

### October 2017

#### Bill Haslam Governor

n Z

**Department of Labor and Workforce Development** 

# The Labor Market Report

# Per Capita Income in U.S. Counties

According to the U.S. Bureau of Economic Analysis, the United States per capita personal income was \$49,246 in 2016. This is up 1.6 percent from the previous year.

Per capita personal income is defined as the annual total personal income of residents divided by the estimated residential population as of July 1. Personal income is derived by summing the net earnings, rental income, personal dividend/interest income, and transfer payments by place of residence. Personal income excludes federal income tax deductions and other personal taxes and is reported in current dollars. In simpler terms, it is the total income on the front page of your 1040 tax form. This data can be influenced by large growth (or decline) in population, natural disasters (i.e., flooding or hurricanes), commuting populations (those that primarily work in other counties), and state and local taxes.

#### The Richest and the Poorest

There were 13 counties that had a per capita income greater than \$100,000, while three counties had a per capita income less than \$20,000 per year. Teton County, Wyoming (population 23,125) is east of the Idaho state line. It includes both Yellowstone and Grand Teton national parks. In 2016, the per capita income in Teton County was the highest in the U.S. (\$199,635). The county with the lowest per capita income was Wheeler County, Georgia. Wheeler County (population 7,903) is a rural county in east-central Georgia between Macon and Savannah. In 2016, the per capita income in Wheeler County was the lowest in the U.S. at \$16,267. The disparity between Teton and Wheeler counties is so great that the monthly per capita income in Teton County (\$16,636) is greater than the yearly per capita income in Wheeler County.

The per capita income in Shackelford County, Texas (outside of Abilene) was \$162,378. This was the second highest per capita income but was \$37,257 less, per person, than Teton County. Other high income counties were New York County, New York (\$132,989), all five boroughs; Pitkin (Aspen) County, Colorado (\$128,738), and Marin County, California (\$115,952), just north of San Francisco. In addition to Wheeler County, Georgia the other places with low per capita income were Ziebach County, South Dakota (\$16,681), Union County, Florida (\$19,374), Bledsoe County, Tennessee (\$20,353), and Telfair County, Georgia (\$20,541). Ziebach County, South Dakota is alphabetically, the last county in the U.S. It consists, entirely, of two native American reservations. Union County, population 15,234, is the smallest county in Florida, north of Gainesville.

#### In Tennessee

The 2016 per capita personal income in Tennessee was \$43,326, up 2.8 percent from the previous year. Only nine Tennessee counties had per capita incomes greater than \$42,000. The highest per capita incomes in Tennessee were in Williamson County (\$90,979), Davidson County (\$58,283), Fayette County (\$50,209), Hamilton County (\$47,1070), and Shelby County (\$44,978). The lowest incomes were in Bledsoe County (\$20,353), Lake County (\$23,894), Hancock County (\$24,256), Lauderdale County (\$26,994), and Van Buren County (\$27,268). Bledsoe County had the fourth lowest per capita income in the country while Lake County had the 23rd lowest.

#### **Changes by Percentage**

The U.S. counties with the largest percent growth of per capita personal income from 2015 to 2016 were Tillman County, Oklahoma (up 28.1 percent), Issaquena County, Mississippi (up 24.9 percent), Holt County, Missouri (up 20.6 percent), and Taylor County, Kentucky (up 18.1.2 percent). Tillman County is on the Red River and Texas border north of Wichita Falls, while Issaquena County is the least populous county (population 1,337) east of the Mississippi River, near Vicksburg. The county with the highest percentage decline is Kenedy County, Texas (down 39.6 percent). It is the fourth least populous county (population 407) in the U.S. It is located north of Brownsville, Texas on the Gulf of Mexico. The next three counties with large declines are also in Texas. They are Hartley County (down 33.1 percent), Parmer County (down 30.3 percent), and Castro County (down 30.1 percent). These three counties are west of Amarillo, Texas on the New Mexico border.

