## Overview of Report

This report is prepared pursuant to T.C.A. §49-4-903(b), which directs the TennesseeHigher Education Commission (THEC)to:
"...provide assistance to the general assembly and to the Tennessee StudentAssistance Corporation(TSAC) by researching and analyzing data concerning the scholarship and grant programs created under this part, including, but not limited to, student success and scholarship retention."

The Tennessee Education Lottery Scholarship (TELS) program was designed to meet the unique needs of the State of Tennessee, while also incorporating the hallmark elements of existing merit-based aid programs in other states. Developed through a process involving elected officials and members of the academic community, the TELS program aims to address the following broad public policy objectives:

- Improve academic achievement in high school through scholarship incentive(GAMS, HOPE, Aspire);
- Provide financial assistance as a means of promoting access to higher education (Aspire, Access);
- Retain the state's "best and brightest" students in Tennessee colleges and universities (GAMS); and
- Enhance and promote economic and community development through workforce training (Wilder-Naifeh).

## Technical Notes \& Definitions

- Unless otherwise noted, data contained within this report are from the Tennessee Student Assistance Corporation (TSAC) e*GRandS system, the Tennessee Higher Education Commission's (THEC) Student Information System (SIS), and the P20 Connect Data System.
- The current report uses TSAC verified e*GRandS data to determine all TELS-eligible students and is supplemented with THEC and P20 Connect data, where applicable (e.g., graduation data).
- The P20 Connect Data System was used as an additional source to match retention and graduation data. This is most useful in the case of students enrolled at Tennessee's Independent Colleges and Universities(TICUA institutions). Only select TICUA institutions participate in the P20 Connect, however, so this is not a complete picture of private school retention or completion.
- Twenty private institutions submit data to P20 Connect:Aquinas College, Bethel University, CarsonNewman University, Christian Brothers University, Cumberland University, Fisk University, Johnson University, Lane College, Lee University, Lipscomb University, Martin Methodist University, Maryville College, Memphis College of Art, Milligan College, Rhodes College, Tennessee Wesleyan College, Trevecca Nazarene University, Tusculum College, Union University, and Watkins College of Art, Design, and Film.
- Students are identified by higher education sector and scholarship type at college entry, unless otherwise noted.
- Students with inadmissible or missing data values are reported in the Unknown category.
- Unless otherwise noted, all tables and figures include Locally Governed Institutions(LGIs), TBR Community Colleges, UT Campuses, and private institutions, and HOPE, GAMS, Aspire, and Access programs.
- The " 6 -year graduation rate" is defined as the percent of TELS first-time freshmen who attained either an associate or bachelor's degree within six years of enrollment regardless of scholarship status at graduation.
- The "graduation rate with TELS intact" is defined as the percent of TELS first-time freshmen who attained either an associate or bachelor's degree within five years of enrollment without losing scholarship eligibility (having the scholarship intact in the fall semester prior to graduation). Five years is chosen for this statistic because that is the maximum number of years for which students can renew a scholarship.
- Renewal, retention, and graduation rates are attributed to the higher education sector and scholarship type at college entry.
- Percentages may not add to 100 percent due to rounding.

## Privacy Notice

Throughout this report, THEC complies with Family Educational Rights and Privacy Act (FERPA) requirements to protect students' personally identifiable information. Therefore, when tables are presented, individual cells containing five or fewer observations are suppressed. The suppressed information is included in table totals.

