

Sentinel Provider Influenza-Like Illness (ILI)¹ Surveillance Summary (health.state.tn.us/TNflu_report_archive.htm)
for the Week of July 20-26, 2014 (Week 30)

Summary for	# Sites reporting	Total Sites	Total Regional ILI	Total Regional Patients	% ILI	Compared to State ²
Hamilton County (Chattanooga)	3	4	0	454	0.0%	
East Tennessee Region	8	8	1	2180	0.1%	
Jackson-Madison County	1	2	0	538	0.0%	
Knoxville-Knox County	4	4	0	1321	0.0%	
Mid-Cumberland Region	6	10	0	614	0.0%	
Shelby County (Memphis)	0	5	0	0	0.0%	n/a
Nashville-Davidson County	2	5	0	449	0.0%	
Northeast Region	2	3	0	176	0.0%	
South Central Region	3	3	0	195	0.0%	
Southeast Region	5	5	0	496	0.0%	
Sullivan County (Tri-Cities)	1	2	0	143	0.0%	
Upper Cumberland Region	4	4	0	436	0.0%	
West Tennessee Region	6	6	1	265	0.4%	higher
State of Tennessee	45	61	2	7267	0.03%	

Notes for Sentinel Providers

Sentinel Providers are asked to submit specimens on ALL patients meeting the ILI case definition at this time. Specimens are critical to be able to:

- track the geographic spread and intensity of season influenza viruses
- detect the emergence of novel influenza viruses or of antiviral resistance in circulating viral strains and
- provide data for vaccine strain selection.

Surveillance is performed year-round on patients meeting the ILI case definition (up to 10 per week). If you have questions, contact your regional or state SPN representative. Please use the TDH specimen submission form dated September 2013.

The percentage of patients with ILI reported in Week 30 was 0.03% as compared to 0.02% in Week 29. No specimens from Week 30 were received for testing at the Tennessee Department of Health Laboratory Services.

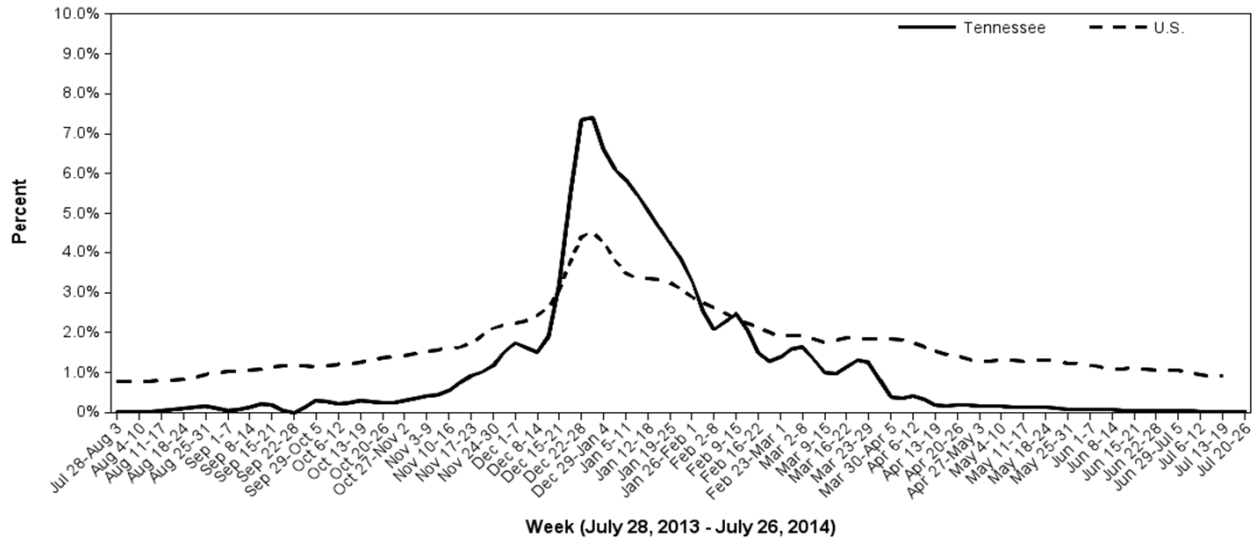

Influenza viruses are not entirely gone: 1.4% of all specimens tested by CDC are positive for influenza viruses. Clinicians are reminded that patients with severe illness consistent with influenza or those with influenza-like illness at high risk of complications from influenza should still be treated with influenza antiviral medications as appropriate.