### **Highest and Lowest County Per Capita Income 2014-2016**

# NONFARM EMPLOYMENT & LABOR FORCE NARRATIVE

Total nonfarm employment increased by 35,300 jobs from October 2016 to October 2017. There were increases in construction (up 4,800 jobs), which includes increases of 2,900 jobs in specialty trade contractors and 1,100 jobs in heavy/civil engineering construction; accommodation/food services (up 4,600 jobs), which includes increases of 2,700 jobs in food services/drinking places and 1,900 jobs in accommodation; retail trade (up 4,400 jobs), which includes increases of 4,200 jobs in general merchandise stores and 1,300 jobs in building material/garden equipment/supplies, combined with a decline of 1,400 jobs in miscellaneous store retailers; state government (up 4,300 jobs), which includes an increase of 2,600 jobs in state government educational services; health care/ social assistance (up 4,000 jobs), combined with an increase of 3,200 jobs in ambulatory health care services; wholesale trade (up 3,000 jobs), which includes increases of 1,200 jobs in wholesale trade durable goods and 1,100 jobs in wholesale electronic markets; transportation/ warehousing (up 3,000 jobs); administrative/ support/waste management (up 2.800 jobs): management of companies/enterprises (up 2,200 jobs); and educational services (up 1,900 jobs). These increases were partially offset by declines of 3,100 jobs in professional/scientific/technical services and 1,300 jobs in federal government.

During October 2017, nonfarm employment increased by 11,100 jobs. There were increases in educational/health services (up 4,500 jobs), which includes increases of 3,000 jobs in educational services and 1,500 jobs in health care/social assistance; local government (up 3,900 jobs), which includes an increase of 3,300 jobs in local government educational services; state government educational services (up 2,400 jobs); administrative/support/waste management (up 2,000 jobs); and transportation/warehousing and finance/insurance (both up 1,000 jobs). These were partially offset by declines in arts/entertainment/recreation (down 1,800 jobs) and wholesale trade durable goods (down 1,000 jobs).

Tennessee's seasonally adjusted estimated unemployment rate for October 2017 was 3 percent, unchanged from the revised September 2017 rate. The United States unemployment rate in October 2017 was 4.1 percent, down 0.1 percentage point from the revised September 2017 rate. In October 2016, the U.S. seasonally adjusted rate was 4.8 percent while the state rate was 5 percent.

The not seasonally adjusted unemployment rate deceased in four counties, increased in 84 counties, and remained the same in seven counties. Williamson and Davidson counties had the lowest rate at 2.2 percent. The highest rate was in Rhea County at 5.4 percent, up from 4.8 percent in September. Only Lauderdale and Rhea counties had rates higher than 5 percent.

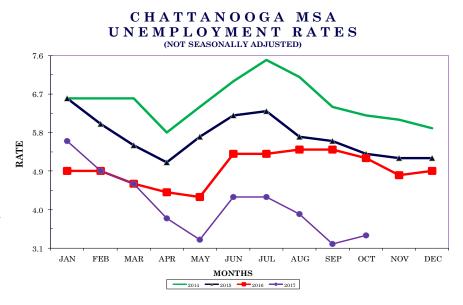

The data from all the nonfarm employment estimates tables include all full- and part-time nonfarm wage and salary employees who worked during or received pay for any part of the pay period that includes the 12th of the month. This is a count of jobs by place of work. Agricultural workers, proprietors, self-employed persons, workers in private households, and unpaid family workers are excluded. These numbers may not add due to rounding. Data are based on the 2016 benchmark.

Total nonfarm employment in Chattanooga increased by 1,500 jobs from September 2017 to October 2017. There were increases in professional/business services (up 700 jobs), local government (up 300 jobs), and state government, transportation/warehousing/utilities, and leisure/hospitality (each up 200 jobs). These were partially offset by a decrease of 200 jobs in education/health services.

During the past 12 months, nonfarm employment increased by 5,900 jobs. During the year, goods-producing jobs increased by 1,700 while service-providing jobs increased by 4,200.
