(a) A parent, who has been victimized by the other parent's intentional violation of § 36-6-502(a) on two (2) or more occasions within any six-month period, may petition the court having jurisdiction over the order of visitation for a finding that the other parent is not in compliance with an order of visitation; provided, prior to the most recent violation, the victimized parent must have notified the other parent, by certified mail, return receipt requested, that subsequent violations of the court-ordered visitation shall be subject to sanctions authorized by this part and a copy of such notification must have been filed with the court. The petitioner shall include with the petition any information concerning a license held by the other parent and covered by § 36-6-511. A notice shall be served on the other parent together with the petition. Such notice shall state that:

(1) The parent may request a hearing to contest the issue of compliance;

(2) A request for a hearing must be made in writing and must be received by the court within twenty (20) days of service;

(3) If such parent requests a hearing within twenty (20) days of service, the court shall stay the proceedings to certify such parent to any appropriate licensing authority for noncompliance with an order of visitation pending a decision after the hearing;

(4) If the court finds that such parent is not in compliance with an order of visitation or such parent does not request a hearing within twenty (20) days of service, the court may certify such parent to any appropriate licensing authority for noncompliance with a court order of visitation; and

(5) If the court certifies such parent to a licensing authority for noncompliance with an order of visitation, the licensing authority, notwithstanding any law to the contrary, must deny a renewal request, revoke such parent's license or refuse to issue or reinstate a license, as the case may be, until such parent provides the licensing authority with a release from the court pursuant to § 36-6-508 that states such parent is in compliance with the order of visitation.

(b) The notice sent pursuant to this section shall also include a statement informing such parent of the need to obtain a release from the court in order to allow such parent's license to be issued, renewed or reinstated. The notice shall be served by certified mail, return receipt requested, or by personal service with an affidavit of service completed by an authorized process server.

Acts 2000, ch. 971, § 4.

36-6-504. Hearing to contest court's intention to issue finding of noncompliance — Consent order.

(a) If a parent requests a hearing pursuant to this part to contest the court's intention to issue a finding of noncompliance to a licensing authority, the court shall conduct the hearing only to determine:

(1) Whether the licensee is a parent subject to an order of visitation;

(2) Whether the licensee is not in compliance with an order of visitation; and

(3) Whether good cause exists to impose the licensing sanctions provided for in this part.

(b) The parties may enter into a consent order wherein the parent in violation agrees to henceforth comply with the order of visitation. Upon entry of such an order the proceedings for licensing sanctions shall be further stayed unless there is noncompliance with the consent order. In the event of noncompliance with the consent order, the stay shall cease and the court shall certify to each affected licensing authority that such parent is not in compliance with an order of visitation. Entry of such consent order shall constitute a waiver of such parent's right to any hearing on the issue of noncompliance with an order of visitation based upon the notice of noncompliance for which the consent order has been entered.

(c) The cost of this action and reasonable attorney's fees shall be taxed to the parent who is not in compliance with an order of visitation. The cost of this action and reasonable attorney's fees shall be assessed against any parent who, in bad faith, petitions the court for imposition of sanctions pursuant to this part.

36-6-505. Requesting hearing for noncompliance.

(a) If a parent timely requests a hearing to contest the issue of compliance, the court shall stay the action and may not certify the name of such parent to any licensing authority for noncompliance with an order of visitation until the court issues a written decision after a hearing that finds such parent is not in compliance with an order of visitation; provided, that after a decision by the court has been made in the form of a final order as provided in § 4-5-315, there will be no further stay unless a reviewing court issues a stay, which stay shall be automatic upon the filing of a notice of appeal.

(b) The court shall issue its decision after hearing without undue delay. The order must inform both parents that either party may file an appeal of the decision within thirty (30) days of the date of the decision. A certification concerning the status of a license shall be automatically stayed pending disposition of an appeal.

(c) Upon a finding of noncompliance, the court may also allocate additional time with the child to the nonoffending parent.

(d) Notwithstanding any law to the contrary, the court shall assess costs of an unsuccessful appeal of notice of noncompliance to the parent in non-compliance.

(b) The licensing authority shall notify, without undue delay, by regular mail, a parent certified from the court under § 36-6-506, that the parent's application for the issuance, renewal or reinstatement of a license has been denied or that the parent's current license has been suspended or revoked because the parent's name has been certified by the court as a parent who is not in compliance with an order of visitation.

(c) A notice of suspension shall specify the reason and statutory grounds for the suspension and the effective date of the suspension and may include any other notices prescribed by the licensing authority. The notice shall also inform the individual that in order to apply for issuance, renewal or reinstatement of the license, the individual shall obtain a release from the court in accordance with § 36-6-508.

(d) If a licensing authority fails to deny, suspend or revoke a license when so ordered by a court pursuant to this part, the other parent may petition the court to compel the authority's compliance.

For purposes of lifting the licensing sanctions pursuant to this section, a parent will be considered in compliance with an order of visitation upon fully complying with such order for the next four (4) consecutive scheduled visitation periods after the finding by the court of noncompliance.

(b)(1) Upon receipt of the release from the court, the licensing authority shall issue or extend the parent's license, or withdraw any denial, revocation or suspension of the parent's license; provided, that all other applicable licensing requirements are met by the parent. If all other applicable licensing requirements are met by the parent, the parent shall not, however, be required to be retested or recertified for a license that was valid and that was held in good standing by the parent, or for which the parent had been determined otherwise eligible by the licensing authority to receive, prior to the revocation or suspension or denial of such license pursuant to this part, and which license was revoked, suspended or denied solely pursuant to this part.

(2) If, after the revocation, suspension or denial of the license, and before the date on which the next periodic licensing would be due, the license is restored or issued by the licensing authority due to a release, the parent shall not be required to pay a new periodic license fee for the period remaining before the next periodic licensing fee would be due; provided, the licensing authority may impose a reasonable reinstatement fee not to exceed five dollars (\$5.00) for processing of the restoration or issuance of the license at any time.

(b) If, at a hearing on a petition under this part or on the court's own motion, the court after reviewing the evidence finds a credible risk of abduction of the child, the court shall enter an abduction prevention order. The order must include the provisions required by subsection (a) and measures and conditions, including those in subsections (c), (d), and (e), that are reasonably calculated to prevent abduction of the child, giving due consideration to the custody and visitation rights of the parties. The court shall consider the age of the child, the potential harm to the child from an abduction, the legal and practical difficulties of returning the child to the jurisdiction if abducted, and the reasons for the potential abduction, including evidence of domestic violence, stalking, or child abuse or neglect.

(d) In an abduction prevention order, the court may impose conditions on the exercise of custody or visitation that:

(1) Limit visitation or require that visitation with the child by the respondent be supervised until the court finds that supervision is no longer necessary and order the respondent to pay the costs of supervision;

(3) Require the respondent to obtain education on the potentially harmful effects to the child from abduction.

(e) To prevent imminent abduction of a child, a court may:

(1) Issue a warrant to take physical custody of the child under § 36-6-609 or the law of this state other than this part;

(2) Direct the use of law enforcement to take any action reasonably necessary to locate the child, obtain return of the child, or enforce a custody determination under this part or the law of this state other than this part; or

(3) Grant any other relief allowed under the law of this state other than this part.

(f) The remedies provided in this part are cumulative and do not affect the availability of other remedies to prevent abduction.

History.

36-6-609. Warrant to take physical custody of child.

(a) If a petition under this part contains allegations, and the court finds that there is a credible risk that the child is imminently likely to be wrongfully removed, the court may issue an ex parte warrant to take physical custody of the child.

(b) The respondent on a petition under subsection (a) must be afforded an opportunity to be heard at the earliest possible time after the ex parte warrant is executed, but not later than the next judicial day unless a hearing on that date is impossible. In that event, the court shall hold the hearing on the first judicial day possible.

(c) An ex parte warrant under subsection (a) to take physical custody of a child must:

(1) Recite the facts upon which a determination of a credible risk of imminent wrongful removal of the child is based;

(2) Direct law enforcement officers to take physical custody of the child immediately;

(3) State the date and time for the hearing on the petition; and

(4) Provide for the safe interim placement of the child pending further order of the court.

(d) If feasible, before issuing a warrant and before determining the placement of the child after the warrant is executed, the court may order a search of the relevant databases of the national crime information center system and similar state databases to determine

if either the petitioner or respondent has a history of domestic violence, stalking, or child abuse or neglect.

(e) The petition and warrant must be served on the respondent when or immediately after the child is taken into physical custody.

(f) A warrant to take physical custody of a child, issued by this state or another state, is enforceable throughout this state. If the court finds that a less intrusive remedy will not be effective, it may authorize law enforcement officers to enter private property to take physical custody of the child. If required by exigent circumstances, the court may authorize law enforcement officers to make a forcible entry at any hour.

(g) If the court finds after a hearing that a petitioner sought an ex parte warrant under subsection (a) for the purpose of harassment or in bad faith, the court may award the respondent reasonable attorney's fees, costs, and expenses.

(h) This part does not affect the availability of relief allowed under the law of this state other than this part.

(10) Specify which parent is required to file the agreement with a court of competent jurisdiction pursuant to § 36-7-205.

(b) A nonparent who has caretaking authority, decision-making authority, or limited contact by an agreement under this part has standing to enforce the agreement until it has been terminated by court order, by modification under § 36-7-203, or under part 4 of this chapter.

Appendix Sections 521 and 522), and may not issue a permanent order granting custodial responsibility without the consent of the deploying parent.

(b) At any time after a deploying parent receives notice of deployment, either parent may file an action

(b) Unless a grant of caretaking authority to a nonparent under subsection (a) is agreed to by the other parent, the grant is limited to an amount of time not greater than:

- (1) The amount of time granted to the deploying parent under a permanent custody order, but the court may add unusual travel time necessary to

transport the child; or

(2) In the absence of a permanent custody order that is currently in effect, the amount of time that the deploying parent habitually cared for the child before being notified of deployment, but the court may add unusual travel time necessary to transport the child.

(c) A court may grant part of a deploying parent's decision-making authority, if the deploying parent and the other parent are both unable to exercise that authority, to a nonparent who is an adult family member of the child or an adult with whom the child has a close and substantial relationship. If a court grants the authority to a nonparent, the court shall specify the decision-making powers granted, including decisions regarding the child's education, religious training, health care, extracurricular activities, and travel.

The grant does not create an independent, continuing right to caretaking authority, decision-making authority, or limited contact in an individual to whom it is granted.

(b) A nonparent granted caretaking authority, decision-making authority, or limited contact under this part has standing to enforce the grant until it is terminated by court order or under part 4 of this chapter.

37-1-103. Exclusive original jurisdiction.

(a) The juvenile court has exclusive original jurisdiction of the following proceedings, which are governed by this part:

(1) Proceedings in which a child is alleged to be delinquent, unruly or dependent and neglected, or to have committed a juvenile traffic offense as defined in § 37-1-146;

(2) Proceedings arising under §§ 37-1-141 — 37-1-144;

(3) Proceedings arising under § 37-1-137 for the purposes of termination of a home placement;

(4) Prosecutions under § 37-1-412, unless the case is bound over to the grand jury by the juvenile court or the defendant is originally charged with a greater offense of which violation of § 37-1-412 is a lesser included offense;

(5) Proceedings arising under [former] § 49-5-5209(e) [repealed]; and

(6) Proceedings in which a parent or legal guardian is alleged to have violated parental responsibilities pursuant to § 37-1-174.

(b) The juvenile court also has exclusive original jurisdiction of the following proceedings, which are governed by the laws relating thereto without regard to the other provisions of this part:

(1) Proceedings to obtain judicial consent to employment, or enlistment in the armed services of a child, if consent is required by law;

(2) Proceedings under the Interstate Compact for Juveniles, compiled as chapter 4, part 1 of this title; and

(3) Proceedings under the Interstate Compact on the Placement of Children, compiled as chapter 4, part 2 of this title.

(c) Except as provided in subsection (d), when jurisdiction has been acquired under this part, such jurisdiction shall continue until the case has been dismissed, or until the custody determination is transferred to another juvenile, circuit, chancery or general sessions court exercising domestic relations jurisdiction, or until a petition for adoption is filed regarding the child in question as set out in § 36-1-116(f). A juvenile court shall retain jurisdiction to the extent needed to complete any reviews or permanency hearings for children in foster care as may be mandated by federal or state law. This subsection (c) does not establish concurrent jurisdiction for any other court to hear juvenile cases, but permits courts exercising domestic relations jurisdiction to make custody determinations in accordance with this part.

(d)(1) A juvenile court in any county of this state shall have temporary jurisdiction to issue temporary orders pursuant to this section upon a petition on behalf of a child present or residing in that county.

Upon being informed that a proceeding pertaining to the same child has been commenced in or a determination pertaining to the same child has been made by a court of a county having prior jurisdiction under this part; provided, that the court having temporary jurisdiction shall immediately notify and attempt to communicate with the court having original jurisdiction regarding the status of the child before issuing any temporary order hereunder, the courts shall coordinate with one another to resolve any jurisdictional issues, protect the best interests of the child, and determine the duration of any order entered by a court pursuant to this section.

(2) A court shall have temporary jurisdiction pursuant to this subsection (d) only in a neglect, dependency or abuse proceeding, a termination of parental rights proceeding or an order of protection pursuant to title 36, pertaining to the child whose matter is before the court when the court determines it is necessary to protect the best interests of that child by action of that court.

(3) Upon notice that a proceeding pertaining to the child has been commenced in a court in a county having prior jurisdiction under this part or upon notice that there is a previous determination pertaining to the child that is entitled to be enforced under this part:

(A) The court exercising temporary jurisdiction shall attempt to communicate with the prior court having jurisdiction and resolve jurisdictional issues and determine whether jurisdiction should transfer to the court exercising temporary jurisdiction;

(B) If jurisdiction is not transferred to the court exercising temporary jurisdiction, the orders of the court exercising temporary jurisdiction shall remain in force and effect until an order is obtained from the court having prior jurisdiction regarding the child;

(C) If jurisdiction is not transferred to the court exercising temporary jurisdiction, the court exercising temporary jurisdiction under this part, either upon motion by a party or on its own, shall enter an order specifying the period of time that the court considers adequate to allow the parties to resume the proceeding in the court having prior jurisdiction under this part; and

(D) If jurisdiction is transferred to the court exercising temporary jurisdiction, all matters thereafter pertaining to the child shall be within the jurisdiction of that court.

(e) Notwithstanding any other law to the contrary, transfers under this section shall be at the sole discretion of the juvenile court. In all other cases, jurisdiction shall continue until a person is no longer a child as defined in § 37-1-102.

(f) The court is authorized to require any parent or legal guardian of a child within the jurisdiction of the court to participate in any counseling or treatment program the court may deem appropriate and in the best interest of the child.

(g) Notwithstanding this section, nothing in subdivision (a)(1) shall be construed to preclude a court from

exercising domestic relations jurisdiction pursuant to title 36, regardless of the nature of the allegations, unless and until a pleading is filed or relief is otherwise sought in a juvenile court invoking its exclusive original jurisdiction.

(a) The juvenile court has concurrent jurisdiction with the probate court of proceedings to:

- (1) Treat or commit a developmentally disabled or mentally ill child;
- (2) Determine the custody or appoint a guardian of the person of a child; and
- (3) Give judicial consent to the marriage of a child if consent is required by law.

(C) In any political subdivision or judicial district of the state in which a court by contract is the agency designated to provide child support enforcement pursuant to Title IV-D of the Social Security Act, compiled in 42 U.S.C. §§ 651 et seq., and if a judge with child support jurisdiction in that political subdivision or judicial district agrees, the con-

tracting court shall have jurisdiction in any case in such judge's court in which an application is made for assistance in obtaining support under this part. Upon application being made for child support enforcement assistance as provided by law, the contracting court shall assume jurisdiction and it is the duty of the court clerk to so notify the clerk of any court having prior jurisdiction. The contracting court shall then proceed to make and enforce such orders of support as it deems proper within its jurisdiction pursuant to the agreement. The contracting court shall not have jurisdiction in any case in which an absent parent is in full compliance with a support order of another court.

(2) In any case in which the court has exclusive or concurrent jurisdiction to order the payment of child support, the court may issue a child support order when requested by a party. All provisions of title 36, chapter 5 that relate to child support or child support orders that include an order of spousal support and § 50-2-105 apply to support orders issued in these proceedings.

(e) The juvenile court has concurrent jurisdiction with the circuit and chancery court of proceedings arising from the 1980 Hague Convention on the Civil Aspects of International Child Abduction.

(f) Notwithstanding any law to the contrary, the juvenile court has concurrent jurisdiction with the circuit and chancery court of proceedings to establish the paternity of children born out of lawful wedlock and to determine any custody, visitation, support, education or other issues regarding the care and control of children born out of wedlock. Such child may be placed in detention or shelter care only if authorized by and in accordance with §§ 37-1-114 and 37-1-115. 37-1-107. Magistrates.

(a)(1) The judge of the juvenile court may appoint one (1) or more suitable persons to act as magistrates at the pleasure of the judge. A magistrate shall be a member of the bar and may qualify and shall hold office at the pleasure of the judge. The compensation of a magistrate shall be fixed by the judge with the approval of the county legislative body or the pertinent governing body, and paid from public funds.

(2) In any county with a population of not less than seventy-one thousand three hundred (71,300) nor more than seventy-one thousand four hundred (71,400), according to the 2000 federal census or any subsequent federal census, the child support magistrate appointed to serve the chancery court shall also serve the juvenile court.

(b) The judge may direct that any case or class of cases over which the juvenile court has jurisdiction shall be heard in the first instance by the magistrate. These cases shall be conducted in the same manner as cases heard by the judge. In the conduct of the proceedings, the magistrate shall have the powers of a judge and shall have the same authority as the judge to issue any and all process.

(c) Upon conclusion of the hearing, the magistrate shall file an order containing written findings of fact,

conclusions of law, and recommendations. The magistrate shall also inform each party of the right to request a review by the juvenile court judge, the time limits within which a request for a review must be perfected, and the manner in which to perfect the request for a review.

(d)(1)(A) A party may, within ten (10) days after entry of the magistrate's order, file with the court a written request for a review of the record by the juvenile court judge. The request must include written exceptions to the magistrate's findings, conclusions, or recommendations, and specify the findings to which the party objects, the grounds for the objection, and the party's proposed findings, conclusions, or recommendations.

(B) The juvenile court judge shall not grant a review when the party requesting the review did not participate in the hearing before the magistrate in good faith.

(C) A review by the juvenile court judge is not a hearing and is limited to those matters for which exceptions have been filed.

(D) The juvenile court judge shall afford the magistrate's findings, conclusions, and recommendations a presumption of correctness. The judge shall modify the magistrate's findings only when, after review, the judge makes a written finding that an abuse of discretion exists in any or all of the magistrate's findings, conclusions, or recommendations.

(E) The judge shall issue written findings, conclusions, or recommendations, or may schedule the matter for a new hearing of any issues the judge deems necessary, with notice to all parties.

(2) Notwithstanding subdivision (d)(1), no later than ten (10) days after the entry of the magistrate's order, the judge may, on the judge's own initiative, order a new hearing of any matter heard before a magistrate.

(3) If a child pleads guilty or no contest before a magistrate in a delinquency or unruly proceeding, then the child waives the right to request a review by the juvenile court judge, and the judge shall not order an adjudicatory hearing or review in such proceeding. If the plea includes an agreement as to disposition, then the child also waives the right to request a review before the judge regarding disposition, and the judge shall not order a hearing or review in such proceeding.

(4) This section does not alter the court's jurisdiction to hear post-dispositional issues, including, but not limited to, judicial reviews or collateral challenges.

(5) If a delinquency or unruly petition is dismissed by the magistrate after a hearing on the merits, then there is no right to a hearing or review.

(6) Unless the judge orders otherwise, the order of the magistrate is the order of the court pending any review or hearing.

(e) If no review before the judge is requested, or a review is expressly waived by all parties within the specified time period, then the magistrate's order be-

comes the order of the court. A party may appeal the order pursuant to § 37-1-159.

(f) Any hearing by a magistrate on any preliminary matter shall be final and not reviewable by the judge of the juvenile court, except on the court's own initiative. The setting of bond in detention hearings and any matter that is a final adjudication of a child shall not be construed to be preliminary matters under this section and are reviewable by the judge of the juvenile court upon request or upon the court's own initiative, except as provided in this section.

(g) All parties to the hearing before the magistrate are parties to any review conducted by the judge or any hearing that may be set by the judge following the review.

(b) It shall order that the defendant be taken forthwith to the juvenile court or to a place of detention designated by the juvenile court, or release the defendant to the custody of the defendant's parent, guardian, custodian or other person legally responsible for the

The informal adjustment shall not extend beyond three (3) months from the day commenced, unless extended by the court for an additional period not to exceed a total of six (6) months, and does not authorize the attachment or detention of the child if not otherwise permitted by this part.

(2) If the child and the victim agree to restitution, restitution may be paid independently of informal adjustment; however, financial obligations shall not be assessed or collected against a child as part of an informal adjustment pursuant to this section.

(b)(1) After a petition has been filed and a designated court officer determines that an unruly or delinquent case is an appropriate case for diversion from adjudication, the parties may agree to pretrial diversion that suspends the proceedings and places the child under supervision on terms and conditions agreeable to the designated court officer and approved by the court. A child may not be placed on pretrial diversion if the delinquent act alleged is an offense described in § 37-1-153(b).

(2) A pretrial diversion agreement shall remain in force for a maximum of six (6) months unless the child is discharged sooner by the court. Upon application of any party to the proceedings, made before expiration of the six-month period and after notice and a hearing, pretrial diversion may be extended by the court for an additional six (6) months.

(3) If, prior to discharge by the court or expiration of the pretrial diversion period, the child fails to fulfill the terms and conditions of the pretrial diversion agreement, the original petition may be reinstated and the case may proceed to adjudication just as if the agreement had never been entered.

(4) Attachment and detention of a child are not authorized for the violation of a pretrial diversion agreement unless otherwise permitted by this part.

(c) The petition shall be dismissed with prejudice once a child completes an informal adjustment pursuant to subsection (a) or pretrial diversion pursuant to subsection (b) without reinstatement of the original delinquent or unruly petition.

(d) No admission shall be required as part of informal adjustment or pretrial diversion, and any statements made by the child during the preliminary inquiry, informal adjustment pursuant to subsection (a), or pretrial diversion pursuant to subsection (b) are not admissible prior to a dispositional hearing.

37-1-112. Transfer to another court within state — Appeals.

(a) If the child resides in a county of this state and the proceeding is commenced in a court of another county, the court, on motion of a party or on its own motion after a finding of fact, may transfer the proceeding to the county of the child's residence for further action. Like transfer may be made if the residence of the child changes pending the proceeding. The proceeding may be transferred if the child has been adjudicated delinquent or unruly, or neglected or abandoned and other proceedings involving the child are pending in the juvenile court of the county of the child's residence.

(b) If a juvenile court proceeding is commenced under this part and a proceeding involving the child's custody is also commenced or pending in the circuit, chancery or general sessions court exercising domestic relations jurisdiction, the juvenile court, on motion of a

party or on its own motion after an adjudication making specific findings of fact pursuant to § 37-1-129(a)(2) and after ordering any essential services for the child and family, may transfer the custody proceeding to the court where the pending matter has been commenced. Like transfer may be made if the residence of the child changes during the pendency of the juvenile court proceedings. The transfer shall only occur upon a finding of fact by the transferring court that the transfer will be in the best interest of the child, will promote judicial economy, will provide a more reasonable or convenient forum, or for other good cause. The transferring court may communicate with the receiving court concerning the transfer of the case. The transfer of the custody proceeding to another court exercising domestic relations jurisdiction, except to another juvenile court, shall not occur if the case involves allegations of dependency, neglect or abuse and the child is in the custody of the department of children's services.

(c) Certified copies of all legal and social documents and records pertaining to the case on file with the clerk of the court shall accompany the transfer.

(d) An appeal of a transfer decision under this part shall be to the court of appeals in accordance with the Tennessee Rules of Appellate Procedure.

37-1-113. Taking into custody — Grounds.

(a) A child may be taken into custody:

(1) Pursuant to an order of the court under this part;

(2) Pursuant to the laws of arrest;

(3) By a law enforcement officer, social worker of the department of human services, or duly authorized officer of the court, if there are reasonable grounds to believe that the conditions specified in § 37-1-114(a)(2) exist; or

(4) By a law enforcement officer or duly authorized officer of the court if there are reasonable grounds to believe that the child has run away from the child's parents, guardian or other custodian.

(b) The taking of a child into custody is not an arrest, except for the purpose of determining its validity under the Constitution of Tennessee or the Constitution of the United States.

History.

Acts 1970, ch. 600, § 13; 1977, ch. 482, § 14; 1981, ch. 247, § 2; T.C.A., § 37-213.

37-1-114. Detention or shelter care of child prior to hearing on petition.

(a) A child taken into custody shall not be detained or placed in shelter care prior to the hearing on the petition unless there is probable cause to believe that the child:

(1) Has committed the delinquent or unruly act with which the child is charged; or

(2) Is a neglected, dependent or abused child, and in either case the child's detention or shelter care is required because the child is subject to an immediate threat to the child's health or safety to the extent that delay for a hearing would be likely to result in severe or irreparable harm, or the child may abscond or be removed from the jurisdiction of the court, and in either case, there is no less drastic alternative to removal of the child from the custody of the child's parent, guardian, legal custodian or the person who physically possesses or controls the child available that would reasonably and adequately protect the child's health or safety or prevent the child's removal from the jurisdiction of the court pending a hearing.

(b) Children alleged to be unruly shall not be detained for more than twenty-four (24) hours, excluding nonjudicial days unless there has been a detention hearing and a judicial determination that there is probable cause to believe the child has violated a valid court order, and in no event shall such a child be detained for more than seventy-two (72) hours exclusive of nonjudicial days prior to an adjudicatory hearing. Nothing herein prohibits the court from ordering the placement of children in shelter care where appropriate, and such placement shall not be considered detention within the meaning of this section.

(c) A child shall not be detained in any secure facility or secure portion of any facility unless:

(1) There is probable cause to believe the child has committed a delinquent offense constituting:

(A) A crime against a person resulting in the serious injury or death of the victim or involving the likelihood of serious injury or death to such victim;

(B) The unlawful possession of a handgun or carrying of a weapon, as prohibited by title 39, chapter 17, part 13;

(C) Burglary, under § 39-13-1002, aggravated burglary, under § 39-13-1003, especially aggravated burglary, under § 39-13-1004, an offense under title 39, chapter 13, part 4, or theft, under § 39-14-103, of a motor vehicle; or

(D) A threat of mass violence on school property, as prohibited by § 39-16-517. The court may order a child held under this subdivision (c)(1)(D) to undergo a mental health evaluation under § 37-1-128(e) if appropriate;

(2) There is probable cause to believe the child has committed any other delinquent offense involving the likelihood of serious physical injury or death, or an offense constituting a felony, violation of probation or violation of aftercare, and the child:

(A) Is currently on probation;

(B) Is currently awaiting court action on a previous alleged delinquent offense;

(C) Is alleged to be an escapee or absconder from a juvenile facility, institution or other court-ordered placement; or

(D) Has, within the previous twelve (12) months, willfully failed to appear at any juvenile court hearing, engaged in violent conduct resulting in serious injury to another person or involving the likelihood of serious injury or death, or been adjudicated delinquent by virtue of an offense constituting a felony if committed by an adult;

(3) There is probable cause to believe the child has committed a delinquent offense, and special circumstances in accordance with the provisions of subsection (a) indicate the child should be detained; however, in any such case, the judge shall, within twenty-four (24) hours of the actual detention, excluding nonjudicial days, issue a written order on a form prescribed by the Tennessee council of juvenile and family court judges setting forth the specific reasons necessitating such detention. Nothing in this subdivision (c)(3) shall be construed as requiring a hearing or formal finding of fact, except as otherwise required by § 37-1-117;

(4) The child is alleged to be an escapee from a secure juvenile facility or institution;

(5) The child is wanted in another jurisdiction for an offense that, if committed by an adult, would be a felony in that jurisdiction;

(6) There is probable cause to believe the child is an unruly child who has violated a valid court order or who is a runaway from another jurisdiction. Any detention of such a child shall be in compliance with subsection (b);

(7) In addition to any of the conditions listed in subdivisions (c)(1)-(6), there is no less restrictive alternative that will reduce the risk of flight or of serious physical harm to the child or to others, including placement of the child with a parent, guardian, legal custodian or relative; use of any of the alternatives listed in § 37-1-116(g); or the setting of bail; and

(8) For the purposes of this subsection (c), "serious physical injury" includes conduct that would constitute the offenses of aggravated rape, rape and aggravated sexual battery.

37-1-115. Custody — Release to proper party — Warrant for custody.

(a) A person taking a child into custody shall within a reasonable time:

(1) Release the child to such child's parents, guardian or other custodian upon a promise by such person or persons to bring the child before the court when requested by the court unless such child's detention or shelter care is warranted or required under § 37-1-114; or

(2) Bring the child before the court or deliver such child to a detention or shelter care facility designated by the court or to a medical facility if the child is believed to suffer from a serious physical condition or illness that requires prompt treatment. A person taking a child into custody shall give notice thereof, together with a reason for taking the child into custody, to a parent, guardian or other custodian and to the court. If the child is taken into custody pursuant to the provisions of § 37-1-113(a)(3) prior to the filing of a petition, a petition under § 37-1-120 shall be filed as soon as possible but in no event later than two (2) days after the child is taken into custody excluding Saturdays, Sundays and legal holidays.

(b) If a parent, guardian or other custodian, when requested, fails to bring the child before the court as provided in subsection (a), the court may issue its warrant directing that the child be taken into custody and brought before the court.

(c)(1) A law enforcement officer who has taken a child into custody for the commission of an offense that would be considered a misdemeanor if committed by an adult may, in that officer's professional discretion, issue a citation in lieu of continued custody of the child. In issuing a citation pursuant to this subsection (c), the officer shall:

(A) Prepare a written citation, which shall include the name and address of the cited child, the offense charged, and the time and place of appearance;

(B) Have the child sign the original and duplicate copy of the citation. The officer shall deliver one (1) copy to the child and retain the other; and

(C) Release the cited child from custody.

(2) If the law enforcement officer determines that issuing a citation is appropriate but that circumstances surrounding the issuance of a citation indicate an immediate risk to the safety of the child, the officer shall make efforts to contact a parent, guardian, or legal custodian of the child to retrieve the child in lieu of or prior to taking the child into custody.

(d) Subject to the approval of the juvenile court, each municipal or metropolitan police department or sher-

iff's department is authorized to create and administer its own juvenile diversion program to address citable juvenile offenses without court involvement. Each program shall be developed in consultation with the juvenile court, local school districts, and other community stakeholders, and shall be subject to the same conditions and limitations as informal adjustment pursuant to § 37-1-110.

Acts 2018, ch. 1052, § 55 provided that it is the intent of the general assembly that improvements to the juvenile justice system and expansion of community-based resources for justice-involved children be prioritized, including, but not limited to, evidence-based programs, informal adjustment, diversion, home placement supervision, statewide data collection, early intervention programs and services for children and families, and mental health services, especially in any county underserved with such programs and services.

37-1-116. Place of detention — Escape or attempted escape — Shelter care — Use of seclusion.

(a) A child alleged to be delinquent or unruly may be detained only in:

(1) A licensed foster home or a home approved by the court;

(2) A facility operated by a licensed child care agency;

(3) A detention home or center for delinquent children that is under the direction or supervision of the court or other public authority or of a private agency approved by the court; or

(4) Subject to subsection (e), any other suitable place or facility designated or operated by the court. The child may be detained in a jail or other facility for the detention of adults only if:

(A) Other facilities in subdivision (a)(3) are not available;

(B) The detention is in a room separate and removed from those for adults; and

(C) It appears to the satisfaction of the court that public safety and protection reasonably require detention, and it so orders.

(b) The official in charge of a jail or other facility for the detention of adult offenders or persons charged with crime shall inform the court immediately if a person who is or appears to be under eighteen (18) years of age is received at the facility, and shall bring such person before the court upon request or deliver such person to a detention or shelter care facility designated by the court.

(c) If a case is transferred to another court for criminal prosecution, the child may be transferred to the appropriate officer or detention facility in accordance with the law governing the detention of persons charged with crime.

(d) A child alleged to be dependent or neglected may be detained or placed in shelter care only in the

facilities stated in subdivisions (a)(1), (2) and (4), and shall not be detained in a jail or other facility intended or used for the detention of adults charged with criminal offenses or of children alleged to be delinquent.

