

New Source Review newspaper advertisements for construction permit applications, August 6, 2009. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: August 4, August 5, or August 6, 2009. Public notices are generally published every two weeks. The previous publication of public notices was July 23, 2009.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Crossville, Inc. with a mailing address of P.O. Box 1168, Crossville, TN 38557. They seek to obtain air contaminant permits for construction of air contaminant sources at 346 Sweeney Drive, Crossville, TN 38555, as follows:

(1) Tunnel Kiln (Division identification number: 18-0086-23/62930). This proposed operation would consist of one natural gas-fired tunnel kiln and associated equipment used to produce ceramic tile. Because of the amount and type of emissions, pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source.

(1) Tunnel Kiln (Division identification number: 18-0086-24/62931). This proposed operation would consist of one natural gas-fired tunnel kiln and associated equipment used to produce ceramic tile. Because of the amount and type of emissions, pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source.

(3) Tile Dryers (Division identification number: 18-0086-25/62939). This proposed operation would consist of two natural gas-fired tile dryers and associated equipment used to dry ceramic tile. Because of the amount and type of emissions, pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source.

(4) Tile Presses (Division identification number: 18-0086-26/62940). This proposed operation would consist of three tile presses and associated equipment used to form ceramic tile. A baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source.

(5) Tile Glazing Lines (Division identification number: 18-0086-26/62940). This proposed operation would consist of two tile glazing lines and associated equipment used to glaze ceramic tile. A baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source.

(3) Tile Mounting Machine (Division identification number: 18-0086-27/62941). This proposed operation would consist of one natural gas-fired tile mounting machine and associated equipment used to dry glue. Because of the amount and type of emissions, pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source.

For the Cumberland County *Crossville Chronicle* -- published once on or before Thursday, August 6, 2009.

The applicant is Southern Plating, Inc. with a mailing address of P.O. Box 754, Savannah, TN 38372. They seek to obtain an air contaminant permit (Division identification number: 36-0108-02/62928) for modification of a metal plating line located at 565 Industrial Road, Savannah, TN 38372. This existing operation consists of metal plating tanks and associated equipment used in chrome and zinc plating processes. The requested modification is to add a new barrel plating line. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.
