

Cohen Veterans Network

HISTORY

Founded by Steven A. Cohen in 2016, Cohen Veterans Network was created to serve post-9/11 veterans and military families through our **Steven A. Cohen Military Family Clinics.**

- *Improve quality of life for veterans and military families*
- *Outpatient mental health clinics with trained clinicians*
- *Provide high-quality mental health care that is accessible to all*

CVN PRESENTS

VIRTUAL COMMUNITY ROOM

In addition to providing vital mental health services, each **Steven A. Cohen Military Family Clinic** has become a pillar in its community in part due to a wide variety of workshops, seminars, partner gatherings, and other events held in the community rooms in each location.

During the pandemic, the network has launched this virtual community room, while the clinics are treating clients primarily via **CVN Telehealth**.
