

New Source Review newspaper advertisements for construction permit applications, June 25, 2009. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: June 17, June 18, June 23, June 24, or June 25, 2009. Public notices are generally published every two weeks. The previous publication of public notices was June 11, 2009.

### PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is BMC Enterprises, Inc. with a mailing address of 1098 Weston Drive, Mt. Juliet, Tennessee 37122. They seek to obtain an air contaminant permit (Division identification number: 95-0310-01/62807) for construction of a Crematory Operation located at the same address. This proposed operation would consist of a natural gas-fired, multiple chamber retort used to cremate deceased human remains. Natural gas would be used as fuel. An afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Elizabeth Peeler is the assigned Division person.

For the Wilson County *Lebanon Democrat* – published once on or before June 17, 2009.

---

The applicant is Dana Driveshaft Products, LLC with a mailing address of 187 Spicer Drive, Gordonsville, Tennessee 38563. They seek to obtain an air contaminant permit (Division identification number: 80-0068-02/62850) for construction of a Surface Coating operation located at the same address. This proposed construction would consist of paint booth, rinse exhaust system, washer exhaust system, and natural gas-fired washer heating unit used in the manufacture of assembled automotive driveshafts. Exhaust filters would be used for pollution control. There would be physical construction. Regulated air contaminants are emitted by this source. Ms. Elizabeth Peeler is the assigned Division person.

For the Smith County *Carthage Courier* – published once on or before June 18, 2009.

---

The applicant is Savage Lumber Co., Inc. with a mailing address of P.O. Box 39, Doyle, Tennessee 38559. They seek to obtain an air contaminant permit (Division identification number: 93-0048-02/62847) for construction of a Wood Waste Boiler System located at 9136 McMinnville Hwy., Doyle, Tennessee 38559. This proposed operation would consist of one (1) boiler, an auger feed system, and associated equipment used to produce steam and heat for lumber dry kilns. Sawdust would be used for fuel. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Elizabeth Peeler is the assigned Division person.

For the White County *Sparta Expositor* – published once on or before June 18, 2009.

---

The applicant is Rogers Group, Inc. – Deason Quarry with a mailing address of P.O. Box 25250, Nashville, TN 37202-5250. They seek to obtain an air contaminant permit (Division identification number: 02-0093-01/62848) for construction of a Portable Diesel Generator located at 190 Squire Hall Road, Shelbyville, TN 37160. This existing operation consists of one (1) portable diesel-fired generator used to provide electric power for rock crushing equipment. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.

For the Bedford County *Shelbyville Times-Gazette* -- published once on or before Thursday, June 25, 2009.

---

The applicant is O’Neal Trailers, LLC with a mailing address of 222 Pond Church Road, Alamo, Tennessee 38001. They seek to obtain an air contaminant permit (Division identification number: 17-0068-016-01/62844) for a surface coating operation at the same address. The proposed construction would consist of one paint booth. There would be physical construction. Regulated air contaminants would be emitted by this source. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. Mr. Thomas Krinov is the assigned Division person.

For the Crockett County *Crockett Times* -- published once on or before Thursday, June 24, 2009.

---

The applicant is Dyer Distributing, LP with a mailing address of 402 South Grayson Street, Newbern, TN 38059. They seek to obtain an air contaminant permit for (Division identification number: 23-0126-01/62618) a Granulator Operation located at the same address. This existing operation consists of a grinding machine and associated equipment used in reducing plastic scrap into a reusable material. Cyclones are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.

For the Dyer County *State Gazette* -- published once on or before Thursday, June 25, 2009.

---

The applicant is Aggregates USA, LLC with a mailing address of P.O. Box 2389, Knoxville, TN 37901-2389. They seek to obtain an air contaminant permit to modify existing air contaminant sources at 605 Cherokee Explosive Road, Rutledge, TN 37861 as follows:

1) Rock Crushing and Sizing Operation (Division identification number: 29-0039-01/62845). This existing operation consists of crushers, screens, pugmill, and conveyors. Wet suppression is used for pollution control. There would be no physical construction and regulated air contaminants are emitted by this source. Ms. Olga Jacobsen is the assigned Division person.

