

**NEW BFI WASTE SYSTEMS OF TENNESSEE, LLC
COMPOST FACILITY BEING PLANNED IN
RUTHERFORD COUNTY**

BFI Waste Industries of Tennessee, LLC has applied to the Tennessee Department of Environment and Conservation (TDEC) Division of Solid Waste Management (DSWM) for a Tier III composting permit to construct and operate a composting facility. The planned location is in Rutherford County, at 750 E Jefferson Pike, Murfreesboro, Tennessee 37130 (latitude 35.9425 N/longitude -86.3692 W). The waste material to be accepted and composted is yard waste, food waste, and biosolids.

Under State law, the applicant must obtain a permit before constructing or operating the proposed facility. DSWM has received a Part I Permit Application indicating BFI Waste Industries of Tennessee, LLC's desire to obtain the required permit.

A complete permit application consists of both a Part I and a Part II, as described in the regulations governing solid waste processing and disposal facilities in Tennessee, Rule 0400-11-01-.02(3)(c). When the facility submits the complete Part II application, DSWM will do an in-depth review to determine if the application meets the technical standards of the Regulations described in Tennessee Rule 0400-11-01-.11, Solid Waste Processing and Disposal. Once the technical review is completed, DSWM will make a tentative decision to either grant or deny the permit and will issue a public notice.

This second notice will provide the public with at least 45 days to submit written comments on the proposed action. If there is a significant degree of public interest, DSWM will schedule a public hearing and give at least 15 days' notice. After considering all comments received, the DSWM Director shall issue a final permit decision and a response to comments.
