## Chattanooga Gas Company

5. The following table sets forth certain information with respect to the Chattanooga Gas Company's contracts for firm transportation and underground storage.

<u>CHATTANOOGA GAS COMPANY</u>	Maximum Firm Transportation DT/Day	Bundled Peaking DT/Day	Production Area Underground Storage Maximum Withdrawal DT/Day <sup>(1)</sup>	Supplemental Underground Storage Maximum Withdrawal DT/Day <sup>(2)</sup>	Expiration Date
Southern Natural Gas Company					
Firm Transportation	13,221				August 31, 2023
Firm No-Notice Transportation	14,346				August 31, 2023
Underground Storage			14,346		August 31, 2023
Tennessee Gas Pipeline Company					
Firm Transportation	37,819				October 31, 2025
Underground Storage			13,659		October 31, 2025
Underground Storage			7,741		November 1, 2025
East Tennessee Natural Gas Company					
Firm Transportation	13,000				October 31, 2022
Firm Transportation	28,350				October 31, 2022
Firm Transportation <sup>(3)</sup>	25,000				January 31, 2027

(1) Production area storage requires a complementary amount of the firm transportation capacity identified in the first column to move storage gas withdrawals to Chattanooga Gas's service area.

(2) Supplemental underground storage withdrawals include delivery to Chattanooga Gas's service area and do not require any of the firm transportation capacity identified in the first column. Injections into supplemental underground storage require incremental transportation, primarily from transportation identified in Column 1.

(3) The East Tennessee Natural Gas Company contract is reduced by 2,000 dth/day for released capacity to a third party expiring on 10/31/2022.

"DT" is an abbreviation for dekatherms.

FERC FORM NO. 2 (12-96)

Name of Respondent	This Report is:	Date of Report	Year of Report		
Chattanooga Gas Company	(1) [X] An Original	(Mo, Da, Yr)	2020		
	(2) [ ] A Resubmission				
Statement of Income					

Annual or Quarterly, if applicable

5. Do not report fourth quarter data in columns (e) and (f) 6. Report amounts for accounts 412 and 413, Revenues and Expenses from Utility Plant Leased to Others, in another utility columnin a similar manner to a utility department. Spread the amount(s) over

lines 2 thru 26 as appropriate. Include these amounts in columns (c) and (d) totals.

7. Report amounts in account 414, Other Utility Operating Income, in the same manner as accounts 412 and 413 above.

Report data for lines 8, 10 and 11 for Natural Gas companies using accounts 404.1, 404.2, 404.3, 407.1 and 407.2.
 Use page 122 for important notes regarding the statement of income for any account thereof.

10. Give concise explanations concerning unsettled rate proceedings where a contingency exists such that refunds of a material amount may need to be made to the utility's customers or which may result in material refund to the utility with respect to power or gas purchases. State for each year effected the gross revenues or costs to which the contingency relates and the tax effects together with an explanation of the major factors which affect the rights of the utility to retain such revenues or recover amounts paid with respect to power or gas purchases.

11 Give concise explanations concerning significant amounts of any refunds made or received during the year resulting from settlement of any rate proceeding affecting revenues received or costs incurred for power or gas purches, and a summary of the adjustments made to balance sheet, income, and expense accounts.

12. If any notes appearing in the report to stokholders are applicable to the Statement of Income, such notes may be included at page 122.

13. Enter on page 122 a concise explanation of only those changes in accounting mehods made during the year which had an effect on net income, including the basis of allocations and apportionments from those used in the preceding year. Also, give the appropriate dollar effect of such changes.

14. Explain in a footnote if the previous year's/quarter's figures are different from that reported in prior reports.

			·			

10. Chattanooga Gas filed a petition for the Annual Rate Review Mechanism (ARM) to the TPUC in April 2019 (Docket No. 19-00047). The TPUC unanimously approved the ARM and the Stipulation and Settlement Agreement in August 2019. The first rate adjustment was filed on May 29 2020, with the rate change effective October 2020. In accordance with the terms in the ARM, Chattanooga Gas has an opportunity to recover in future rates the earnings deficiency from 2020. Chattanooga Gas' 2020 financial information in this filing does not reflect any accruals associated with such future recovery.

