

accelerating TN TOUR 2022

#AcceleratingTN2022

Visiting 50 Districts This Summer
to Learn How Tennessee is
Accelerating Student Achievement

Tennessee continues to lead the nation in supporting students, prioritizing education policies and initiatives to ensure our children are set up for success.

During the General Assembly's 2021 special legislative session on education, legislators passed the Tennessee Learning Loss Remediation and Student Acceleration Act, which set forward a path for all districts' current and future summer programming opportunities to benefit students.

This year, the General Assembly passed the Tennessee Investment in Student Achievement (TISA) Act this year, which updates the way the state funds public education for the first time in over 30 years and prioritizes the needs of each individual student.

To highlight this important work, Commissioner Penny Schwinn, department staff, state and local elected officials, and community partners are visiting 50 of Tennessee's school districts this summer to connect directly with students, educators, and stakeholders. Planned highlights include visits to Summer Learning Camps, Reading 360 Early Reading Trainings, as well as roundtables discussing the new TISA public school funding formula.

On June 6, the bus tour will feature a special statewide celebration on TISA and the new \$1 billion recurring investment in K-12 public education.