(e) No child may be detained or otherwise placed in any jail or other facility for the detention of adults, except as provided in subsections (c) and (h).

(f) A county may contract with juvenile courts in other counties, other public authorities, or private agencies to place children in any of the facilities listed in subdivisions (a)(1)-(3) and in the first sentence of subdivision (a)(4). The payment for such placements shall be according to per diem allowances established jointly by the department of children's services and the comptroller of the treasury, or as agreed upon between the county and the juvenile court or other authority or agency operating the facility. The cost allowances established jointly by the department and the comptroller of the treasury shall take into account the actual operating costs of the facility, the costs of any special programs offered by the facility, and the cost of any transportation provided by the facility. Any and all such costs of placement and transportation may be assessed against the parents or other persons legally obligated to care for and support the child as provided in § 37-1-150(d).

(g) To the extent necessary to comply with subsection (e), counties may expend funds received from the state for the purpose of improving juvenile court services or providing community alternatives to detention to pay for the alternative placement and transportation services described in subsection (f), and to develop other alternatives to jail for children, including emergency foster homes, runaway/emergency shelters, juvenile summons, crisis intervention, home detention, attendant care and other programs.

(h) A juvenile may be temporarily detained for as short a time as feasible, not to exceed forty-eight (48) hours, in an adult jail or lockup, if:

(1) The juvenile is accused of a serious crime against persons, including criminal homicide, forcible rape, mayhem, kidnapping, aggravated assault, robbery and extortion accompanied by threats of violence;

(2) The county has a low population density not to exceed thirty-five (35) persons per square mile;

(3) The facility and program have received prior certification by the Tennessee corrections institute as providing detention and treatment with total sight and sound separation from adult detainees and prisoners, including no access by trustees;

(4) There is no juvenile court or other public authority, or private agency as provided in subsection (f), able and willing to contract for the placement of the juvenile; and

(5) A determination is made that there is no existing acceptable alternative placement available for the juvenile.

(i)(1) Notwithstanding the provisions of this section to the contrary, in any facility that meets the following requisites of separateness, juveniles who meet the detention criteria of § 37-1-114(c) may be held in

a juvenile detention facility that is in the same building or on the same grounds as an adult jail or lockup; provided, that no juvenile facility constructed or developed after January 1, 1995, may be located in the same building or directly connected to any adult jail or lockup facility complex:

(A) Total separation between juvenile and adult facility spatial areas such that there could be no haphazard or accidental contact between juvenile and adult residents in the respective facilities;

(B) Total separation in all juvenile and adult program activities within the facilities, including recreation, education, counseling, health care, dining, sleeping and general living activities;

(C) Separate juvenile and adult staff, including management, security staff and direct care staff, such as recreational, educational and counseling. Specialized services staff, such as cooks, bookkeepers and medical professionals who are not normally in contact with detainees or whose infrequent contacts occur under conditions of separation of juveniles and adults, can serve both; and

(D) In the event that state standards or licensing requirements for secure juvenile detention facilities are established, the juvenile facility must meet the standards and be licensed or approved as appropriate.

(2) In determining whether the criteria set out in this subsection (i) are met, the following factors will serve to enhance the separateness of juvenile and adult facilities:

(A) Juvenile staff are employees of or volunteers for a juvenile service agency or the juvenile court with responsibility only for the conduct of the youth serving operations. Juvenile staff are specially trained in the handling of juveniles and the special problems associated with this group;

(B) A separate juvenile operations manual, with written procedures for staff and agency reference, specifies the function and operation of the juvenile program;

(C) There is minimal sharing between the facilities of public lobbies or office/support space for staff;

(D) Juveniles do not share direct service or access space with adult offenders within the facilities, including entrance to and exits from the facilities. All juvenile facility intake, booking and admission processes take place in a separate area and are under the direction of juvenile facility staff. Secure juvenile entrances (sally ports, waiting areas) are independently controlled by juvenile staff and separated from adult entrances. Public entrances, lobbies and waiting areas for the juvenile detention program are also controlled by juvenile staff and separated from similar adult areas. Adult and juvenile residents do not make use of common passageways between intake areas, residential spaces and program/service spaces;

(E) The space available for juvenile living, sleeping and the conduct of juvenile programs conforms

to the requirements for secure juvenile detention specified by prevailing case law, prevailing professional standards of care, and by state code; and

(F) The facility is formally recognized as a juvenile detention center by the state agency responsible for monitoring, review or certification of juvenile detention facilities.

(j)(1) Any juvenile who:

(A) Is alleged or adjudicated to be delinquent;

(B) Is confined to a secure detention or correctional facility designated, operated or approved by the court; and

(C) Absconds or attempts to abscond from such facility;

may be charged with the offense of escape or attempted escape and a petition alleging such offense may be filed with the juvenile court of the county in which the alleged offense occurred. If the allegations of the petition are sustained, then the court may make any order of disposition authorized by § 37-1-131.

(2) Any juvenile who:

(A) Is alleged or adjudicated to be delinquent;

(B) Has been placed by the court in a secure detention or correctional facility designated, operated or approved by the court;

(C) Is being transported to or from such facility; and

(D) Absconds or attempts to abscond from the custody of the person responsible for such transportation;

may be charged with the offense of escape or attempted escape and a petition alleging such offense may be filed with the juvenile court of the county in which the alleged offense occurred. If the allegations of the petition are sustained, then the court may make any order of disposition authorized by § 37-1-131.

(3)(A) Any juvenile may be charged with the offense of escape or attempted escape and a petition alleging the offense may be filed with the juvenile court of the county in which the alleged offense occurred who:

(i) Is adjudicated to be delinquent;

(ii) Is placed in a place of detention other than a secure detention facility, as specified in subsection (a); and

(iii) Absconds or attempts to abscond from such facility.

(B) Escape or attempted escape from a facility listed in subdivisions (a)(1)-(3) constitutes an offense that, if committed by an adult, would be a misdemeanor. If the allegations of the petition are sustained, then the court may make any order of disposition authorized by § 37-1-131.

(4) Upon an escape by a juvenile who is alleged or adjudicated to be delinquent by virtue of an act which is a felony if committed by an adult and who is confined to a secure detention or correctional facility designated, operated, or approved by the court, a youth development center, or other hardware secure facility that contracts with the department, the on-site facility supervisor-in-charge shall immediately report the escape to the department of children's

services and chief law enforcement officer of the county in which the facility is located. The report must include the facts of the escape, the time when the escape occurred and the circumstances under which the escape occurred, together with the particular description of the escapee, the escapee's age, size, complexion, race, color of hair and eyes, and from what county the escapee was committed, for what offense, and when the offense occurred. An on-site facility supervisor-in-charge who intentionally fails to comply with the reporting requirement of this subdivision (j)(4) may be charged with the offense of permitting or facilitating escape under § 39-16-607.

(5) Upon a security breach at a secure detention or correctional facility designated, operated, or approved by the court for confinement of juveniles; a youth development center; or other hardware secure facility that contracts with the department, the on-site facility supervisor-in-charge shall immediately report the security breach to the department of children's services and the chief law enforcement officer of the county in which the facility is located. The report must include the facts of the security breach, the time when the breach occurred, and the circumstances under which the breach occurred, together with the particular description of any person involved in the breach, including the person's age, size, complexion, race, and color of hair and eyes. As used in this subdivision (j)(5), "security breach" means entry into a secure detention or correctional facility, youth development center, or other hardware secure facility that contracts with the department by an adult or child who is not authorized to do so. An on-site facility supervisor-in-charge who intentionally fails to comply with the reporting requirement of this subdivision (j)(5) may be charged with the offense of permitting or facilitating escape under § 39-16-607.

(k)(1) Notwithstanding any law to the contrary, no child alleged to be delinquent and meeting any of the criteria under this subsection (k) nor any child committed to the department of children's services as a delinquent child and meeting any of the criteria under this subsection (k) shall be held in shelter care authorized by this section with a child alleged to be dependent or neglected unless the following are satisfied:

(A) There is total separation between facility spatial areas such that there could be no haphazard or accidental contact between a child alleged to be delinquent, or committed as delinquent, who meets the criteria of this subsection (k) and a child alleged to be dependent or neglected; and

(B) There is total separation in all program activities between children alleged to be delinquent, or committed as delinquent, who meet the criteria of this subsection (k) and children alleged to be dependent or neglected, including all program activities listed in subdivision (i)(1)(B) and total separation of any staff for such children as listed in subdivision (i)(1)(C).

(2) The criteria to be used under this subsection (k), together with an allegation of delinquency or

commitment to the department as delinquent, are:

(A) The child has been found to be delinquent or is alleged to be delinquent based upon a felony offense constituting a crime against a person or persons;

(B) The child has prior commitments to the department as a result of having committed a felony offense or offenses that constitute a crime against a person or persons;

(C) The child has been found to be delinquent or is alleged to be delinquent based upon a felony drug offense;

(D) The child has prior commitments to the department as a result of having committed a felony drug offense; or

(E) The child has a history of prior convictions for felony offenses that constitute crimes against persons or felony drug offenses, even though the child has never been committed to the department.

(l) Seclusion must not be used for discipline, punishment, administrative convenience, retaliation, staffing shortages, or any reason other than a temporary response to behavior that threatens immediate harm to a youth or others. This subsection (l) applies to any child detained in any facility pursuant to § 37-1-114, either pre-adjudication or post-adjudication. Following a period of seclusion, the facility administrator may review the seclusion and authorize an additional two-hour period of seclusion if appropriate. The facility administrator shall not authorize more than two (2) subsequent, consecutive periods of seclusion or more than six (6) total hours of seclusion within a twenty-four-hour period. The department may, by rule or policy, provide alternative options for a child who cannot safely rejoin the rest of the resident population following the maximum period of seclusion authorized by this subsection (l).

Acts 2018, ch. 1052, § 55 provided that it is the intent of the general assembly that improvements to the juvenile justice system and expansion of community-based resources for justice-involved children be prioritized, including, but not limited to, evidence-based programs, informal adjustment, diversion, home placement supervision, state-wide data collection, early intervention programs and services for children and families, and mental health services, especially in any county underserved with such programs and services.

37-1-117. Investigation and release or detention — Petition — Hearings.

(a)(1) If a child alleged to have committed a delinquent or unruly act is brought before the court or delivered to a detention facility designated by the court, the intake or other authorized officer of the

court shall immediately make an investigation and release the child unless it appears that such child's detention is warranted or required under § 37-1-114.

(2) If such child is not so released, the court shall issue an order authorizing the detention of the child and a petition under § 37-1-120 shall be promptly filed with the court. The filing of a petition shall not preclude participation in informal adjustment pursuant to § 37-1-110. In the case of a child alleged to be delinquent, a detention hearing shall be held no later than seventy-two (72) hours after the child is placed in detention to determine whether such child's detention is required under § 37-1-114. In computing the time limitation for purposes of such detention hearing, nonjudicial days are excluded, but in no event shall the hearing be held later than eighty-four (84) hours after the child is placed in detention. The court, in its discretion, may release the child on an appearance bond or on the child's own recognizance subject to a written agreement to appear in court.

(b)(1) When the court finds, based upon a sworn petition or sworn testimony containing specific factual allegations, that there is probable cause to believe that the conditions specified in § 37-1-114(a)(2) exist and a child is in need of the immediate protection of the court, the court may order that the child be removed from the custody of the child's parent, guardian, legal custodian, or the person who physically possesses or controls the child and be placed in the custody of a suitable person, persons, or agency, as specified in § 37-1-116(d), pending further investigation and hearing. When a child alleged to be dependent and neglected is removed from the custody of such child's parent, guardian, legal custodian, or the person who physically possesses or controls the child prior to a hearing on a petition, a preliminary hearing shall be held no later than seventy-two (72) hours after the child's removal to determine whether such child's continued removal is required under § 37-1-114. In computing the time limitation for purposes of such preliminary hearing, nonjudicial days are excluded, but in no event shall the hearing be held later than eighty-four (84) hours after the child is removed from the home.

(2) If a child is removed from the home prior to the filing of a petition, a petition shall be filed within forty-eight (48) hours of the removal, excluding nonjudicial days, unless the child is returned to the home within the forty-eight hour time period. In no event shall a petition be filed later than the preliminary hearing.

(3) This subsection (b) may be waived by express and knowing waiver, by the parties to an action including the parents, guardian, or legal custodian and the child or guardian ad litem for the child. Any such waiver may be revoked at any time, at which time this section shall apply. The court shall make every effort to advise the parent, guardian, or legal custodian, and the child individually, if fourteen (14) years of age or older, of the time, date, and place of the hearing and the factual circumstances necessitating the removal.

(c) If the child is not so released, and a parent, guardian, or legal custodian has not been notified of the hearing, did not appear or waived appearance at this hearing, and files an affidavit showing these facts, the court shall rehear the matter without unnecessary delay and order such child's release unless it appears from the hearing that the child's detention or shelter care is required under § 37-1-114.

(2)(A) An adult is entitled to representation by legal counsel at all stages of any proceeding under this part in proceedings involving:

(i) Child abuse prosecutions pursuant to §§ 37-1-412 and 39-15-401;

(i) Abuse, dependency or neglect pursuant to § 37-1-102; or

(ii) Termination of parental rights pursuant to § 36-1-113.

(3) If the person is indigent, the court shall provide counsel for the indigent person. If a person

appears without counsel, the court shall ascertain whether the person knows of the right to counsel and of the right to be provided with counsel by the court if the person is indigent. The court may continue the proceeding to enable a person to obtain counsel and shall provide counsel for an unrepresented indigent person upon request.

(4) In all delinquency hearings or in unruly hearings in which the child may be in jeopardy of being removed from the home as specified in § 37-1-132(b), counsel must be provided for a child not represented by the child's parent, guardian, guardian ad litem or custodian or where the child's interests conflict with the parent, guardian, custodian or guardian ad litem. If the interest of two (2) or more persons conflict, separate counsel may be provided for each of them.

(b) A person is indigent if:

(1) That person does not possess sufficient means to pay reasonable compensation for the services of a competent attorney or guardian ad litem. In determining indigency, the court shall consider the financial resources of the child and the child's parents, legal custodians or guardians; or

(2) In the case of a child, if the child, the child's parents, legal custodians or guardians are financially able to defray a portion or all of the cost of the child's representation but refuse to do so timely, the court may make written findings determining this as indigency; provided, the court shall assess the administrative fee and costs pursuant to § 37-1-150(g).

(c)(1) Parents, legal custodians, or guardians, or any adult defendants or respondents whose child is provided with court-appointed counsel pursuant to this section, or who themselves are provided with court-appointed counsel pursuant to this section, may be assessed by the court at the time of appointment a nonrefundable administrative fee in the amount of fifty dollars (\$50.00). The parents, legal custodians, or guardians of a child who is appointed a guardian ad litem may be assessed by the court an administrative fee as provided in this subdivision (c)(1).

(2) The administrative fee shall be assessed only one (1) time per case and shall be waived or reduced by the court upon a finding that the child and the child's parents, legal custodians, or guardians lack financial resources sufficient to pay the fee in such amount. In cases where a guardian ad litem is appointed, the financial resources of the child shall not be considered. The fee may be increased by the court to an amount not in excess of two hundred dollars (\$200) upon a finding that the child's parents, legal custodians or guardians, or an adult defendant or respondent possesses sufficient financial resources to pay the fee in such increased amount. The administrative fee shall be payable, at the court's discretion, in a lump sum or in installments; provided, that the fee shall be paid prior to disposition of the case or within two (2) weeks of appointment of counsel, whichever first occurs. Prior to disposition of the case, the clerk of the court shall inform the judge whether the administrative fee has been collected. Failure to pay the administrative fee assessed by the

court shall not reduce or in any way affect the rendering of services by court-appointed counsel. The administrative fee shall not be assessed against the child.

(3) The administrative fee shall be separate from, and in addition to, any other contribution or recoupment assessed pursuant to law for defrayal of costs associated with the provision of court-appointed counsel. The clerk of the court shall retain a commission of five percent (5%) of each dollar of administrative fees collected and shall transmit the remaining ninety-five percent (95%) of each such dollar to the state treasurer for deposit in the state's general fund.

(4) If the administrative fee is not paid prior to disposition of the case, then the fee shall be collected in the same manner as costs are collected; provided, that upon disposition of the case, moneys paid to the clerk, including any cash bond posted by or on behalf of a child who has been transferred or is awaiting a transfer hearing pursuant to § 37-1-134 or an adult, shall be allocated to taxes, costs, and fines and then to the administrative fee and any recoupment ordered. The administrative fee and any recoupment or contribution ordered for the services of court-appointed counsel may apply and may be collected even if the charges against the party are dismissed. The court shall have discretion to waive the administrative fee if the case is dismissed.

(5) As part of the clerk's regular monthly report, each clerk of court, who is responsible for collecting administrative fees pursuant to this section, shall file a report with the court, the administrative director of the courts, and the comptroller of the treasury. (b) [Deleted by 2016 amendment.]

(c)(1) At any time prior to a child being adjudicated unruly or dependent and neglected, or before the disposition of a child who has been adjudicated delinquent, unruly or dependent and neglected, the court may order that the department make an assessment of the child and report the findings and recommendations to the court. Such order of referral shall confer authority to the department or its designees to transport the child and to obtain any necessary evaluations of the child without further consent of the parent(s), legal custodian or guardian.

(2) If, during the evaluation or assessment, the department determines that there is a need for treatment for either the mental or physical well being of the child, consent of the parent(s), guardian

If a child is suspected of being in need of or is eligible for special education services, then state and federal laws governing evaluation and placement must be followed.

(3) A report to the court of the department's recommendations shall be made within fifteen (15) days, which may be extended up to thirty (30) days for good cause following the court's order of referral. (d) During the pendency of any proceeding, the court may order the child examined at a suitable place by a physician regarding the child's medical condition, and may order medical or surgical treatment of a child who is suffering from a serious physical condition or illness that requires prompt treatment, even if the parent, guardian or other custodian has not been given notice of a hearing, is not available, or without good cause informs the court of such person's refusal to consent to treatment.

(e)(1)(A) If, during the pendency of any proceeding under this chapter, there is reason to believe that the child may be suffering from mental illness, the court may order the child to be evaluated on an outpatient basis by a mental health agency or a licensed private practitioner designated by the commissioner of mental health and substance abuse services to serve the court. If, during the pendency of any proceeding under this chapter, there is reason to believe that the child may be suffering from a developmental disability, the court may order the child to be evaluated on an outpatient basis by a mental health agency, developmental center or a licensed private practitioner designated by the commissioner of mental health and substance abuse services to serve the court. The outpatient evaluation shall be completed no more than thirty (30) days after receipt of the order by the examining professional.

If the court orders the child to be hospitalized in a department of mental health and substance abuse services facility, hospital or treatment resource, the child shall be placed into the custody of the commissioner of mental health and substance abuse services at the expense of the

(D) Any other information requested by the court that is within the competence of the evaluator.

(3) If it appears from the evaluation report and other information before the court that the child is in need of care, training or treatment for mental illness or developmental disability, the court may proceed in accordance with other provisions of this chapter or may order that proceedings be initiated before the court under § 37-1-175, § 33-5-402 or title 33, chapter 6, part 5.

(4) When transportation of the child is necessary to obtain evaluations under this subsection (e), the court may order the child transported with the cost of the transportation borne by the county from which the child is sent.

(5) If a community mental health center receives grants or contracts from the department of mental health and substance abuse services for services for mental illness or developmental disability and the commissioner has not designated another provider of outpatient evaluation for the court, the department shall contract with the center for evaluation services under this subsection (e), and the center shall provide such services ordered under this subsection (e) by courts in the center's catchment area.

(6) If a child who is alleged to be delinquent or unruly is brought before the court, and if the court determines that there is reason to believe that the child is experiencing a behavioral health emergency, then the court may request the services of a crisis response provider designated by the commissioner of mental health and substance abuse services to perform such services under title 33. For purposes of this subdivision (e)(6), "behavioral health emergency" means an acute onset of a behavioral health condition that manifests itself by an immediate substantial likelihood of serious harm as defined in § 33-6-

501. If the crisis provider is unable to respond within two (2) hours of contact by the court, the crisis provider shall immediately notify the court and provide instructions for examination of the child under title 33, chapter 6, part 1.

(f) After adjudication, but prior to the disposition of a child found to be dependent and neglected, delinquent, unruly or in need of services under § 37-1-175, the court may place the child in custody of the department of children's services for the purpose of evaluation and assessment if the department has a suitable placement available for such purpose. If the department determines that there is no suitable placement available, the court shall not order the department to take custody of the child for the purpose of evaluation and assessment. Such pre-disposition custody shall last for a maximum of thirty (30) days and the court shall have a hearing to determine the appropriate disposition before the expiration of the thirty (30) days.

For the establishment of the Tennessee Children's Plan, see Executive Order No. 58 (June 29, 1994).

Acts 2010, ch. 1100, § 153 provided that the commissioner of mental health and developmental disabilities, the commissioner of mental health, the commissioner of intellectual and developmental disabilities, and the commissioner of finance and administration are authorized to promulgate rules and regulations to effectuate the purposes of the act. All such rules and regulations shall be promulgated in accordance with the provisions of the Uniform Administrative Procedures Act, compiled in title 4, chapter 5.

Acts 2018, ch. 1052, § 1 provided that the act, which amended this section, shall be known and may be cited as the "Juvenile Justice Reform Act of 2018."

Acts 2018, ch. 1052, § 55 provided that it is the intent of the general assembly that improvements to the juvenile justice system and expansion of community-based resources for justice-involved children be prioritized, including, but not limited to, evidence-based programs, informal adjustment, diversion, home placement supervision, statewide data collection, early intervention programs and services for children and families, and mental health services, especially in any county underserved with such programs and services.

37-1-129. Hearings — Judicial Diversion — Findings — Disposition of child.

(a)(1) If a child alleged to be delinquent or unruly enters a plea of guilty or no contest, or after an adjudicatory hearing, the court may defer further proceedings and place the child on judicial diversion and probation subject to reasonable conditions, which may include completion of substance abuse and mental health treatment services where appropriate, without entering a judgment of guilty and with the consent of the child. For delinquent offenses, such reasonable conditions must be consistent with a validated risk and needs assessment. Probation conditions must not include a period of detention or placing the child in custody of the department, but may include a transfer or grant pursuant to § 37-1-

131(a)(1). A child must not be placed on judicial diversion if the delinquent act alleged is an offense described in § 37-1-153(b)(1)(B) or (b)(2), if the child has previously been adjudicated delinquent for such an offense, or if the matter is dismissed after a hearing on the merits.

(2) A judicial diversion agreement shall remain in force for a maximum of six (6) months unless the child is discharged sooner by the court, subject to this subdivision (a)(2). Before expiration of the six-month period, and after notice and a hearing, the court may extend judicial diversion for an additional period not to exceed six (6) months, but only if the court finds and issues a written order that:

(A) States that it is in the best interest of the child that a condition or conditions of judicial diversion remain in effect; and

(B) Specifies the condition or conditions that shall remain in effect and why that continued effectiveness is in the best interest of the child.

(3)(A) If the supervising authority finds that the child has violated the terms or conditions of judicial diversion, the supervising authority may file a petition alleging a violation of the terms or conditions of judicial diversion with the court; provided, that the court, in its discretion, may direct the supervising authority that, in some or all circumstances, such a petition should be filed only if the supervising authority makes and documents attempts to address the noncompliant behavior and determines and documents the reasons for which court intervention is needed to address the noncompliance.

(B) If a violation of any of the terms of judicial diversion probation is alleged, the child shall be given notice of the violation and an opportunity to be heard concerning the alleged violation. If, after a hearing, the court determines that a violation has occurred, the court may enter an adjudication of guilty and proceed to a dispositional hearing. If no violation is found, the court may continue the period of probation or may dismiss the petition.

(4) If, during the period of probation, the child does not violate any of the conditions of the probation, then upon expiration of the period, the court shall discharge the child and dismiss the proceedings against the child.

(b)(1) If an adjudicatory hearing is held, the court shall make and file its findings as to whether the child is a dependent and neglected child, or, if the petition alleges that the child is delinquent or unruly, whether the acts ascribed to the child were committed by that child. If the court finds that the child is not a dependent or neglected child or that the allegations of delinquency or unruly conduct have not been established, it shall dismiss the petition and order the child discharged from any detention or other restriction theretofore ordered in the proceeding.

(2) If the petition alleged the child was dependent and neglected as defined in § 37-1-102(b)(13)(G), or if the court so finds regardless of the grounds alleged in

the petition, the court shall determine whether the parents or either of them or another person who had custody of the child committed severe child abuse. The court shall file written findings of fact that are the basis of its conclusions on that issue within thirty (30) days of the close of the hearing or, if an appeal or a petition for certiorari is filed, within five (5) days thereafter, excluding nonjudicial days. If the court finds the child is dependent and neglected, a dispositional hearing shall be held. In scheduling the hearing, the court shall give priority to proceedings in which a child has been removed from the child's home before an order of disposition has been made.

(3) If the petition alleged the child was delinquent or unruly and the court finds that the child committed the alleged delinquent or unruly acts, the court shall further determine whether the child is in need of treatment or rehabilitation and make and file its findings thereon. In the absence of evidence to the contrary, evidence of the commission of acts that constitute a felony or that reflect recidivistic delinquency is sufficient to sustain a finding that the child is in need of treatment or rehabilitation. If the court finds the child is in need of treatment and rehabilitation, a dispositional hearing shall be held. If the court finds the child is not in need of treatment or rehabilitation, it shall dismiss the petition and discharge the child from any detention or other restriction. If the court continues its determination of whether the child is in need of treatment and rehabilitation or the dispositional hearing, it shall make an appropriate order for detention of the child or the child's release from detention, subject to supervision of the court during the period of the continuance. In scheduling the hearings, the court shall give priority to proceedings in which a child is in detention or has otherwise been removed from the child's home before an order of disposition has been made. The court shall minimize the use of detention between adjudication and disposition. In no event shall a dispositional hearing be postponed or continued because there is a waitlist for a suitable placement unless the child and, if applicable, the child's attorney, agree to the postponement or continuance in writing.

(c)(1) Any order of the court that places custody of a child with the department shall empower the department to select any specific residential or treatment placements or programs for the child according to the determination made by the department, its employees, agents or contractors.

(2) The court may review the residential or treatment placement of a child placed in the department's custody, and within ninety (90) days of the placement, the court may, on its own motion, order a hearing to receive evidence and testimony with regard to the appropriateness of the child's residential or treatment placement. The court shall provide notice of the hearing to the department, to the child's biological parent or parents, and any other person who has been primarily responsible for the care of the child during the twelve (12) months prior to the child's placement in the department's custody. The

court shall allow thirty (30) days from the time such notices are sent before the hearing date is set. The court shall issue a placement recommendation based on a preponderance of the evidence to the department within ten (10) days after the conclusion of the hearing. Upon receiving the court's recommendation, the department shall issue a determination as to the child's placement within fifteen (15) days. The department shall notify the court, the child's biological parent or parents, and any other person who has been primarily responsible for the care of the child during the twelve (12) months prior to the child's placement.

37-1-130. Dependent or neglected child — Disposition.

(a) If the child is found to be dependent or neglected, the court may make any of the following orders of disposition best suited to the protection and physical, mental and moral welfare of the child:

(1) Subject to the restrictions of § 37-1-129(c), permit the child to remain with the child's parents, guardian or other custodian, subject to conditions and limitations as the court prescribes, including supervision as directed by the court for the protection of the child;

(2) Subject to the restrictions of § 37-1-129(c), and subject to conditions and limitations as the court prescribes, transfer temporary legal custody to or grant permanent guardianship in accordance with part 8 of this chapter to any of the following:

(A) Any individual who, after study by the probation officer or other person or agency designated by the court, is found by the court to be qualified to receive and care for the child;

(B) The department of children's services:

(i) Any child placed in the custody of the department of children's services shall become a resident of the county in which such child is placed by the department. The board of education of each local school system shall assign the student to a public school pursuant to § 49-6-3102;

(ii) In order to assure appropriate placement for students with disabilities, the procedures required by the state board of education must be followed;

(iii) If a student is determined to be a child with disabilities as defined by state and federal laws and regulations and, therefore, entitled to special education and related services, a multi-disciplinary team of the receiving school system must be convened prior to the placement of the child in the school system for the purpose of developing an appropriate educational program. The department shall notify the receiving school system as far in advance of the intended placement as possible. A representative from the department must be present at the multi-disciplinary team meeting;

(iv) Placements in educational programs not following the requirements set forth in this section shall be the financial responsibility of the department of education;

(v) Any financial responsibility required under the provisions of this section for the education of children with disabilities whose parents are not residents of the county in which the children are placed shall be borne by the department of education and not by any local government. This provision shall not act to reduce federal funds for children with disabilities or special education going to any local education agency;

(C) An agency or other private organization licensed or otherwise authorized by law to receive and provide care for the child; or

(D) An individual in another state with or without supervision by an appropriate officer under § 37-1-142;

(3) In those counties having a county department of children's services, commit the child to the custody of such county department; or

(4) Without making any of the foregoing orders, transfer custody of the child to the juvenile court of another state if authorized by and in accordance with § 37-1-141 if the child is or is about to become a resident of that state.

(b) Unless a child found to be dependent or neglected is found also to be delinquent, the child shall not be committed to or confined in an institution or other facility designed or operated for the benefit of delinquent children. Any disposition under this section shall be implemented as soon as possible after entry of the court's order. A disposition under subdivision (a)(2) or (3) shall, in no event, result in the child's detention in shelter care, as defined in § 37-1-116, or other temporary placement, without provision of necessary services consistent with the child's assessments or evaluations, in excess of thirty (30) days after entry of the court's order.

(c) No child who has been found to be a victim of severe child abuse shall be returned to the custody or residence of any person who engaged in or knowingly failed to protect the child from the brutality or abuse

unless the court finds on the basis of clear and convincing evidence that the child will be provided a safe home free from further such brutality and abuse. The court shall file written findings of fact that are the basis of its conclusions on that issue within thirty (30) days of the close of the hearing or, if an appeal or petition for certiorari is filed, within five (5) days thereafter, excluding Sundays. No such child shall be returned to such custody on the basis of the court's order until five (5) days after entry of the order without the consent of the department and the petitioner.

(d)(1) When the department determines that a child who has been committed to the department under this section is ready to return home, the department shall notify the court in writing of its intention to place the child at home on a trial home visit. If the court objects to the trial home visit, it must notify the department of its objection in writing or set a hearing within fifteen (15) days of the date of the notice, with such hearing to be held at the earliest possible date. If the hearing is not set nor a written objection received within fifteen (15) days of the date of the notice, the department may place the child on a trial home visit. The notice shall include the provision that the department's legal custody of the child shall terminate in ninety (90) days.

(2) If during the ninety-day period the department determines that the trial home visit is not in the child's best interest and removes the child on an emergency basis or seeks to remove the child on a non-emergency basis, the department shall file a motion for review by the court of the trial home visit and shall provide notice to the parent or parents, guardian or other custodian. The court shall hold a hearing on such motion within three (3) days of an emergency removal and shall set a hearing within fifteen (15) days to be held at the earliest possible date if the motion seeks the court's permission to make a non-emergency removal.

(3) During the ninety-day trial home visit, the court may periodically review the child's status and may make any orders that the best interest of the child may require.

(4) Prior to making the notification required in subdivision (d)(1), the department must conduct an assessment of the home to determine whether the child will receive proper care and supervision in the home, including a visit to the home.