During the previous Chattanooga Gas Rate Case in 2018, the TPUC indicated that Chattanooga Gas has outstanding tax issues related to the 2017 Federal Tax Cuts and Jobs Act (TCJA) that should be addressed in Tax Docket No. 18-00035. In March 2020, the TPUC ruled that the 2018 tax savings related to TCJA were not decided in the rate case and ordered Chattanooga Gas to refund \$843,810 in 2018 tax savings and \$1,000,900 for the excess deferred income tax amortization (total of \$1,844,710) over 3 years as a reduction to rate base and to be addressed through ARM. In Chattanooga Gas' 2020 ARM filing, Docket 20-00049, the Company requested and was approved reconsideration to accelerate the return of the tax benefits previously approved in Docket 18-00035. In the Company's approved 2020 ARM Stipulation, the deferred tax savings of \$1,844,710 are being returned over one year, coinciding with the ARM rate period October 1, 2020 through September 30, 2021.

Gas Plant in Service (Accounts 101, 102, 103, and 106)			

1. Report below the original cost of gas plant in service according to the prescribed accounts.

2. In addition to Account 101, Gas Plant in Service (Classified), this page and the next include Account 102, Gas Plant Purchased or Sold, Account 103, Experimental Gas Plant Unclassified, and Account 106, Completed Construction Not Classified-Gas.

3. Include in column (c) and (d), as appropriate corrections of additions and retirements for the current or preceding year.

4. Enclose in parenthesis credit adjustments of plant accounts to indicate the negative effect of such accounts.

5. Classify Account 106 according to prescribed accounts, on an

estimated basis if necessary, and include the entries in column (c). Also to be included in column (c) are entries for reversals of tentative distributions of prior year reported in column (b). Likewise, if the respondent has a significant amount of plant retirements which have not been classified to primary accounts at the end of the year, include in column (d) a tentative distribution of such retirements, on an estimated basis, with appropriate contra entry to the account for accumulated depreciation provision. Include also in column (d) reversals of tentative distributions of prior year's unclassified retirements. Attach supplemental statement showing the account distributions of these tentative classifications in columns (c) and (d), including the reversals of the prior years tentative account distributions of these amounts. Careful observance of the above instructions

Genera	I al Description of Construction Overhead Procedure						
1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure							
for determining the amount capitalized, (c) the method of distribution to	· · · ·		•				
construction, (e) basis of differentiation in rates for different types of cor							
2. Show below the computation of allowance for funds used during constru	iction rates, in accordance with the provis	ions of Gas Plant Inst	ructions 3 (17)				
of the Uniform System of Accounts.							
3. Where a net-of-tax rate for borrowed funds is used, show the appropriat	te tax effect adjustment to the computation	ons below in a manne	r that clearly				
indicates the amount of reduction in the gross rate for tax effects.							
1. (a) Capitalized overheads include Administrative and General Sa	alaries, Office Supplies and Expenses,	Employee Pensions	and Benefits.				
(b) (1) Administrative and General Salaries and Office Supplies a	nd Expenses are capitalized on the ba	sis of the ratio of co	onstruction payroll to total				
company payroll excluding Administrative and General Salaries, fo							
$E = F \times G.$							
Where:							
E = Monthly A & G Salaries and Supplies Capitalized*							
F = Current month actual A & G Salaries and Supplies							
G = A & G Capitalization Ratio							
*E is allocated to Construction Work In Progress on the	e basis of the percentage calculated by	dividing the curre	nt month's total amount to be				
capitalized by the current month's total charges to construction. I	E is distributed to all projects having c	harges for the curre	ent month at a uniform percentage.				
(2) Employee Pensions and Benefits are capitalized monthly	(2) Employee Pensions and Benefits are capitalized monthly, using the following formula, and data for the twelve months ended 12/31/2020						
$A = (B/C \times D)$							
Where:							
A = Monthly Employee Pensions and Benefits Capitalized							
B = Employee Pensions and Benefits Expense							
C = Total Company Payroll							
D = Current Month Construction Payroll (including Admin	istrative and General Salaries Capitali	zed)					
	•	,					
(3) Engineering Costsa predetermined percentage of expe	(3) Engineering Costsa predetermined percentage of expense for certain engineering departments.						
(c) The amounts computed under (b)(2) are distributed to Construction Work in Progress on the basis of a percentage calculated by dividing the amount to be capitalized by the current month payroll charges to construction. Engineering Costs are allocated to projects based on the percentage of each projects's expenditure to total.							
	(d) A&G Salaries, Office Supplies & Expenses, and Employee Benefits are distributed to all jobs having payroll changes for the current month at a uniform percentage. Engineering costs are allocated based on the percentage of capital expenditure for each project to total.						
(e) No differentiation for A&G Salaries, Office Supplies & Expensions business, and support projects.	ses, and Employee Benefits and Pensio	ons. Engineering co	osts are allocated to mandatory, new				
(f) Indirectly accimed							
(f) Indirectly assigned.							
2. The annual rate used for capitalizing the allowance for funds us	ed during construction was 7.36 perce	ent determined on t	the basis of the approximate cost of				
capital							
	employed to finance the construction program. AFUDC is calculated on all eligible charges based on the eligible project types and activities. AFUDC eligible						
projects do not have requirements for minimum dollar amount or time to complete; therefore, AFUDC is calculated on all eligible charges beginning on the first							
month incurred until the month that the charges are cleared from the project by entering and closing a completion report in the Project Costing system. The AFUDC							
rate is equal to the authorized cost of capital in effect during the year. The calculation is as follows:							
(a) //Current Menthly Funerality and (192) /2) ///C	mulative Evenerality and a CZ44/4-2)/4-2	N					
(a) ((Current Monthly Expenditures x .0711/12) /2) + ((Cur	mulative Expenditures x .0741/12)/10	)					

