## TIBRS TRAINING UPDATE

As you know, the CJIS Support Center has cancelled all classes since the COVID-19 outbreak.

I don't think anyone knew how long the pandemic would last, and we're certainly not out of the woods yet. That being the case, **we have decided to waive the recertification training requirement for calendar year 2020.**

*This only applies to RACs and Alternate RACs who have already completed their introductory TIBRS training.*

We are working on an Introduction to TIBRS Data Collection class that will be taught online.

Beginning July 15, 2020, we will be teaching web-based classes via Microsoft TEAMS. The initial classes will be RAC Orientation and Introduction to CrimeInsight. For more information, or to sign up for a class, please contact:

## THIS MONTH FROM CRIMEINSIGHT

### MURDER AND AGGRAVATED ASSAULTS COMMITTED WITH A WEAPON TYPE OF FIREARM

(March thru June, 2019-20)

Murder, With Weapon Type of Firearm								
Date	Mar. 2019	Mar. 2020	April 2019	April 2020	May 2019	May 2020	June 2019	June 2020
TOTAL	27	37	38	36	22	35	35	46

Aggravated Assault With Weapon Type of Firearm								
Date	Mar. 2019	Mar. 2020	April 2019	April 2020	May 2019	May 2020	June 2019	June 2020
TOTAL	1,162	1,330	1,329	1,547	1,158	1,379	1,935	1,970

As you can see, firearms being used in murders and aggravated assaults are on the rise. There were a total of 122 murders in the four-month period in 2019. That number has increased to 154 in 2020. That is an increase of 26.2%!

As for aggravated assaults, it's pretty much the same story. Between March 1 and June 30, 2019, a total of 5,584 aggravated assaults were committed with a firearm. During the same time period, that number has increased to 6,226 for the time being, because we are still processing June, 2020 data submissions. That number (6,226) will likely be considerably higher when all of the data is in.

## SHOPLIFTING OR FRAUD?

An individual goes to the self-check to make purchases. In the cart is a pillow (\$10), shampoo (\$5), conditioner (\$5), pair of tennis shoes (\$50), and a camera (\$175). The person scans the pillow, shampoo, and conditioner. The individual acts as though he/she is scanning the tennis shoes and camera but does not and places the items in the bag with the other items. The individual pays \$20 (plus tax) and exits the store with **ALL** of the items. What do you report to TIBRS?

**False Pretense/Swindle/Con** – The individual used a scheme, “skip scanning” to obtain items without paying for them.

---

An individual enters a store, goes to the cooler, and takes out a 12-pack of Cokes. The individual then walks past all points of sale and exits the store. What do you report to TIBRS?

**Shoplifting.**— The individual passed all points of sale and left without paying.

---

An individual enters a department store, picks up bedding, and leaves the store. The individual returns to the store three hours later, and takes the bedding to the service desk for a refund. The clerk at the service desk gives the individual a refund for an item never purchased. The store security officer got everything on video and the subject was arrested. What do you report to TIBRS?

In this example, you would report two separate incidents:

**Shoplifting** occurred when the individual left the store with the bedding.

**False Pretense/Swindle/Con** occurred when the individual returned 3 hours later and received the refund.