(a) If the child is found to be a delinquent child, the court may make any of the following orders of disposition best suited to the child's treatment, rehabilitation

and welfare:

(1) Subject to conditions and limitations as the court prescribes, transfer temporary legal custody or grant permanent guardianship in accordance with part 8 of this chapter to any relative or other individual with a relationship with the child who is found by the court to be qualified to receive and care for the child, if the court finds that such a transfer or grant is in the best interest of the child;

(2)(A)(i) Placing the child on probation under the supervision of the probation officer of the court or the department of children's services, any person, or persons or agencies designated by the court, or the court of another state as provided in § 37-1-143, under conditions and limitations prescribed by the court in consultation with the supervising authority and consistent with a validated risk and needs assessment, which may include completion of substance abuse and mental health treatment services where appropriate;

(ii)(a) A child may be placed on probation for a maximum period of six (6) months, subject to this subdivision (a)(2)(A)(ii). Before expiration of the first six-month period or any extension period thereafter, and after notice and a hearing, the court may extend probation for additional periods not to exceed six (6) months each, but only if the court finds and issues a written order that:

(1) States that it is in the best interest of the child that a condition or conditions of probation remain in effect; and

(2) Specifies the condition or conditions that shall remain in effect and why that continued effectiveness is in the best interest of the child; and

(b) If the requirements of subdivision (a)(2)(A)(ii)(a) have been met, probation may continue only so long as it is in the best interest of the child that the condition or conditions of probation remain in effect;

(iii) If the supervising authority finds the child has violated the conditions or limitations of probation, the supervising authority may file a petition alleging a violation of the conditions or limitations of probation with the court; provided, that the court, in its discretion, may direct the supervising authority that, in some or all circumstances, such a petition should be filed only if the supervising authority makes and documents attempts to address the noncompliant behavior and determines and documents the reasons for which court intervention is needed to address the noncompliance;

(iv) If the court finds that no violation has occurred, the child shall be allowed to resume the former conditions of probation, or probation may be terminated; and

(v) If in a subsequent proceeding, the court finds the child has violated any of the conditions or limitations of probation, the court may modify conditions consistent with the results of the

previously administered validated risk and needs assessment, including ordering a transfer or grant pursuant to subdivision (a)(1). The court shall not order a child placed in the custody of the department for a violation of the conditions or limitations of probation unless:

(a) The child is separately adjudicated dependent or neglected and placed pursuant to § 37-1-130;

(b) The child is separately adjudicated delinquent and placed pursuant to this section for an eligible delinquent offense arising out of a subsequent criminal episode other than the offense for which the child has been placed on probation; or

(c)(1) The court finds by clear and convincing evidence that the child is in imminent risk of danger to the child's health or safety and needs specific treatment or services that are available only if the child is placed in the custody of the department; and

(2) A child placed in the custody of the department under this subdivision (a)(2)(A)(v)(c) shall remain in custody so long as necessary to complete the treatment or services, which shall be evidence-based and provided by a qualified provider, but shall remain in custody no longer than six (6) months; provided, that the court may order that the child remain in custody for up to an additional six (6) month period if the court finds after a hearing or stipulation that:

(A) The child needs services or treatment that are available only if the child is in custody; and

(B) The services or treatment the child needs are evidence-based and will be provided by a qualified provider;

(B) The court shall make a finding that the child's school shall be notified, if:

(i) The child has been adjudicated delinquent for any of the following offenses:

(a) First degree murder, as defined in § 39-13-202;

(b) Second degree murder, as defined in § 39-13-210;

(ii) School attendance is a condition of probation, or if the child is to be placed in the custody of a state agency and is to be placed in school by a state agency or by a contractor of the state agency;

(C) The court may make a finding that the child's school shall be notified based on the circumstances surrounding the offense if the adjudication of delinquency is for an offense not listed in this subsection (a);

(D) The court shall then enter an order directing the youth service officer, probation officer, or the state agency, if the child has been committed to the custody of the state agency, to notify the school principal in writing of the nature of the offense and probation requirements, if any, related to school attendance, within five (5) days of the order or before the child resumes or begins school attendance, whichever occurs first. (F) The information shall be shared only with the employees of the school having responsibility for classroom instruction of the child and the school counselor, social worker or psychologist who is involved in developing a plan for the child while in the school, and with the school resource officer, and any other person notified pursuant to this section. The information is otherwise confidential and shall not be shared by school personnel with any other person or agency, except as may otherwise be required by law. (G) In no event shall a child be delayed from attending school for more than five (5) school days from the date of notice;

(H) Notwithstanding any other state law to the contrary, the department of children's services shall develop a written policy consistent with federal law detailing the information to be shared by the department with the school for children in its legal custody when notification is required;

(I) Upon the subsequent enrollment of any such student in any other LEA, the parents or custodians of the student, and the administrator of any school having previously received the same or similar notice pursuant to this section, shall notify the school in the manner specified in § 49-6-3051;

(J) A violation of the confidentiality provisions of subdivision (a)(2)(F) is a Class C misdemeanor;

Reasonable notice shall be given of the date and time of the meeting. The child, child's parent/guardian/legal caretaker, other relevant service providers, and other appropriate parties identified by the child and parent/guardian/legal caretaker shall be invited to the meeting;

health provider to develop this plan. The transition plan shall set out a list of goals to provide the child an opportunity to succeed in school and provide for school safety, a schedule for completion of the goals and the personnel who will be responsible for working with the child to complete the goals. The information shall be shared only with employees of the school having responsibility for classroom instruction of the child, but the information is otherwise confidential and shall not be shared by school personnel with any other person or agency, except as may be otherwise required by law. (i) The current offense for which the child has been adjudicated delinquent and is subject to disposition would constitute a felony if committed by an adult;

(ii)(a) The current offense for which the child has been adjudicated delinquent and is subject to disposition would constitute a misdemeanor if committed by an adult; and

(b) The child has previously been adjudicated delinquent for two (2) or more offenses arising from separate incidents that would constitute either a felony or misdemeanor if committed by an adult, including adjudications in other jurisdictions that, if committed in this jurisdiction, would constitute a felony or misdemeanor; or

(iii)(a) The court finds by clear and convincing evidence that the child is in imminent risk of danger to the child's health or safety and needs specific treatment or services that are available only if the child is placed in the

custody of the department; and

(b) A child placed in the custody of the department under this subdivision (a)(4)(B)(iii) shall remain in custody so long as necessary to complete the treatment or services, which shall be evidence-based and provided by a qualified provider, but shall remain in custody no longer than six (6) months; provided, that the court may order that the child remain in custody for up to an additional six (6) month period if the court finds after a hearing or stipulation that:

(1) The child needs treatment or services that are available only if the child is in custody; and

(2) The treatment or services the child needs are evidence-based and will be provided by a qualified provider;

(5) [Deleted by 2018 amendment, effective July 1, 2019.]

(6) Committing the child to the custody of the county department of children's services in those counties having such a department, but only if the child is eligible for commitment to the department under subdivision (a)(4) and subject to the conditions applicable to department commitment under § 37-1-137;

(7)(A) Ordering the child to perform community service work with such work being in compliance with federal and state child labor laws. For first-time delinquent acts involving alcohol or beer, in its order for community service work, the court may require the juvenile to spend a portion of such time in the emergency room of a hospital, only if, and to the extent, the hospital agrees with such action;

(B) No charitable organization, municipality, county or political subdivision thereof utilizing juveniles performing community service work pursuant to this chapter shall be liable for any injury sustained by the juvenile or other person, proximately caused by the juvenile, while the juvenile is performing a work project for such organization or governmental entity, if the organization or governmental entity exercised due care in the supervision of the juvenile;

(C) No charitable organization, municipality, county or political subdivision thereof, nor any employee or officer thereof, shall be liable to any person for any act of a juvenile while the juvenile is on a community work project for such organization or governmental entity, if the organization or governmental entity exercised due care in the supervision of the juvenile;

(D) No charitable organization, municipality, county or political subdivision thereof, nor any employee or officer thereof, shall be liable to any juvenile or the juvenile's family for death or injuries received, proximately caused by the juvenile, while the juvenile is on a community work project for such organization or governmental entity, if the organization or governmental entity exercised due care in the supervision of the juvenile;

(E) The authority and protection from liability provided by this section is supplemental and in addition to any other authority and protection provided by law;

(F) The court shall not order a child placed in the custody of the department or otherwise remove the child from the child's home, including the home of a parent, guardian, or other legal custodian for any length of time, for failure to complete community service work or satisfy conditions associated with community service work as ordered by the court; and

(8)(A) In lieu of committing a child to the custody of the department of children's services and subject to the requirements of subdivision (a)(8)(B), the court may order any of the following if the child is found to be a delinquent child:

(i) Assign a long-term mentor to such child; or

(ii) Require that the delinquent child or any of the child's family members receive counseling services from any counseling service provided through or approved by the juvenile court;

(B) An order may be issued under subdivision (a)(8)(A) only if the funding necessary to implement such order is appropriated by the legislative body of the county in which the court is located or is provided by grants from public or private sources.

(b)(1) If the child is found to be delinquent, the court shall determine if any monetary damages actually resulted from the child's delinquent conduct. Upon a determination that monetary damages resulted from such conduct, the court shall order the child to make restitution for such damages unless the court further determines that the specific circumstances of the individual case render such restitution, or a specified portion thereof, inappropriate. The court shall identify whether a restorative justice program addressing loss resulting from a delinquent act is available and may be utilized appropriately in the place of financial restitution. Any financial obligations or restitution assessed against the child or the child's parents, legal custodians, or guardians shall be considered collectively with community service work to ensure that the order of disposition is reasonable and, where applicable, prioritizes restitution to the victim. In determining whether an order of disposition is reasonable, the court may consider whether the child and the child's parents, legal custodians, or guardians have the ability to complete the requirements of the order within six (6) months.

(2)(A) IF restitution is ordered pursuant to this subsection (b) in those cases where the court has made a finding that:

(i) A specified amount is owed;

(ii) Such amount is ordered to be paid pursuant to a specific payment schedule; and

(iii) The total amount of such ordered restitution is not paid by the time the juvenile court determines that discharge of a case is appropriate or no longer has jurisdiction over the child;

THEN, notwithstanding § 37-1-133(b) or any other law

to the contrary, the recipient of such restitution may convert the unpaid balance of the restitution ordered by the court into a civil judgment in accordance with the procedure set out in this subsection (b). The payment of such civil judgment shall be at the same payment schedule as that as when the offender was a juvenile.

(B) Under such judgment, payments shall be continued to be made under the specific payment schedule ordered by the juvenile court until the judgment has been satisfied.

(3) The restitution recipient shall file a certified copy of the juvenile court's restitution order with any court having jurisdiction over the total amount of restitution ordered.

(4) Upon receipt of such a restitution order, the court shall take proof as to the amount of ordered restitution actually paid. If the court finds that the amount of restitution actually paid is less than the total amount of restitution ordered by the juvenile court, it shall enter a judgment in favor of the restitution recipient and against the offender for the amount of the unpaid balance of such restitution.

(5) A judgment entered pursuant to this subsection (b) shall remain in effect for a period of ten (10) years from the date of entry and shall be enforceable by the restitution recipient in the same manner and to the same extent as other civil judgments; however, such civil judgment shall not be referred to any collection service as defined by § 62-20-102.

(c)(1) This subsection (c) shall apply to a juvenile who is adjudicated delinquent, but not committed to the custody of the department of children's services, for an act that if committed by an adult would be one (1) or more of the following offenses:

(A) First degree murder, as prohibited by § 39-13-202;

(B) Second degree murder, as prohibited by § 39-13-210;

(C) Voluntary manslaughter, as prohibited by § 39-13-211;

(D) Criminally negligent homicide, as prohibited by § 39-13-212;

(E) Rape, as prohibited by § 39-13-503;

(F) Aggravated rape, as prohibited by § 39-13-502;

(G) Rape of a child, as prohibited by § 39-13-522;

(H) Aggravated rape of a child, as prohibited by § 39-13-531;

(I) Aggravated robbery, as prohibited by § 39-13-402;

(J) Especially aggravated robbery, as prohibited by § 39-13-403;

(K) Kidnapping, as prohibited by § 39-13-303;

(L) Aggravated kidnapping, as prohibited by § 39-13-304;

(M) Especially aggravated kidnapping, as prohibited by § 39-13-305;

(N) Aggravated assault, as prohibited by § 39-13-102;

(O) Felony reckless endangerment, as prohib-

ited by § 39-13-103;

(P) Sexual battery, as prohibited by § 39-13-505;

(Q) Aggravated sexual battery, as prohibited by § 39-13-504; or

(R) Any other Class A or Class B felony.

(2) If a court finds a juvenile to be delinquent as a result of an act listed in subdivision (c)(1), the court shall have broad discretion to issue orders and, in conjunction with representatives from the LEA, to change the educational assignment of the juvenile. The court shall involve representatives of the LEA, as necessary, to ascertain a proper educational assignment and the availability of secure educational facilities for the juvenile who, through actions of the court, is facing personal restrictions or being released with compulsory attendance in school as a condition of personal restriction or release. There shall be a presumption in favor of issuing a court order prohibiting the juvenile from attending the same educational placement as the victim.

(3) The court shall have discretion to determine how best to restrict future contact of the defendant with the victim while the victim is at school or in other public settings.

(4) When consulted by the court, the representatives of the LEA shall provide a list of alternatives to attendance at the school which is attended by the victim. This information shall include the availability of programs including another school assignment within the district, alternative school, virtual education, homebound instruction, adult education programs, and high school equivalency testing eligibility.

(5) The school resource officer shall be authorized to assist school officials in the enforcement of orders issued by the court and shall be made fully aware of the confidential nature of any order and the student's educational assignment.

(6) [Deleted by 2018 amendment, effective July 1, 2018.]

(d)(1) Notwithstanding this section to the contrary, a juvenile who is adjudicated delinquent for conduct that, if committed by an adult, would constitute one (1) of the offenses set out in subdivision (d)(3) shall be committed to the department of children's services for a period of not less than one (1) year; provided, that for the offenses listed in subdivisions (d)(3)(D) and (E), a court may, upon a finding of good cause, order a commitment for a term of less than one (1) year or decline to order a commitment.

(2) The commitment required by subdivision (d)(1) must be the least restrictive disposition permissible for an applicable juvenile, and nothing in this subsection (d) prohibits the court from:

(A) Transferring a juvenile to whom this section applies to adult court to stand trial as an adult as provided in § 37-1-134;

(B) Extending the term of commitment beyond the one-year minimum required by this subsection (d); or

(C) Any other dispositional alternative more re-

strictive than this subsection (d).

(3) The offenses to which this subsection (d) applies are:

(A) First degree murder, as prohibited by § 39-13-202;

(B) Second degree murder, as prohibited by § 39-13-210;

(C) Voluntary manslaughter, as prohibited by § 39-13-211;

(D) Criminally negligent homicide, as prohibited by § 39-13-212; and

(E) Reckless homicide, as prohibited by § 39-13-215.

(e)(1) Notwithstanding this section to the contrary, a juvenile who is adjudicated delinquent for conduct that, if committed by an adult, would constitute one (1) of the offenses set out in subdivision (e)(3) may be committed to the department of children's services for a period of one (1) year.

(2) This subsection (e) does not prohibit the court from:

(A) Transferring a juvenile to whom this section applies to adult court to stand trial as an adult as provided in § 37-1-134;

(B) Extending the term of commitment beyond one (1) year; or

(C) Ordering any other dispositional alternative.

(3) The offenses to which this subsection (e) applies are:

(A) Rape, as prohibited by § 39-13-503;

(B) Aggravated rape, as prohibited by § 39-13-502;

(C) Rape of a child, as prohibited by § 39-13-522; and

(D) Aggravated rape of a child, as prohibited by § 39-13-531.

(f) Notwithstanding this section to the contrary, the court shall prohibit a child who is adjudicated delinquent for conduct that, if committed by an adult, would constitute the offense of aggravated rape, under § 39-13-502, rape, under § 39-13-503, rape of a child, under § 39-13-522, or aggravated rape of a child, under § 39-13-531, from accepting employment or volunteering in any capacity that the child knows or reasonably should know will cause the child to be in close and frequent contact with a minor until the child reaches eighteen (18) years of age. This subsection (f) does not prohibit the child from accepting employment or volunteering in a position that involves incidental contact with minors. Notwithstanding this section to the contrary, the prohibition required by this subsection (f) must remain in effect until the child attains eighteen (18) years of age, regardless of the other terms of the child's disposition.

37-1-132. Unruly child — Disposition.

(a) If the child is found to be an unruly child, the court may make such disposition as authorized by this section or § 37-1-131(a)(1), (a)(2), (a)(7), or (b) that is best suited to such child's treatment. However, no child found to be an unruly child may be placed on probation under the supervision of the department, unless such child is found to also be a delinquent child or is found to have committed a violation of a valid court order as provided for in the Appendix to the Tennessee Rules of Juvenile Procedure. No county government shall be required to increase local funding to implement this provision. The court has the additional dispositional alternative of ordering the department to provide non-custodial services to a child found to be unruly.

(b)(1) An unruly child is eligible for commitment to the department only if:

(A) The child has previously been adjudicated for two (2) or more offenses arising from separate incidents that would constitute an unruly offense, or a felony or misdemeanor if committed by an adult, including adjudications in other jurisdictions that, if committed in this jurisdiction, would

constitute a felony or misdemeanor; or

(B)(i) The court finds by clear and convincing evidence that the child is in imminent risk of danger to the child's health or safety and needs specific treatment or services that are available only if the child is placed in the custody of the department;

(ii) A child placed in the custody of the department under this subdivision (b)(1)(B) shall remain in custody so long as necessary to complete the treatment or services, which shall be evidence-based and provided by a qualified provider, but shall remain in custody no longer than six (6) months; provided, that the court may order that the child remain in custody for up to an additional six (6) month period if the court finds after a hearing or stipulation that:

(a) The child needs treatment or services that are available only if the child is in custody; and

(b) The treatment or services the child needs are evidence-based and will be provided by a qualified provider.

(2) If the court finds that it is in the best interest of the child and the public that any unruly child be removed from the home of a parent, guardian, or other legal custodian, the placement of the child shall be with the person, agency, or facility that presents the least drastic or restrictive alternative.

(3) Prior to committing an unruly child to the custody of the department of children's services, the court shall refer such child to the department's juvenile-family crisis intervention program under § 37-1-168. The court may commit the child to the department after such juvenile-family crisis intervention program certifies to the court that there is no other less drastic measure than court intervention. Nothing in this subsection (b) shall preclude placing a child in protective service custody.

(4) A disposition under this section shall, in no event, result in the child's detention in shelter care, as defined in § 37-1-116, or other temporary placement, without provision of necessary services consistent with the child's assessments or evaluations, in excess of thirty (30) days after entry of the court's order.

(5) Subject to subdivision (b)(6), an unruly child committed to the custody of the department under subdivision (b)(1)(A) for an indefinite time shall be discharged or placed on home placement supervision after a maximum of six (6) months, excluding any amount of time that a child is absent from placement for whatever reason, unless:

(A) The treatment and rehabilitation of the child require that the child remain in custody beyond six (6) months to complete an evidence-based program in a custodial setting addressing a treatment need identified by the previously administered validated risk and needs assessment;

(B) The child is alleged to have committed a new delinquent act; or

(C) The child is alleged to be an escapee from a

secure juvenile facility or institution.

(6) The commissioner shall prescribe procedures whereby the child's treatment, rehabilitation, and progress shall be reviewed monthly and a recommendation for or against home placement or discharge shall be made to the commissioner or the commissioner's designee at least quarterly.

(7)(A) When the department determines that a child who has been committed to the department under this section is ready to return home, the department shall notify the court in writing of its intention to place the child at home on a trial home visit. If the court objects to the trial home visit, it must notify the department of its objection in writing or set a hearing within fifteen (15) days of the date of the notice with such hearing being held at the earliest possible date. If a hearing is not set nor a written objection received within fifteen (15) days of the date of the notice, the department may place the child on a trial home visit. The notice shall include the provision that the department's legal custody of the child shall terminate in thirty (30) days.

(B) If during the thirty-day period the department determines that the trial home visit is not in the child's best interest and removes the child on an emergency basis or seeks to remove the child on a non-emergency basis, the department shall file a motion for review by the court of the trial home visit and shall provide notice to the parent, parents, guardian, or other custodian. The court shall hold a hearing on such motion within three (3) days of an emergency removal and shall set a hearing within fifteen (15) days to be held at the earliest possible date if the motion is for the court's permission to make a non-emergency removal.

(C) During the thirty-day trial home visit, the court may periodically review the child's status and may make any orders that the best interest of the child may require.

(c)(1) A child ordered to probation under subsection (a) may be placed on probation for a maximum period of six (6) months, subject to this subdivision (c)(1). Before expiration of the first six-month period or any extension period thereafter, and after notice and a hearing, the court may extend probation for additional periods not to exceed six (6) months each, but only if the court finds and issues a written order that:

(A) States that it is in the best interest of the child that a condition or conditions of probation remain in effect; and

(B) Specifies the condition or conditions that shall remain in effect and why that continued effectiveness is in the best interest of the child.

(2) If the requirements of subdivision (c)(1) have been met, probation may continue only so long as it is in the best interest of the child that the condition or conditions of probation remain in effect.

(3) If the supervising authority finds the child has violated the conditions or limitations of probation, the supervising authority may file a petition alleging a violation of the conditions or limitations of proba-

tion with the court; provided, that the court, in its discretion, may direct the supervising authority that, in some or all circumstances, such a petition should be filed only if the supervising authority makes and documents attempts to address the noncompliant behavior and determines and documents the reasons for which court intervention is needed to address the noncompliance.

(4) If the court finds that no violation has occurred, the child shall be allowed to resume the former conditions of probation or probation may be terminated.

(5) If in a subsequent proceeding, the court finds the child has violated any of the conditions or limitations of probation, the court may modify conditions consistent with the needs of the child, including ordering a transfer or grant pursuant to § 37-1-131(a)(1). The court shall not order a child placed in the custody of the department for a violation of the conditions or limitations of probation unless:

(A) The child is separately adjudicated dependent or neglected and placed pursuant to § 37-1-130;

(B) The child is separately adjudicated delinquent and placed pursuant to § 37-1-131 for an eligible delinquent offense arising out of a subsequent criminal episode other than the offense for which the child has been placed on probation; or

(C)(i) The court finds by clear and convincing evidence that the child is in imminent risk of danger to the child's health or safety and needs specific treatment or services that are available only if the child is placed in the custody of the department;

(ii) A child placed in the custody of the department under this subdivision (c)(5)(C) shall remain in custody so long as necessary to complete the treatment or services, which shall be evidence-based and provided by a qualified provider, but shall remain in custody no longer than six (6) months; provided, that the court may order that the child remain in custody for up to an additional six (6) month period if the court finds after a hearing or stipulation that:

(a) The child needs treatment or services that are available only if the child is in custody; and

(b) The treatment or services the child needs are evidence-based and will be provided by a qualified provider.

(d) If a child is adjudicated unruly in whole or in part for habitual and unlawful absence pursuant to § 49-6-3007, it is the intent of the general assembly that any disposition of the court be oriented toward family services and those interventions that address educational barriers and the root causes of truancy.

37-1-133. Order of adjudication — Noncriminal.

(a) An order of disposition or other adjudication in a proceeding under this part is not a conviction of crime and does not impose any civil disability ordinarily resulting from a conviction or operate to disqualify the child in any state service or civil service application or appointment. A child shall not be committed or transferred to a penal institution or other facility used primarily for the execution of sentences of persons convicted of a crime, except as provided in § 37-1-134.

(b) The disposition of a child and evidence adduced in a hearing in juvenile court may not be used against such child in any proceeding in any court other than a juvenile court, whether before or after reaching majority, except in dispositional proceedings after conviction of a felony for the purposes of a pre-sentence investigation and report.

(c) A child found to be delinquent shall be exempt from the operation of laws applicable to infamous crimes, and such child shall not be rendered infamous by the judgment of the juvenile court in which such child is tried.

37-1-134. Transfer from juvenile court.

(a) After a petition has been filed alleging delinquency based on conduct that is designated a crime or public offense under the laws, including local ordinances, of this state, the court, before hearing the petition on the merits, may transfer the child to the sheriff of the county to be held according to law and to be dealt with as an adult in the criminal court of competent jurisdiction. The disposition of the child shall be as if the child were an adult if:

(1)(A) The child was:

(i) Less than fourteen (14) years of age at the time of the alleged conduct and charged with first degree murder or second degree murder or attempted first or second degree murder;

(ii) Fourteen (14) years of age or more but less than seventeen (17) years of age at the time of the alleged conduct and charged with the offense

of first degree murder, second degree murder, rape, aggravated rape, rape of a child, aggravated rape of a child, aggravated robbery, especially aggravated robbery, aggravated burglary, especially aggravated burglary, kidnapping, aggravated kidnapping, especially aggravated kidnapping, commission of an act of terrorism, carjacking, or an attempt to commit any such offenses;

(iii)(a) Sixteen (16) years of age or more at the time of the alleged conduct; and

(b)(1) Charged with the offense of robbery or attempt to commit robbery; or

(2) Confined in a youth development center approved, certified, or licensed by the department of children's services, and charged with escape therefrom; or

(iv) Seventeen (17) years of age or more at the time of the alleged conduct;

(B) The district attorney general shall not seek, nor shall any child transferred under this section receive, a sentence of death for the offense for which the child was transferred;

(2) A hearing on whether the transfer should be made is held in conformity with §§ 37-1-124, 37-1-126 and 37-1-127;

(3) Reasonable notice in writing of the time, place and purpose of the hearing is given to the child and the child's parents, guardian or other custodian at least fourteen (14) days prior to the hearing; and

(4) The court finds that there is probable cause to believe that:

(A) The child committed the delinquent act as alleged;

(B) The child is not committable to an institution for the developmentally disabled or mentally ill; and

(C) The interests of the community require that the child be put under legal restraint or discipline.

(b) In making the determination required by subsection (a), the court shall consider, among other matters:

(1) The extent and nature of the child's prior delinquency records;

(2) The nature of past treatment efforts and the nature of the child's response thereto;

(3) Whether the offense was against person or property, with greater weight in favor of transfer given to offenses against the person;

(4) Whether the offense was committed in an aggressive and premeditated manner;

(5) The possible rehabilitation of the child by use of procedures, services and facilities currently available to the court in this state;

(6) Whether the child's conduct would be a criminal gang offense, as defined in § 40-35-121, if committed by an adult; and

(7) Whether the child has a history of trauma or abuse, including, but not limited to, the child being a victim of a human trafficking offense as defined in § 39-13-314.

(c) The transfer pursuant to subsection (a) terminates jurisdiction of the juvenile court with respect to

any and all delinquent acts with which the child may then or thereafter be charged, and the child shall thereafter be dealt with as an adult as to all pending and subsequent criminal charges; provided, that if a child transferred pursuant to this section is acquitted in criminal court on the charge or charges resulting in such transfer, or if such charge or charges are dismissed in such court, this subsection (c) shall not apply and the juvenile court shall retain jurisdiction over such child. If a child is in the legal custody of the department at the time of transfer, such custody shall terminate at the transfer hearing, except that if a child is already committed to the department, the court may determine if it is in the best interest of the child to remain in the legal custody of the department until conviction occurs. In any case, legal custody by the department shall terminate upon any conviction in adult criminal court. If there is no conviction and charges so transferred are dismissed or acquittal occurs, the presiding trial judge shall notify the transferring juvenile court judge of such dismissal or acquittal so that the juvenile court may at its discretion set a hearing to ascertain status of the child as to the department's custody.

(d) If a person eighteen (18) years of age or older is to be charged with an offense that was alleged to have been committed prior to such person's eighteenth birthday, the petition shall be brought in the juvenile court that would have had jurisdiction at the time of the offense. The juvenile court shall either adjudicate the case under its continuing jurisdiction authority under § 37-1-102(b)(5)(B) and (C) or undertake transfer proceedings consistent with this section.

(e) No child, either before or after reaching eighteen (18) years of age, shall be prosecuted for an offense previously committed unless the case has been transferred as provided in subsection (a).

(f)(1) Statements made by the child at the juvenile court hearing under this section are not admissible against the child, over objection, in the criminal proceedings following the transfer.

(2) In any county in which, on July 1, 1996, the general sessions court or juvenile court makes audio recordings, the court shall make or cause to be made an audio recording of each transfer hearing conducted pursuant to this section. Such recording shall include all proceedings in open court and such other proceedings as the judge may direct and shall be preserved as a part of the record of the hearing. The juvenile who is the subject of the hearing may, at the juvenile's own expense, transcribe the recording of the hearing and a transcript so prepared may be used for the purpose of an appeal as provided by law. In all other counties, transfer hearings shall be recorded using the procedure provided in title 40, chapter 14, part 3.

(g) If the case is not transferred, the judge who conducted the hearing shall not over objection of an interested party preside at the hearing on the petition. If the case is transferred to a court of which the judge who conducted the hearing is also the judge, the judge likewise is disqualified from presiding in the prosecution.

(h) After a child has been sentenced to an adult institution, the department of correction may file a petition requesting the committing court to allow the department to transfer the defendant to an institution for juvenile delinquents administered by the department of children's services. Upon the approval by such court, the defendant may be transferred by the department of correction to a child-caring institution to be held until the defendant's eighteenth birthday. At the defendant's eighteenth birthday, the defendant may be transferred to an adult institution if there is time remaining on the defendant's term. If the term expires prior to the eighteenth birthday, the defendant shall be released. Any child sentenced by a committing court pursuant to this section shall, for the purpose of parole, be treated as if such child were an adult. The provisions of this section relative to housing of juveniles who have obtained the age of eighteen (18) shall not be affected by subsections (i), (j) and (k).

(i) When a child transferred under this section is detained, the juvenile court may, in its discretion, order confinement in a local juvenile detention facility, or a juvenile detention facility with which it contracts or an adult detention facility separate and removed from adult detainees. The court having adult criminal jurisdiction may thereafter order detention in an adult detention facility separate and removed from adult detainees; provided, however, that during the period while such child is detained separately from adult detainees, such child shall otherwise abide by the same regulations and policies governing conditions of imprisonment that apply to adult detainees who are charged with similar offenses. Similar regulations and policies governing educational opportunities for adults shall be implemented for a child so detained, but such regulations and policies shall in no way affect or alter the manner in which a local education agency is required to provide educational services to a child under the federal Individuals with Disabilities Education Act, compiled in 20 U.S.C. § 1471 et seq.

(j) Any person, who was transferred under this section and who was less than sixteen (16) years of age at the time of the offense and who is subsequently convicted and committed, shall be housed in a juvenile correctional facility until such person reaches sixteen (16) years of age, at which time such person may be transferred upon the order of the committing court to an adult facility. Any person committed to an adult facility under this section shall be housed separate and removed from adult inmates. In exercising the commissioner's discretion under § 41-1-403 to determine the institutional location of any such person, the commissioner of correction shall take into consideration the proximity of the institution to the person's home. However, during any period while such person is confined separately from adult inmates within such regional facility, such person shall otherwise abide by the same regulations and policies governing conditions of imprisonment that apply to adult inmates who are confined for similar offenses. Similar regulations and policies governing educational opportunities for adults shall be implemented for a child so detained, but such regula-

tions and policies shall in no way affect or alter the manner in which a local education agency is required to provide educational services to a child under the federal Individuals with Disabilities Education Act, compiled in 20 U.S.C. § 1471 et seq.

(k) Any person who is transferred under this section and who was sixteen (16) years of age or older at the time of the offense and is subsequently convicted and committed shall be housed in a juvenile correctional facility unless the committing court orders commitment to an adult facility. Any person committed to an adult facility under this section shall be housed, separate and removed from adult inmates. In exercising the commissioner's discretion under § 41-1-403 to determine the institutional location of any such person, the commissioner of correction shall take into consideration the proximity of the institution to the person's home. However, during any period while such person is confined separately from adult inmates within such regional facility, such person shall otherwise abide by the same regulations and policies governing conditions of imprisonment that apply to adult inmates who are confined for similar offenses. Similar regulations and policies governing educational opportunities for adults shall be implemented for a child so detained, but such regulations and policies shall in no way affect or alter the manner in which a local education agency is required to provide educational services to a child under the federal Individuals with Disabilities Education Act, compiled in 20 U.S.C. § 1471 et seq.

(l) It is the intent of the general assembly that children shall not be transferred under this section due to a lack of appropriate resources for effective treatment and rehabilitation in the juvenile justice system.

— Confidentiality — Limited access
— Destruction.**

(a) All reports and materials compiled by the juvenile court in connection with an assessment report shall be confidential, shall not be public record, and shall not be disclosed, except as specifically authorized by this section. Except for purposes directly connected with this section, a person shall not disclose, receive, make use of, authorize, or knowingly permit the use of assessment reports and related materials. Assessment reports and related materials shall not be subject to any court subpoena.

(b) Access to assessment reports and materials shall be granted to the following people, officials, or agencies only for the following limited purposes:

(1) A court official or employee for the purpose of compiling information, administering assessment tools, preparing reports, and assisting children and families with accessing identified services and programs. The court official or employee may disclose relevant information, but not the actual assessment reports or materials, to professionals or other agency providers as needed to assist the child and family in accessing services and programs;

(2) An attorney for the child to use in representing the child or a guardian ad litem for the child for use in representing the child's best interests; or

(c) A juvenile court judge, magistrate, or district attorney general may be provided with a limited report concerning a child adjudicated delinquent. The limited report may contain service recommendations developed from the assessment report for the purpose of reviewing the appropriateness of the recommendations.

