

TOSHA
20 MOST CITED GENERAL INDUSTRY STANDARDS—29 CFR 1910
 (By Section Title)
 January 1, 2010–December 31, 2010

Rank	Standard	Section Title	Hazard Description
1	1910.1200	Hazard Communication	lack of, or deficiencies in, written program, MSDS, training, labels
2	1910.132	Personal Protective Equipment (PPE)	no ppe hazard assessment conducted; no written certification of hazard assessment; no training on ppe provided to employees
3	1910.1030	Bloodborne Pathogens	lack of, or deficiencies in, the written exposure control plan; inadequate engineering or work practice controls, personal protective equipment, and housekeeping; lack of, or deficiencies in, the annual training program
4	1910.134	Respiratory Protection	no written respirator program; appendix D not provided to voluntary respirator wearers; no medical evaluation for respirator wearers and no medical recommendation; no annual respirator fit test; tight-fitting respirators worn where facial hair interferes with the seal; respirators not stored and maintained properly; inadequate training for respirator wearers
5	1910.305	Electrical Wiring Methods and Components	unused openings in cabinets, boxes or fittings not closed; no covers on pull boxes, junction boxes or fittings; improper use of flexible cords
6	1910.157	Portable Fire Extinguishers	no monthly visual inspection; extinguishers not accessible; no annual maintenance check
7	1910.147	Lockout/Tagout	no energy control program established; no energy control procedures developed, documented or used; no annual inspection of energy control procedures; no training on energy control program; energy isolating devices not located and used properly
8	1910.95	Occupational Noise	engineering controls not used to reduce noise exposures below an eight-hour TWA of 90 decibels; no effective hearing conservation program where noise exposures exceed an eight-hour TWA of 85 decibels; monitoring of noise levels not conducted; audiometric testing program not established or maintained; annual audiograms not conducted; hearing protection not provided where noise exposures exceed an eight-hour TWA of 85 decibels; hearing protection worn incorrectly; employees exposed to noise at or above an eight-hour TWA of 85 decibels not trained; noise standard not posted in the workplace
9	1910.215	Abrasive Wheel Machinery	missing tongue guard on grinder; missing work rest on grinder
10	1910.212	General Requirements for All Machines	machinery guarding not provided to protect employees from point of operation, ingoing nip points, rotating parts, flying chips, and sparks; machinery not securely anchored

Rank	Standard	Section Title	Hazard Description
11	1910.22	Walking/Working Surfaces	all places of employment not kept clean, orderly and sanitary; workplace floors not kept dry; standard stair-railings or handrails not provided on every flight of stairs having 4 or more risers
12	1910.151	Medical Services and First Aid	no emergency eye wash and/or shower; no one trained in first aid
13	1910.178	Powered-Industrial Trucks	operator not trained and evaluated; operator not evaluated at least every 3 years; the employer did not certify that each operator was trained and evaluated; unsafe truck not taken out of service
14	1910.303	General Electrical	electric equipment not installed or used in accordance with listing or labeling; disconnecting means not legibly marked; working space around electric equipment used for storage
15	1910.304	Electrical Wiring Design and Protection	overcurrent protection not accessible or improperly located; no permanent and continuous path to ground; metal parts of cord-and-plug-connected equipment not grounded
16	1910.37	Maintenance, Safeguards, etc. for Exit Routes	exit routes not free and unobstructed; each exit not clearly visible and marked by "EXIT" sign
17	1910.23	Guarding Floor and Wall Openings	open-sided floors or platforms 4 feet or more above the adjacent floor or ground not guarded by a standard guardrail; railings do not meet specifications
18	1910.146	Permit-Required-Confined Spaces	permit spaces not marked with a danger sign; no written permit-space program; confined space training not conducted
19	1910.219	Mechanical Power-Transmission Apparatus	pulleys less than 7 feet high not guarded; vertical and inclined belts not guarded; sprockets and chains less than 7 feet high not guarded
20	1910.133	Eye and Face Protection	eye and face protection not used when employees exposed to eye and/or face hazards