3. Not applicable.

Distribution of Salaries and Wages

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals and Other Accounts and enter such amounts in the appropriate lines and columns provided. Salaries and wages billed to the Respondent by an affiliated company must be assigned to the particular operating function(s) relating to the expenses.

In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used. When reporting detail of other accounts, enter as many rows as necessary numbered sequentially starting with 75.01, 75.02, etc.

Charges for Outside Professional and Other Consultative Services

1. Report the information specified below for all charges made during the year included in any account (including plant accounts) for outside consultative and other professional services. These services include rate, management, construction, engineering, research, financial, valuation, legal, accounting, purchasing, advertising, labor relations, and public relations, rendered for the respondent under written or oral arrangement, for which aggregate payments were made during the year to any corporation partnership, organization of any kind, or individual (other than for services as an employee or for payments made for medical and related services) amounting to more than \$250,000, including payments for legislative services, except those which should be reported in Account 426.4 Expenditures for Certain Civic, Political and Related Activities.

(a) Name of person or organization rendering services.

(b) Total charges for the year.

2. Sum under a description "Other", all of the aforementioned services amounting to \$250,000 or less.

3. Total under a description "Total", the total of all of the aforementioned services.

4. Charges for outside professional and other consultative services provided by associated (affiliated) companies should be excluded from this schedule and be reported on Page 358, according to the instructions for that schedule.

Gas Account - Natural Gas					

1. The purpose of this schedule is to account for the quantity of natural gas received and delivered by the respondent

2. Natural gas means either natural gas unmixed or any mixture of natural and manufactured gas.

3. Enter in column (c) the year to date Dth as reported in the schedules indicated for the items of receipts and deliveries. 4. Enter in column (d) the respective quarter's Dth as reported in the schedules indicated for the items of receipts and deliveries.

5. Indicate in a footnote the quantities of bundled sales and transportation gas and specify the line on which such quantities are listed.

6. If the respondent operates two or more systems which are not interconnected, submit separate pages for this purpose.

7. Indicate by footnote the quantities of gas not subject to Commission regulation which did not incur FERC regulatory costs by showing (1) the local distribution volumes another jurisdictional pipeline delivered to the local distribution company portion of the reporting pipeline (2) the quantities that the reporting pipeline transported or sold through its local distribution facilities or intrastate facilities, but not through any of the interstate portion of the reporting pipeline, and (3) the gathering line quantities that were not destined for interstate market or that were not transported through any interstate portion of the reporting pipeline.

8. Indicate in a footnote the specific gas purchase expense account(s) and related to which the aggregate volumes reported on line No. 3 relate.

9. Indicate in a footnote (1) the system supply quantities of gas that are stored by the reporting pipeline, during the reporting year and also reported as sales, transportation and compression volumes by the reporting pipeline during the same reporting year, (2) the system supply quantities of gas that are stored by the reporting pipeline during the reporting year which the reporting pipeline intends to sell or transport in a future reporting year, and (3) contract storage quantities.

10. Also indicate the volumes of pipeline production field sales that are included in both the company's total sales figure and the company's total transportation figure. Add additional information as necessary to the footnotes.
