ACCRA Cost-of-Living Index— Third Quarter 2003

The American Chamber of Commerce Researchers Association (ACCRA), founded in 1961, is a nonprofit professional organization comprised of research staff of chambers of commerce, economic development organizations, and related organizations in participating urban areas throughout the United States and Canada. AC-CRA developed the AC-CRA Cost-of-Living Index in 1968 to meet the need for a measure of living cost differentials among urban areas.

The index measures the relative price levels for consumer goods and services in metropolitan and non-metropolitan areas whose chambers of commerce have agreed to participate in the survey. The average of all participating cities equals 100.0, and each participant's index is read as a percentage of the average for all places.

Taxes, both state and local, are an integral part of the cost-of-living and vary widely between state and metro areas. Due to the multiplicity of state and local taxes, taxing jurisdictions, and assessment procedures, the ACCRA felt it was not feasible to measure taxes levied on real and intangible property, retail sales, and income.

The index does not measure inflation (price change over time) because each quarterly report is a separate snapshot of prices at a single point in time. The number and mix of the chambers of commerce that participate may change from one quarter to the next. Index data from different quarters cannot be compared.

While items seem selfdescriptive for most categories, the miscellaneous goods and services need to be enumerated due to the vagueness of the heading and the weight carried (33 percent). This category includes men's clothes and underwear, fast food items, health and beauty items, dry cleaning, major appliance repair, newspapers, entertainment, and alcoholic beverages.

Since last year the weighting system of the cost-ofliving index changed. Grocery items declined by two percent, and health care declined by one percent. Housing increased by one percent, and utilities increased by 2 percent.

The highest and lowest costs in the country by group are as follows: Grocerv Items: Honolulu, HI (151.7) and Seguin, TX (76.8): Housing: New York (Manhattan) (416.6) and Cedar City, UT (67.6); Utilities: Boston, MA (154.1) and Wenatchee, WA (58.6); Transportation: Kodiak, AK (129.4) and Douglas, GA (77.7); Health Care: Middlesex, NJ (184.7) and Minot. ND (63.0); and Miscellaneous Goods and Services: New York (Manhattan) (134.9) and Paris. TX (86.0).

For more information on subscribing to this cost-ofliving index or joining the ACCRA please contact your local chamber of commerce. You may contact the ACCRA directly at 703-522-4980 (phone), 703-533-4985 (fax), or visit their Website at **www. accra.org**.

Seguin, TX How to Use the ACCRA Cost-of-Living Index: As:	84.3	76.8	76.8	93.6	89.9	84.5	89.6

How to Use the ACCRA Cost-of-Living Index: Assume that City A Has a composite index of 98.3 and City B has a composite index of 128.5. If you live in City A and are contemplating a job offer in City B, how much of an increase in your after-tax income is needed to maintain your current lifestyle? 100*{(City B-City A)/City A} = 100*{(128.5-98.3)/98.3} = 100*(.3072) = 30.72%, or about a 31% increase. Conversely, if you are considering a move from City B to City A, how much of a cut in after-tax income can you sustain without reducing your present lifestyle? 100*{(City A-City B)/City B} = 100*{(98.3-128.5)/128.5} = 100*(-.235) = -23.5%, or about a 24% reduction.

NONFARM EMPLOYMENT AND LABOR-FORCE IN TENNESSEE

Tennessee's seasonally adjusted estimated unemployment rate for December 2003 was 5.7 percent, down one-tenth of a percentage point from the November 2003 rate. This is the 36th consecutive month that the Tennessee seasonally adjusted unemployment rate was equal to or lower than the national rate.

The United States estimated unemployment rate was 5.7 percent in December 2003. In December 2002, the national unemployment rate was 6.0 percent, and the state unemployment rate was 4.9 percent.

Across Tennessee, the unemployment rate decreased in 78 counties and increased in 17 counties. The lowest rate occurred in Williamson County at 2.6 percent, down 0.3 percentage points from the previous month. The highest rate was Clay County's 15.6 percent, down from 15.8 percent in November 2003. (Continued on Page 6)

(Continued from Page 5) Total nonfarm employment increased by 6,100 jobs from December 2002 to December 2003. During this period there were increases in health care/social assistance (up 7,700 jobs), which includes an increase of 3,100 jobs in hospitals, 2,200 jobs in ambulatory health care services, and 1,600 jobs in nursing/residential care facilities; administrative/support/waste management (up 4,600 jobs); food services/drinking places (up 3,200 jobs); retail trade (up 2,500 jobs); local government (up 1,700 jobs); and state government educational services (up 1,300 jobs).

Over the year, the largest job decreases occurred in construction (down 4,600 jobs); transportation/warehousing (down 4,000 jobs), which includes a decline of 2,800 jobs in truck transportation; machinery manufacturing (down 2,100 jobs); information (down 1,200 jobs); and gasoline stations (down 1,100 jobs).

During the past month, nonfarm employment decreased by 2,100 jobs.

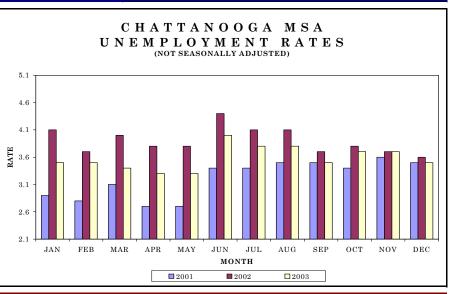

There were seasonal declines in leisure/hospitality (down 2,100 jobs), which includes a drop of 1,200 jobs in arts/entertainment/recreation; construction (down 1,800 jobs); and state government (down 1,100 jobs). This was partially offset by an increase in retail trade (up 3,300 jobs), which includes an increase of 1,000 jobs in general merchandise stores and professional/ business services (up 1,600 jobs), which includes an increase of 1,200 jobs in professional/scientific/technical services.

The data from all the nonfarm employment estimates tables include all full- and part-time nonfarm wage and salary employees who worked during, or received pay for, any part of the pay period which includes the 12th of the month. This is a count of jobs by place of work. Agricultural workers, proprietors, self-employed persons, workers in private households, and unpaid family workers are excluded. These numbers may not add due to rounding. Data are based on the 2002 benchmark. Chattanooga MSA — TN-Hamilton, Marion. GA-Catoosa, Dade, Walker

Total nonfarm employment remained unchanged from November to December. There were seasonal increases in retail trade (up 200 jobs) and administrative/support/waste management (up 200 jobs). This was partially offset by a decrease of 300 jobs in local government.

During the past 12 months nonfarm employment remained unchanged. During that time goods-producing jobs decreased by 1,400 while service-providing jobs increased by 1,400.

Memphis MSA- TN-Fayette, Shelby, Tipton. MS-DeSoto. AR-Crittenden.

Total nonagricultural employment decreased by 400 jobs from November to December. There were seasonal decreases in local government (down 1,000 jobs) and 200 jobs in construction, state government, and truck transportation. This was partially offset by increases in retail trade (up 1,000 jobs), which includes an increase of 200 jobs in general merchandise stores; hospitals (up 300 jobs); and professional/business services (up 200 jobs).