## Executive Summary

- Over 147,000 students received Tennessee's Education Lottery Scholarship awards in 2018-19, totaling \$393 million in scholarship dollars.
- The HOPE Scholarship remains the most common award type(Table 3) and community colleges remain the most highly attended system among all scholarship recipients. Recipients attending community colleges also receive the greatest share of scholarship dollars (Table 5).
- TELS recipient demographics remained relatively constant, with no notable shifts based on gender, race/ethnicity, family adjusted gross income (AGI), or Pell eligibility among first-time freshmen. Lottery scholarships are awarded at the highest rates among students who are female (58 percent), white(77 percent), and whose families AGI exceeds \$96,000 (33 percent)(Tables 9 and 10 and Figure 3).
- The GAMS and HOPE scholarships are renewed at the highest rates, 90 percent and 58 percent, respectively (Table 14). Female students renew scholarships at higher rates than males, as do white students relative to non-white students (Table 15). Scholarship renewal rates increase with ACT Composite Score and High School GPA (Table 17).
- Students who lost scholarship eligibility during their freshman year remained enrolled most often at UT campuses ( 73 percent), were GAMS recipients ( 63 percent), or belonged to families whose AGI exceeds $\$ 96,000$ ( 64 percent) (Tables 18, 19, and 20).
- Students who enter college with a combination of a high GPA and ACT composite have a greater likelihood of graduating with their scholarship intact (Table 23).
- The average six-year graduation rate among TELS recipients, varies by scholarship type(initial receipt), with the overall graduation rate at 61\% (Figure 7).

Notes:

- "Average Tuition and Fees" is an unweighted average of resident tuition and fees for full-time undergraduate students at public institutions.
- This table does not include the HOPE award or tuition and fees for the summer semester.
- Compound Annual Growth Rate is for 2004-05 to 2018-19.

## Figure 1

## Maximum HOPE Award Amount as a Percent of Average Tuition and Fees at Public Institutions, 2004-05 to 2018-19

Notes:

- "Average Tuition and Fees" is an unweighted average of resident tuition and fees for full-time undergraduate students at public institutions.
- This figure does not include the HOPE award or tuition and fees for the summer semester.
- The increase in "buying power" between 2014-15 and 2015-16 at community colleges can be explained by the change in HOPE award amounts in 2015-16.

## Scholarship Renewal

## Renewal Requirements

Tennessee Education Lottery Scholarship (TELS) recipients are evaluated for scholarship renewal after every 24 attempted credit hours. At the 24 -and 48 -hour check points, students must have earned a cumulative postsecondary GPA of 2.75 or higher to remain eligible for the scholarship. Upon attempting 72 credit hours, a minimum cumulative GPA of 3.0 is required to remain eligible. This continues at each subsequent 24 credit hour check point, up to 120 credit hours.

State law permits those with 72 or more credit hours to maintain eligibility if their cumulative GPA is less than 3.0, as long as they:

- have maintained a cumulative grade point average of at least 2.75;
- have earned a semester grade point average of at least 3.0 for the semester in which continuing eligibility was reviewed;
- have enrolled full-time in the semester when continuing eligibility was reviewed; and
- will enroll full-time in the subsequent semester.

The TELS award is available for up to five years, baccalaureate degree attainment, or 120 attempted credit hours, whichever comes first. The 120 hour cap is applicable only to students who first received TELS in fall 2009 and after. Students in programs requiring more than 120 credit hours are exempt from the 120 hour cap. These students can receive a scholarship until they have attempted the number of hours required to earn the degree, not to exceed 136 credit hours.

Notes:

- Scholarship renewals and retention rates are fall to fall. Retention means a student returned to higher education the following fall with or without the scholarship intact.
- Students are only eligible to receive a TELS scholarship for up to 5 years or 120 credit hours, whichever event occurs first. As a result, for the table, retention rates are not calculated past the fifth semester.

## Scholarship Renewal, Postsecondary Retention, and Graduation Rates, Fall 2012 First-Time Scholarship Recipients

## Notes:

- Scholarship renewal and college retention rates are fall to fall. Retention means a student returned to a higher education institution the following fall with or without the scholarship intact.

Explanation: Explanation: This graph represents the trajectory for first-time freshman TELS recipients in fall 2012. The blue line represents the share of those FTF who renewed their scholarship each year (e.g., $57 \%$ of FTF retained their scholarship in Y2). The orange line represents the share of FTF who were retained in higher education ( $82 \%$ of the total fall FTF cohort was enrolled in higher education in Y2). The blue bar represents the four-year graduation rate of the total fall FTF cohort. The red bar indicates that $35 \%$ of the cohort graduated on their scholarship. The green and gray bars represent five and six year graduation rates, respectively, of the total cohort.
