DCS is required to work with each licensing board to ensure any child safety programs created by a licensing board fully and accurately reflect the best practices for identifying and reporting abuse as appropriate for each profession.

This act took effect May 15, 2018.

Public Chapter 978

This act makes a number of revisions to opioid treatment regulations. The definition of "nonresidential office-based opiate treatment facility" (OBOT) has been changed to encompass more facilities.

The commissioner of mental health is required to revise the rules of OBOTs to be consistent with state and federal law for such facilities to establish certain new protocols.

Rules regarding OBOTs are to be reviewed each even-numbered year and the department of mental health and substance abuse services shall submit the rules for OBOTs to each health related board that licenses any

practitioner authorized by the state to prescribe products for treatment of an opioid use disorder. Each board is required to enforce the rules. Each board is required to post the rules on the board's website. Violation of a rule is grounds for disciplinary action by the board.

The act also makes revisions to the licensing fees of OBOTs.

The act requires revision of the buprenorphine treatment guidelines.

The legislation also requires (subject to 42 CFR part 2) that dispensing of buprenorphine be subject to the Controlled Substance Monitoring Database (CSMD) requirements.

The act prohibits dispensing of buprenorphine except by certain individuals/facilities and requires pharmacies/distributors to report to the department of health (TDH) the quantities of buprenorphine that are delivered to OBOTs in the state.

The act also makes revisions to the high-volume prescriber list compiled by TDH.

The act requires the comptroller to complete a study of statistically abnormal prescribing patterns. After the study, TDH shall identify prescribers and shall inquire with the boards of action taken against the prescribers and the board is required to respond within 30 days. Each board is required to report the total number of prescribers disciplined each year, as well as other information. TDH shall report a summary of the data and of the disciplinary actions to the chairs of the health committees.

The act also comprises a task force to create minimum disciplinary actions for prescribing practices that are a significant deviation from sound medical judgment. The board of medical examiners, osteopathic examination, dentistry, podiatric medical examiners, optometry, nursing and medical examiner's committee on physician assistants shall select one member each for the task force before September 1, 2018.

Public Chapter 1007

The act lays out the requirements on the pharmacists and gives details regarding payments.

This act takes effect January 1, 2019.

Public Chapter 1021

This act allows for appeals of contested case hearings to be in the chancery court nearest the residence of the person contesting the agency action or at that person's discretion, in the chancery court nearest the place the action arose, or in the chancery court of Davidson County. Petitions seeking review must be filed within 60 days after entry of the agency's final order.

This act takes effect July 1, 2018.

Public Chapter 1039

This legislation places limits and requirements on the amount of opioids prescribed and dispensed. It limits opioid prescriptions to up to a three day supply with a total of 180 MME (morphine milligram equivalents) for those three days. This limitation is subject to a number of exceptions under certain circumstances. These exceptions include up to a ten day supply with a total of 500 MME, up to a twenty day supply with a total of 850 MME for a procedure that is more than minimally invasive, and up to a thirty day supply with a total of

1200 MME when other reasonable and appropriate non-opioid treatments have been attempted and failed and the risk of adverse effects from the pain exceeds the risk of the patient developing an addiction or overdose. Prescribing under these exceptions requires the prescriber to check the controlled substance monitoring database, personally conduct a physical exam of the patient, consider non-opioid alternatives, obtain informed consent including counseling about neonatal abstinence syndrome and contraception for women of childbearing age, and document the ICD-10 code for the patient's primary disease (as well as the term "medical necessity" on thirty day prescriptions). These ten, twenty, and thirty day opioid prescriptions will only be filled by dispensers in an amount that is half of the full prescription at a time, requiring patients and pharmacists to consider whether the patient requires the full amount prescribed. There are still further exceptions for those patients undergoing active or palliative cancer treatment, receiving hospice care, diagnosed with sickle cell disease, administered to in a hospital, being treated by a pain management specialist or collaborating provider in a pain management clinic, who have received ninety days or more in the year prior to April 2018 or subsequently do so under one of the exceptions, receiving treatment for medication-assisted treatment, or suffering severe burns or major physical trauma.

This act took effect for rule purposes on May 21, 2018, and for all other purposes shall take effect July 1, 2018.

He asked staff to lie about his use of nitrous oxide if asked by a health investigator. Dr. Wright voluntarily entered into a contract with the Wellness Committee in October 2017. In May of 2018 the committee notified the board that they had withdrawn their advocacy of Dr. Wright. As part of the consent order, his license will be suspended indefinitely, he must be evaluated by the Wellness Committee within 30 days of the order, must comply with any recommendations of the committee, and obtain a statement of the Wellness Committee that he is fit to practice. If Dr. Wright requests the suspension of his license be lifted, he will have his license will be placed on probation for 5 years, but will have to appear before the board to have the probation lifted. The formal disciplinary action will be reported to the NPDB. Dr. Jubran made a motion to accept as written, and Dr. Travis seconded the motion. The motion carried.

The meeting was adjourned at 9:38 a.m.