(d) A juvenile court judge or magistrate may hear testimony regarding the contents of an assessment report in a delinquency case for a child adjudicated delinquent for the limited purpose of determining appropriate services and programs for the child who is the subject of the assessment report. If such testimony is introduced, the actual assessment report and materials shall not be submitted to the court and shall not become part of the court record.

(e) The materials, records, and assessment reports compiled by the juvenile court for use as discussed in this section are to be maintained separately from public court records. When a child who is the subject of such an assessment report reaches an age when they are no longer under the jurisdiction of the juvenile court, the assessment report and all materials used to compile the information in the assessment report in possession of the juvenile court shall be destroyed.

**37-1-137. Commitment of delinquent children to
the department of children's
services.**

(a)(1)(A) An order of the juvenile court committing a delinquent child to the custody of the department of children's services shall be for an indefinite time.

(B) If a juvenile offender is tried and adjudicated delinquent in juvenile court for the offense of first degree murder, second degree murder, rape, aggravated rape, rape of a child, aggravated rape of a child, aggravated sexual battery, kidnapping, especially aggravated kidnapping, aggravated robbery, especially aggravated robbery, aggravated arson, aggravated burglary, especially aggravated burglary, commission of an act of terrorism, carjacking, or violations of § 39-17-417(b), (i) or (j), or an attempt to commit any such offenses, or has been previously adjudicated delinquent in three (3) felony offenses arising out of separate criminal episodes at least one (1) of which has resulted in institutional commitment to the department of children's services, or is within six (6) months of the child's eighteenth birthday at the time of the adjudication of the child's delinquency, the commitment may be for a determinate period of time but in no event shall the length of the commitment be greater than the sentence for the adult convicted of

the same crime, nor shall such commitment extend past the offender's nineteenth birthday. Commitment under this section shall not exceed the sentences provided for by the Tennessee Criminal Sentencing Reform Act of 1989, compiled in title 40, chapter 35, and in no event shall a juvenile offender be sentenced to Range II or Range III.

(2) However, no child shall be committed to such department when the court deems it in the best interest of the child without a pre-commitment report including, but not limited to:

- (A) Educational status;
- (B) Family background information;
- (C) Employment background;
- (D) Physical examination and report; and
- (E) Psychological report (if possible).

(3) Such report shall be prepared by the probation officer assigned to the juvenile to be committed.

(4) Notwithstanding subdivisions (a)(2) and (3), the information in a pre-commitment report shall be provided only when presently available and shall not be provided at an additional cost to the department.

(5) The department may place the child in a suitable state institution, foster home or group home, or the department may purchase services from any agency, public or private, that is authorized by law to receive or provide care or services for children.

(6) The commissioner, in consultation with the executive committee of the Tennessee council of juvenile and family court judges, shall promulgate rules and regulations relative to commitment criteria for the incarceration of juvenile offenders in facilities operated or managed by the department. All such rules and regulations shall be promulgated in accordance with the provisions of the Uniform Administrative Procedures Act, compiled in title 4, chapter 5.

(b)(1) Subject to subsection (c), a delinquent child committed to the custody of the department for an indefinite time shall be discharged or placed on home placement supervision after a maximum of six (6) months, excluding any amount of time that a child is absent from placement for whatever reason, unless:

(A) The treatment and rehabilitation of the child require that the child remain in custody beyond six (6) months to complete an evidence-based program in a custodial setting addressing a treatment need identified by the previously administered validated risk and needs assessment;

(B) The child is alleged to have committed a new delinquent act; or

(C) The child is alleged to be an escapee from a secure juvenile facility or institution.

(2) The commissioner shall prescribe procedures whereby the child's treatment, rehabilitation, and progress shall be reviewed monthly and a recommendation for or against home placement or discharge shall be made to the commissioner or the commissioner's designee at least quarterly.

(c)(1)(A) The commissioner or the commissioner's designee, with the assent of the committing court, may make a home placement of a child under the continuing supervision of the department.

(B) Notification of a home placement of a child shall be made in writing to the committing court at least fifteen (15) days prior to the proposed date of such placement. Unless the committing court makes an objection in writing to the commissioner or the commissioner's designee or sets a hearing within the fifteen-day period with such hearing to be held at the earliest possible date, the court shall be considered to have assented to the home placement and the child shall immediately be released to home placement supervision.

(C) The first thirty (30) days after the child's return to home placement supervision shall be a trial home pass with the department retaining legal custody of the child. If the child successfully completes the trial home pass, at the end of the thirty-day trial home pass the child shall automatically continue on home placement supervision status, unless the court has ordered that supervision status is not necessary, and the department's legal custody of the child shall terminate. Such home placement supervision by the department shall continue until the court orders a discharge of such supervision under subdivision (g)(1).

(D) If the committing court objects to the home placement supervision, such objections shall be made in writing to the commissioner or the commissioner's designee setting forth the reasons for such objections. A valid ground for such objection shall include, but not be limited to, consideration of the nature of the offense committed by the juvenile. No juvenile shall be released on home placement supervision if the committing court objects in the prescribed written manner. Upon receiving the objection from the committing court, the commissioner or the commissioner's designee shall review the child's file and consult with the committing judge regarding such denial in the form of a hearing set by either the court or by motion of the department or any attorney for the child.

(E) If no agreement is reached between the department and the committing judge, then the commissioner or the commissioner's designee shall request a hearing on the proposed placement by a three-judge panel to be appointed by the executive committee of the Tennessee council of juvenile and family court judges. Such three-judge panel shall not include the committing judge. The panel will hear and resolve the controversy within thirty (30) days of receipt of the commissioner's or the commissioner's designee's request for a hearing by the executive secretary of the council and the decision of the panel shall be final.

(2) In the event the juvenile offender is a person described in subdivision (a)(1)(B) and is given a determinate commitment, and the commissioner or the commissioner's designee is of the opinion that the juvenile offender is a fit subject to return to home placement prior to the achievement of committal reduction credits as set out in subsection (h), the commissioner or the commissioner's designee shall request a hearing before the judge of the juvenile

court in which the original commitment occurred. The request shall state the reasons for recommending the early release placement and shall make specific recommendations as to where the child will be placed. A copy of the request for a hearing shall be supplied to the district attorney general. If, on review of the record, the court is of the opinion that the request is well taken and the district attorney general has no objection, the judge may order the early release placement without a hearing. Otherwise, the court shall schedule a hearing within fifteen (15) days of the receipt of the request for hearing. At the hearing, the department, the juvenile offender, and the state shall be given an opportunity to be heard in support of or in opposition to the proposed early release placement and all of the parties may subpoena witnesses to testify on any issue raised by the proposed placement. The court may make such orders pertaining to such placement as the court determines are justified under the proof produced at the hearing for such early release placement. The court's decision may be appealed under § 37-1-302.

(d)(1)(A) If the designee of the department supervising a delinquent child on home placement supervision has reasonable cause to believe that such child has violated the conditions of home placement supervision in an important respect after the trial home pass has ended, the designee may file a petition alleging a violation of home placement supervision; provided, that, unless a new petition has been filed alleging the child has committed a new delinquent offense or habitual and unlawful absence pursuant to § 49-6-3007, the court, in its discretion, may direct the designee that, in some or all circumstances, such a petition should be filed only if the designee makes and documents attempts to address the noncompliant behavior and determines and documents the reasons for which court intervention is needed to address the noncompliance.

(B) The court may require that the child be placed in detention pending adjudication of the petition, but only in accordance with § 37-1-114. The department is prohibited from taking the child into custody until the court finds that the child has violated conditions of the home placement supervision by incurring an adjudication of delinquency for a new offense that meets the eligibility criteria for commitment to the department under § 37-1-131(a)(4) and the court terminates the home placement supervision. Nothing in this subdivision (d)(1) shall prevent the transfer of a juvenile under § 37-1-134.

(2) No such court permission is required during the trial home pass and the department is authorized to remove the child from the home, but only if the child cannot be located by the designee after documented efforts to locate the child or a new petition has been filed alleging the child has committed a delinquent offense arising from a separate incident from the original petition. A notice of such removal and disruption of the trial home pass shall be filed

with the court within ten (10) days as a violation allegation or other appropriate petition or motion and the legal custody of the department is not terminated. A review hearing on such action shall be held within thirty (30) days of such filing. Nothing in this subdivision (d)(2) shall prevent the transfer of a juvenile under § 37-1-134.

(e) The juvenile court that committed the delinquent child to the department retains jurisdiction to determine allegations of violation of home placement supervision. Such court shall schedule a hearing within seven (7) days of the time the petition is filed alleging a violation of home placement supervision and cause written notice to be served on the child, the child's parent or parents, guardian, or other custodian, and the department's designee a reasonable time before the hearing. The written notice shall contain a copy of the petition and any other written report or statement detailing the violation or violations as well as the time, place, and purpose of the hearing. At the hearing, the court shall allow the child to be heard in person and to present witnesses or documentary evidence. The child shall also have the right to confront and cross-examine witnesses.

(f)(1) If the court finds that no violation has occurred, the child shall be allowed to resume the former conditions of home placement.

(2) If the court finds that a violation occurred because the child has been adjudicated for a new offense eligible for commitment to the department under § 37-1-131(a)(4), the court may order that the child be re-committed to the department or utilize any other disposition option permitted by law. Such order shall contain the reasons relied on for terminating the home placement. Upon any such termination and commitment to the department, the child may be placed as the commissioner or the commissioner's designee may direct.

(3)(A) If the court finds that a violation occurred but the child has not been adjudicated for a new offense that is eligible for commitment to the department, the court may modify conditions of home placement consistent with the results of the previously administered validated risk and needs assessment, including ordering a transfer or grant pursuant to § 37-1-131(a)(1), but shall not order that the child be re-committed to the department or otherwise remove the child from the child's home, including the home of a parent, guardian, or other legal custodian, unless the court finds by clear and convincing evidence that the child is in imminent risk of danger to the child's health or safety and needs specific treatment or services that are available only if the child is placed in the custody of the department.

(B) A child placed in the custody of the department under this subdivision (f)(3) shall remain in custody so long as necessary to complete the treatment or services, which shall be evidence-based and provided by a qualified provider, but shall remain in custody no longer than six (6) months; provided, that the court may order that the child

remain in custody for up to an additional six (6) month period if the court finds after a hearing or stipulation that:

- (i) The child needs treatment or services that are available only if the child is in custody; and
- (ii) The treatment or services the child needs are evidence-based and will be provided by a qualified provider.

(4) The child may appeal the disposition of the court as provided in § 37-1-159.

(g)(1) The commissioner or the commissioner's designee may discharge a child placed on state probation pursuant to § 37-1-131(a)(2)(A) or under home placement supervision status by the department after legal custody ends pursuant to subdivision (c)(1)(C) and thereby terminate supervision of the child by the department. Notification of discharge of a child shall be made in writing to the committing court at least fifteen (15) days prior to the proposed discharge. Unless the committing court makes an objection in writing to the commissioner or the commissioner's designee or sets a hearing within the fifteen-day period with such hearing to be held at the earliest possible date, the court shall be considered to have assented to the discharge from home placement supervision status of the department or from state probation, and such supervision by the department shall terminate.

(2) Upon receiving the written objection from the committing court, the commissioner or the commissioner's designee shall review the child's file and within fifteen (15) days of receipt of such objection may file a motion for a hearing. The court shall hold such hearing within thirty (30) days of the motion filing. A written decision will be rendered within ten (10) days of that hearing. If the department does not concur with the hearing decision, it shall notify the executive committee of the Tennessee council of juvenile and family court judges which shall appoint a panel of three (3) juvenile or family court judges to review the commissioner's final decision. Such three-judge panel will hear and resolve, by a majority vote, the controversy within thirty (30) days of the filing of the commissioner's request. The committing judge shall not be a member of the three-judge panel. The determination of the three-judge panel shall be final.

(3) In the event the juvenile offender is a person described in subdivision (a)(1)(B) and is given a determinate commitment, and the commissioner or the commissioner's designee is of the opinion that the juvenile offender is a fit subject for discharge, the commissioner or the commissioner's designee shall request a hearing before the judge of the juvenile court in which the original commitment occurred. The request shall state the reasons for recommending the discharge and shall make specific recommendations as to where the child will be placed. A copy of the request for a hearing shall be supplied to the district attorney general. If, on review of the record, the court is of the opinion that the request is well taken and the district attorney general has no objection, the judge may order the placement without a

hearing. Otherwise, the court shall schedule a hearing within fifteen (15) days of the receipt of the request for hearing. At the hearing, the department, the juvenile offender and the state shall be given an opportunity to be heard in support of or in opposition to the proposed discharge and all of the parties may subpoena witnesses to testify on any issue raised by the proposed discharge. The court may make such orders pertaining to the continued commitment or discharge as the court determines are justified under the proof produced at the hearing. The court's decision shall be appealable under the provisions of § 37-1-302.

(h)(1) Any juvenile offender who is given a determinate commitment shall be eligible to receive time credits toward the determinate sentence imposed. Such time credits shall be awarded for good institutional behavior or satisfactory performance, or both, within institutional programs. Notwithstanding any other law to the contrary, awarded time credits shall operate to reduce the time a juvenile offender must serve in the department on the determinate sentence.

(2) Each juvenile offender who exhibits good institutional behavior or exhibits satisfactory performance, or both, within a program may be awarded time credits toward the sentence imposed, varying between one (1) day and sixteen (16) days for each month served, with not more than eight (8) days for each month served for good institutional behavior and not more than eight (8) days for each month served for satisfactory program performance in accordance with criteria established by the department. No juvenile offender shall have the right to any such time credits nor shall any juvenile offender have the right to participate in any particular program and may be transferred from one (1) program to another without cause.

(3) Such sentence credits shall not be earned or credited automatically, but rather shall be awarded on a monthly basis to a juvenile offender at the discretion of the responsible superintendent in accordance with the criteria established by the department, and only after receipt by the superintendent of written documentation evidencing the juvenile offender's good institutional behavior or satisfactory program performance, or both.

(4) Such sentence credits may not be awarded for a period of less than one (1) calendar month or for any month in which a juvenile offender commits a major violation of which such juvenile offender is found guilty. No sentence credits for good institutional behavior may be awarded for any month in which a juvenile offender commits any disciplinary violation of which such juvenile offender is found guilty.

(5) A juvenile offender may be deprived of those sentence credits previously awarded pursuant to this subsection (h) only for the commission of any major infraction designated by the department as a major violation, or refusal to participate in a program.

(6) All determinately sentenced juvenile offenders, including those juveniles who are currently serving

their sentences, are eligible for the sentence reduction credits authorized by this subsection (h). However, sentence reduction credits authorized by this subsection (h) may be awarded only for conduct or performance, or both, from and after July 1, 1987.

The court may also modify its order when there has been a change in circumstances.

(4) The clerk of the court shall collect all moneys paid pursuant to this subsection (g). The clerk shall notify the court of any failure to comply with the court's order. At the conclusion of the proceedings, the court shall order the clerk to pay to the admin-

(B) The notice to the parents shall be in writing and may be given at the time of the hearing at which the child is placed in the custody of the state, and shall include a subpoena to each parent to bring to court any documents showing evidence of income, including, but not limited to, pay stubs, W-2 forms, or income tax returns. If not given to the parents at the hearing at which custody is placed with the state, the notice and subpoena shall be sent by mail to the parents or served upon them personally within five (5) working days of the date of the custody hearing, unless child support is ordered at the custody hearing.

(C) Unless child support is ordered at the custody hearing, within five (5) working days of the date of the custody hearing at which the child is placed in the custody of the state, the clerk shall by mail, personal delivery, or by electronic means if the clerk participates in the statewide child support enforcement computer system pursuant to title 36, notify the office that is enforcing child support under Title IV-D of the Social Security Act for the county from which the child is placed of the date of the child support hearing, the names, addresses, and social security numbers of the parents and child. If support was ordered at the time of the custody hearing, the clerk shall notify the Title IV-D office of the amount of support that was ordered.

(4)(A) At any hearing at which support is ordered, the court shall set child support as the evidence demonstrates is appropriate and in accordance with the child support guidelines established pursuant to § 36-5-101(e), and the court shall order the parents to pay the premium for health insurance for the child if the insurance is available at a reasonable cost, or the court shall order the parents to pay a reasonable portion of the child's medical costs. The order for support and for medical care shall be retroactive to the date that custody of the child was placed with the state by any order of the court.

(B) The court shall order the child support payments and any payments that are ordered by the

court to be made by the parents to the state to offset the child's medical costs to be paid by the parents to the clerk, or to the department if the clerk is not participating in the statewide child support enforcement computer system pursuant to title 36. The court shall order the health insurance premiums ordered to be paid by the parents to be directed by them to the health insurance provider for the child or to be deducted from the parent's income as provided in § 36-5-501(a)(3).

(C) When the court enters an order in which the paternity of a child is determined or support is ordered, enforced or modified for a child, each individual who is a party to any action pursuant to this part shall immediately file with the court and, if the case is a Title IV-D child support case, shall immediately file with the local Title IV-D child support office, for entry into the state registry of support cases, and shall update, as appropriate, the parties' and, for subdivisions (b)(4)(A)-(C), the child's or children's:

- (i) Full name and any change in name;
- (ii) Social security number and date and place of birth;
- (iii) Residential and mailing addresses;
- (iv) Home telephone numbers;
- (v) Driver license number;
- (vi) The name, address, and telephone number of the person's employer;
- (vii) The availability and cost of health insurance for the child; and
- (viii) Gross annual income.

The requirements of this subdivision (b)(4)(C) may be included in the court's order.

(D) Each individual who is a party must update changes in circumstances of the individual for the information required by subdivision (b)(4)(C) within ten (10) days of the date of such change. At the time of the entry of the first order pertaining to child support after July 1, 1997, clear written notice shall be given to each party of the requirements of this subsection (b), procedures for complying with the subsection and a description of the effect or failure to comply. Such requirement may be noted in the order of the court.

(E) In any subsequent child support enforcement action, the delivery of written notice as required by Rule 5 of the Tennessee Rules of Civil Procedure to the most recent residential or employer address shown in the court's records or the Title IV-D agency's records as required in subdivision (b)(4)(C) shall be deemed to satisfy due process requirements for notice and service of process with respect to that party if there is a sufficient showing and the court is satisfied that a diligent effort has been made to ascertain the location and whereabouts of the party.

(F) Upon motion of either party, upon a showing of domestic violence or the threat of such violence, the court may enter an order to withhold from public access the address, telephone number, and location of the alleged victims(s) or threatened

victims of such circumstances. The clerk of the court shall withhold such information based upon the court's specific order but may not be held liable for release of such information.

(G) The provisions of § 36-5-501(a)(3) shall apply with respect to enrollment of a child in the noncustodial parent's employer-based health care plan.

(5) The court shall order support paid by income assignment and by all other means provided for the support of children as may be necessary as provided in title 36, chapter 5, and the court may enforce its orders as provided in such chapter.

(6)(A) If any prior order for support exists for a child who is placed in the custody of the state in which the obligor was ordered to pay child support to the office of the clerk, the office that enforces child support pursuant to Title IV-D of the Social Security Act may certify to the clerk of that court in which the current order of support exists that the child for whom the support was ordered is in the custody of the state, and the clerk shall immediately, without further order of any court, forward all payments by the obligor to the department for distribution.

(B) If the obligor is currently paying child support directly to the obligee under a support order that exists at the time the child is placed in the custody of the state, the court shall order the obligor to begin directing payments of support directly to the clerk of the juvenile court, or if the clerk is not participating in the statewide child support enforcement computer system pursuant to title 36, to the department.

(C) When the child is no longer in the physical custody of the state, the Title IV-D office shall notify the clerk of the court to which it had sent the certification, or the department if the clerk is not participating in the statewide child support enforcement computer system, and shall notify the obligor. Until otherwise ordered by the court that had originally set the support or that currently has jurisdiction to set support, the child support shall thereafter be paid by the obligor to the person to whom the child support obligation was paid prior to the child's placement in the custody of the state.

(D) Any child support funds remaining with the state after the child is returned to the physical custody of either parent or other custodian by court order shall be returned to the custodial parent or other custodian named in the order for use in the care of the child after reimbursement to the state of such costs incurred for the child's care by the state that are not otherwise prohibited by state or federal law or regulation.

(c) In establishing or enforcing any provision of child support, if the party seeking to establish or to enforce an order of support specifically prays for revocation of a license, or if the court determines on its own motion or on motion of the party seeking to establish or seeking to enforce an order of support that an individual party has failed to comply with a subpoena or a warrant in

connection with the establishment or enforcement of an order of support, the court may invoke the provisions of § 36-5-101(f)(5).

(d) Judgments for child support payments for each child subject to the order for child support pursuant to this part shall be enforceable without limitation as to time.

(e) In any case in which a child is receiving assistance under a state program funded under Title IV-A of the Social Security Act, compiled in 42 U.S.C. § 601 et seq., including, but not limited to, temporary assistance as provided under title 71, and the payment of support for such child is overdue, then, the department of human services may issue an administrative order to direct an individual who owes overdue support to such a child to pay the overdue support in accordance with a plan for payment of all overdue support or engage in work activities, as otherwise required and defined by the provisions of § 36-5-113.

37-1-153. Court files and records — Inspection limited — Exceptions for certain violent offenders — Confidentiality — Expunction.

(a) Except in cases arising under § 37-1-146, all files and records of the court in a proceeding under this part are open to inspection only by:

(1) The judge, officers and professional staff of the court;

(5) With permission of the court, any other person or agency or institution having a legitimate interest in the proceeding or in the work of the court.

(b) Notwithstanding subsection (a), petitions and orders of the court in a delinquency proceeding under this part shall be opened to public inspection and their content subject to disclosure to the public if:

(1)(A) The juvenile is fourteen (14) years of age or older at the time of the alleged act; and

(B) The conduct constituting the delinquent act, if committed by an adult, would constitute first degree murder, second degree murder, rape, aggravated rape, aggravated sexual battery, rape of a child, aggravated rape of a child, aggravated robbery, especially aggravated robbery, kidnapping, aggravated kidnapping, or especially aggravated kidnapping; or

(2) The conduct constituting the delinquent act, if committed by an adult, would constitute an act of terrorism, as defined by § 39-13-803, or an attempt to commit an act of terrorism.

(c) Notwithstanding the provisions of this section, if a court file or record contains any documents other than petitions and orders, including, but not limited to, a medical report, psychological evaluation or any other document, such document or record shall remain confidential.

(d)(1) Except as otherwise permitted in this section, it is an offense for a person to intentionally disclose or disseminate to the public the files and records of the juvenile court, including the child's name and address.

(2) A violation of this subsection (d) shall be punished as criminal contempt of court as otherwise authorized by law.

(e) Notwithstanding other provisions of this section, where notice is required under § 49-6-3051, an abstract of the appropriate adjudication contained in the court file or record shall be made and provided to the parent, guardian, or other custodian of the juvenile, including the department, and this abstract shall be presented to the school in which the juvenile is, or may be, enrolled, in compliance with § 49-6-3051.

(f)(1) Notwithstanding any law to the contrary, any person who is tried and adjudicated delinquent or unruly by a juvenile court may subsequently file a motion for expunction of all court files and the juvenile records. The court may order all or any portion of the requested expunction if, by clear and convincing evidence, the court finds that the movant:

(A)(i) Is currently seventeen (17) years of age or older;

(ii) Is at least one (1) year removed from the person's most recent delinquency or unruly adjudication;

(iii) Has never been convicted of a criminal offense as an adult, has never been convicted of a criminal offense following transfer from juvenile court pursuant to § 37-1-134, and has never been convicted of a sexual offense as defined in § 40-39-202, whether in juvenile court, following transfer from juvenile court pursuant to § 37-1-134, or as an adult;

(iv) Does not have an adjudication of delinquency for a violent juvenile sexual offense as defined in § 40-39-202; and

(v) Does not have an adjudication of delinquency for a delinquent act that if committed by an adult, would constitute an act of terrorism, as defined by § 39-13-803, or an attempt to commit

an act of terrorism;

(B) Has maintained a consistent and exemplary pattern of responsible, productive and civic-minded conduct for one (1) or more years immediately preceding the filing of the expunction motion; or

(C) Has made such an adjustment of circumstances that the court, in its discretion, believes that expunction serves the best interest of the child and the community.

(2) Nothing in this subsection (f) shall be construed to apply to any law enforcement records, files, fingerprints or photographs pertaining to any delinquency or unruly adjudication.

(3) Except as provided in subdivision (f)(13), in any case in which there is successful completion of an informal adjustment without adjudication under § 37-1-110, the juvenile records shall be expunged by the juvenile court after one (1) year, upon the filing of a motion for expunction and without cost to the child. The court shall inform the child, at the time of the informal adjustment, of the need to file the motion for expunction after a year of successful completion of an informal adjustment and provide the child with a model expunction motion prepared by the administrative office of the courts. The administrative office of the courts shall create a motion that can be completed by a child and shall be circulated to all juvenile court clerks. All juvenile court clerks shall make this model expunction motion accessible to all movants.

(4) Except as provided in subdivision (f)(13), in any case in which there is a successful completion of a pretrial diversion pursuant to § 37-1-110, the juvenile record shall be expunged by the juvenile court after one (1) year, upon the filing of a motion for expunction and without cost to the child. The court shall inform the child, at the time of the pretrial diversion, of the need to file the motion for expunction after a year of successful completion of the pretrial diversion and provide the child with a model expunction motion prepared by the administrative office of the courts. All juvenile court clerks shall make this model expunction motion accessible to all movants.

(5) Except as provided in subdivision (f)(13), in any case in which there is a successful completion of a judicial diversion pursuant to § 37-1-129, the juvenile record shall be expunged by the juvenile court after one (1) year, upon the filing of a motion for expunction and without cost to the child. The court shall inform the child, at the time of the judicial diversion, of the need to file the motion for expunction after a year of successful completion of the judicial diversion and provide the child with a model expunction motion prepared by the administrative office of the courts. All juvenile court clerks shall make this model expunction motion accessible to all movants.

(6) In any case that is dismissed, excluding a case dismissed after successful completion of an informal adjustment, pretrial diversion, or judicial diversion,

the juvenile record shall be expunged by the juvenile court as a part of the court's order of dismissal, without the filing of a pleading for expunction, and at no cost to the child.

(7) A motion for expunction may be filed prior to the one-year period outlined in subdivisions (f)(3), (f)(4), and (f)(5). If the motion is filed, the court may order all or any portion of the requested expunction if the court finds by clear and convincing evidence that the movant has successfully completed the informal adjustment or diversion and has made such an adjustment of circumstances that the court, in its discretion, determines that expunction serves the best interest of the child and the community.

(8) In any case in which a child's juvenile record contains convictions solely for unruly adjudications or delinquency adjudications for offenses that would be misdemeanors if committed by an adult, the juvenile court shall expunge all court files and records after one (1) year from the child's completion of and discharge from any probation or conditions of supervision, upon the filing of a motion by the child. The court shall inform the child, at the time of adjudication, of the need to file a motion to expunge after a year from the successful completion of probation and provide the child with a model expunction motion prepared by the administrative office of the courts. The administrative office of the courts shall create a motion that can be completed by a child and shall circulate the motion to all juvenile court clerks. All juvenile court clerks shall make this model expunction motion accessible to all children.

(9) The order of expunction, the original delinquent or unruly petition, and the order of adjudication and disposition under subdivisions (f)(1)-(8) shall be sealed and maintained by the clerk of the court in a locked file cabinet and kept separate from all other records. In courts that maintain a case management system capable of expunging a record and only allowing access to the system administrator, paper copies need not be maintained. The sealed orders and petition shall not be released to anyone except at the written request of the person whose records are expunged or in response to an order of a court with proper jurisdiction. Any person whose records are expunged under subdivisions (f)(1)-(8) shall be restored to the status that the person occupied before arrest, citation, the filing of a juvenile petition, or referral. Once a person's juvenile record is expunged, the person shall not be held criminally liable under any provision of state law to be guilty of perjury or otherwise giving a false statement by reason of the person's failure to recite or acknowledge such record or arrest in response to any inquiry made of the person for any purpose.

(10) For purposes of this subsection (f), a juvenile record includes all documents, reports, and information received, kept, or maintained in any form, including electronic, by the juvenile court clerk or juvenile court staff relating to a delinquency or unruly case, with the exception of assessment reports under § 37-1-136.

(11) The court shall inform the child, at the time of adjudication, of the need to file a motion to expunge the child's juvenile record. The administrative office of the courts shall create a motion that can be completed by a child and shall be circulated to all juvenile court clerks. All juvenile court clerks shall make this model expunction motion accessible to all children.

(12) The court may order all or any portion of a juvenile's court files and juvenile records expunged if:

(A) The juvenile is tried and adjudicated delinquent or unruly by a juvenile court for conduct that would constitute the offense of prostitution under § 39-13-513 or aggravated prostitution under § 39-13-516 if committed by an adult;

(B) The court finds that the conduct upon which the adjudication is based was found to have occurred as a result of the person being a victim of human trafficking under § 39-13-314; and

(C) The juvenile has filed a motion for expunction of all court files and juvenile records.

(13) A juvenile court shall not expunge a juvenile record following successful completion of an informal adjustment under § 37-1-110, pretrial diversion under § 37-1-110, or judicial diversion under § 37-1-129, if the child was accused of a delinquent act that if committed by an adult, would constitute an act of terrorism, as defined by § 39-13-803, or an attempt to commit an act of terrorism.

37-1-154. Law enforcement records — Inspection limited — Exceptions for certain violent offenders.

(a) Unless a charge of delinquency is transferred for criminal prosecution under § 37-1-134, the interest of national security requires or the court otherwise orders in the interest of the child, the law enforcement records and files shall not be open to public inspection or their contents disclosed to the public; but inspection of the records and files is permitted by:

(1) A juvenile court having the child before it in any proceeding;

(2) Counsel for a party to the proceeding;

(3) The officers of public institutions or agencies to whom the child is committed;

(4) Law enforcement officers of other jurisdictions when necessary for the discharge of their official duties; and

(5) A court in which such child is convicted of a criminal offense for the purpose of a presentence report or other dispositional proceeding, or by officials of penal institutions and other penal facilities to which such child is committed, or by a parole board in

considering such child's parole or discharge or in exercising supervision over such child.

(b) Notwithstanding subsection (a), petitions and orders of the court in a delinquency proceeding under this part shall be opened to public inspection and their content subject to disclosure to the public if:

(1)(A) The juvenile is fourteen (14) years of age or older at the time of the alleged act; and

(B) The conduct constituting the delinquent act, if committed by an adult, would constitute first degree murder, second degree murder, rape, aggravated rape, aggravated sexual battery, rape of a child, aggravated rape of a child, aggravated robbery, especially aggravated robbery, kidnapping, aggravated kidnapping, or especially aggravated kidnapping; or

(2) The conduct constituting the delinquent act, if committed by an adult, would constitute an act of terrorism, as defined by § 39-13-803, or an attempt to commit an act of terrorism.

(c) Notwithstanding the provisions of this section, if a court file or record contains any documents other than petitions and orders, including, but not limited to, a medical report, psychological evaluation or any other document, such document or record shall remain confidential.

(d)(1) Except as otherwise permitted in this section, it is an offense for a person to intentionally disclose or disseminate to the public the law enforcement records concerning a charge of delinquency, including the child's name and address.

(2) A violation of this subsection (d) shall be punished as criminal contempt of court as otherwise authorized by law.

(e) Notwithstanding other provisions of this section, where notice is required under § 49-6-3051, an abstract of the appropriate adjudication contained in the court file or record shall be made and provided to the parent, guardian, or other custodian of the juvenile, including the department, and this abstract shall be presented to the school in which the juvenile is, or may be, enrolled, in compliance with § 49-6-3051.

37-1-155. Fingerprints and photographs — Use — When destroyed — Video and audio recordings.

(a)(1) No child shall be fingerprinted or photographed in the investigation of delinquent acts without the permission of the court, unless the child is charged with a delinquent act that, if committed by an adult, would constitute a felony, in which case the child shall be fingerprinted and photographed at the time the child is taken into custody and such fingerprint file may be maintained in an automated fingerprint identification system. Such fingerprint file and photograph shall only be accessible to law enforcement officers, except as provided in § 37-1-154, and shall be maintained separate and apart from adult finger-

print files. The custody and maintenance of those fingerprints and photographs shall be the responsibility of the agency taking the child into custody.

(2) Law enforcement agencies shall not disclose such fingerprint or photograph files, except as permitted under § 37-1-154.

(b)(1) Fingerprint and photograph records shall be destroyed:

(A) If the child is charged with a misdemeanor offense and is not adjudicated a delinquent child; or

(B) If a petition alleging delinquency is not filed or the case is transferred to the juvenile court as provided in § 37-1-109.

