

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-03-09-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to air.pollution.control@TN.gov or Ms. Michelle W. Owenby, Director, Division of Air Pollution Control, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15th Floor, Nashville, Tennessee 37243 within 30 days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Construction permits issued by TDAPC do not grant any authority operate, construct, or maintain any installation in violation of any law, statute, code, ordinance, rule, or regulation of the State of Tennessee or any of its political subdivisions.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 22nd Floor, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243, (615) 532-0207. Hearing impaired callers may use the Tennessee Relay Service (1-800-848- 0298).

The applicant is OMG Midwest, Inc. dba Des Moines Asphalt and Paving with a mailing address of 2401 SE Tones Drive, Suite 13, Ankeny, IA 50021. The applicant seeks to obtain an air contaminant permit (Division identification number: 38-0178 and 82004) for the construction at the following address: 2025 Blue Oval City Drive, Stanton, TN. The permit request is for the construction of the following: the proposed operation would consist of an Astec double barrel drum mixer (continuous mix), asphalt cement storage, aggregate stockpiles, reclaimed/recycled asphalt pavement (RAP), and associated equipment used to produce hot mix asphalt (HMA). Used oil (on-spec oil) would be used as a fuel source for asphalt production. Baghouse control would be the emissions control device used for controlling air contaminants being emitted while the asphalt plant is in operation. Heatec diesel-fired oil heater would generate heat to maintain the asphalt cement (AC) contents in a liquid state inside its storage tank while idle until the time of asphalt production. Whisperwatt generator engine provides electricity to power the oil heater associated with AC storage tank. Caterpillar generator engine provides electricity to power operations throughout the premises at the asphalt plant. There would be physical construction. Regulated air contaminants would be emitted by this source. Information regarding this source can be found i
