

New Source Review newspaper advertisements for construction permit applications, February 5, 2009. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: February 3, February 4, February 5, or February 6, 2009. Public notices are generally published every two weeks. The previous publication of public notices was January 22, 2009.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Atlas Pipeline Tennessee, LLC with a mailing address of 313 Oak Ridge Turnpike, Oak Ridge, TN 37830. They seek to obtain air contaminant permits for construction of a natural gas compressor station on Vowel Mountain Road, approximately 3.5 miles from Lake City, as follows:

(1) Natural gas-fired engine (Division identification number: 01-0244-01/62570). This proposed operation would consist of one 1,265 horsepower natural gas-fired engine. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. T. Blake is the assigned Division person.

(2) Natural Gas Dehydration Unit (Division identification number: 01-0244-02/62609). The proposed operation would consist of a skid-mounted dehydration unit with a natural gas-fired heater (0.2 MMBtu/hr heat input capacity). Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. T. Blake is the assigned Division person.

For the Anderson County "Oak Ridger" -- publish once on or before Thursday, February 5, 2009.

The applicant is RM Design, Inc. with a mailing address of P.O. Box 4328, Irmo, SC 29063. They seek to obtain air contaminant permits for air contaminant sources located at 5249 Highway 67 W (Northeast Correctional Center), Mountain City, TN 37683 as follows:

(1) Hardwood Flooring Finishing Operation (Division identification number: 46-0056-01/62432). This proposed operation would consist of equipment used for finishing hardwood flooring: sander, enclosed sprayer, electric oven, and associated equipment used to finish hardwood flooring. A baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Hymelia Craig is the assigned Division person.

(2) Surface Coating Operation (Division identification number: 46-0056-02/62433). This proposed operation would consist of one spray booth, a drying tunnel, and associated equipment used for staining hardwood flooring. A baghouse would be used for pollution control equipment. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Hymelia Craig is the assigned Division person.

(3) Scraping Operation (Division identification number: 46-0056-03/62434). This proposed operation would consist of several scraping tables, sanders, and associated equipment used for scraping and distressing the surface of flooring boards. Compact dust collectors would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Hymelia Craig is the assigned Division person.

For the Johnson County "Tomahawk"-- published once on or before Thursday, February 5, 2009.

The applicant is Atlas Pipeline Tennessee, LLC with a mailing address of 313 Oak Ridge Turnpike, Oak Ridge, TN 37830. They seek to obtain air contaminant permits for construction of a natural gas dehydration unit (Division identification number: 65-0061-01/62576) at the intersection of Big Mountain Hollow Road and Old Knoxville Highway, approximately one mile from Oliver Springs. The proposed operation would consist of a skid-mounted dehydration unit with a natural gas-fired heater (2.88 MMBtu/hr heat input capacity). Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. T. Blake is the assigned Division person.

For the "Morgan County News"-- published once on or before Thursday, February 5, 2009.

The applicant is Atlas Pipeline Tennessee, LLC with a mailing address of 313 Oak Ridge Turnpike, Oak Ridge, TN 37830. They seek to obtain air contaminant permits for construction of a natural gas compressor station on Fruehauf Road, Huntsville, as follows:

(1) Natural Gas Dehydration Unit (Division identification number: 76-0093-01/62574). The proposed operation would consist of a skid-mounted dehydration unit with a natural gas-fired heater (9 MMBtu/hr heat input capacity). Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. T. Blake is the assigned Division person.

(2) Natural gas-fired engine (Division identification number: 76-0093-02/62575). This proposed operation would consist of one 810 horsepower natural gas-fired engine. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. T. Blake is the assigned Division person.

For the "Scott County News"-- published once on or before Thursday, February 5, 2009.

The applicant is Royal Mouldings, LLC with a mailing address of P.O. Box 610, Marion, VA 24354. They seek to obtain an air contaminant permit (Division identification number: 82-0297-05/62610) for Plastic Extrusion Operation located at 328 Industrial Drive, Bristol, TN 37620. The existing operation consists of plastic extrusion operations used to manufacture plastic molding. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. O. Jacobsen is the assigned Division person.

For the Sullivan County *Bristol Herald Courier* -- published once on or before Thursday, February 5, 2009.

The applicant is Ritchie Bros. Auctioneers (America) Inc. with a mailing address of P. O. Box 6429, Lincoln, NE 68506. They seek to obtain an air contaminant permit (Division identification number: 95-0282 /62592) to limit plant-wide particulate emissions below the Title V threshold of 100 tons per year. The Operation is located at 748 Leeville Road, Lebanon, TN 37090. Ritchie Bros. Auctioneers (America) Inc. has agreed to be bound by a permit that limits their potential to emit for particulates such that they are below the applicability thresholds for Title V requirements. They have agreed to use record keeping and control equipment monitoring to prove they are abiding by the more restrictive emission limits. Their operation consists of Surface Coating and Abrasive Blast Operations. Exhaust filters and a Baghouse are used for pollution control. There would be no physical construction and regulated air contaminants are emitted by this source. Mr. Younes Aleali is the assigned Division person.

For the Wilson County "Lebanon Democrat" -- published once on or before Thursday, February 5, 2009.

The applicant is ALP Lighting Components, Inc. with a mailing address of P. O. Box 395, Dickson, TN 37056. They seek to obtain air contaminant permits (Division identification number 22-0080-02/62590 and 22-0080-03/62591) for construction of equipment to manufacture Plastic Louvers and also to construct two (2) Storage Silos to store Styrene Resin Pellets for their Plastic Lighting Manufacturing Operation. The facility is located at One Gum Branch Road, Dickson, TN 37056. ALP Lighting Components, Inc. has agreed to be bound by a permit that limits their potential to emit for volatile organic compounds (VOCs) and hazardous air pollutants (HAPs) such that they are below the applicability thresholds for Title V requirements. They have agreed to use record- keeping to prove they are abiding by the more restrictive emission limits. Exhaust filters are used for pollution control. There would be physical construction and regulated air contaminants would be emitted by this source. Mr. Younes Aleali is the assigned Division person.

For the Dickson County *Dickson Herald* -- published once on or before Friday, February 6, 2009.

The applicant is Middle Tennessee Medical Center with a mailing address of 400 N. Highland Ave., Murfreesboro, TN 37130. They seek to obtain an air contaminant permit (Division identification number: 75-0643-01/62531) for construction of a Boiler and Emergency Generator Operation located at 1700 Medical Center Parkway, Murfreesboro, TN 37129. The proposed operation would consist of three (3) boilers and three (3) emergency generators. Each of the boilers would be equipped with a low-NOx package for pollution control. Because of the amount and type of emissions from each of the emergency generators, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. E. Peeler is the assigned Division person.

For the Rutherford County *Daily News Journal* -- published once on or before Friday, February 6, 2008.