2) Diesel Engine Generator (Division identification number: 29-0039-02/62845). This existing operation consists of one (475 hp) diesel engine generator for crusher. The requested modification is to increase fuel consumption level. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. Olga Jacobsen is the assigned Division person.

For the Hamblen County *Citizen Tribune* -- published once on or before Thursday, June 25, 2009.

---

The applicant is Jarden Zinc Products, LLC, with a mailing address of P.O. Box 1890, Greenville, TN 37744. They seek to obtain an air contaminant permit (Division identification number: 30-0009-25/62706) for construction of a galvanic electrolyte production process at 2500 Old Stage Road, Afton, TN 37745. A high efficiency dust

collector would be used to control particulate emissions. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. S. Shajikumar is the assigned Division person.

For the Greene County *Greeneville Sun* --published once on or before Thursday, June 19, 2009.

---

The applicant is Rogers Group, Inc. – Lawrenceburg Quarry with a mailing address of P.O. Box 25250, Nashville, TN 37202-5250. They seek to obtain an air contaminant permit (Division identification number: 50-0035-01/62849) for construction of a Portable Diesel Generator located at 2690 Waynesboro Highway (Highway 64 West), Lawrenceburg, TN 38464. This existing operation consists of one (1) portable diesel-fired generator used to provide electric power for rock crushing equipment. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.

For the Lawrence County *Democrat-Union* -- published once on or before Thursday, June 25, 2009.

---

The applicant is Combs Sawmill with a mailing address of 4090 Old Stage Road, Adamsville, TN 38310. They seek to obtain an air contaminant permit (Division identification number: 55-0111-01/62761) for construction of a Sawmill located at the same address. This proposed operation would consist of two (2) diesel powered saws and associated equipment used to cut logs into planks. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. E. King is the assigned Division person.

For the McNairy County *Independent-Appeal* -- published once on or before Thursday, June 25, 2009.

---

The applicant is Orgain Ready Mix Concrete Co., Inc. with a mailing address of P.O. Box 561, Clarksville, TN 37041. They seek to obtain an air contaminant permit (Division identification number: 63-0270-01/62779) for construction of a Concrete Batch Plant at the Corner of Hampton Station Road and Guthrie Hwy, Clarksville, TN, 37040. This proposed operation would consist of gravel and sand stockpiles, cement storage silos, and associated equipment used to produce concrete. A baghouse and wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. D. Wright is the assigned Division person.

For the Montgomery County *Leaf-Chronicle* -- published once on or before Thursday, June 25, 2009.

---

The applicant is James Ritter Lumber with a mailing address of P.O. Box 67, Byrdstown, Tennessee 38549. They seek to obtain an air contaminant permit (Division identification number: 69-0025-01/62489) for construction of a wood chipping operation located at 9930 Hwy. 111 N, Byrdstown, Tennessee 38549. This existing operation consists of a wood chipper and associated equipment used to process wood slabs into chips. A cyclone is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. Elizabeth Peeler is the assigned Division person.

For the Pickett County *Press* – published once on or before June 25, 2009.

---

The applicant is Vulcan Construction Materials, L.P. with a mailing address of PO Box 7, Knoxville, TN 37901. They seek to obtain an air contaminant permit (Division identification number: 74-0035-04/62747) for a Diesel Generator located at 2025 Joe Dowlen Road in Pleasant View, TN. This existing operation consists of a 475 horse power diesel engine and associated equipment used to operate a rock wash plant. Because of the amount

and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. D. Wright is the assigned Division person.

For the *Robertson County Times* -- publish once on or before Thursday, June 25, 2009.

The applicant is Murphy Oil USA, Inc. with a mailing address of 200 Peach Street, El Dorado, TN 37030. They seek to obtain an air contaminant permit (Division identification number: 80-0069-01/62794) for a Gasoline Dispensing Facility at 111 Myer Street, Carthage, TN 37030. This existing operation consists of three (3) underground tanks and several gasoline nozzles. A Stage I vapor recovery is used for gasoline emission control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. W. Collins is the assigned Division person.

For the Smith County *Carthage Courier* -- published once on or before Thursday, June 25, 2009.