(2) If the child is charged with a felony and is not adjudicated a delinquent child, the fingerprint and photograph records shall be maintained until the subject reaches eighteen (18) years of age. The record is then subject to expunction at the direction of the court.

(3) If the child is adjudicated a delinquent child on a felony offense, the fingerprint and photograph records shall be maintained permanently.

(4) If the child is adjudicated a delinquent child on a misdemeanor offense, the fingerprint and photograph records shall be maintained until the child reaches eighteen (18) years of age, or permanently if the child was fourteen (14) years of age or older when the offense was committed.

(5) All fingerprint and photograph records maintained pursuant to the authority of this section shall be confidential and used for law enforcement purposes only, or as otherwise permitted by law.

(c) If latent fingerprints are found during the investigation of an offense and a law enforcement officer has probable cause to believe that they are those of a particular child, such officer may fingerprint the child regardless of age or offense for purposes of immediate comparison with the latent fingerprints. If the comparison is negative, the fingerprint card and other copies of the fingerprints taken shall be immediately destroyed. If the child is not referred to the court or the case is dismissed, the fingerprints shall be immediately destroyed.

(d) If during the investigation of an offense, a law enforcement officer receives a description of the offender and such law enforcement officer has reasonable suspicion to believe that the description is that of a particular child, such officer may photograph the child regardless of age or offense for purposes of identification. However, nothing in this subsection (d) shall be deemed as authorizing an unconstitutional seizure of a child for purposes of obtaining a photograph.

(e)(1) Notwithstanding any other law to the contrary, a law enforcement officer, while acting in the course of official duties, may photograph, make a video recording or make an audio recording of a juvenile in the following circumstances:

(A) The juvenile is in the process of committing an offense;

(B) The law enforcement officer is conducting field sobriety tests based upon suspicion that the juvenile is driving under the influence of an intoxi-

However, any photograph or recording of the victim taken pursuant to this subdivision (e)(1)(C) shall be taken solely for use as evidence in the case being investigated and not for any other purpose except as is already provided in this section.

(2) The photograph or recording shall be made solely for use as evidence, and if no charges are brought against the juvenile within the applicable statute of limitations for the offense under investigation, the photograph or recording shall be destroyed unless a court of competent jurisdiction orders otherwise.

(3) Notwithstanding any other law to the contrary, the photograph or recording shall not be considered a public record and shall not be released to the public except by order of the court having jurisdiction over the charges brought against the juvenile.

37-1-156. Contributing to delinquency — Penalty — Jurisdiction of court.

(a)(1) Any adult who contributes to or encourages the delinquency or unruly behavior of a child, whether by aiding or abetting or encouraging the child in the commission of an act of delinquency or unruly conduct or by participating as a principal with the child in an act of delinquency, unruly conduct or by aiding the child in concealing an act of delinquency or unruly conduct following its commission, commits a Class A misdemeanor, triable in the circuit or criminal court.

(2) An adult convicted of a violation of this section shall be sentenced to the county jail or workhouse to serve one hundred percent (100%) of the maximum authorized sentence for a Class A misdemeanor if:

(A) The adult's conduct constituting a violation of this section involves supplying, giving, furnishing, selling, or permitting a child to buy or obtain, a product or substance that is unlawful for the child to possess; and

(B) As a proximate result of the product or substance, the child engages in conduct that causes the death of another.

(b) When any juvenile judge shall have reasonable ground to believe that any person is guilty of having contributed to the delinquency or unruly conduct of a child, such judge shall cause the person to be arrested and brought before such judge. In such case, when the defendant pleads not guilty, the juvenile court judge has the power to bind the defendant over to the grand jury or to proceed to hear the case on its merits without the intervention of a jury if the defendant requests the hearing in juvenile court and expressly waives in writing an indictment, presentment, grand jury investigation and jury trial. In the event the defendant enters a plea of guilty, the juvenile court judge has the

same power as the circuit or criminal court in making final disposition of the case.

(c)(1) If a child is found delinquent a second or subsequent time for conduct that constitutes the offense of vandalism under § 39-14-408, and the property vandalized is owned, operated, maintained or used by a governmental or other public entity, the parent or legal guardian of that child is in violation of this section.

(2) It is a defense to a violation of this subsection (c) if the parent or guardian demonstrates to the court that all reasonable means available were taken to prevent the child from engaging in the prohibited conduct.

(3) In lieu of the punishment prescribed in subsection (a), if the court finds that the parent or guardian of the delinquent child is in violation of this subsection (c), it may order the parent or guardian to repair, repaint, clean, refurbish or replace the property damaged as a result of the vandalism. If the damage does not lend itself to repair or cleaning, or if there is a legitimate reason why the parent or guardian is unable to do so, the court, in its discretion, may allow the parent or guardian to pay to have the damage repaired or replaced. If the parent or guardian is indigent and cannot afford to replace the damaged property, the court shall order the indigent parent or guardian to perform other community service work for which the parent or guardian is better suited.

(4) A violation of this subsection (c) may be heard and determined by the juvenile court.

(5) As a dispositional option for the delinquent act of vandalism, the court may also require the child responsible for the vandalism to assist in the repair or cleaning of the damage along with the child's parent or guardian.

37-1-157. Contributing to dependency — Penalties — Jurisdiction of court.

(a) When any child is alleged to be a dependent and neglected child, the parent, guardian or other person who by any willful act causes, contributes to or encourages such dependency and neglect commits a Class A misdemeanor, triable in the circuit or criminal court.

(b) In such a case when the defendant pleads not guilty, the juvenile court judge has the power to bind the defendant over to the grand jury as in cases of misdemeanors under the criminal laws of this state. In such case, when the defendant pleads not guilty, the juvenile court judge has the power to bind the defendant over to the grand jury or to proceed to hear the case on its merits without the intervention of a jury if the defendant requests the hearing in juvenile court and expressly waives in writing an indictment, presentment, grand jury investigation and jury trial. In

the event the defendant enters a plea of guilty, the juvenile court judge has the same power as the circuit or criminal court in making final disposition of the case.

(c) Reliance by a parent, guardian or custodian upon remedial treatment, other than medical or surgical treatment for a child, when such treatment is legally recognized or legally permitted under the laws of this state, shall not subject such parent, guardian or custodian to any of the penalties hereunder.

(d) Subsection (a) shall not be construed to impose criminal liability upon a mother based solely upon her act of voluntarily delivering a newborn infant to a facility pursuant to § 68-11-255.

37-1-158. Contempt of court.

The court may punish a person for contempt of court for disobeying an order of the court or for obstructing or interfering with the proceedings of the court or the enforcement of its orders by imposing a fine or imprisonment as prescribed for circuit, chancery or appellate courts pursuant to title 29, chapter 9.

Acts 1970, ch. 600, § 57; 1971, ch. 189, § 5; T.C.A., § 37-257.

37-1-159. Appeals.

(a) The juvenile court shall be a court of record; and any appeal from any final order or judgment in a delinquency proceeding, filed under this chapter, except a proceeding pursuant to § 37-1-134, may be made to the criminal court or court having criminal jurisdiction that shall hear the testimony of witnesses and try the case de novo. However, if the child pleads guilty or no contest in a delinquency or unruly proceeding, the child waives the right to appeal the adjudication. If the plea includes an agreement as to disposition, the child also waives the right to appeal the disposition. Any appeal from any final order or judgment in an unruly child proceeding or dependent and neglect proceeding, filed under this chapter, may be made to the circuit court that shall hear the testimony of witnesses and try the case de novo. The appeal shall be perfected within ten (10) days, excluding nonjudicial days, following the entry of the juvenile court's order. If a hearing before a judge of a matter heard by a magistrate is not requested or provided pursuant to § 37-1-107, the date of the expiration of the time within which to request the hearing shall be the date of disposition for appeal purposes, and the parties and their attorneys shall be so notified by the magistrate. If there is a rehearing by the judge, the appeal period shall commence the day after the order of disposition is entered. All parties to the juvenile court proceeding shall be parties to the de novo appeal.

(b) An appeal does not suspend the order of the juvenile court, nor does it release the child from the custody of that court or of that person, institution or agency to whose care the child has been committed. Pending the hearing, the criminal court or circuit court

may make the same temporary disposition of the child as is vested in juvenile courts; provided, that until the criminal court or circuit court has entered an order for temporary disposition, the order of the juvenile court shall remain in effect. A juvenile court shall retain jurisdiction to the extent needed to complete any reviews or permanency hearings for children in foster care as may be mandated by federal or state law.

(c) When an appeal has been perfected, the juvenile court shall cause the entire record in the case, including the juvenile court's findings and written reports from probation officers, professional court employees or professional consultants, to be taken forthwith to the criminal court or circuit court whose duty it is, either in term or in vacation, to set the case for an early hearing. When an appeal is taken from a juvenile court's decision that involves the removal of a child or children from the custody of their natural or legal parents or guardian or from the department of children's services, or when the decision appealed involves the deprivation of a child's liberty as the result of a finding that such child engaged in criminal activity, such hearing shall be held within forty-five (45) days of receipt of the findings and reports. In its order, the criminal court or circuit court shall remand the case to the juvenile court for enforcement of the judgment rendered by the criminal court or circuit court. Appeals from an order of the criminal court or circuit court pursuant to this subsection (c) may be carried to the court of appeals as provided by law.

(d) There is no civil or interlocutory appeal from a juvenile court's disposition pursuant to § 37-1-134. If and only if a nonlawyer judge presides at the transfer hearing in juvenile court, then the criminal court, upon motion of the child filed within ten (10) days of the juvenile court order, excluding nonjudicial days, shall hold a hearing as expeditiously as possible to determine whether it will accept jurisdiction over the child; provided, that if no such motion is filed with the criminal court within the ten-day period, excluding nonjudicial days, such child shall be subject to indictment, presentment or information for the offense charged and thus subject to trial as an adult. At this hearing, which is de novo, the criminal court shall consider:

(1) Any written reports from professional court employees, professional consultants as well as the testimony of any witnesses; and

(2) Those issues considered by the juvenile court pursuant to § 37-1-134(a) and (b).

(e) Following a hearing held pursuant to subsection (d), the criminal court may:

(1) Remand the child to the jurisdiction of the juvenile court for further proceedings and disposition pursuant to § 37-1-131, such remand order reciting in detail the court's findings of fact and conclusions of law; or

(2) Enter an order certifying that it has taken jurisdiction over the child. This order shall recite, in detail, the court's finding of fact and conclusions of law. Following the order, the child shall be subject to indictment, presentment or information for the of-

fenses charged. The criminal court judge who conducted the hearing to accept jurisdiction shall not thereby be rendered disqualified to preside at the criminal trial on the merits.

(f) Appeals from an order of the criminal court pursuant to subsection (e) may be carried to the court of criminal appeals in the manner provided by the Tennessee Rules of Appellate Procedure only following a conviction on the merits of the charge. This is the exclusive method of appeal from a finding that the criminal court accepts jurisdiction. The state may appeal to the court of criminal appeals a finding that the child be remanded to the juvenile court upon the ground of abuse of discretion. Pending the appeal by the state, the criminal court shall make a determination of whether or not the child shall be released on the child's own recognizance, or on bond, or held in the custodial care of the sheriff of the county.

(g) Appeals in all other civil matters heard by the juvenile court shall be governed by the Tennessee Rules of Appellate Procedure.

The reimbursement account shall be used to provide financial assistance to counties for removing children from adult jails.

(b)(1) A child who meets the criteria of § 37-1-114(c) for placement in a secure facility and who is taken into custody in a county that does not operate a secure juvenile detention facility may, with the approval of the juvenile court having jurisdiction in the matter, receive alternative services provided through the reimbursement account.

(2) A child who meets the criteria of § 37-1-114(c) for placement in a secure facility and who is taken into custody in a county that has established a secure juvenile detention facility since the passage of legislation effective May 26, 1983, that prohibits the placement of children in adult jails may, with the approval of the juvenile court having jurisdiction in the matter, receive nonsecure alternative services provided through the reimbursement account.

(c) The commission on children and youth shall promulgate regulations in accordance with the Uniform Administrative Procedures Act, compiled in title 4, chapter 5, for the administration of the reimbursement account. The regulations shall include, but not be limited to, the following factors:

- (1) Reporting requirements;
- (2) A maximum amount of payment per day;

37-1-162. Supplement and account for juvenile court services improvement.

(a) A supplement shall be provided by the state each year to counties for the improvement of juvenile court services. Such supplements shall be administered by the department of children's services and distributed by the department to participating counties. Where more than one (1) court exercises juvenile court jurisdiction within a single county, each court shall receive an equitable share of the county's allocation, as determined by percentage of juvenile court intakes or some other appropriate measure. Each court accepting such funds shall employ a youth services officer to be appointed and supervised by the court.

(b) The department shall establish policies regarding application and reporting procedures, adequate minimum educational requirements for youth services officers, and permissible uses of funds received under this section, including, but not limited to, requirements that such funds shall not be used to supplant funds formerly used by counties for juvenile court services, to pay salaries or personal expenses of juvenile court judges, or to construct or remodel jails or other facilities used for the detention or housing of adults alleged to have committed or been convicted of criminal offenses.

37-1-163. Financial obligations.

(a) Financial obligations shall not be assessed against a child in a delinquent or unruly case, including in any order of disposition under § 37-1-131 or § 37-1-132, though this does not affect the assessment of restitution pursuant to § 37-1-131(b). However, the court may order parents, legal custodians, or guardians to pay financial obligations in accordance with the provisions of this part. Restitution to any victim shall be prioritized over all financial obligations.

(b) Failure to pay or timely pay any financial obligations or restitution assessed to the child or the child's parents, guardian, or legal custodian shall not serve as a sole basis for continued court jurisdiction over or supervision of a child.

(c) Failure to pay or timely pay any financial obligations or restitution assessed to the child, child's parents, legal custodians, or guardians shall not serve as a basis for placement in the custody of the department or other removal of the child from the child's home, including the home of a parent, guardian, or legal custodian, for any length of time.

(d) The court shall consider the child's parents, legal custodians, or guardians' financial ability to pay in determining the amount of any financial obligations incurred or assessed by the state or county as described in this part. The court may decline to assess financial obligations if the court determines that assessment would pose financial hardship to the parents, legal custodians, or guardians.

(e) Any financial obligations ordered shall not be referred to any collection service as defined by § 62-20-102.

Acts 2018, ch. 1052, § 55 provided that it is the intent of the general assembly that improvements to the juvenile justice system and expansion of community-based resources for justice-involved children be prioritized, including, but not limited to, evidence-based programs, informal adjustment, diversion, home placement supervision, state-wide data collection, early intervention programs and services for children and families, and mental health services, especially in any county underserved with such programs and services.

37-1-164. Risk and needs assessment.

(a) A validated risk and needs assessment shall be used in all delinquent cases post disposition in making decisions and recommendations regarding programming and treatment.

(b) The department may make available a validated tool for use by any juvenile court; however, any juvenile court may instead choose to use a different validated tool.

(c) Any risk and needs assessment tool that is adopted by a juvenile court or the department must periodically undergo a validation study to ensure that the risk and needs assessment is predictive of the risk of reoffending of the population on which the tool is being administered.

(d) Each delinquent child ordered to probation supervision under § 37-1-131 or committed to the custody of the department shall undergo a validated risk and needs assessment within seven (7) days of the court's disposition, excluding nonjudicial days, to inform supervision level, referrals to programs and services, and case planning.

(e) In delinquent cases, the court may order that a risk and needs assessment be conducted prior to disposition if there is written agreement from the child, the child's parent, guardian, or legal custodian, and, if applicable, the child's attorney. A child may undergo such a risk and needs assessment prior to disposition to identify specific factors that predict a child's likelihood of reoffending and, when appropriately addressed, may reduce the likelihood of reoffending, and the results of the risk and needs assessment shall be provided to the court prior to or at the time of the disposition of the child.

(f) The administrative office of the courts may provide to each juvenile court having jurisdiction over a child charged with a delinquent or unruly offense the results of any validated risk and needs assessment concerning that child completed by another juvenile court; provided, that the judge or magistrate of the court having jurisdiction shall not access, review, or otherwise utilize such results before disposition.

37-1-165. Contracts among counties to pool juvenile justice supplements.

Any two (2) or more contiguous counties may contract to pool the state juvenile justice supplements received by such counties through the commission on children and youth in order to provide more effective and efficient provision of services, including the employment of one (1) or more persons to provide full-time assistance throughout the contracting counties. History.

Acts 1985 (1st Ex. Sess.), ch. 6, § 5.

37-1-166. Orders committing or retaining a child within the custody of the department of children's services — Required determinations.

(a) At any proceeding of a juvenile court, prior to ordering a child committed to or retained within the custody of the department of children's services, the court shall first determine whether reasonable efforts have been made to:

- (1) Prevent the need for removal of the child from such child's family; or
- (2) Make it possible for the child to return home.

(b) Whenever a juvenile court is making the determination required by subsection (a), the department has the burden of demonstrating that reasonable efforts have been made to prevent the need for removal of the child or to make it possible for the child to return home.

(c) To enable the court to determine whether such reasonable efforts have been made, the department, in a written affidavit to the court in each proceeding where the child's placement is at issue, shall answer each of the following questions:

- (1) Is removal of the child from such child's family necessary in order to protect the child, and, if so, then what is the specific risk or risks to the child or family that necessitates removal of the child?;

(2) What specific services are necessary to allow the child to remain in the home or to be returned to the home?;

(3) What services have been provided to assist the family and the child so as to prevent removal or to reunify the family?; and

(4) Has the department had the opportunity to provide services to the family and the child, and, if not, then what are the specific reasons why services could not have been provided?

(d) Whenever a juvenile court is making a determination required by subsection (a), based on all the facts and circumstances presented, the court must find whether:

(1) There is no less drastic alternative to removal;

(2) Reasonable efforts have been made to prevent the need for removal of the child from such child's family or to make it possible for the child to return home; and

(3) Continuation of the child's custody with the parent or legal guardian is contrary to the best interests of the child.

(e) All parties involved in each proceeding shall receive a copy of the department's affidavit and shall have an opportunity to respond as allowed by law.

(f) Unless emergency removal is necessary, the department shall be provided no more than thirty (30) days to investigate or offer services to the family and child in cases where the petition is not filed by the department.

(g)(1) As used in this section, "reasonable efforts" means the exercise of reasonable care and diligence by the department to provide services related to meeting the needs of the child and the family. In determining reasonable efforts to be made with respect to a child, as described in this subdivision (g)(1), and in making such reasonable efforts, the child's health and safety shall be the paramount concern.

(2) Except as provided in subdivision (g)(4), reasonable efforts shall be made to preserve and reunify families:

(A) Prior to the placement of a child in foster care, to prevent or eliminate the need for removing the child from the child's home; and

(B) To make it possible for a child to safely return to the child's home.

(3) If continuation of reasonable efforts of the type described in subdivision (g)(2) is determined to be inconsistent with the permanency plan for the child, reasonable efforts shall be made to place the child in a timely manner in accordance with the permanency plan, and to complete whatever steps are necessary to finalize the permanent placement of the child.

(4) Reasonable efforts of the type described in subdivision (g)(2) shall not be required to be made with respect to a parent of a child if a court of competent jurisdiction has determined that:

(A) The parent has subjected the child that is the subject of the petition or any sibling or half-sibling of the child who is the subject of the petition or any other child residing temporarily or permanently in the home to aggravated circumstances as

defined in § 36-1-102;

(B) As set out in § 36-1-113, the parent has:

(i) Committed murder of any sibling or half-sibling of the child who is the subject of the petition or any other child residing temporarily or permanently in the home;

(ii) Committed voluntary manslaughter of any sibling or half-sibling of the child who is the subject of the petition or any other child residing temporarily or permanently in the home;

(iii) Aided or abetted, attempted, conspired, or solicited to commit such a murder or such a voluntary manslaughter of the child or any sibling or half-sibling of the child who is the subject of the petition or any other child residing temporarily or permanently in the home; or

(iv) Committed a felony assault that results in serious bodily injury to the child or any sibling or half-sibling of the child who is the subject of the petition or any other child residing temporarily or permanently in the home; or

(C) The parental rights of the parent to a sibling or half-sibling have been terminated involuntarily.

(5) If reasonable efforts of the type described in subdivision (g)(2) are not made with respect to a child as a result of a determination made by a court of competent jurisdiction in accordance with subdivision (g)(4):

(A) A permanency hearing shall be held for the child within thirty (30) days after the determination; and

(B) Reasonable efforts shall be made to place the child in a timely manner in accordance with the permanency plan, and to complete whatever steps are necessary to finalize the permanent placement of the child.

(6) Reasonable efforts to place a child for adoption or with a legal guardian may be made concurrently with reasonable efforts of the type described in subdivision (g)(2).

(h) In determining whether to continue or restore custody to a parent is in the best interest of a child, the department shall not require a parent to:

(1) Obtain employment if such parent has sufficient resources from other means to care for the child; or

(2) Provide the child with the child's own bedroom, unless there are specific safety or medical reasons that would make placement of the child with another child unsafe.

37-1-168. Juvenile-family crisis intervention programs — General provisions.

(a) The department of children's services shall establish juvenile-family crisis intervention programs to provide continuous twenty-four (24) hour on-call service designed to attend and stabilize juvenile-family crises. The crisis intervention program may, in appropriate cases, work with the family on a short-term basis. The juvenile-family crisis intervention program may make referrals for appropriate services needed to continue resolution of the crisis.

(b) The juvenile-family crisis intervention programs may serve as an alternative to juvenile court in situations where a juvenile-family crisis exists and there has been either:

(1) A request by a parent or juvenile for intervention; or

(2) A referral by a public or private agency, educational institution or any other organization serving children, that has contact with the juvenile or family, and has reason to believe that a family crisis exists.

(c) If there has already been court intervention through the filing of a petition or otherwise, the court may refer appropriate cases to the juvenile-family crisis intervention program. If the department is providing non-custodial services to a child or family, or both, it may provide services through its juvenile-family crisis intervention program if appropriate.

(d) If, in the judgment of the juvenile-family crisis intervention program, a juvenile-family crisis continues to exist despite the provision of crisis intervention services and the exhaustion of appropriate community services, then the juvenile-family crisis intervention program shall, in writing or through sworn testimony, certify to the juvenile court that there is no other less drastic measure than court intervention. The court may then proceed by accepting a petition or acting on a pending petition and hold a hearing to determine what is in the best interest of the child consistent with § 37-1-132 and any other applicable laws under this part.

37-1-170. Joinder of parents or guardians in juvenile court actions.

(a) A juvenile court may, when the court determines that it is in the best interests of the child, join the child's parent or guardian and the person with whom the child resides, if other than the child's parent or guardian, as a respondent to a juvenile court action and may issue a summons requiring the parent or guardian and the person with whom the child resides, if other than the child's parent or guardian, to appear with the child at all proceedings under this chapter involving the child. If the parent or guardian of any child cannot be found, the court, in its discretion, may proceed with the case without the presence of such parent or guardian.

(b)(1) For the purposes of this section, "parent" includes a natural parent who has sole or joint custody, regardless of whether the parent is designated as the primary residential custodian, or an adoptive parent. This subsection (b) does not apply to any person whose parental rights have been terminated pursuant to this title or the parent of an emancipated minor.

(2) For the purposes of this section, "emancipated minor" has the same meaning as set forth in § 39-11-106.

(c) The summons shall require the person or persons having the physical custody of the juvenile, if other than a parent or guardian, to appear and to bring the juvenile before the court at a time and place stated.

(d) Whenever a parent or guardian or person with whom the juvenile resides, if other than the parent or guardian, who has received a summons to appear fails, without good cause, to appear on any date set by the court, a bench warrant shall be issued for the parent, guardian or person with whom the juvenile resides and the parent, guardian or person with whom the juvenile resides shall be subject to contempt.

(e) For purposes of subsection (d), good cause for failing to appear includes, but is not limited to, a

(1) Does not have physical custody of the child and resides outside Tennessee;

(2) Has physical custody of the child, but resides outside of Tennessee and appearing in court will result in undue hardship to such parent or guardian; or

(3) Resides in Tennessee, but is outside of the state at the time of the juvenile proceeding for reasons other than avoiding appearance before the court and appearing in court will result in undue hardship to such parent or guardian.

(f) This section shall not be applicable to any proceeding in a case that has been transferred to the criminal court pursuant to the provisions of § 37-1-134.

(g) The general assembly hereby declares that every parent or guardian whose child is the subject of a juvenile proceeding under this title should attend any such proceeding as often as is practicable.

(C) Both the department and law enforcement shall maintain a log of all such reports of such information received and confirmation that the information was sent to the appropriate party, pursuant to this subdivision (c)(3).

(d) Any person required to report or investigate cases of suspected child abuse who has reasonable cause to suspect that a child died as a result of child abuse shall report such suspicion to the appropriate medical examiner. The medical examiner shall accept the report for investigation and shall report the medical examiner's findings, in writing, to the local law enforcement agency, the appropriate district attorney general, and the department. Autopsy reports maintained by the medical examiner shall not be subject to the confidentiality requirements provided for in § 37-1-409.

(e) Reports involving known or suspected institutional child sexual abuse shall be made and received in the same manner as all other reports made pursuant to chapter 478 of the Public Acts of 1985, relative to the sexual abuse of children. Investigations of institutional child sexual abuse shall be conducted in accordance with § 37-1-606.

(f) Every physician or other person who makes a diagnosis of, or treats, or prescribes for any sexually transmitted disease set out in § 68-10-112, or venereal herpes and chlamydia, in children thirteen (13) years of age or younger, and every superintendent or manager of a clinic, dispensary or charitable or penal institution, in which there is a case of any of the diseases, as set out in this subsection (f), in children thirteen (13) years of age or younger shall report the case immediately, in writing on a form supplied by the department of health to that department. If the reported cases are confirmed and if sexual abuse is suspected, the department of

health will report the case to the department of children's services. The department of children's services will be responsible for any necessary follow-up.

(g) Every physician or other person who makes an initial diagnosis of pregnancy to an unemancipated minor, and every superintendent or manager of a clinic, dispensary or charitable or penal institution in which there is a case of an unemancipated minor who is determined to be pregnant, shall provide to the minor's parent, if the parent is present, and the minor consents, any readily available written information on how to report to the department of children's services an occurrence of sex abuse that may have resulted in the minor's pregnancy, unless disclosure to the parent would violate the federal Health Insurance Portability and Accountability Act of 1996 (HIPAA), 42 U.S.C. § 1320d et seq., or the regulations promulgated pursuant to the act.

(1) Failure to provide the written information shall not subject a person to the penalty provided by § 37-1-412.

(2) The department of children's services shall provide to the department of health the relevant written information. The department of health shall distribute copies of the written information to all licensees of the appropriate health-related boards through the boards' routinely issued newsletters. At the time of initial licensure, these boards shall also provide new licensees a copy of the relevant written information for distribution pursuant to this subsection (g).

(h) Nothing in this section shall be construed to prohibit any hospital, clinic, school, or other organization responsible for the care of children, from developing a specific procedure for internally tracking, reporting, or otherwise monitoring a report made by a member of the organization's staff pursuant to this section, including requiring a member of the organization's staff who makes a report to provide a copy of or notice concerning the report to the organization, so long as the procedure does not inhibit, interfere with, or otherwise affect the duty of a person to make a report as required by subsection (a). Nothing in this section shall prevent staff of a hospital or clinic from gathering sufficient information, as determined by the hospital or clinic, in order to make an appropriate medical diagnosis or to provide and document care that is medically indicated, and is needed to determine whether to report an incident as defined in this part. Those activities shall not interfere with nor serve as a substitute for any investigation by law enforcement officials or the department; provided, that, if any hospital, clinic, school or other organization responsible for the care of children develops a procedure for internally tracking, reporting or otherwise monitoring a report pursuant to this section, the identity of the person who made a report of harm pursuant to this section or § 37-1-605 shall be kept confidential.

(i)(1) Any school official, personnel, employee or member of the board of education who is aware of a report or investigation of employee misconduct on the part of any employee of the school system that in

any way involves known or alleged child abuse, including, but not limited to, child physical or sexual abuse or neglect, shall immediately upon knowledge of such information notify the department of children's services or anyone listed in subdivision (a)(2) of the abuse or alleged abuse.

(2) Notwithstanding § 37-5-107 or § 37-1-612, if a school teacher, school official, or other school personnel has knowledge or reasonable cause to suspect that a child who attends the school may be a victim of child abuse or child sexual abuse sufficient to require reporting pursuant to this section, then the school teacher, school official, or other school personnel must follow the procedures outlined in § 49-6-1601.

(3) For purposes of this subsection (i), "school" means any public or privately operated child care agency, as defined in § 71-3-501; child care program, as defined in § 49-1-1102; preschool; nursery school; kindergarten; elementary school; or secondary school.

37-1-404. Retention of custody of child by hospital or physician — Protective custody.

(a) Any person in charge of a hospital or similar institution or any physician treating a child may keep that child in custody until the next regular weekday session of the juvenile court without the consent of the parents, legal guardian or legal custodian, whether or not additional medical treatment is required, if the circumstances are such, or if the condition of the child is such, that continuing the child in the child's place of residence or in the care or custody of the parents, legal guardian, or legal custodian presents an imminent danger to the child's life or physical or mental health.

(b) Any person taking a child into protective custody shall immediately notify the department, whereupon the department shall immediately begin a child protective investigation in accordance with the provisions of § 37-1-606, and shall make every reasonable effort to immediately notify the parents, legal guardian or legal custodian that such child has been taken into protective custody.

(c) If the department determines, according to the criteria set forth in § 37-1-114, that the child should remain in protective custody longer than the next regular weekday session of the juvenile court, it shall

petition the court for an order authorizing such custody in the same manner as if the child were placed in a shelter.

(d) The department shall attempt to avoid the placement of a child in an institution whenever possible.

37-1-405. Reference of reported cases to local director — Notice to judge.

(a)(1) All cases reported to the juvenile court judge or to state or local law enforcement officers shall be referred immediately to the local director of the county office of the department for investigation.

(2) If the court or law enforcement officer finds that there are reasonable grounds to believe that the child is suffering from illness or injury or is in immediate danger from the child's surroundings and that the child's removal is necessary, appropriate protective action shall be taken under part 1 of this chapter.

(b)(1) The county office of the department or the office of the sheriff or the chief law enforcement official of the municipality where the child resides, upon receipt of a report of harm or sexual abuse, shall give notice of the report to the judge having juvenile jurisdiction where the child resides.

(2) If the case appears to involve severe child abuse as defined in § 37-1-102, including child sexual abuse, the county director of the department shall immediately notify and consult with the district attorney general where the harm occurred, and the district attorney general may take such action as the district attorney general deems appropriate, including petitioning the court for removal of the child or termination of parental rights in accordance with part 1 of this chapter. Whenever there are multiple investigations, the department, the district attorney general, law enforcement, and, where applicable, the child protection team, shall coordinate their investigations to the maximum extent possible so that interviews with the victimized child shall be kept to an absolute minimum. Reference to the audio or videotape or tapes made by the child protection team or department should be utilized whenever possible to avoid additional questioning of the child.

(3) If, before the investigation is complete, the county office of the department or the local district attorney general determines that immediate removal is necessary to protect the child or other children, or if the district attorney general determines that influence is being exerted on a child victim of sexual abuse to change the child victim's testimony, the department or the district attorney general may proceed under part 1 of this chapter.

37-1-406. Availability for receiving reports — Commencement of investigations — Examination and observation of child — Reports — Services provided — Investigators — Interpreter for child who is deaf or hard of hearing.

(a) The department shall be capable of receiving and investigating reports of child abuse twenty-four (24) hours a day, seven (7) days a week. The county office shall make a thorough investigation promptly after receiving either an oral or written report of harm. All representatives of the child protective services agency shall, at the initial time of contact with the individual who is subject to a child abuse and neglect investigation, advise the individual of the complaints or allegations made against the individual consistent with laws protecting the rights of the informant. If it appears that the immediate safety or well being of a child is endangered, that the family may flee or the child will be unavailable, or that the facts otherwise warrant, the department shall commence an investigation immediately, regardless of the time of day or night. In the event the report involves child sexual abuse, the department shall follow the procedures outlined in subsection (b).

(b)(1) In cases involving child sexual abuse, the investigation shall be conducted by a child protective investigation team as defined in § 37-1-602 relative to child sexual abuse pursuant to the provisions of § 37-1-606. In the event an immediate investigation has been initiated, the department shall notify the child protection team as soon as possible and the team shall proceed with the investigation in accordance with the provisions of chapter 478 of the Public Acts of 1985. Other cases of child abuse may be investigated by the team in the discretion of each individual team.

