

US 127 (SR 28) Improvements

From near Lowe Road to near Little Road

Cumberland and Fentress Counties

Project Info:

Contractor: Jones Bros., Inc.

Cost: \$85,635,017.24

Completion: Fall 2026

Length: 3.2 miles

Includes a 1,425-ft long bridge over Clear Creek

- 10-span concrete structure
- 150-ft tall at highest point

1 retaining wall

1 signalized intersection @ SR-62

101 tracts of right of way

- 19 residential relocations
- 2 business relocations

8 utility relocations

800,000+ cubic yards of excavation

220,000 cubic yards of acid producing rock

50,000 tons of asphalt

Overview:

The project will widen US-127/SR-28 (South York Highway) from a two-lane roadway with roadside ditches to a five-lane roadway (two lanes in each direction with a dedicated center turn lane) along with the addition of paved shoulders, drainage, sidewalks, and curb-and-gutter. Significant improvements will be made to the intersection of SR-28 and SR-62 in Clarkrange with additional turn lanes, new traffic signals, and improved pavement markings. A portion of the roadway will transition to a new alignment for construction of a new 1,425-foot bridge over Clear Creek. The new bridge will have two 12-foot lanes in each direction with 4-foot inside shoulders and 12-foot outside shoulders. This project will also include construction of a retaining wall and rehabilitation of the existing bridge over Clear Creek.
