

**NOTICE OF FINAL DECISION TO REISSUE A HAZARDOUS WASTE MANAGEMENT
POST-CLOSURE PERMIT TO YALE SECURITY, INC.**

The Tennessee Department of Environment and Conservation's (TDEC) Division of Solid Waste Management (DSWM) has made a final decision to **reissue a hazardous waste management post-closure permit to Yale Security, Inc., (Yale)**. The facility is located in **Loudon County at 100 Yale Avenue, Lenoir City, Tennessee**. The permit was issued on March 2, 2009, and shall remain in effect until March 2, 2019, unless revoked and reissued, or terminated, or continued under applicable regulations. This action follows a 45-day public comment period for the draft permit, which ended on November 14, 2008. Yale requested a few changes be incorporated into the permit, but no comments or a request for a public hearing were received from the public during this comment period.

The Permit, TNHW-140 (formerly TNHW-013A) requires the facility (EPA ID Number: TND 09 505 0019) to continue post-closure care and monitoring activities for a surface impoundment that was closed as a hazardous waste landfill. It also requires notification of imminent hazards, and when applicable, compliance with the requirements developed under land disposal restrictions and organic air emission standards. Also included as part of this permit are the corrective action conditions for the solid waste management units (SWMUs) and areas of concern (AOCs). Yale is required to investigate any release of hazardous waste or hazardous constituents at the facility, regardless of the time at which waste was placed in a unit, and to take appropriate corrective action for any such release.

This permit is issued under Tennessee Code Annotated, Section 68-212-101 et seq., and Tennessee Rule Chapter 1200-1-11.

A copy of the final permit, including the [Response to Comments](#), is available for public inspection at the Lenoir City Public Library, 100 West Broadway, Lenoir City, TN (865-986-3210).
