The applicant is Cellco Partnership, dba Verizon Wireless with a mailing address of 455 Duke Drive, Franklin, Tennessee 37067. They seek to obtain an air contaminant permit (Division identification number: 94-0319-01/62735) for an Emergency Generator Operation located at the same address. This proposed operation consists of one (1) diesel-fired generator, with one (1) aboveground diesel storage tank, used to provide emergency power to support site operations in the event of a utility power interruption. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants are emitted by this source. Ms. E. Peeler is the assigned Division person.
