

## TennCare Managed Care Benefit Packages

The cards that enrollees get from their Managed Care Organization (MCO) may have a Benefit Indicator on the front. These Benefit Indicators are listed in the chart below and tell the provider and the enrollee what group of services, or “Benefit Package,” each enrollee gets.

Click on the Benefit Indicator to see a list of the services in each Benefit Package.

“Long-term care” is care that is delivered in a nursing facility, including special nursing facilities for people with intellectual and developmental disabilities. It can also be care that is delivered in the home or community to people who would otherwise have to be in a nursing facility.

“CHOICES” is a special long-term care program offered by the MCOs to people who need nursing facility care. For people who qualify for CHOICES, this care may be provided in a nursing facility or in the home or community.

Please see <http://www.tn.gov/tenncare/longtermcare.html> for general information about long-term care in TennCare. See <http://www.tn.gov/tenncare/CHOICES/> for more information about TennCare CHOICES in Long-Term Care.

If you have any questions about TennCare services, call your MCO or the Family Assistance Center at 1-866-311-4287.
