadband deployment filings, verified consumer broadband feedback, and independent research conducted by Connected Nation. If a broadband provider was unwilling or unable to supply granular data and a detailed service area could not be developed, the provider service availability is represented by FCC Form 477 data, which tends to be overstated.

This map is not a guarantee of internet service availability. Mobile and satellite services may also be available. The current FCC definition of broadband is a minimum speed of 25 Mbps (Megabits per second) download and 3 Mbps upload. Please submit feedback regarding any possible mapping inaccuracies to <https://connectednation.org/tennessee/feedback>. For further information on eligible and ineligible areas, please view the [interactive map](#).