(2) In cases involving a report of harm alleging facts that, if proved, would constitute severe child abuse as defined in § 37-1-102, the investigation must be conducted by a child protective investigation team pursuant to § 37-1-607. In the event an immediate investigation has been initiated, the department shall notify the child protection team as soon as possible, and the team shall proceed with the investigation in accordance with § 37-1-607.

(c) All private schools, as defined by § 49-6-3001, church-related schools, as defined by § 49-50-801, and state, county and local agencies shall give the team access to records in their custody pertaining to the child and shall otherwise cooperate fully with the investigation.

(d) The investigation shall include:

(1) The nature, extent and cause of the harm, including a determination of whether there exists a threat of harm, and the nature and extent of any present or prior injuries or abuse;

(2) The identity of the person responsible for it;

(3) The nature and extent of any previous allegations, complaints, or petitions of abuse or dependency and neglect against the parent or person responsible for the care of the child;

(4) The names and conditions of the other children in the home;

(5) An evaluation of the parents or persons responsible for the care of the child, the home environment, and the relationship of each child to the parents or persons responsible for such child's care;

(6) The identity of any other persons in the same household;

(7) The identity of any other children in the care of any adult residing in the household; and

(8) All other pertinent data.

(e)(1) The investigation shall include a visit to the child's home, an interview with and the physical observation of the child, an interview with and the physical observation of any other children in the child's home, and an interview with the parent or parents or other custodian of the child and any other persons in the child's home. If the investigator deems it necessary, the investigation shall also include medical, psychological or psychiatric examinations of the child and any other children in the child's home or under the care of any person alleged to have permitted or caused abuse, neglect or sexual abuse to the child. If the investigator determines, based on a visit to the child's home, observation of and interview with the subject child, and interview with other persons in the child's home, that the report of harm was wholly without substance, the investigator may determine that physical and psychological examinations of the subject child are unnecessary, in which case they will not be required. If admission to the home, school, or any place where the child may be, or permission of the parents or persons responsible for the child's care for the physical and psychological or psychiatric examinations cannot be obtained, the juvenile court, upon cause shown, shall order the parents or person responsible for the care of the child or the person in charge of any place where the child may be, to allow entrance for the interview, examination, and investigation. If the report of harm indicates that the abuse, neglect or sexual abuse occurred in a place other than the child's home, then, in the discretion of the investigator, the investigation may include a visit to the location where the incident occurred or a personal interview with the child and the parents or other custodians in another location instead of a visit to the child's home.

(2) Notwithstanding subdivision (e)(1), if the report of harm was made to the department anonymously, then the juvenile court shall not order the parents or person responsible for the care of the child or the person in charge of any place where the child may be, to allow the department entrance for pur-

poses of interview, examination, and investigation unless the department has presented evidence corroborating the anonymous report of harm.

(f) Any person required to investigate cases of child abuse may take or cause to be taken photographs of the areas of trauma visible on a child who is the subject of a report and of any objects or conditions in the child's home or surroundings that could have caused or contributed to the harm to the child. If the nature of the child's injuries indicate a need for immediate medical examination or treatment, the investigator may take or cause the child to be taken for diagnosis to a licensed physician or an emergency department in a hospital without the consent of the child's parents, legal guardian or legal custodian. Any licensed physician who, based on information furnished by the investigator, the parents or other persons having knowledge of the situation, or the child, or on personal observation of the child, suspects that an injury was the result of child abuse, may authorize appropriate examinations to be performed on the child without the consent of the child's parent, legal guardian or legal custodian.

(g) At the initial investigation of child abuse and at any subsequent investigation as deemed appropriate by the investigator, audio or videotape recording may be taken of the traumatized victim. Such tape shall be admissible as evidence in cases of child sexual abuse if it meets the standards established in title 24 for the use of recorded statements. Regardless of whether such recording is used in evidence, it shall be made available for use as provided in § 37-1-405(b)(2).

(h) The investigator shall interview the child outside the presence of the parent(s) or other persons allegedly responsible for the harm and, wherever possible, shall interview the child in a neutral setting other than the location where the alleged abuse occurred.

(i) No later than sixty (60) days after receiving the initial report, the department or team in cases of child sexual abuse or the department in all other cases shall determine whether the reported abuse was indicated or unfounded and report its findings to the department's abuse registry. Each member of the team shall be provided with a copy of the report in any case investigated by the team. In any case investigated solely by the department, the department shall make a complete written investigation report, including its recommendation, to the juvenile court. The district attorney general shall also be provided a copy of any report in all cases where the investigation determines that the report was indicated. Further proceedings shall be conducted pursuant to part 1 of this chapter, as appropriate.

(j) If the department or team in cases of child sexual abuse or the department in all other cases determines that the protection of the child so requires, the department shall provide or arrange for services necessary to prevent further abuse, to safeguard and enhance the welfare of children, and to preserve family life. Such services may include provision for protective shelter, to include room and board; medical and remedial care; day care; homemaker; caretaker; transportation; counseling and therapy; training courses for the parents or

legal guardian; and arranging for the provision of other appropriate services. All such services shall be provided when appropriate within the limits of available resources. These services shall first be offered for the voluntary acceptance by the parent or other person responsible for the care of the child, unless immediate removal is needed to protect the child. At any point if the department or team in cases of child sexual abuse or the department in all other cases deems that the child's need for protection so requires, it may proceed with appropriate action under part 1 of this chapter.

(k) If the investigator, as a result of the investigation, determines that there is cause to classify the report of severe abuse as indicated rather than unfounded, the team in cases of child sexual abuse or the department in all other cases may recommend that criminal charges be filed against the alleged offender. Any interested person who has information regarding the offenses may forward a statement to the district attorney general as to whether such person believes prosecution is justified and appropriate. Within fifteen (15) days of the completion of the district attorney general's investigation of a report of severe abuse, the district attorney general shall advise the department or team whether or not prosecution is justified and appropriate, in the district attorney general's opinion, in view of the circumstances of the specific case.

(l) The legislative intent of this section is to protect the legal rights of the family in an investigation and to ensure that no activity occurs that compromises the department's child abuse investigation or any ongoing concurrent criminal investigation conducted by law enforcement.

(m)(1) In jurisdictions that have implemented the multi-level response system, in addition to other investigative procedures under this section, local law enforcement officers and district attorneys general having jurisdiction shall assist the department, on request in writing, if the department determines that it is likely that the case may result in criminal prosecution or that a child protective services worker may be at risk of harm while investigating the following reports of harm:

(A) Any report of harm alleging facts that, if proved, would constitute severe child abuse as defined in § 37-1-102;

(B) Any report of harm alleging facts that, if proved, would constitute child sexual abuse as defined in § 37-1-602;

(C) Any report of harm alleging facts that, if proved, would constitute the following physical injuries to a child:

- (i) Head trauma;
- (ii) Broken bones;
- (iii) Inflicted burns;
- (iv) Organic functional impairment, as defined by the department;
- (v) Broken skin;
- (vi) Shaken baby syndrome;
- (vii) Defensive injuries;
- (viii) Injuries related to physical confinement;

or

(ix) Infants exposed to illegal narcotics, including methamphetamine;

(D) Any report of harm alleging facts that, if proved, would constitute the following types of neglect:

(i) A child left without supervision in a dangerous environment;

(ii) Lack of food or nurturance resulting in a failure to thrive;

(iii) Abandonment of a child under the age of eight (8);

(iv) Lack of care that results in a life-threatening condition or hospitalization; or

(v) Inaction of the parent resulting in serious physical injury;

(E) Any report of harm alleging facts that would result in the removal of a child from the home pursuant to department policy or rule;

(F) Any report of harm alleging facts that involve a caretaker at any institution, including, but not limited to, any licensed day care center, public or private school, or hospital; or

(G) Any report of harm alleging facts that, if proved, would constitute any other class of injury identified by the department through policy or rule as necessitating investigation.

(2) If a local law enforcement agency or district attorney general assisting the department under this subsection (m) decides not to proceed with prosecution or terminates prosecution after undertaking it, the agency or district attorney general shall make a written report on a standardized check-off form developed by the department and the Tennessee district attorneys general conference to the department and the juvenile court on the basis for its decision. The department shall compile such reports and present them to the judiciary committee of the senate and the civil justice committee of the house of representatives as part of its report pursuant to the multi-level response system for children and families, compiled in chapter 5, part 6 of this title. The department shall make quarterly reports to local law enforcement agencies and district attorneys general as to the number and types of cases the department is handling in their jurisdictions on the basis of reports of harm or sexual abuse or of children at risk of being so harmed or sexually abused.

(n) If the report of child abuse alleges physical abuse, it shall be in the best interest of the child that the child be referred to a child advocacy center or that the investigation be conducted by a child protective services investigator who is adequately trained in investigating physical abuse reports. Under no circumstances shall the investigation be performed by a probation officer previously assigned to the child.

(o)(1) Any investigator or law enforcement officer who is investigating a possible domestic abuse or child abuse incident that may have involved or occurred in the presence of a child who is deaf or hard of hearing shall not use the child's parent or family member as an interpreter. The investigator or officer shall instead communicate with the child who is deaf or hard of hearing using an interpreter trained as a

sign language interpreter.

(2) The interpreter may interpret from a remote location by communicating with the child using video remote interpreting. If the child is unable to understand, then a live, qualified interpreter from the list identified in subdivision (o)(3) shall be used. The communication shall occur outside the presence of the child's parent, other family members, or potential abusers.

(3) Law enforcement agencies shall maintain a list of interpreters developed from a list provided by the Tennessee council for the deaf, deaf-blind, and hard of hearing.

By January 1, 2019, the department shall develop instructional guidelines for child safety training programs for members of professions that frequently deal with children who may be at risk of abuse, which programs include the common signs of child abuse, human trafficking when a child is the victim, and child sexual abuse; how to identify children at risk of abuse, human trafficking, or sexual abuse; and the reporting requirements of this part. which the victim is a child. The department of education shall use the guidelines to identify child abuse training programs appropriate for teachers. The programs identified by the department of education must train teachers on the common signs of child abuse, child sexual abuse, and human trafficking in which the victim is a child; how to identify children at risk of abuse, sexual abuse, or human trafficking; maintenance of professional and appropriate relationships with students; and the requirements for reporting suspected child abuse and sexual misconduct.

37-1-409. Reports confidential — Authorized access to information — Penalty for violation.

(a)(1) Except as otherwise provided by this section and §§ 37-1-612 and 37-5-107, reports of harm made under this part and the identity of the reporter are confidential, except when the juvenile court in which the investigation report is filed, in its discretion, determines the testimony of the person reporting to be material to an indictment or conviction.

(2) Except as may be ordered by the juvenile court as herein provided, the name of any person reporting child abuse shall not be released to any person, other than employees of the department or other child protection team members responsible for child protective services, the abuse registry, or the appropriate district attorney general upon subpoena of the Tennessee bureau of investigation, without the written consent of the person reporting. Such person's identity shall be irrelevant to any civil proceeding and shall, therefore, not be subject to disclosure by order of any court. This shall not prohibit the subpoenaing of a person reporting child abuse when deemed necessary by the district attorney general or the department to protect a child who is the subject of a report; provided, that the fact that such person made the report is not disclosed.

(b) Except as otherwise provided in this part, it is unlawful for any person, except for purposes directly connected with the administration of this part, to disclose, receive, make use of, authorize or knowingly permit, participate in, or acquiesce in the use of any list or the name of, or any information concerning, persons receiving services pursuant to this part, or any information concerning a report or investigation of a report of harm under this part, directly or indirectly derived from the records, papers, files or communications of the department or divisions thereof acquired in the course of the performance of official duties.

(c) In addition to such other purposes as may be directly connected with the administration of this part, the department shall also grant access to information to those persons specified in § 37-1-612.

(d) The department may confirm whether a child abuse or neglect investigation has been commenced, but may not divulge, except as permitted under this part, any details about the case, including, but not limited to, the name of the reporter, the alleged victim, or the alleged perpetrator.

(e) The department shall adopt such rules as may be necessary to carry out the following purposes:

(1) The establishment of administrative and due process procedures for the disclosure of the contents of its files and the results of its investigations for the purpose of protecting children from child sexual abuse, physical abuse, emotional abuse, or neglect; and

(2) For other purposes directly connected with the administration of this chapter, including, but not limited to, cooperation with schools, child care agencies, residential and institutional child care providers, child protection agencies, individuals providing care or protection for the child, medical and mental health personnel providing care for the child and the child's family and the perpetrator of any form of child abuse or neglect, law enforcement agencies, the judicial and correctional systems, and for cooperation with scientific and governmental research on child abuse and neglect.

(f) Except as specifically provided in this chapter, nothing in this chapter shall prevent the department from sharing information with the district attorney general and law enforcement personnel for the purpose of cooperating with a law enforcement investigation. Information from departmental records that is shared with the district attorney general or law enforcement by the department shall remain confidential to the same extent that information not shared with the district attorney general and law enforcement is confidential. Unless otherwise ordered by a court, or to the extent that such information is used for criminal prosecution, or to the extent required under the Tennessee rules of criminal procedure after criminal charges have been filed, any portion of shared information that does not become part of a court record shall remain confidential to the same extent as information not shared by the department remains confidential.

(g) A violation of this section is a Class B misdemeanor.

These entities may consult with other public and private groups, organizations, and agencies that have knowledge of the child sex trafficking population and are willing to assist in this goal. The district attorneys general conference shall report the recommendations to the chairs of the judiciary committee of the senate and the criminal justice committee and the children and family affairs subcommittee of the house of representatives by January 15, 2023.

37-1-607. Child protective teams — Investigations — Services.

(a)(1)(A) The department shall coordinate the services of child protective teams. At least one (1) child protective team shall be organized in each county. The district attorney general of each judicial district shall, by January 15 of each year, report to the judiciary committee of the senate and the civil justice committee of the house of representatives on the status of the teams in the district attorney general’s district as required by this section, and the progress of the child protective teams that have been organized in the district attorney general’s district. The department shall, with the cooperation of all statutorily authorized members of the child protective team, establish a procedure and format for data collection. The procedure and format developed shall include at a minimum the following information:

- (i) The number of reports received for investigation by type (i.e., sexual abuse, serious physical abuse, life-threatening neglect);
- (ii) The number of investigations initiated by type;

(iii) The number of final dispositions of cases obtained in the current reporting year by type of disposition as follows:

- (a) Unsubstantiated, closed, no service;
- (b) Unsubstantiated, referred for non-custodial support services;
- (c) Substantiated, closed, no service;
- (d) Substantiated, service provided, no prosecution;
- (e) Substantiated, service provided, prosecution, acquittal; or
- (f) Substantiated, service provided, prosecution, conviction;

(iv) Age, race, gender, and relationship to the victim of perpetrators identified in cases that are included in subdivisions (a)(1)(A)(iii)(c)-(f); and

(v) The type and amount of community-based support received by child protective teams through linkages with other local agencies and organizations and through monetary or in-kind, or both, donations.

(B) Such data shall be reported by January 15 of each year to the judiciary committee of the senate and the civil justice committee of the house of representatives, along with a progress report on the teams and any recommendations for enhancement of the child sexual abuse or severe child abuse plan and program.

(2) Each team must be composed of one (1) person from the department, one (1) representative from the office of the district attorney general, one (1) juvenile court officer or investigator from a court of competent jurisdiction, and one (1) properly trained law enforcement officer with countywide jurisdiction from the county where the child resides or where the alleged offense occurred. The team may also include a representative from one (1) of the mental health disciplines, a representative trained in child abuse from one (1) of the medical disciplines, and, for cases involving an allegation that a child is a victim of a human trafficking offense, a representative from one (1) non-governmental agency specialized in combating the commercial sexual exploitation of minors. It is in the best interest of the child that, whenever possible, an initial investigation shall not be commenced unless all four (4) required disciplines are represented. An initial investigation may, however, be commenced if at least two (2) of the required team members are present at the initial investigation. In those geographical areas in which a child advocacy center meets the requirements of § 9-4-213(a) or (b), child advocacy center directors, or their designees, must be members of the teams under this part and part 4 of this chapter for the purposes of provision of services and functions established by § 9-4-213 or delegated pursuant to that section. In such event, child advocacy center directors, or their designees, may access and generate all necessary information, which shall retain its confidential status, consistent with § 37-1-612.

(3) It is the intent of the general assembly that the child protective investigations be conducted by the team members in a manner that not only protects the child but that also preserves any evidence for future criminal prosecutions. It is essential, therefore, that all phases of the child protective investigation be appropriately conducted and that further investigations, as appropriate, be properly conducted and coordinated.

(b)(1) The department shall convene the appropriate child protective team when a report of child sexual abuse or severe child abuse has been received. Nothing in this section removes or reduces the duty and responsibility of any person to report all suspected or actual cases of child sexual abuse or severe child abuse. The role of the teams is to conduct child protective investigations of reported child sexual abuse and severe child abuse and to support and provide services to sexually abused children and severely abused children upon referral as deemed by the teams to be necessary and appropriate for such children.

(2)(A) For each child sexual abuse report or severe child abuse report it receives, the department shall immediately notify the child protection investigation team, which shall commence an on-site child protective investigation. The team shall:

(i) Determine the composition of the family or household, including the name, address, age, sex and race of each child named in the report; any

siblings or other children in the same household or in the care of the same adults; the parents or other persons responsible for the child's welfare; and any other adults in the same household;

(ii) Determine whether there is any indication that any child in the family or household is severely or sexually abused, including a determination of harm or threatened harm to each child; the nature and extent of present or prior injuries, or abuse, and any evidence thereof; and a determination as to the person or persons apparently responsible for the abuse;

(iii) Determine the immediate and long-term risk to each child if the child remains in the existing home environment;

(iv) Determine the protective, treatment and ameliorative services necessary to safeguard and ensure the child's well-being and development and, if possible, to preserve and stabilize family life; and

(v) Determine the specialized, non-punitive services necessary to support the child in cases where there is an allegation that the child may be a victim of a human trafficking offense.

(B) The team shall seek to interview the child in a neutral setting, other than where the alleged abuse occurred, whenever possible.

(3) Immediately upon receipt of a report alleging, or immediately upon learning during the course of an investigation, that:

(A) Child sexual abuse or severe child abuse has occurred; or

(B) An observable injury or medically diagnosed internal injury occurred as a result of the sexual abuse or severe child abuse;

the department shall orally notify the team, the appropriate district attorney general and the appropriate law enforcement agency whose criminal investigations shall be coordinated, whenever possible, with the child protective team investigation. In all cases, the team and the department shall make a full written report to the district attorney general within three (3) days of the oral report. If, as a result of an investigation, there is cause to believe a violation of title 39, chapter 17, part 10 has occurred, an appropriate report shall be filed by the district attorney general requesting an investigation by the Tennessee bureau of investigation. If independent criminal investigations are made, interviews with the victimized child shall be kept to an absolute minimum and, whenever possible, reference to the videotape or tapes made by the child protective teams should be utilized.

(4) In addition to the requirements of this part, the provisions of § 37-1-406 shall apply to any investigation conducted hereunder.

(5) As a result of its investigation, the team may recommend that criminal charges be filed against the alleged offender. Any interested person who has information regarding the offenses described in this subsection (b) may forward a statement to the district attorney general as to whether prosecution is warranted and appropriate. Within fifteen (15) days

of the completion of the district attorney general's investigation, the district attorney general shall advise the department and the team whether or not prosecution is justified and appropriate in the district attorney general's opinion in view of the circumstances of the specific case.

(c)(1) The specialized diagnostic assessment, evaluation, coordination, consultation, and other supportive services that the team shall be capable of providing, to the extent funds are specifically appropriated therefor, or by referral shall be capable of obtaining for the protection of the child, include, but are not limited to, the following:

(A) Telephone consultation services in emergencies and in other situations;

(B) Medical evaluation related to the sexual abuse or severe child abuse;

(C) Such psychological and psychiatric diagnosis and evaluation services for the child, siblings, parent or parents, guardian or guardians, or other care givers, or any other individual involved in a child sexual abuse or severe child abuse case, as a child protection team may determine to be needed;

(D) Short-term psychological treatment. It is the intent of the general assembly that the department provide or refer a child whose case has been validated by the department, and the child's family, for short-term psychological treatment before the department may close its case. Such short-term treatment shall be limited to no more than six (6) months' duration after treatment is initiated, except that the commissioner may authorize such treatment for individual children beyond this limitation if the commissioner deems it appropriate;

(E) Expert medical, psychological and related professional testimony in court cases;

(F) Case staffings to develop, implement and monitor treatment plans for a child whose case has been validated by the department. In all such case staffings, consultations, or staff activities involving a child, at least one (1) member of the team involved in the initial investigation shall continue to monitor the progress and status of the child whenever possible and within the same geographic area; and

(G) Case service coordination and assistance, including the location of services available from other public and private agencies in the community.

(2) In all instances where a child protection team is providing or has obtained by referral certain services to sexually or severely abused children, other offices and units of the department shall avoid duplicating the provision of those services.

(d) As used in this section, "severe child abuse" has the same meaning as defined in § 37-1-102.

37-1-608. Protective custody of children.

(a) A law enforcement officer, authorized person of the department, or other authorized person may take a child into custody as provided in part 1 of this chapter.

(b) Any person in charge of a hospital or similar institution or any physician treating a child may keep that child in custody until the next regular weekday session of the juvenile court without the consent of the parents, legal guardian or legal custodian, whether or not additional medical treatment is required, if the circumstances are such, or if the condition of the child is such, that continuing the child in the child's place of residence or in the care or custody of the parents, legal guardian or legal custodian presents an imminent danger to the child's life or physical or mental health. Any person taking a child into protective custody shall immediately notify the department, whereupon the department shall immediately begin a child protective investigation in accordance with the provisions of § 37-1-606, and shall make every reasonable effort to immediately notify the parents, legal guardian or legal custodian that such child has been taken into protective custody. If the department determines, according to the criteria set forth in § 37-1-114, that the child should remain in protective custody longer than the next regular weekday session of the juvenile court, it shall petition the court for an order authorizing such custody in the same manner as if the child were placed in a shelter. The department shall attempt to avoid the placement of a child in an institution whenever possible.

physician or an emergency department in a hospital without the consent of the child's parents, legal guardian or legal custodian. Any licensed physician who, based on information furnished by the investigator, the parents or other persons having knowledge of the situation, or the child, or on personal observation of the child, suspects that a child has been sexually abused may authorize appropriate examinations to be performed on the child without the consent of the child's parents, legal guardian or legal custodian.

(b) Any photograph or report on examinations made or x-rays taken pursuant to this section, or copies thereof, shall be sent to the department as soon as possible, at which point such records shall be available to the members of the team. All state, county and local agencies shall give the team or the department access to records in their custody and shall otherwise cooperate fully with the investigation.

The video recording shall be taken for the purpose of indicating the child's physical or mental condition at the time the report is investigated and shall be made available for future reference and for utilization as provided in this part.

This shall not prohibit the subpoenaing of a person reporting child sexual abuse when deemed necessary by the district attorney general or the department to protect a child who is the subject of a report; provided, that the fact that such person made the report is not disclosed. Any person who reports a case of child sexual abuse may, at the time the person makes the report, request that the department notify such person that a child protective investigation occurred as a result of the report. The court, administrative board or hearing officer may order any information disclosed in such proceeding to be placed and kept under seal and not to be open to public inspection to the extent it finds it necessary to protect the child. PART 7

TENNESSEE TEEN COURT PROGRAM OF 2000

37-1-701. Short title.

This part shall be known and may be cited as the "Tennessee Teen Court Program of 2000."

History.

Acts 2000, ch. 792, § 1.

37-1-702. Authority to establish teen court — Procedure for participation — Determining factors for participation — Authority of teen court.

(a) Any juvenile court judge is authorized to establish a teen court program pursuant to this part. In a jurisdiction in which there are multiple juvenile court judges, each judge may establish a teen court program. In any jurisdiction in which a teen court program is established, a teen charged with an offense specified under this part may receive a deferred judgment, a condition of which is successful completion of the teen court program. As a part of such program, the teen shall receive a disposition recommended by a five-member teen court and confirmed by the juvenile court judge. The teen court shall be held at a place to be determined by the local juvenile court judge.

(b) The procedure for the court to determine participation in the teen court is as follows:

(1) Pursuant to local, written procedures adopted by the juvenile court, participation in the teen court program may be initiated by an officer of the court under the informal adjustment or pretrial diversion process of § 37-1-110;

(2)(A) After the court places a child on judicial diversion or adjudicates a child delinquent or unruly pursuant to § 37-1-129, the court may direct that the disposition determination will be made by the teen court;

(B) When a juvenile court determines that a case is appropriate to be handled by the teen court, the teen shall be informed by the court of the procedures for teen court disposition and shall be given an opportunity to enter a waiver of rights to participate in a teen court disposition. The court shall inform the teen that if the teen enters a

waiver, including a waiver of any right for an attorney to be present during the dispositional stage, juvenile court proceedings shall be suspended for a period of six (6) months or such other time authorized by the local, written procedures of the juvenile court and a teen court may be empanelled to hear evidence on disposition; such teen court shall deliberate, and shall make a recommendation to the judge for disposition of the case, which may be confirmed by the juvenile court without further proceedings. If the teen elects to not enter a waiver, the judge shall proceed with the case as provided by law without referral to the teen court.

(c) In choosing cases to be referred to the teen court for disposition, the juvenile court shall determine that:

(1) The offense or attempted offense underlying the juvenile petition was one (1) of the following:

- (A) Assault, § 39-13-101;
- (B) Burglary, § 39-13-1002;

- (O) Violation of curfew, § 39-17-1702;
- (P) Unruly, § 37-1-102(b)(32);

(Q) Violation of any of the following sections of the Tennessee Drug Control Act, compiled in title 39, chapter 17, part 4:

(i) § 39-17-418(a) or (b), relative to simple possession or casual exchange of a controlled substance;

(ii) § 39-17-422(a) or (b), relative to smelling or inhaling fumes of any glue, paint, gasoline, aerosol, chlorofluorocarbon gas or other substance containing a solvent having the property of releasing toxic vapors or fumes, or possessing any glue containing a solvent having the property of releasing toxic vapors or fumes for the purpose of smelling or inhaling fumes or vapors;

(iii) § 39-17-426, relative to possession of gentryana lutea, also known as jimsonweed, on the premises or grounds of any school; or

(R) Any criminal offense, status offense, violation, infraction or other prohibited conduct involving the possession, use, sale or consumption of any alcoholic beverage, wine or beer; or

(S) A second or subsequent violation, within a one (1) year period, of § 39-17-1505, regarding possession, purchase or acceptance of tobacco products, or offering false or fraudulent proof of age for the purpose of purchasing or receiving any tobacco

product;

(2) The teen will benefit more from participation in the teen court and any disposition that may be recommended than from any other disposition that may be imposed;

(3) The teen, in the presence of at least one (1) of the teen's parents or guardian, has executed an informed waiver of rights, including any right to have an attorney present at the dispositional stage; and

(4) The particular case does not have any special circumstances, such as suspected mental illness or developmental disability of the teen, or special needs of the victim of the offense, that make the case inappropriate for referral to the teen court.

(d)(1) A teen court has the authority to conduct proceedings and to receive evidence and hear testimony related to the dispositional stage. The teen court shall consist of five (5) teen members chosen by the juvenile court as set out in § 37-1-704. The teen members shall choose a presiding officer who shall conduct the proceeding under the supervision of the juvenile court judge. After hearing all evidence and testimony, the teen court shall retire to deliberate and a written decision shall be written by the presiding officer.

(2) The written decision shall be transmitted to the juvenile court judge as a recommendation, together with all papers relating to the case. The written recommendation will specify a proposed disposition together with reasons therefor.

(3) Upon receipt of the recommendation, the judge shall review it, along with all papers relating to the case. The judge may accept, modify or reject the recommendation. If the judge accepts the recommendation as presented or modified, the judge shall confirm it by order. If the judge rejects the recommendation, the judge shall permit any additional hearing as may be necessary and shall enter an order as necessary.

(4) The juvenile court shall dismiss the petition or charges at the conclusion of the deferral period if the court determines that the teen has successfully completed the teen court program. If the teen fails to successfully complete the prescribed program, or if a new delinquent or unruly petition is filed against the teen during the deferral period, the petition under which the teen court disposition was ordered may be reinstated and the case may proceed as if the teen court disposition had never been entered.

37-1-703. Authority of teen court.

(a) The teen court has the authority, in a case referred by the juvenile court, to recommend disposition of the case as permitted by this part. The teen court shall have no authority to recommend transfer of temporary legal custody to any person or entity or to require placement or treatment in any specific program. If the teen court determines that such transfer of temporary legal custody or placement is the only appropriate remedy, the case shall be referred back to the juvenile court for further proceedings. The teen court may recommend:

(1) Restitution, as defined in § 37-1-102, and subject to the provisions of § 37-1-131(b);

(2) Performance of community service work, subject to the requirements of § 37-1-131(a)(7);

(5) Attendance at court-approved education workshops on subjects such as substance abuse, safe driving, or victim awareness, or any of these things;

(6) Curfew limitations;

(7) School attendance; and

The Tennessee Rules of Juvenile Procedure shall not apply. The juvenile court judge shall have the authority to appoint teens to serve as prosecuting and defense attorneys. It is further the legislative intent that the juvenile court shall have the flexibility to establish procedures, not inconsistent with this part, to assure fairness and equity and to protect the rights of all parties.

(b) Every juvenile court judge, whether or not such judge establishes a teen court, may hold juvenile court proceedings at a public high school or middle school in the county of the court's jurisdiction for at least one (1) day per year. Such court proceeding shall be publicized in cooperation with the local school authorities in a manner to encourage teen observation and, where appropriate, participation.

(c) Each participant in teen court proceedings has the same immunity provided by law for judicial proceedings.

(d) All records used in, or otherwise related to, teen court proceedings shall be confidential to the full extent provided by current law, except as necessary to permit functioning of the teen court. PART 8

PERMANENT GUARDIANSHIP

37-1-801. Power of the juvenile courts to appoint a permanent guardian.

The juvenile courts of Tennessee are empowered to appoint an individual a permanent guardian; provided, that the individual qualifies under the provisions of this part. The juvenile court may establish a permanent guardianship at a permanency planning hearing or at any other hearing in which a permanent legal disposition of the child can be made, including a child protection proceeding or a delinquency proceeding.

History.

Acts 2005, ch. 389, § 1.

37-1-802. Who may be appointed permanent guardian — Criteria for children and permanent guardian — Best interests determination.

(a) The court may consider any adult, including a relative, foster parent, or another adult with a significant relationship with the child as a permanent guardian. If the child is in the department's custody, the court shall seek the department's opinion on both the proposed permanent guardianship and the proposed permanent guardian. An agency or institution may not be a permanent guardian.

(b) The court may issue a permanent guardianship order only if the court finds that:

(1) The child has been previously adjudicated dependent and neglected, unruly or delinquent;

(2) The child has been living with the proposed permanent guardian for at least six (6) months;

(3) The permanent guardianship is in the child's best interests;

(4) Reunification of the parent and child is not in the child's best interests; and

(5) The proposed permanent guardian:

(A) Is emotionally, mentally, physically and financially suitable to become the permanent guardian;

(B) Is suitable and able to provide a safe and permanent home for the child;

(C) Has expressly committed to remain the permanent guardian for the duration of the child's minority;

(D) Has expressly demonstrated a clear understanding of the financial implications of becoming

a permanent guardian, including an understanding of any potential resulting loss of state or federal benefits or other assistance; and

(E) Will comply with all terms of any court order to provide the child's parent with visitation, contact or information.

(c) In determining whether it is in the child's best interests that a permanent guardian be designated, in addition to any other evidence the court finds relevant, the court shall consider each of the following factors:

(1) The child's need for continuity of care and caregivers, and for timely integration into a stable and permanent home, taking into account the differences in the development and the concept of time of children of different ages;

(2) The physical, mental, and emotional health of all individuals involved to the degree that each affects the welfare of the child, the decisive consideration being the physical, mental, and emotional needs of the child; and

(3) The quality of the interaction and interrelationship of the child with the child's parent, siblings, relatives, and caregivers, including the proposed permanent guardian.

(d) Appointment of a permanent guardian under this part is not limited to children in the custody of the department.

(e) If the child is twelve (12) years of age or older, the court shall consider the reasonable preference of the child. The court may hear the preference of a younger child. The preferences of older children should normally be given greater weight than those of younger children.

(f) The parent may voluntarily consent to the permanent guardianship, and shall demonstrate an understanding of the implications and obligations of such consent prior to the court entering an order establishing a permanent guardianship in accordance with the provisions of this part.

