Project Description:

Engineering consultant to perform energy and water audits at Military facilities.

Consultant Scope:

The Contractor shall provide such professional advice and assistance as State may request regarding the conduct of energy and water audits of Military facilities to identify cost saving and conservation opportunities. This includes plan development to improve energy and water systems and operations to assure the facility can accomplish its mission when external or internal energy and water sources are disrupted. Such work done by the Contractor shall be approved in writing by the State prior to the start of the work.

Special Consultant Services:

Firms should be familiar with the National Guard Bureau's annual energy and water audit program requirements.

Anticipated SBC Approval Date: 03.14.2024

Anticipated ESC Consultant Selection Date: 06.24.2024
