Ladies and Gentlemen:

I would like to present the 2018 Law Enforcement Officers Killed or Assaulted (LEOKA) annual report. This report is published by the TBI presenting information on reported incidents of assaults or deaths of law enforcement officers in the line of duty that occurred in Tennessee. The information contained in the report is based on crime statistics information submitted by law enforcement agencies, colleges and universities in Tennessee to TBI's Tennessee Incident Based Reporting System (TIBRS) program. TIBRS is the state version of the FBI's National Incident Based Reporting System (NIBRS) program. The information collected by TBI conforms to the national standard as presented in the FBI's annual LEOKA report. Please see <https://crimeinsight.tbi.tn.gov/> for additional information.

I am very proud of the efforts of all participating law enforcement agencies in the state to provide the data necessary to produce this report. Our combined efforts have resulted in a successful program and this annual report providing information on incidents involving assaults and deaths of our law enforcement officers.

Sincerely,

A handwritten signature in black ink, appearing to read "David B. Rausch", written over a white rectangular background.

# Law Enforcement Officers Killed or Assaulted 2018

The current report presents analyses of incidents in which Law Enforcement Officers were killed or assaulted in the line of duty in 2018. The information is collected through the Tennessee Incident Based Reporting System (TIBRS). Incident based reporting views a crime and all of its components as an “incident”. In order to obtain important information, facts recorded and preserved about the incident are organized into specific categories or segments. The vehicle used for recording these facts is a “data element”. Data elements provide information about crime and its involvement with victims, offenders, property, arrestees, etc.

Offenses included for analyses:

**Murder and Non-negligent Manslaughter** – The willful (non-negligent) killing of one human being by another.

Note: Deaths of Law Enforcement Officers by accidental causes do not meet the FBI’s reporting criteria for a LEOKA offense

**Aggravated Assault** – An unlawful attack by one person upon another wherein the offender uses a weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration or loss of consciousness.

**Simple Assault** – An unlawful physical attack by one person upon another where neither the offender displays a weapon, nor the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration or loss of consciousness.

**Intimidation** – To unlawfully place another person in reasonable fear of bodily harm through the use of threatening words and/or other conduct, but without displaying a weapon or subjecting the victim to actual physical attack.

**Stalking** – To intentionally and repeatedly follow or harass another person in such a manner as would cause that person to be in reasonable fear of being assaulted, suffering bodily injury or death.

In 2018, a total of 214 agencies reported Law Enforcement Officers Killed or Assaulted (LEOKA).

Chart 6: Vehicle Assignment

A total of 40.8% of police officers who were victimized had a Vehicle Assignment of *One-Officer Vehicle (Assisted)*, whereas 29.8% had a Vehicle Assignment of *One-Officer Vehicle (Alone)*. Further findings revealed that the most frequent offense reported with *One-Officer Vehicle (Assisted)* assignment was *Simple Assault* at 58.9%.

## LEOKA Injuries and Weapons Used

Per TIBRS, up to five injury types can be reported per victim. Injury Type is a required data element when reporting Aggravated and Simple Assaults. There were 2,169 reported injury types in 2018. The category of *None* comprised 70.4% in 2018, while 26.1% of incidents indicated were reported as an *Apparent Minor Injury* in 2018.

## Timing of LEOKA Incidents

When comparing the frequency of LEOKA incidents by day of week, most incidents occurred on *Tuesday* (16.2%), and *Saturday* (15.3%) in 2018. LEOKA incidents were less likely to occur on Sunday and Wednesday.

Further analysis indicated that most incidents occurred between 6:00 p.m. and 8:59 p.m., followed by 3:00 p.m. - 5:59 p.m. During these times, Simple Assault was the most commonly reported LEOKA offense type.

Chart 9 illustrates the monthly breakdown of the 2,313 LEOKA offenses in 2018. *January* and *May* (9.3%) accounted for the highest reported month respectively, followed by *September* at 9.2%.

Notably, from *September* to *November*, LEOKA incidents decreased 29.6% from 213 incidents to 150 incidents. This could be attributed to the change of time, weather, or increase of traveling due to the holiday season.

Though the month of *January & May* comprised the highest reported months of the year, LEOKA occurrences remained relatively consistent during the hotter months in 2018.