History.

Acts 2005, ch. 389, § 1.

37-1-803. Permanent guardianship not a termination of parent child relationship — Visitation, contact and sharing of information.

(a) Entry of a permanent guardianship order does not terminate the parent and child relationship, including:

(1) The right of the child to inherit from the child's parents;

(2) The parents' right to visit or contact the child, as defined by the court;

(3) The parents' right to consent to the child's adoption; and

(4) The parents' responsibility to provide financial, medical, and other support for the child.

(b) The permanent guardianship order shall specify the frequency and nature of visitation or contact or the sharing of information with parents and the child. The court shall issue an order regarding visitation, contact and the sharing of information based on the best

interests of the child. The order may restrict or prohibit visitation, contact and the sharing of information. The order may incorporate an agreement reached among the parties.

(1) Upon a showing by affidavit of immediate harm to the child, the court may temporarily stay, for a maximum of thirty (30) days, the order of visitation or contact, on an ex parte basis, until a hearing can be held. A modification of an order of visitation or contact shall be based upon a finding, by a preponderance of evidence, that there has been a substantial change in the material circumstances, and that the proposed modification is in the best interest of the child.

(2) Nothing in this part shall prevent removal of the child by the department from the permanent guardian, based upon allegations of abuse or neglect, pursuant to §§ 37-1-113 and 37-1-128.

History.

Acts 2005, ch. 389, § 1; 2006, ch. 802, § 1.

37-1-804. Custody — Rights and responsibilities of permanent guardian — Liability.

(a) The permanent guardian shall maintain physical custody of the child and shall have the following rights and responsibilities concerning the child:

(1) To protect, nurture, discipline, and educate the child;

(2) To provide food, clothing, shelter, and education as required by law, and necessary health care, including medical, dental and mental health, for the child;

(3) To consent to health care, without liability by reason of the consent for injury to the child resulting from the negligence or acts of third persons, unless a parent would have been liable in the circumstances;

(4) To authorize a release of health care and educational information;

(5) To authorize a release of information when consent of a parent is required by law, regulation, or policy;

(6) To consent to social and school activities of the child;

(7) To consent to military enlistment or marriage;

(8) To obtain representation for the child in legal actions;

(9) To determine the nature and extent of the child's contact with other persons;

(10) To make decisions regarding travel; and

(11) To manage the child's income and assets.

(b) The permanent guardian is not liable to third persons by reason of the relationship for acts of the child.

History.

Acts 2005, ch. 389, § 1.

37-1-805. Jurisdiction of court.

The court shall retain jurisdiction to enforce, modify, or terminate a permanent guardianship order until the child reaches eighteen (18) years of age, or the age of nineteen (19) for children adjudicated delinquent.

History.

Acts 2005, ch. 389, § 1.

37-1-806. Modification or termination.

(a) A modification or termination of the permanent guardianship may be requested by the permanent guardian, by the child if the child is sixteen (16) years of age or older, the parent, or by the state. A modification or termination may also be ordered by the juvenile court on its own initiative.

(b) Where the permanent guardianship is terminated by a juvenile court order, the court shall make further provisions for the permanent guardianship or custody of the child, based upon the best interests of the child.

(c) An order for modification or termination of the permanent guardianship shall be based on a finding, by a preponderance of the evidence, that there has been a substantial change in material circumstances, or a determination by the court that one (1) or more findings required by § 37-1-802(b) no longer can be supported by the evidence. In determining whether there has been a substantial change in circumstances, the court may consider whether the child's parent is currently able and willing to care for the child, or that the permanent guardian is unable to continue to care for the child.

(d) Prior to issuing an order modifying or terminating the order of permanent guardianship, the court shall also find that the proposed modification or termination is in the best interests of the child. In determining whether it is in the child's best interest that the permanent guardianship be modified or terminated, the court shall consider, along with other evidence determined to be relevant, the following factors:

(1) The child's need for continuity of care and caregivers, and for timely integration into a stable and permanent home, taking into account the differences in the development and the concept of time of children of different ages;

(2) The physical, mental, and emotional health of all individuals involved, to the degree that each affects the welfare of the child, the decisive consideration being the physical, mental, and emotional needs of the child; and

(3) The quality of the interaction and interrelationship of the child with the child's parent, siblings, relatives, and caregivers, including the proposed permanent guardian.

(e) Prior to modifying or terminating the permanent guardianship order to return the child to the parent, the court must consider whether there has been resolution of the factors in the home that resulted in the adjudication of the child as dependent and neglected, unruly, or delinquent. Where there has been involvement of the family with the department, consideration may include the parent's history of participation in working toward completion of the permanency plan.

(f) In the event that it is necessary to appoint a successor permanent guardian, appropriate parties may be considered by the court, with the parent having

no greater priority than a third party. The court may also consider, where appropriate, return of custody to the parent.

(g) If a child is in partial or permanent guardianship of the department pursuant to title 36, that guardianship may be transferred to a permanent guardian pursuant to this section with the consent of the guardian.

37-1-807. Monetary support of the child — How child claimed for tax purposes.

(a) Nothing under this part shall preclude the permanent guardian from receiving money paid for the child's support to the child's parent under the terms of any statutory benefit or insurance system or any private contract, settlement, agreement, court order, devise, trust, conservatorship, or custodianship, and money or property of the child.

(b) In the event the income and assets of the parent qualify the child for government benefits, the benefits may be conferred upon the child with the payment to be made to the permanent guardian. 37-1-902. Legislative intent — Goals of zero to three court programs.
[Effective until January 1, 2025.]

(a) The general assembly recognizes that a critical need exists in this state for child and family programs to reduce the incidence of child abuse, neglect, and endangerment, minimize the effects of childhood trauma on small children, and provide stability to parents and children within the state. It is the intent of the general assembly by this part to create an initiative to facilitate the implementation of new and the continuation of existing zero to three court programs.

(b) The goals of the zero to three court programs created under this part include the following:

(1) To reduce time to permanency of children thirty-six (36) months of age or younger by surrounding at-risk families with support services;

(2) To reduce incidences of repeat maltreatment among children thirty-six (36) months of age or younger;

(3) To reduce the long-term and short-term effects of traumatic experiences occurring when a child is thirty-six (36) months of age or younger on a child's brain development;

(4) To promote public safety through these reductions;

(5) To increase the personal, familial, and societal accountability of families; and

(6) To promote effective interaction and the use of resources among both public and private state and local child and family service agencies, state and local mental health agencies, and community agencies. It is the intent of the general assembly that in appropriate circumstances vetted, trained, and approved safe baby court volunteers be utilized to the fullest extent possible.

(c) As used in this part, "zero to three court program" and "safe baby court" means any court program created within this state that seeks to accomplish the goals stated in subsection (b) and that is established by a judge with jurisdiction over juvenile court matters. Except as provided in § 37-1-906, a safe baby court has the same powers as the court that created it.

PART 2**COUNTY DEPARTMENT OF CHILDREN'S

37-2-203. Appointment of director and other personnel.

The county mayor may, with the approval of the county legislative body, appoint a director and such other personnel as may be deemed necessary to provide efficient management of homes and institutions owned or operated by the county, and to assure that children in custody of such department receive the proper care and services. Each such director shall serve at the will and pleasure of the appointing authority.

Compiler's Notes.

Acts 2003, ch. 90, §2, directed the code commission to change all references from "county executive" to "county mayor" and to include all such changes in supplements and replacement volumes for the Tennessee Code Annotated.

37-2-204. Authority to establish and operate homes.

Counties and municipalities within this state are authorized and empowered to establish, erect, operate and maintain homes for the care and treatment of dependent and neglected, unruly and delinquent children, and to purchase services from any agency, public or private, that is authorized by law to receive or provide care or services for children.

History.

Acts 1979, ch. 143, § 4; T.C.A., § 37-404.

37-2-205. Commitment of dependent and neglected, delinquent or unruly children — Contracts for per diem allowance — Records — Minimum qualifications and standards.

(a) In addition to the dispositional alternatives provided by §§ 37-1-130 — 37-1-132, concerning dependent and neglected, delinquent or unruly children, the juvenile court judge of any county within the provisions of this part is hereby authorized and empowered to commit a child to the custody of such county department of children's services. Upon such commitment by the juvenile court judge, guardianship of the person of such child shall immediately transfer to the director of the county department.

(b) When any child is committed to a county department, the state, from available budgetary funds of any state department through which federal or other funds may be provided by law for the purchase of child care, may contract with the county department to pay a per diem allowance for each child so committed for the period of time each such child is in custody of the county department. The per diem allowance shall be determined by negotiation and contract between the county and state department through which such funds are available.

(c) The director of the county department shall keep or cause to be kept all records and reports required to be kept by a comparable state agency. Such records shall include the quarterly review of each child's treatment, rehabilitation and progress, and the procedures for such review prescribed by the director. Failure of the director to keep or maintain any such records and reports required to be kept by law shall relieve the state from its obligation to pay the county department the per diem allowance for any child upon whom inadequate records have been kept.

(d) The county department shall ensure that services provided to children in its care and facilities provided for that purpose shall meet all minimum qualifications and standards established by contract with the contracting department, but in no event shall such qualifications or standards be less stringent than those mandated by applicable state or federal law or regulation for the children in the care of the department. Failure to meet such qualifications and standards shall entitle the contracting department to withhold funds payable to the county pursuant to the contract. In all cases, the contracting state department shall have the authority to conduct such monitoring and inspection as may be necessary to enforce this provision.

(e) The department of children's services is authorized to enter into an agreement to pay a per diem allowance to a county for each delinquent child placed in a local facility for delinquent children operated under the direction of the court or other local public authority. As a condition of such payment, the agreement may require that the county pay to the department of children's services a per diem allowance in the same amount for each child committed from the county to the department of children's services. The per diem allowance shall be as agreed upon, but not less than seventy-five percent (75%) of the current actual cost of maintaining a child in a state correctional institution.

(f)(1)(A) In order to enhance communication between the department of children's services and juvenile court judges across the state, the department shall provide to the juvenile court judge(s) for each county a report which includes:

(i) The number of commitments to state custody for dependent and neglected children, unruly children, and delinquent children for the previous twelve-month period by county; and

(ii) The statewide average commitment rate per thousand youth based on the latest county population data as provided by the department

of health.

(B) The report shall be provided to judges on a semiannual basis and shall also be made available on the department's web site.

(2) The department may initiate a collaborative planning process at the time a county's commitment rate is believed to be likely to exceed two hundred percent (200%) of the statewide average commitment rate. Upon request of the court, the department shall partner with the court to develop and implement strategies to address any factors contributing to higher commitment rates in such county.

(3) On or before January 31 of each year, the department of children's services shall provide to the judiciary committee of the senate and the civil justice committee of the house of representatives a report of county commitment data for the previous fiscal year and a description of actions taken as part of the collaborative planning process. The report shall be published as part of the department's annual report required by § 37-5-105(4).

PART 4

FOSTER CARE

37-2-401. Legislative intent — Construction of part.

(a) The primary purpose of this part is to protect children from unnecessary separation from parents who will give them good homes and loving care, to protect them from needless prolonged placement in foster care and the uncertainty it provides, and to provide them a reasonable assurance that, if an early return to the care of their parents is not possible, they will be placed in a permanent home at an early date.

(b) The secondary purpose of this part is to provide a mechanism to monitor the care of children in foster care to ensure that everything reasonably possible is being done to achieve a permanent plan for the child.

(c) When a parent by such parent's actions or failure to act fails to fulfill such parent's responsibilities as a parent, the court shall consider such conduct in determining whether to terminate parental rights, regardless of whether the parent intended such parent's conduct to constitute a relinquishment or forfeiture of such parent's parental rights. When the interests of a child and those of an adult are in conflict, such conflict is to be resolved in favor of a child, and to these ends this part shall be liberally construed.

(d) The department of children's services shall strive to identify and finalize a safe, stable, and permanent home for children in the custody of the department.

History.

Acts 1976, ch. 731, § 1; 1982, ch. 811, § 1; 1983, ch. 438, §§ 1-6; T.C.A., § 37-1501(a); Acts 2023, ch. 187, § 10.

37-2-402. Part definitions.

As used in this part, unless the context otherwise requires:

(1)(A) "Abandonment" for purposes of terminating the parental or guardian rights of a parent or a guardian of a child to that child in order to make that child available for adoption, has the same meaning as defined in § 36-1-102;

(B) For purposes of this subdivision (1), "token support" means that the support, under the circumstances of the individual case, is insignificant given the parent's means;

(C) For purposes of this subdivision (1), "token visitation" means that the visitation, under the circumstances of the individual case, constitutes nothing more than perfunctory visitation or visitation of such an infrequent nature or of such short duration as to merely establish minimal or insubstantial contact with the child;

(D) For purposes of this subdivision (1), "willfully failed to support" or "willfully failed to make reasonable payments toward such child's support" means that, for a period of four (4) consecutive months, no monetary support was paid or that the amount of support paid is token support;

(E) For purposes of this subdivision (1), "willfully failed to visit" means the willful failure, for a period of four (4) consecutive months, to visit or engage in more than token visitation;

(F) Abandonment may not be repented of by resuming visitation or support subsequent to the filing of any petition seeking to terminate parental or guardianship rights or seeking the adoption of a child; and

(G) "Abandonment" and "abandonment of infant" do not have any other definition except that which is set forth herein, it being the intent of the general assembly to establish the only grounds for abandonment by statutory definition. Specifically, it shall not be required that a parent be shown to have evinced a settled purpose to forego all parental rights and responsibilities in order for a determination of abandonment to be made. Decisions of any court to the contrary are hereby legislatively overruled;

(2) "Abandonment of an infant" means, for purposes of terminating parental or guardian rights, "abandonment" of a child under one (1) year of age;

(3) "Agency" means a child care agency, as defined in title 71, chapter 3, part 5, or in chapter 5, part 5 of this title, regardless of whether such agency is licensed or approved, and includes the department of children's services;

(4) "Board" means an advisory review board appointed by a juvenile court judge, juvenile court judges, or the department of children's services as provided in this part;

(5) "Court" means the juvenile court having jurisdiction over the person of the child, or, if no juvenile court has jurisdiction over the child, then the juvenile court in the county in which the child resides;

(6) "Date of foster care placement" means the original date on which the child is physically placed in foster care;

(7) "Judge" means a juvenile judge or the judge having jurisdiction over the person of the child;

(8) "Parent" means the natural parent or legal guardian, except in cases when guardianship is held by an agency pursuant to a determination of abandonment or surrender of parental rights;

(9) "Plan" or "permanency plan" means a written plan for a child placed in foster care with the department of children's services or in the care of an agency as defined in subdivision (3) and as provided in

§ 37-2-403; and

(10) “Report” means a written report by an advisory review board as provided in § 37-2-406 or by the department of children’s services or by an agency having custody of a child as provided in § 37-2-404.

The eighteen (18) month time period set out in § 37-1-102(b)(12)(J) shall not commence until July 1, 2009.

37-2-403. Contents of permanency plan — Statement of responsibilities — Collection of information on biological parents.

(a)(1)(A) Within thirty (30) days of the date of foster care placement, an agency shall prepare a plan for each child in its foster care. Such plan shall include a goal for each child of:

- (i) Return of the child to parent;
- (ii) Permanent placement of the child with a fit and willing relative or relatives of the child;
- (iii) Adoption, giving appropriate consideration to § 36-1-115(g) when applicable;
- (iv) Permanent guardianship; or
- (v) A planned permanent living arrangement.

(B) Such plans are subject to modification and shall be reevaluated and updated at least annually, except when a long-term agreement has been made in accordance with this part.

(2)(A) The permanency plan for any child in foster care shall include a statement of responsibilities between the parents, the agency and the caseworker of such agency. Such statements shall include the responsibilities of each party in specific terms and shall be reasonably related to the achievement of the goal specified in subdivision (a)(1). The statement shall include the definitions of “abandonment” and “abandonment of an infant” contained in § 36-1-102 and the criteria and procedures for termination of parental rights. Each party shall sign the statement and be given a copy of it. The court must review the proposed plan, make any necessary modifications and ratify or approve the plan within sixty (60) days of the foster care placement. The department of children’s services shall, by rules promulgated pursuant to the Uniform Administrative Procedures Act, compiled in title 4, chapter 5, part 2, determine the required elements or contents of the permanency plan.

(B)(i) The parents or legal guardians of the child shall receive notice to appear at the court review of the permanency plan and the court shall explain on the record the law relating to aban-

donment contained in § 36-1-102, and shall explain that the consequences of failure to visit or support the child will be termination of the parents’ or guardians’ rights to the child, and the court will further explain that the parents or guardians may seek an attorney to represent the parents or guardians in any termination proceeding. If the parents or legal guardians are not at the hearing to review the permanency plan, the court shall explain to the parents or guardians at any subsequent hearing regarding the child held thereafter, that the consequences of failure to visit or support the child will be termination of the parents’ or guardians’ rights to the child and that they may seek an attorney to represent the parents or guardians in a termination proceeding.

(ii) If the parents or guardians of the child cannot be given notice to appear at the court review of the permanency plan, or if they refuse or fail to appear at the court review of the permanency plan, or cannot be found to provide notice for the court review of the permanency plan, any agency that holds custody of the child in foster care or in any other type of care and that seeks to terminate parental or guardian rights based upon abandonment of that child under § 36-1-102, shall not be precluded from proceeding with the termination based upon the grounds of abandonment, if the agency demonstrates at the time of the termination proceeding:

(a) That the court record shows, or the petitioning party presents to the court a copy of the permanency plan that shows that the defendant parents or legal guardians, subsequent to the court review in subdivision (a)(2)(B)(i), has signed the portion of the permanency plan that describes the criteria for establishing abandonment under § 36-1-102, or that the court record shows that, at a subsequent hearing regarding the child, the court made the statements to the parents or legal guardians required by subdivision (a)(2)(B)(i);

(b) By an affidavit, that the child’s permanency plan containing language that describes the criteria for establishing abandonment under § 36-1-102 was presented by the agency party to the parents or guardians at any time prior to filing the termination petition, or that there was an attempt at any time to present the plan that describes the criteria for establishing abandonment under § 36-1-102 to the parents or guardians at any time by the agency party, and that such attempt was refused by the parents or guardians; and

(c) That, if the court record does not contain a signed copy of the permanency plan, or if the petitioning agency cannot present evidence of a permanency plan showing evidence of such notice having been given or an affidavit show-

ing that the plan was given or that the plan was attempted to be given to the parents or guardians by the agency and was refused by the parents or guardians, and, in this circumstance, if there is no other court record of the explanation by the court of the consequences of abandonment and the right to seek an attorney at any time, then the petitioning agency shall file with the court an affidavit in the termination proceeding that describes in detail the party's diligent efforts to bring such notice required by subdivision (a)(2)(B)(i) to such parent or guardian at any time prior to filing the agency's filing of the termination petition.

(C) Substantial noncompliance by the parent with the statement of responsibilities provides grounds for the termination of parental rights, notwithstanding other statutory provisions for termination of parental rights, and notwithstanding the failure of the parent to sign or to agree to such statement if the court finds the parent was informed of its contents, and that the requirements of the statement are reasonable and are related to remedying the conditions that necessitate foster care placement. The permanency plan shall not require the parent to obtain employment if such parent has sufficient resources from other means to care for the child, and shall not require the parent to provide the child with the child's own bedroom unless specific safety or medical reasons exist that would make bedroom placement of the child with another child unsafe.

(3) At any hearing in which a court orders a child to be placed in foster care, the judge shall determine whether a permanency plan has been prepared and whether the statement of responsibilities has been agreed upon by the parties. If a statement has been agreed upon by the parties, the court shall review it and approve it if the court finds it to be in the best interest of the child. If a plan had not been prepared or parties have not agreed to a statement of responsibilities, the court may continue the hearing for such time, not to exceed thirty (30) days, as may be necessary to give the parties an opportunity to attempt to agree on a suitable plan, which may then be approved by the court without a further hearing if the court finds the plan to be in the best interest of the child, but no longer than sixty (60) days after the foster care placement, except as provided in § 37-1-166.

(4)(A) If the parties are unable to agree on a statement of responsibilities during this period of time, the court shall hold a further informal hearing to decide on a statement of responsibilities. At such hearing, all relevant evidence, including oral and written reports, may be received by the court and relied upon to the extent of its probative value. The parties or their counsel shall be afforded an opportunity to examine and controvert written reports so received and to cross-examine individuals making the reports.

(B) In determining the terms of the statement, the court shall, insofar as possible, in accordance with the best interest of the child, seek to:

- (i) Return the child to the parent;
- (ii) Permanently place the child with a fit and willing relative or relatives of the child;
- (iii) Pursue adoptive placement;
- (iv) Pursue permanent guardianship; or
- (v) Provide a planned permanent living arrangement for the child.

(C) The court shall take such action as may be necessary to develop and approve a plan that it finds to be in the best interest of the child. The plan shall be approved within sixty (60) days of the foster care placement, except as provided in § 37-1-166.

(5) In cases involving child abuse or child neglect, with such child being placed in foster care, the statement of responsibilities shall stipulate that the abusing or neglecting parent shall receive appropriate rehabilitation assistance through mental health consultation if so ordered by the court. The agency preparing the plan and the court, in developing or approving a plan, shall consider whether the allegations of abuse or neglect warrant supervision of any visitation between the child and the abusing or neglecting parent and whether it is in the best interest of the child that the plan require supervised visitation between the child and the abusing or neglecting parent.

(6) The plan for a child who remains in foster care for one (1) year may be modified to a long-term agreement between a foster parent and the agency charged with the caring and custody of the child. Such agreements with foster parents shall include:

- (A) Appropriate arrangements for the child; and
- (B) Procedures for the termination of the agreement by either party when in the best interests of the child. When the department of children's services is a party to the agreement, such agreement must include provisions permitting variation in monetary allowances from fiscal year to fiscal year depending upon appropriations by the general assembly.

(b)(1) In lieu of the provisions of subsection (a), in the event a child is in foster care as a result of a surrender or termination of parental rights, the agency having guardianship of the child shall prepare and submit to the foster care advisory review board or court in the county in which the child is in foster care a plan for each such child.

(2) Such plan shall include a goal for each child of:

- (A) Permanent placement of the child with a fit and willing relative or relatives of the child;
- (B) Adoption, giving appropriate consideration to § 36-1-115(g) when applicable;
- (C) Permanent guardianship; or
- (D) A planned permanent living arrangement.

(3) Specific reasons must be included in the plan for any goal other than placement of the child with a relative of the child or adoption. Such plan shall also include a statement of specific responsibilities of the agency and the caseworker of such agency designed

to achieve the stated goal.

(4) A foster parent or kinship caregiver with whom a child has resided for six (6) months or more is a person who has a significant relationship with the child. Absent evidence to the contrary, the department, foster care advisory review board, or court may presume that continuation of the child's placement with, or adoption by, the child's current caregivers is in the child's best interests.

(c) The statement of responsibilities on a permanency plan that is ordered by the court shall empower the state agency to select any specific residential or treatment placement or programs for the child according to the determination made by that state agency, its employees, agents or contractors.

(d) Whenever a child is removed from such child's home and placed in the department's custody, the department shall seek to place the child with a fit and willing relative if such placement provides for the safety and is in the best interest of the child. Notwithstanding any provision of this section or any other law to the contrary, whenever return of a child to such child's parent is determined not to be in the best interest of the child, then such relative with whom the child has been placed shall be given priority for permanent placement or adoption of the child prior to pursuing adoptive placement of such child with a non-relative.

(e) In addition to completing the permanency plan, within thirty (30) days of the date of foster care placement, the placement agency shall collect as much information as possible in order to complete a medical and social history on the child and the child's biological family on the form promulgated by the department pursuant to § 36-1-111(j).

(f) Within twelve (12) months of a child entering state custody, the department shall review the child's case to determine, in the department's discretion, if reunification with family is feasible, and if not, whether to pursue termination of parental rights.

(g) The caseworker for a child who has been placed in foster care shall document any objection to the child's placement with a relative that is made by another relative or other interested party.

(a) In addition to the plan required in § 37-2-403, the department or agency shall submit to the appropriate court or foster care review board a report for each child in its foster care on progress made in achieving the goals set out in the plan. Such reports shall be prepared

by the department or agency having custody of the child within ninety (90) days of the date of foster care placement and no less frequently than every six (6) months thereafter for so long as the child remains in foster care. At the time the progress report is provided to the court or foster care review board, the department or agency shall also provide a copy of the report to the child's parent(s) whose rights have not been terminated or surrendered, the parent's attorney, the guardian ad litem and/or attorney for the child, and the child who is a party to the proceeding.

(b) Within ninety (90) days of the date of foster care placement and no less often than every six (6) months thereafter for so long as the child remains in foster care, the court or foster care review board shall review the plan for each child in foster care. Notice of this review and the right to attend and participate in the review shall be provided to the child's parent(s) whose rights have not been terminated or surrendered, the parent's attorney, the guardian ad litem and/or attorney for the child, foster parents, prospective adoptive parent, relative providing care for the child and the child who is a party to the proceeding. The department and the court shall develop adequate procedures to provide notice of the review to the aforementioned persons. The court or board shall review the safety, permanency and wellbeing of the child by assessing the necessity and appropriateness of continued foster care placement, the appropriateness of services for the child, the compliance of all parties to the statement of responsibilities, the extent of progress in alleviating or mitigating the causes necessitating placement in foster care and in achieving the goals contained in the permanency plan, and project a likely date on which the goal of the plan will be achieved.

37-2-406. Foster care review boards — Request by judges for recommendations in making appointments — Composition — Option for judges to review cases.

(a)(1) One (1) or more foster care review boards are hereby established in each county or in a region comprised of contiguous counties, the members being appointed by the judge or judges having juvenile court jurisdiction in such county or region by their mutual agreement. The judge or judges may appoint more than one (1) board and divide the workload in an equitable manner.

(2) The judge or judges may request recommendations from the administrative office of the courts or the department of children's services in making appointments to the foster care review board. Each board may include a nurse, a doctor, a lawyer, a member of a human resource agency, such as the departments of health or human services, a member of a local education agency, a staff member of a local mental health agency, a youth who was formerly in foster care and shall include a mother or father with a minor child and a person under the age of thirty (30). The members appointed to the board shall serve for two (2) years and shall serve without any form of compensation or reimbursement of expenses. The youth services officer or other designated officer of the court shall serve as a facilitator to each county or regional board. In counties with a population of less than one hundred thousand (100,000), the board shall consist of five (5) members. In counties with a population of more than one hundred thousand (100,000), and in regions, each board shall consist of seven (7) members. A quorum must exist to conduct the review.

(3) In lieu of the provisions of subdivisions (a)(1) and (2), the judge having juvenile court jurisdiction in any county may elect to personally review each case and, therefore, not appoint a foster care review board or to personally review certain cases instead of assigning them to the board for review even though a board is appointed. In the event the judge elects not to appoint a board, the judge shall specify by written order of the court duly entered on the record the guidelines and procedures the judge will use to ensure that the judge conducts the reviews required by this part for every child in foster care under the jurisdiction of the judge's court within ninety (90) days of the child's date of foster care and no less frequently than every six (6) months thereafter until such time as the child is no longer in foster care. A copy of this order shall be furnished to the county director of the department and to the commission on children and youth. The court may elect at any time to rescind this order and appoint a board pursuant to

subdivisions (a)(1) and (2).

(4) All board members shall be required to participate in the training related to the performance of their duties.

(5) Nothing in this section shall preclude the court from reviewing a case, in lieu of the foster care review board, on either a motion by any party or on the court's own motion.

(b) It is the responsibility of the foster care review board or court to conduct the reviews specified in subsection (a). The board and the department shall develop adequate procedures to ensure that the case of each child in foster care is reviewed no less frequently than ninety (90) days after placement in foster care and every six (6) months thereafter; provided, that whenever a judicial hearing that addresses the issues specified in § 37-2-404 is held within six (6) months of a review, the next review may be held within six (6) months of the judicial hearing instead of within six (6) months of the previous review, except for the first hearing held within ninety (90) days of the foster care placement.

(c)(1) The foster care review board shall submit a report to the judge on each child reviewed. Such report shall be submitted to the judge within ten (10) calendar days following the review conducted by the board. Such reports are advisory and shall contain the board's findings and recommendations pursuant to the provisions of § 37-2-404(b). The report shall include the date of the next review. A copy of the report shall be provided to the department or agency and to the child's parent(s) whose rights have not been terminated or surrendered, the parent's attorney, the guardian ad litem and/or attorney for the child, and the child who is a party to the proceeding.

(2) The foster care review board may also make a direct referral to the judge or magistrate with such findings and recommendations under the following circumstances and timeframes:

(A) Where conditions persist that constitute a deterrent to reaching the permanency goals in a given case and such conditions indirectly and chronically compromise the health, safety or welfare of the child, such direct referral case shall be heard by the judge or magistrate within thirty (30) calendar days; or

(B) Where issues in a particular case constitute a risk of harm and directly compromise the health, safety or welfare of the child, such direct referral case shall be heard by the judge or magistrate within seventy-two (72) hours, excluding non-judicial days.

37-2-408. Confidentiality of plans and records.

(a) All records, reports, permanency plans, reviews and reports of the foster care review boards or any material prepared in connection with the planning, placement or care of a child in the care or custody of the department of children's services or in foster care with any agency or person pursuant to this part, shall be confidential and shall not be a public record and shall be disclosed only for the purposes directly related to the administration of this part, or as permitted pursuant to the provisions of § 37-1-409 or § 37-1-612, or as otherwise determined by the department of children's services to be reasonably necessary or reasonably required and as directly related to the provision of any services needed by the child.

(b) A violation of this section is a Class B misdemeanor.

History.

37-2-409. Permanency hearings.

(a)(1) In addition to the other requirements of this part, the judge or magistrate shall hold a hearing within twelve (12) months of the date of foster care placement for each child in foster care. As long as a child remains in foster care, subsequent permanency hearings conducted pursuant to subsection (b) shall be held no less frequently than every twelve (12) months from the date of the previous permanency hearing for each child, or as otherwise required by federal regulations and notwithstanding subdivision (b)(4).

(2) The child shall be present for the permanency hearing. The court shall confer with the child, who is able to communicate, in an age appropriate manner regarding the child's views on the provisions of the permanency plan developed for the child. For all children, absent or present, evidence shall be presented as to the child's progress and needed services. The only exceptions to the child's mandatory attendance shall be a child who is under a doctor's care preventing the child from attending, is placed outside the state or is on documented runaway status. In such event, the court shall require the guardian ad litem, case manager for the department or other case manager of the child to attest that the child participated in the development of the permanency plan or has been counseled on the provisions of the permanency plan, if age appropriate. In the child's absence, evidence shall be presented as to the child's progress

and needed services. To the extent practicable, the court shall schedule such hearings at times intended to be minimally disruptive to daily activities of the child.

(b)(1) In an effort to achieve early permanency, the purpose of these permanency hearings shall be to review the permanency plan and goals for the child. The hearings and plan shall address which goals continue to be appropriate for the child in order to achieve permanent placement and shall include a timeline for achieving each goal. Possible goals include:

- (A) Return of the child to parent;
- (B) Permanent placement with a fit and willing relative or relatives;
- (C) Adoption, giving appropriate consideration to § 36-1-115(g) when applicable;
- (D) Permanent guardianship; or
- (E) Planned permanent living arrangement.

(2) Placement in another planned permanent living arrangement shall only be appropriate in cases where the state agency has documented a compelling reason for determining that the other goals would not be in the best interests of the child because of the child's special needs or circumstances.

(3) The purpose of these permanency hearings shall also be to determine the extent of compliance of all parties with the terms of the permanency plan, and the extent of progress in achieving the goals of the plan.

(4) In the case of a child who has reached sixteen (16) years of age, the court shall review and ratify an independent living plan for the child. At the hearing for a child who has reached seventeen (17) years of age, the court shall ensure, and the record shall reflect, that the child has notice of and understands the child's opportunity to receive, if eligible, all available voluntary post-custody services from the department by having the department present evidence regarding services that are available to the child beginning at eighteen (18) years of age. Three (3) months prior to the planned release of a child at seventeen (17) years of age or older, a permanency hearing shall be held for the purposes of reviewing the child's transition plan to independent living.

(5) At this hearing, all evidence that would be admissible at a permanency hearing pursuant to § 37-1-129 shall be admissible. In the event the court finds that any party has not complied with the terms of the permanency plan for the child, it may, consistent with §§ 37-1-129(c) and 37-2-403(c), issue such orders as may be appropriate to enforce compliance. Parental rights may not be terminated, except in accordance with a petition filed for that purpose and filed pursuant to title 36, chapter 1, part 1 or this part.

