Introduction

This supplement to the 2015-2016 Budget Document provides the detail of base budget changes required to balance the state budget. The proposal is comprised of specific agency program reductions (reduction plans) and other preliminary base budget reductions and adjustments.

The Summary section contains overviews of the reductions and other adjustments that compose the total reduction proposal. The first schedule is a combining statement of base budget reductions to General Fund state appropriations. It is a departmental summary of the base reductions and preliminary base adjustments on a recurring basis. The second schedule is a listing of the preliminary base adjustments by department, showing the recurring and non-recurring adjustments to the General Fund along with adjustments to dedicated state appropriations. The third schedule is a departmental listing of the agency program reductions compared to the current-year recurring appropriations and the discretionary base appropriations for the upcoming budget year. Discretionary base appropriations from dedicated taxes that are narrowly levied and earmarked for specific programs. It also excludes certain programs that are "held harmless" from reduction based on other statutory requirements or due to administration initiatives.

The Base Budget Reductions section presents the agency program reductions by funding source and position count. This section begins with a departmental summary of reductions, followed by a program summary of reductions, and is concluded with a detailed listing of the specific base budget reductions recommended.
