**Re: Perry County Associates Landfill
TVA Ash Project
HHNT Project No. 6220-010-01**

Dear Mr. Dorsett:

On behalf of Perry County Associates, we are writing this letter to confirm that Perry County Associates Landfill (Permit #53-03) can accept TVA Ash. The Alabama Department of Environmental Management (ADEM) issued the waste certification approval (attached) on April 9, 2009. A copy of this approval has been provided to the landfill for their files.

Should you have any questions, please call.

Sincerely,

HODGES, HARBIN, NEWBERRY & TRIBBLE, INC.

RE: Waste Certification
Fly Ash

Dear MR COURSON:

The Alabama Department of Environmental Management has reviewed your waste certification received on 02/27/2009 and has assigned a Certification Number for this waste as shown below.

Waste Profile #:090193
Certification #SW-033111-0001
Expiration Date of Certification: 03/31/2011

TVA Kingston Fossil Ash Recovery
714 Swan Pond Road
Harriman TN 37748

In your certification you requested one or more landfills be approved to receive your waste. Based on our review of the waste and the landfills requested, the waste is approved for disposal in the following landfills:

Perry County Associates Landfill 53-03

One (1) sample analysis for metals should be taken per each unit train for the first five (5) trains. Then, one sample analysis for metals should be taken on one (1) unit train on a monthly basis. All analysis should be provided to the Department for review including any supplemental analytical data that is generated from additional sampling by TVA.

You should provide this approval letter to the landfill to be used and contact the landfill to determine any special handling requirements for this waste prior to delivery to the landfill. According to ADEM regulations, the landfill may not receive this waste unless it has received a waste certification approval.

If this waste will be generated on a routine basis (not a one-time occurrence), another written certification of this waste should be submitted to ADEM prior to expiration of the certification number. Each recertification submitted should include a completed Solid Waste Profile Sheet, any supporting documentation, and the appropriate fee. This approval letter does not exempt Phil Con Ash Project 53 from complying with applicable requirements of the ADEM Hazardous Waste Program regulations.

If you submitted the certification via facsimile, hard copies of all documents should be forwarded to ADEM as soon as possible.

If you have any questions concerning this approval or the approval process, please contact Ms. Lynn T. Roper at 334-271-7728.

Sincerely,

James L. Bryant, PE
