

HAZARDOUS MATERIALS DATA

HAZARDOUS MATERIALS INVESTIGATION AND REPORT:

- A.** An investigation has been performed at the project site to determine the presence and probable extent of hazardous materials in the existing building materials. This investigation was conducted, and a report obtained, solely for design purposes and is not a part of the Contract Documents.
- B.** The use and interpretation of this information is entirely the responsibility of the using party. The Owner is not responsible for variations in the actual composition of existing materials. Bidders shall decide for themselves the character and quantities of the material to be encountered.
- C.** The report of the findings of this investigation is on file in the Designer's office, and may be reviewed there by any prospective Bidder of Record. Bidders must contact the Designer to request review of the report, which may be done in person or sent electronically.
