HEADQUARTERS ARNOLD ENGINEERING DEVELOPMENT COMPLEX (AFMC)  
ARNOLD AIR FORCE BASE TENNESSEE

9 August 2022

AEDC/TSDCI  
100 Kindel Drive, Suite B-322  
Arnold AFB TN 37389-2322

Governor Edwina Butler-Wolfe  
Absentee Shawnee Tribe of Oklahoma  
2025 S. Gordon Cooper Drive  
Shawnee OK 74801

Dear Governor Butler-Wolfe

In January 2022, Arnold Air Force Base (AFB), Tennessee provided you with a letter initiating government-to-government consultation and briefly describing the Tennessee Army National Guard (TNARNG) and Department of the Air Force's (DAF) proposal to construct and operate barracks and associated infrastructure to support the continued weapons training of TNARNG soldiers at Volunteer Training Site – Tullahoma (VTS-T) on Arnold AFB, Tennessee. Attached as notification, to comply with the National Environmental Policy Act of 1969 (NEPA), the President's Council on Environmental Quality's implementing regulations, and the National Historic Preservation Act and its implementing regulations, is the Draft Environmental Assessment (EA) and proposed Finding of No Significant Impact (FONSI) for Construction and Operation of Barracks for the TNARNG at Arnold AFB, Tennessee. This Draft EA and proposed FONSI is available for review at: <https://www.tn.gov/military/who-we-are/state-administration-military/environmental.html> or <https://www.arnold.af.mil/Units/Test-Support-Division/>.

The Proposed Action would construct and operate up to 20 new one-story, 5,000-square-foot (SF) open-bay barracks with latrines; showers; laundry; exterior paving; stairs, ramps, and walkways; and grading and drainage; and all related work for a new functional and energy-efficient barracks for the TNARNG at Volunteer Training Site – Tullahoma (VTS-T) on Arnold AFB. The 20 new barracks would increase bed capacity by 640. The proposed five new dining facilities and five new administrative and storage facilities associated with the barracks would also be constructed at VTS-T. TNARNG would construct each new barracks in the coming years as funding becomes available. The purpose of the action is to enhance the ability of the TNARNG to fulfill its military training mission by fully supporting all units assigned to training at Arnold AFB. The Proposed Action is needed to rectify bed space, dining, administrative, and storage facilities deficits for TNARNG units training at the Installation. The existing barracks space is too small for the number of TNARNG troops assigned to train at Arnold AFB.

Resource areas considered in the impact analysis for this EA are noise, air quality, earth resources, water resources, biological resources, cultural resources, hazardous materials and wastes, infrastructure and transportation, and health and safety. This Draft EA and proposed FONSI concludes that there will be no significant environmental impacts resulting from the Proposed Action.

The public comment period for this Draft EA and proposed FONSI will be from 18 August 2022 through 17 September 2022. Please send your written responses via e-mail (preferred) at shannon.allen.1@us.af.mil or by regular mail to: Ms. Shannon Allen, NEPA, Natural & Cultural Resources Planner, AEDC/TSDCI, 100 Kindel Drive, Arnold AFB TN 37389-2322.

The purpose of the action is to enhance the ability of the TNARNG to fulfill its military training mission by fully supporting all units assigned to training at Arnold AFB. The Proposed Action is needed to rectify bed space, dining, administrative, and storage facilities deficits for TNARNG units training at the Installation. The existing barracks space is too small for the number of TNARNG troops assigned to train at Arnold AFB.

Resource areas considered in the impact analysis for this EA are noise, air quality, earth resources, water resources, biological resources, cultural resources, hazardous materials and wastes, infrastructure and transportation, and health and safety. This Draft EA and proposed FONSI concludes that there will be no significant environmental impacts resulting from the Proposed Action.

The public comment period for this Draft EA and proposed FONSI will be from 18 August 2022 through 17 September 2022. Please send your written responses via e-mail (preferred) at shannon.allen.1@us.af.mil or by regular mail to: Ms. Shannon Allen, NEPA, Natural & Cultural Resources Planner, AEDC/TSDCI, 100 Kindel Drive, Arnold AFB TN 37389-2322.

Chief Tiger Hobia  
Kialegee Tribal Town  
P.O. Box 332  
Wetumka OK 74883

Dear Chief Hobia

In January 2022, Arnold Air Force Base (AFB), Tennessee provided you with a letter initiating government-to-government consultation and briefly describing the Tennessee Army National Guard (TNARNG) and Department of the Air Force's (DAF) proposal to construct and operate barracks and associated infrastructure to support the continued weapons training of TNARNG soldiers at Volunteer Training Site – Tullahoma (VTS-T) on Arnold AFB, Tennessee. Attached as notification, to comply with the National Environmental Policy Act of 1969 (NEPA), the President's Council on Environmental Quality's implementing regulations, and the National Historic Preservation Act and its implementing regulations, is the Draft Environmental Assessment (EA) and proposed Finding of No Significant Impact (FONSI) for Construction and Operation of Barracks for the TNARNG at Arnold AFB, Tennessee. This Draft EA and proposed FONSI is available for review at: <https://www.tn.gov/military/who-we-are/state-administration-military/environmental.html> or <https://www.arnold.af.mil/Units/Test-Support-Division/>.

The Proposed Action would construct and operate up to 20 new one-story, 5,000-square-foot (SF) open-bay barracks with latrines; showers; laundry; exterior paving; stairs, ramps, and walkways; and grading and drainage; and all related work for a new functional and energy-efficient barracks for the TNARNG at Volunteer Training Site – Tullahoma (VTS-T) on Arnold AFB. The 20 new barracks would increase bed capacity by 640. The proposed five new dining facilities and five new administrative and storage facilities associated with the barracks would also be constructed at VTS-T. TNARNG would construct each new barracks in the coming years as funding becomes available. The purpose of the action is to enhance the ability of the TNARNG to fulfill its military training mission by fully supporting all units assigned to training at Arnold AFB. The Proposed Action is needed to rectify bed space, dining, administrative, and storage facilities deficits for TNARNG units training at the Installation. The existing barracks space is too small for the number of TNARNG troops assigned to train at Arnold AFB.

Resource areas considered in the impact analysis for this EA are noise, air quality, earth resources, water resources, biological resources, cultural resources, hazardous materials and wastes, infrastructure and transportation, and health and safety. This Draft EA and proposed FONSI concludes that there will be no significant environmental impacts resulting from the Proposed Action.

The public comment period for this Draft EA and proposed FONSI will be from 18 August 2022 through 17 September 2022. Please send your written responses via e-mail (preferred) at shannon.allen.1@us.af.mil or by regular mail to: Ms. Shannon Allen, NEPA, Natural & Cultural Resources Planner, AEDC/TSDCI, 100 Kindel Drive, Arnold AFB TN 37389-2322.