Respiratory Viral Panel
Number of Positive Specimens, by week

Month/Week	#	Rhino
July		
Current	0	0
29	3	0
28	1	0
27	3	0
June		
26	5	1
25	2	0

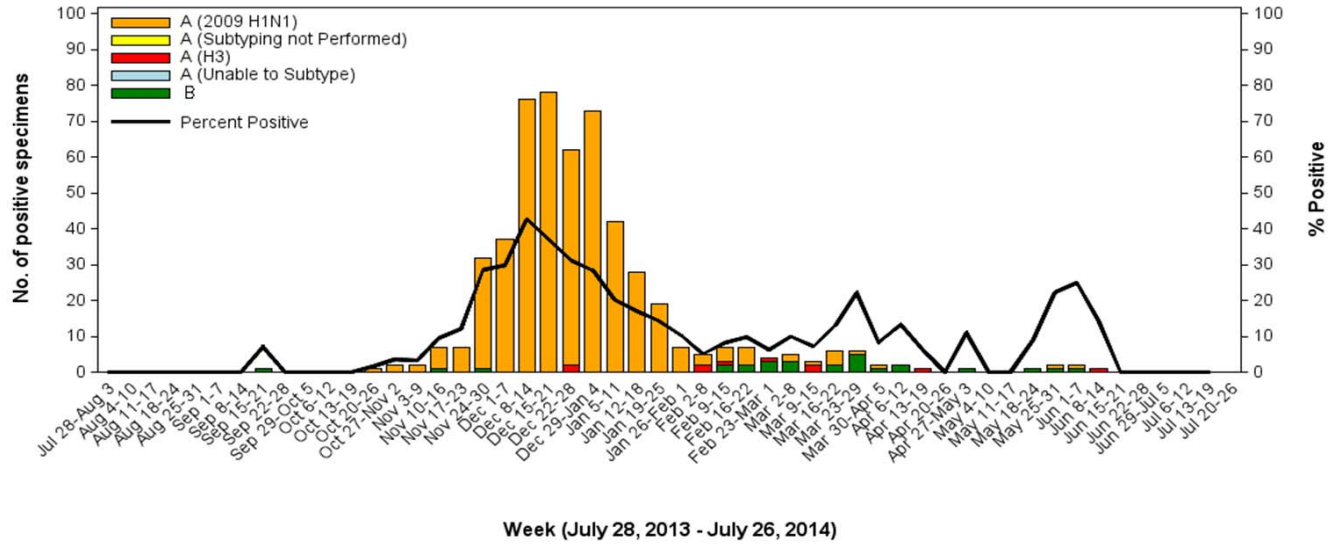

Percentage of Outpatient Visits Reported by the U.S. and Tennessee Outpatient Influenza-like Illness Surveillance Network (ILINet) as Influenza-like Illness, 2013-2014

Updated: July 31, 2014

Influenza Positive Tests Submitted to TN Dept. of Health Laboratory Services Tennessee, 2013-2014

Updated: July 31, 2014

Reference Information for Sentinel Provider Network

1 Influenza-like illness (ILI) is defined as fever > 100°F (37.8°C) plus cough and/or sore throat, in the absence of a known cause (other than influenza). Classification of ILI is based upon symptoms only and does not require any test.

2 The % of patients with ILI seen in each region is compared to the statewide average. Regions with % statistically-significantly different from the state average are noted as "higher" or "lower." The CDC reports that the percentage of patients visiting outpatient healthcare providers in the Sentinel Provider Network (SPN) with influenza-like-illness (ILI) when influenza viruses are not circulating is expected to fall at or below a specific SPN baseline [nationwide = 2.2%, East South Central region (AL, TN, MS, KY) = 2.3%]. When the percentage of patients with ILI exceeds this baseline, this suggests that influenza viruses may be circulating.

Important information for Sentinel Providers

Sentinel Providers report ILI by the end of Tuesday following the end of the reporting week (www2a.cdc.gov/ilinet) and collect and ship specimens from ILI cases Monday through Thursday (maximum 10/week per provider). All Sentinel Provider specimens MUST be accompanied by the Influenza and Respiratory Viral Panel Submission form or testing will not be done. The Respiratory Viral Panel is only validated for nasopharyngeal (NP) specimens. Specimens collected from other sites cannot be tested.

Additional laboratory supplies can be obtained by completing the lab order supply form. To ensure the order is filled, please include the CDC Provider ID Code.