(c) If a hearing is held concerning a child in the juvenile court, or any other court, on a custody petition, petition to terminate parental rights, or for any other reason that addresses the issues in subsection (b), this hearing shall satisfy the requirement for a hearing for that child. If a hearing is not otherwise scheduled, the

court shall automatically schedule a hearing for each child in foster care in a timely fashion to ensure that the hearing is held within the time provided in subsection (a).

(d) This section shall not be construed to prevent a judge from holding hearings more frequently if the judge deems it necessary.

(1) "Department" means the department of children's services; and

(2) "Foster parent" means any person with whom a child in the care, custody or guardianship of the department is placed for temporary or long-term care, but shall not include any persons with whom a child is placed for the purpose of adoption.

(b)(1) There is established a "Kinship Foster Care Program" in the department.

(2) When a child has been removed from such child's home and is in the care, custody or guardianship of the department, the department shall attempt to place the child with a relative for kinship foster care. The department shall prioritize efforts to locate an appropriate kinship foster care placement for the child for at least thirty (30) days following removal from the child's home. If the relative is approved by the department to provide foster care services, in accordance with rules and regulations adopted by the department regarding foster care services, and a placement with the relative is made, the relative may receive payment for the full foster care rate for the care of the child and any other benefits that might be available to foster parents, whether in money or in services.

(3) The department shall establish, in accordance with the provisions of this section, eligibility standards for becoming a kinship foster parent.

(A) Relatives within the first, second or third degree to the parent or stepparent of a child who may be related through blood, marriage or adoption may be eligible for approval as a kinship foster parent.

(B) The kinship foster parent shall be twenty-one (21) years of age or older, except that if the spouse or partner of the relative is twenty-one (21) years of age or older and living in the home, and the relative is between eighteen (18) and twenty-one (21) years of age, the department may waive the age requirement.

the investigation results and shall use the results only for purposes of determining a person's eligibility to become a kinship foster parent; and

(iv) It is unlawful, except for the purpose of determining a person's eligibility for kinship foster care, for any person to disclose information obtained under this subdivision (b)(3)(C). Any person violating this section commits a Class A misdemeanor.

The child's other natural or adoptive parent is not eligible for the kinship foster care program or any payments for kinship foster care under the program.

(e)(1) Except when placement is in the best interest of the child, the department shall not place a child with, or allow a child to remain in the home of, a kinship foster parent if the kinship foster parent shares a residence with the child's parent who has had parental rights to the child terminated.

(2)(A) The department of children's services shall notify the appropriate court when the department

has knowledge that a foster parent from a kinship placement violated a court order by allowing a child to visit the child's parent within ninety-six (96) hours of the department's knowledge of the information.

(B)(i) It is an offense for a foster parent from a kinship placement to knowingly allow a child in the foster parent's care to visit with the child's parent if the foster parent had knowledge of a current court order prohibiting the parent from visiting with the child.

A foster parent who has served as the physical placement for the child for a period of nine (9) months or more shall be permitted to appear and actively participate in any permanency hearing or dispositional hearing for that child with regard to the best interests of the child;

Nothing contained in this subdivision (a)(23) shall be construed to abrogate the provisions of chapter 1 of

this title, regarding procedures for investigations of child abuse and neglect and child sexual abuse by the department of children's services and law enforcement agencies;

The commission shall have all the responsibilities, powers and duties set forth herein, and such additional powers as may be conferred upon it by subsequent action of the respective legislatures of the compacting states in accordance with the terms of this compact.

B. The interstate commission shall consist of commissioners appointed by the appropriate appointing authority in each state pursuant to the rules and requirements of each compacting state and in consultation with the state council for interstate juvenile supervision created hereunder. The commissioner shall be the compact administrator, deputy compact administrator or designee from that state who shall serve on the interstate commission in such capacity under or pursuant to the applicable law of the compacting state.

C. In addition to the commissioners who are the voting representatives of each state, the interstate commission shall include individuals who are not commissioners, but who are members of interested organizations. Such non-commissioner members must include a member of the national organizations of governors, legislators, state chief justices, attorneys general, Interstate Compact for Supervision of Adult Offenders, compiled in title 40, chapter 28, part 4, Interstate Compact on the Placement of Children, compiled in part 2 of this chapter, juvenile justice and juvenile corrections officials, and crime victims. All non-commissioner members of the interstate commission shall be ex-officio (non-voting) members. The interstate commission may provide in its bylaws for such additional ex-officio (non-voting) members, including members of other national organizations, in such numbers as shall be determined by the commission.

executive director and interstate commission staff; administer enforcement and compliance with the provisions of the compact, its bylaws and rules, and perform such other duties as directed by the interstate commission or set forth in the bylaws.

Each member of the interstate commission shall have the right and power to cast a vote to which that compacting state is entitled and to participate in the business and affairs of the interstate commission. A member shall vote in person and shall not delegate a vote to another compacting state. However, a commissioner, in consultation with the state council, shall appoint another authorized representative, in the absence of the commissioner from that state, to cast a vote on behalf of the compacting state at a specified meeting. The bylaws may provide for members' participation in meetings by telephone or other means of telecommunication or electronic communication.

8. Disclose information, the premature disclosure of which would significantly endanger the stability of a regulated person or entity; or
9. Specifically relate to the interstate commission's issuance of a subpoena, or its participation in a civil action or other legal proceeding.

J. For every meeting closed pursuant to this provision, the interstate commission's legal counsel shall publicly certify that, in the legal counsel's opinion, the meeting may be closed to the public, and shall

reference each relevant exemptive provision. The interstate commission shall keep minutes which shall fully and clearly describe all matters discussed in any meeting and shall provide a full and accurate summary of any actions taken, and the reasons therefore, including a description of each of the views expressed on any item and the record of any roll call vote (reflected in the vote of each member on the question). All documents considered in connection with any action shall be identified in such minutes.

K. The interstate commission shall collect standardized data concerning the interstate movement of juveniles as directed through its rules which shall specify the data to be collected, the means of collection and data exchange and reporting requirements. Such methods of data collection, exchange and reporting shall insofar as is reasonably possible conform to up-to-date technology and coordinate its information functions with the appropriate repository of records.

Article IV. Powers and Duties of the Interstate Commission.

The commission shall have the following powers and duties:

1. To provide for dispute resolution among compacting states;
2. To promulgate rules to effect the purposes and obligations as enumerated in this compact, which shall have the force and effect of statutory law and shall be binding in the compacting states to the extent and in the manner provided in this compact;

Section C. Qualified Immunity, Defense and Indemnification.

1. The commission's executive director and employees shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to any actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided, that any such person shall not be protected from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of any such person.

2. The liability of any commissioner, or the employee or agent of a commissioner, acting within the scope of such person's employment or duties for acts, errors, or omissions occurring within such person's state may not exceed the limits of liability set forth under the Constitution and laws of that state for state officials, employees, and agents. 3. The interstate commission shall defend the executive director or the employees or representatives of the interstate commission and, subject to the approval of the attorney general of the state

All rules and amendments shall become binding as of the date specified, as published with the final version of the rule as approved by the commission.

2. Allow and invite any and all persons to submit written data, facts, opinions and arguments, which information shall be added to the record, and be made publicly available;

3. Provide an opportunity for an informal hearing if petitioned by ten (10) or more persons; and

4. Promulgate a final rule and its effective date, if appropriate, based on input from state or local officials, or interested parties.

D. Allow, not later than sixty (60) days after a rule is promulgated, any interested person to file a petition in the United States district court for the District of Columbia or in the federal district court where the interstate commission's principal office is located for judicial review of such rule. If the court finds that the interstate commission's action is not supported by substantial evidence in the rulemaking record, the court shall hold the rule unlawful and set it aside. For purposes of this subsection, evidence is substantial if it would be considered substantial evidence under the Model State Administrative Procedures Act.

E. If a majority of the legislatures of the compacting states rejects a rule, those states may, by enactment of a statute or resolution in the same manner used to adopt the compact, cause that such rule shall have no further force and effect in any compacting state.

F. The existing rules governing the operation of the Interstate Compact on Juveniles superseded by this act shall be null and void twelve (12) months after the first meeting of the interstate commission created hereunder.

G. Upon determination by the interstate commission that a state of emergency exists, it may promulgate an emergency rule which shall become effective immediately upon adoption; provided, that the usual rulemaking procedures provided hereunder shall be retroactively applied to said rule as soon as reasonably possible, but no later than ninety (90) days after the effective date of the emergency rule.

Each member state shall create a state council for interstate juvenile supervision. While each state may determine the membership of its own state council, its membership must include at least one representative from the legislative, judicial, and executive branches of

government, victims groups, and the compact administrator, deputy compact administrator or designee. Each compacting state retains the right to determine the qualifications of the compact administrator or deputy compact administrator. The initial effective date shall be the later of July 1, 2004, or upon enactment into law by the thirty-fifth jurisdiction. Thereafter it shall become effective and binding as to any other compacting state upon enactment of the compact into law by that state. The governors of non-member states or their designees shall be invited to participate in the activities of the interstate commission on a nonvoting basis prior to adoption of the compact by all states and territories of the United States.

C. The interstate commission may propose amendments to the compact for enactment by the compacting states. No amendment shall become effective and binding upon the interstate commission and the compacting states unless and until it is enacted into law by unanimous consent of the compacting states.

Article XI. Withdrawal, Default, Termination and Judicial Enforcement.

Sec.

- A. Withdrawal.
- B. Technical Assistance, Fines, Suspension, Termination and Default.
- C. Judicial Enforcement.
- D. Dissolution of Compact.

Section A. Withdrawal.

1. Once effective, the compact shall continue in force and remain binding upon each and every compacting state; provided, that a compacting state may withdraw from the compact by specifically repealing the statute which enacted the compact into law.

2. The effective date of withdrawal is the effective date of the repeal.

3. The withdrawing state shall immediately notify the chair of the interstate commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The interstate commission shall

notify the other compacting states of the withdrawing state's intent to withdraw within sixty (60) days of its receipt thereof.

5. Reinstatement following withdrawal of any compacting state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the interstate commission.

Section B. Technical Assistance, Fines, Suspension, Termination and Default.

1. If the interstate commission determines that any compacting state has at any time defaulted in the performance of any of its obligations or responsibilities under this compact, or the bylaws or duly promulgated rules, the interstate commission may impose any or all of the following penalties:

- a. Remedial training and technical assistance as directed by the interstate commission;
- b. Alternative dispute resolution;
- c. Fines, fees, and costs in such amounts as are deemed to be reasonable as fixed by the interstate commission; and

d. Suspension or termination of membership in the compact, which shall be imposed only after all other reasonable means of securing compliance under the bylaws and rules have been exhausted and the interstate commission has therefore determined that the offending state is in default. Immediate notice of suspension shall be given by the interstate commission to the governor, the chief justice or the chief judicial officer of the state, the majority and minority leaders of the defaulting state's legislature, and the state council. The grounds for default include, but are not limited to, failure of a compacting state to perform such obligations or responsibilities imposed upon it by this compact, the bylaws, or duly promulgated rules and any other grounds designated in commission bylaws and rules. The interstate commission shall immediately notify the defaulting state in writing of the penalty imposed by the interstate commission and of the default pending a cure of the default. The commission shall stipulate the conditions and the time period within which the defaulting state must cure its default. If the defaulting state fails to cure the default within the time period specified by the commission, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the compacting states and all rights, privileges and benefits conferred by this compact shall be terminated from the effective date of termination.

2. Within sixty (60) days of the effective date of termination of a defaulting state, the commission shall notify the governor, the chief justice or chief judicial officer, the majority and minority leaders of the defaulting state's legislature, and the state council of such termination.

3. The defaulting state is responsible for all assessments, obligations and liabilities incurred

through the effective date of termination including any obligations, the performance of which extends beyond the effective date of termination.

4. The interstate commission shall not bear any costs relating to the defaulting state unless otherwise mutually agreed upon in writing between the interstate commission and the defaulting state.

5. Reinstatement following termination of any compacting state requires both a reenactment of the compact by the defaulting state and the approval of the interstate commission pursuant to the rules.

Section C. Judicial Enforcement.

The interstate commission may, by majority vote of the members, initiate legal action in the United States district court for the District of Columbia or, at the discretion of the interstate commission, in the federal district where the interstate commission has its offices, to enforce compliance with the provisions of the compact, its duly promulgated rules and bylaws, against any compacting state in default. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

Section D. Dissolution of Compact.

1. The compact dissolves effective upon the date of the withdrawal or default of the compacting state, which reduces membership in the compact to one (1) compacting state.

2. Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the interstate commission shall be concluded and any surplus funds shall be distributed in accordance with the bylaws.

Article XII. Severability and Construction.

A. The provisions of this compact shall be severable, and if any phrase, clause, sentence or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

B. The provisions of this compact shall be liberally construed to effectuate its purposes.

Article XIII. Binding Effect of Compact and Other Laws.

Sec.

A. Other Laws.

B. Binding Effect of the Compact.

Section A. Other Laws.

1. Nothing herein prevents the enforcement of any other law of a compacting state that is not inconsistent with this compact.

2. All compacting states' laws other than state constitutions and other interstate compacts conflicting with this compact are superseded to the extent of the conflict.

Section B. Binding Effect of the Compact.

1. All lawful actions of the interstate commission, including all rules and bylaws promulgated by the

interstate commission, are binding upon the compacting states.

2. All agreements between the interstate commission and the compacting states are binding in accordance with their terms.

3. Upon the request of a party to a conflict over meaning or interpretation of interstate commission actions, and upon a majority vote of the compacting states, the interstate commission may issue advisory opinions regarding such meaning or interpretation.

4. In the event any provision of this compact exceeds the constitutional limits imposed on the legislature of any compacting state, the obligations, duties, powers or jurisdiction sought to be conferred by such provision upon the interstate commission shall be ineffective and such obligations, duties, powers or jurisdiction shall remain in the compacting state and shall be exercised by the agency thereof to which such obligations, duties, powers or jurisdiction are delegated by law in effect at the time this compact becomes effective.

As used in this compact:

(a) "Child" means a person who, by reason of minority, is legally subject to parental, guardianship or similar control;

(b) "Placement" means the arrangement for the care of a child in a family free or boarding home or in a child-caring agency or institution but does not include any institution caring for the mentally ill, mentally defective or epileptic or any institution primarily educational in character, and any hospital or other medical facility;

(c) "Receiving state" means the state to which a child is sent, brought, or caused to be sent or brought, whether by public authorities or private persons or agencies, and whether for placement with state or local public authorities or for placement with private agencies or persons; and

(d) "Sending agency" means a party state, officer or employee thereof; a subdivision of a party state, or officer or employee thereof; a court of a party state; a person, corporation, association, charitable agency or other entity which sends, brings, or causes to be sent or brought any child to another party state.

Article III. Conditions for Placement.

(a) No sending agency shall send, bring, or cause to be sent or brought into any other party state any child for placement in foster care or as a preliminary to a possible adoption unless the sending agency shall comply with each and every requirement set forth in this article and with the applicable laws of the receiving state governing the placement of children therein.

(b) Prior to sending, bringing or causing any child to be sent or brought into a receiving state for placement in foster care or as a preliminary to a possible adoption, the sending agency shall furnish the appropriate public authorities in the receiving state written notice of the intention to send, bring, or place the child in the receiving state. The notice shall contain:

(1) The name, date and place of birth of the child.

(2) The identity and address or addresses of the parents or legal guardian.

(3) The name and address of the person, agency or institution to or with which the sending agency proposes to send, bring, or place the child.

(4) A full statement of the reasons for such proposed action and evidence of the authority pursuant to which the placement is proposed to be made.

(c) Any public officer or agency in a receiving state which is in receipt of a notice pursuant to paragraph (b)

of this article may request of the sending agency, or any other appropriate officer or agency of or in the sending agency's state, and shall be entitled to receive therefrom, such supporting or additional information as it may deem necessary under the circumstances to carry out the purpose and policy of this compact.

(d) The child shall not be sent, brought, or caused to be sent or brought into the receiving state until the appropriate public authorities in the receiving state shall notify the sending agency, in writing, to the effect that the proposed placement does not appear to be contrary to the interests of the child.

Article IV. Penalty for Illegal Placement.

The sending, bringing, or causing to be sent or brought into any receiving state of a child in violation of the terms of this compact constitutes a violation of the laws respecting the placement of children of both the state in which the sending agency is located or from which it sends or brings the child and of the receiving state. Such violation may be punished or subjected to penalty in either jurisdiction in accordance with its laws. In addition to liability for any such punishment or penalty, any such violation constitutes full and sufficient grounds for the suspension or revocation of any license, permit, or other legal authorization held by the sending agency which empowers or allows it to place, or care for children.

Article V. Retention of Jurisdiction.

(a) The sending agency shall retain jurisdiction over the child sufficient to determine all matters in relation to the custody, supervision, care, treatment and disposition of the child which it would have had if the child had remained in the sending agency's state, until the child is adopted, reaches majority, becomes self-supporting or is discharged with the concurrence of the appropriate authority in the receiving state. Such jurisdiction shall also include the power to effect or cause the return of the child or its transfer to another location and custody pursuant to law. The sending agency shall continue to have financial responsibility for support and maintenance of the child during the period of the placement. Nothing contained herein shall defeat a claim of jurisdiction by a receiving state sufficient to deal with an act of delinquency or crime committed therein.

(b) When the sending agency is a public agency, it may enter into an agreement with an authorized public or private agency in the receiving state providing for the performance of one (1) or more services in respect of such case by the latter as agency for the sending agency.

(c) Nothing in this compact shall be construed to prevent a private charitable agency authorized to place children in the receiving state from performing services or acting as agent in that state for a private charitable agency of the sending state; nor to prevent the agency in the receiving state from discharging financial responsibility for the support and maintenance of a child who has been placed on behalf of the sending

agency without relieving the responsibility set forth in paragraph (a) of this article.

Article VI. Institutional Care of Delinquent Children.

A child adjudicated delinquent may be placed in an institution in another party jurisdiction pursuant to this compact but no such placement shall be made unless the child is given a court hearing on notice to the parent or guardian with opportunity to be heard, prior to such child being sent to such other party jurisdiction for institutional care and the court finds that:

(1) Equivalent facilities for the child are not available in the sending agency's jurisdiction; and

(2) Institutional care in the other jurisdiction is in the best interest of the child and will not produce undue hardship.

Article VII. Compact Administrator.

The executive head of each jurisdiction party to this compact shall designate an officer who shall be general coordinator of activities under this compact in his jurisdiction and who, acting jointly with like officers of other party jurisdictions, shall have power to promulgate rules and regulations to carry out more effectively the terms and provisions of this compact.

Article VIII. Limitations.

This compact shall not apply to:

(a) The sending or bringing of a child into a receiving state by the child's parent, stepparent, grandparent, adult brother or sister, adult uncle or aunt, or the child's guardian and leaving the child with any such relative or non-agency guardian in the receiving state.

(b) Any placement, sending or bringing of a child into a receiving state pursuant to any other interstate compact to which both the state from which the child is sent or brought and the receiving state are party, or to any other agreement between the states which has the force of law.

Article IX. Enactment and Withdrawal.

This compact shall be open to joinder by any state, territory or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and, with the consent of congress, the Government of Canada or any province thereof. It shall become effective with respect to any such jurisdiction when such jurisdiction has enacted the same into law. Withdrawal from this compact shall be by the enactment of a statute repealing the same, but shall not take effect until two (2) years after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each other party jurisdiction. Withdrawal of a party state shall not affect the rights, duties and obligations under this compact of any sending agency therein with respect to a placement made prior to the effective date of withdrawal.

Article X. Construction and Severability.

The provisions of this compact shall be liberally construed to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstances is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

Compiler's Notes.

Acts 2022, ch. 1126, § 10 provided that the department of children's services, the state board of education, and the department of education are authorized to promulgate rules to effectuate the purposes of this act, and that the rules must be promulgated in accordance with the Uniform Administrative Procedures Act, compiled in title 4, chapter 5.

37-5-502. Basis for licensing — Regulations — License application — Temporary license — Non-transferability of license — Transfer of operation to circumvent licensing laws or regulations — Fees.

(a)(1) Any person or entity operating a child abuse agency, child caring institution, child placing agency, detention center, family boarding home or foster home, group care home, maternity home, or temporary holding resource, as defined in § 37-5-501, must be licensed by the department as provided by this part. This section does not apply to a nontraditional child care agency. An applicant for a nontraditional child care agency shall comply with § 37-5-520.

(2)(A) The department has the authority to issue regulations pursuant to the provisions of the Uniform Administrative Procedures Act, compiled in title 4, chapter 5, part 2, for the licensing of any persons or entities subject to any provisions of this part and the enforcement of appropriate standards for the health, safety and welfare of children under the care or supervision of those entities.

(B) To the extent they are not inconsistent with the statutory provisions of this part, the regulations of the department that are in effect on July 1, 2000, shall remain in force and effect until modified by regulatory action of the department.

(3) The department's regulations of child care agencies shall be developed, and the continued approval of the licensing of a child care agency, shall be based upon the following criteria:

(A) The safety, welfare and best interests of the children in the care of the agency;

(B) The capability, training and character of the persons providing or supervising the care to the children;

(C) The quality of the methods of care and instruction provided for the children;

(D) The suitability of the facilities provided for the care of the children;

(E) The adequacy of the methods of administration and the management of the child care agency, the agency's personnel policies, and the financing of the agency; and

(F) The present need for the child care agency.

(b)(1) The department shall provide reasonable assistance to applicants or licensees in meeting the child care standards of the department, unless the circumstances demonstrate that further assistance is not compatible with the continued safety, health or welfare of the children in the agency's care, and that regulatory action affecting the agency's license is warranted. All costs and expenses arising from or related to meeting the child care standards of the department shall be borne entirely by the applicant or licensee.

(2) If a licensee is denied the renewal of a license, or if a license is revoked, or if any applicant for a license cannot meet the standards, then the department shall assist in planning for the placement of such children in licensed child care agencies, or other

suitable care, return them to their own homes or make any other plans as seem necessary and advisable to meet the particular needs of the children involved.

(c) Application for a license to operate a child care agency shall be made in writing to the department in such manner as the department determines and shall be accompanied by the appropriate fee set forth in the fee schedule in subsection (f).

(d)(1)(A) If the department determines that the applicant for a license that is not the renewal of an existing license, has presented satisfactory evidence that the facility that is proposed for the care of children has received fire safety and environmental safety approval, that the applicant and the personnel who will care for the children are capable in all substantial respects to care for the children and that the applicant has the ability and intent to comply with the licensing law and regulations, the department shall issue a temporary license to the applicant; provided, that no temporary license shall be issued for child care agencies that federal law or regulations do not permit the department to license until all necessary licensing requirements are met.

(B) If the department determines that the conditions of the applicant's facility, its methods of care or other circumstances warrant, it may issue a restricted license that limits the agency's authority in one (1) or more areas of operation.

(2) The purpose of the temporary license is to permit the license applicant to demonstrate to the department that it has complied with all licensing laws and regulations applicable to its classification prior to the issuance of an initial annual license.

(3) Within ninety (90) days of the issuance of the temporary license, the department shall determine if the applicant has complied with all regulations governing the classification of child care agency for which the application was made.

(4)(A) If the department determines that the applicant has complied with all licensing regulations for the classification of child care agency for which application was made, the department shall issue an annual license.

(B) If the department determines that the conditions of the applicant's facility, its methods of care or other circumstances warrant, it may issue a restricted license that limits the agency's authority in one (1) or more areas of operation.

(5) In granting any license, the department may limit the total number of children who may be enrolled in the agency regardless of whether the agency may have the physical capacity to care for more children.

(6) The licensee shall post the license in a clearly visible location as determined by the department so that persons visiting the agency can readily view the license.

(7) If the department fails to issue or deny an annual license within ninety (90) days of the granting of the temporary license, the temporary license

shall remain in effect, unless suspended, as provided in § 37-5-514 until such determination is made. If an annual license is denied following the issuance of a temporary license, and if a timely appeal is made of the denial of the annual license, the temporary license shall remain in effect, unless suspended, until the board of review renders a decision regarding the denial of the annual license.

(8) If a temporary or annual license is denied, or an annual license is restricted, the applicant may appeal the denial or restriction as provided in § 37-5-514.

(e)(1) Except as provided herein, no license for a child care agency shall be transferable, and the transfer by sale or lease, or in any other manner, of the operation of the agency to any other person or entity shall void the existing license immediately and any pending appeal involving the status of the license, and the agency shall be required to close immediately. If the transferee has made application for, and is granted, a temporary license, the agency may continue operation under the direction of the new licensee. The new licensee in such circumstances may not be the transferor or any person or entity acting on behalf of the transferor.

(2) If the department determines that any person or entity has transferred nominal control of an agency to any persons or entities who are determined by the department to be acting on behalf of the purported transferor in order to circumvent a history of violations of the licensing law or regulations or to otherwise attempt to circumvent the licensing law or regulations or any prior licensing actions instituted by the department, the department may deny the issuance of any license to the applicant. The denial of the license may be appealed as provided in § 37-5-514.

(3)(A) The license of any agency shall not be voided nor shall any pending appeal be voided pursuant to this subsection (e) solely for the reason that the agency is subject to judicial orders directing the transfer of control or management of a child care agency or its license to any receiver, trustee, administrator or executor of an estate, or any similarly situated person or entity.

(B) If the current licensee dies, and provided that no licensing violations require the suspension, denial or revocation of the agency's license, the department may grant family members of the licensee, or administrators or executors of the licensee, a temporary license to continue operation for a period of ninety (90) days. At the end of such period, the department shall determine whether an annual or extended license should be granted to a new licensee as otherwise provided in this section.

(C) Nothing in this subsection (e) shall be construed to prevent the department from taking any regulatory or judicial action as may be required pursuant to the licensing laws and regulations that may be necessary to protect the children in the care of such agency.

(f) The following fees shall apply to applications for licenses for child care agencies licensed pursuant to this part:

- (1) Family boarding home or foster care home ... \$25.00
- (2) Group care home 25.00
- (3) Any child caring institution or child placing agency 25.00
- (4) Maternity home 25.00
- (5) Child abuse agency 25.00
- (6) Detention center 25.00
- (7) Temporary holding resources 25.00

(g) All licensure application and renewal fees collected by the department pursuant to this part shall be paid into the general fund, but shall be earmarked for and dedicated to the department. Such earmarked fees shall be used by the department exclusively to improve child care quality in this state by funding activities that include, but are not limited to, child care provider training activities, but excluding any costs associated with conducting criminal background checks.

(h) A license issued to a child placing agency by the department shall include all boarding homes, group care homes or foster homes approved, supervised and used by the licensed agency as a part of its work.

(i)(1) Notwithstanding title 13, chapter 7 to the contrary, upon adoption of a resolution by two-thirds (2/3) vote of the county legislative body, a zoning authority, in determining the suitability of a request for a use of property for the establishment or alteration of a child care agency, may consider the criminal background of the persons or person making the request or the criminal background of the persons or person who will manage or operate the child care agency. The authority may require the person to submit a fingerprint sample and a criminal history disclosure form. A criminal history records check conducted under this subdivision (i)(1) must be conducted by the Tennessee bureau of investigation or the federal bureau of investigation, or both, and the results of the check must be forwarded to the authority.

(2) The authority shall maintain the confidentiality of all criminal history records information received pursuant to this subsection (i).

(3) The zoning authority is responsible for all costs associated with obtaining the criminal background information.

(j) On or after July 1, 2022, an applicant seeking a license, including renewal of an existing license, for a child care agency that provides residential child care shall disclose all contracts and agreements, including contract or agreement amendments, with third parties through which the applicant intends to provide placement, housing, or care services for children in this state.

(4) The results of the inquiry to the Tennessee bureau of investigation shall be recorded in the applicant's or volunteer's records.

(5) If the information on the form appears to have been falsified, the Tennessee bureau of investigation shall report such finding to the department. The department shall notify, in writing, the appropriate district attorney general of such falsification.

(c) The agency, and the department for its employees and volunteers, shall utilize the information on the form to conduct an inquiry of the department of health's vulnerable persons registry pursuant to title 68, chapter 11, part 10, for a review of the person's status on such registry. The results of the inquiry to the registry shall be maintained in the applicant's or volunteer's records.

(d)(1) Whether obtained by use of the procedures established in this section or whether such information is obtained by any other means, conviction of an offense, or a lesser included offense, or a finding in a juvenile proceeding, involving the physical, sexual or emotional abuse or gross neglect of a child or that constitutes conviction of an offense, or a finding in a juvenile proceeding, involving violence against a child, or any person, or conviction of an offense determined by the department, pursuant to properly promulgated rules, to present a threat to the health, safety or welfare of children, and any pending warrants, indictments or presentments, or pending juvenile proceedings, for such offenses or acts as a juvenile, as determined by rules of the department, or the identification of the individual on the department of health's vulnerable persons registry pursuant to title 68, chapter 11, part 10, shall disqualify the individual from employment with, as a licensee of a child care agency or from providing any volunteer services to children in, or from having any access whatsoever to children as a resident of, a child care agency as defined by this part, or with the department; provided, that the exclusionary provisions of this section shall not apply to children in the care, custody or control of the department.

(2) No person who is currently charged with or who has been convicted of or pled guilty to a violation of § 39-13-213, § 55-10-101, § 55-10-102 or § 55-10-401, or any felony involving use of a motor vehicle while under the influence of any intoxicant, may, for

a period of five (5) years after the date of such conviction or felony plea, be employed as or serve as a driver transporting children for a child care agency.

(3) The child care agency, and the department for its employees, shall immediately exclude an individual from employment or volunteer services with children, if the results of the criminal background check or review of the vulnerable person's registry demonstrate to the agency, or upon review by the department demonstrate, that the criminal history of such individual is within the prohibited categories established in subdivision (d)(1). If an exemption from the exclusion is provided for by rule of the department pursuant to subsection (e), such person shall remain excluded until it is determined by the department whether there is a basis for an exception from the exclusion.

(4) The failure of a child care agency to exclude a person with a prohibited criminal history from employment with, or from the provision of volunteer services, or the failure, as determined by the department, to adequately restrict the access to children of a resident at a child care agency, shall subject the child care agency to immediate suspension of the agency's license by the department.

(5) Any person who is excluded based upon the results of the criminal history background review may appeal the exclusion to the department within ten (10) days of the mailing date of the notice of such exclusion to the subject person.

(6) If timely appealed, the department shall provide an administrative hearing pursuant to the Uniform Administrative Procedures Act, compiled in title 4, chapter 5, part 3, in which the appellant may challenge the accuracy of the report, and may challenge the failure to grant an exception to the exclusion required by this subsection (d) if a rule for such purpose is promulgated by the department pursuant to subsection (e).

(7) The appellant may not collaterally attack the factual basis of an underlying conviction, except to show that the applicant is not the person identified on the record. Further, except to show that the applicant is not the person identified on the record, the appellant may not collaterally attack or litigate the facts that are the basis of a reported pending criminal charge, except to show that such charge was, or, since the report was generated, has been, dismissed, nolle or has resulted in an acquittal.

(e) The department may by rule promulgate standards of review for the purpose of considering exemptions from the criminal background exclusion established by this section.

(f) Nothing in this section shall be construed to prevent the exclusion of any individual from providing care for, from being licensed, approved or certified for the care of children pursuant to this part or from having access to a child in a child caring situation if the discovery of a criminal or juvenile proceeding background is discovered and verified in any manner other than through a procedure established pursuant to this section. All procedures, rules, and appeal processes

established pursuant to this section for the protection of children and the due process rights of excluded individuals shall also be applicable to such individuals.

(g) It is unlawful for any person to falsify any information required on the disclosure form required by this section. A person who knowingly fails to disclose on the disclosure form required information or who knowingly discloses false information or who knowingly assists another to do so commits a Class A misdemeanor.

(h) The provisions of this section shall apply to detention centers and temporary holding resources described in § 37-5-109.

37-5-512. Abuse, neglect, or sexual abuse.

(a)(1) Notwithstanding § 71-3-503 or § 37-5-503, the department has the authority and responsibility to fully investigate, in accordance with the provisions of chapter 1, parts 1, 4 and 6 of this title, any allegation of abuse, neglect or sexual abuse that it receives regarding any child or children in the care of, or subject to the supervision, instruction or treatment of, any public or private entity or any person, whether or not such entity or person is subject to licensure or approval pursuant to this part or title 71, chapter 3, part 5, or title 49, chapter 1, part 11.

(2) The departments of education and human services shall immediately report all allegations of abuse or neglect in any child care agency or child care program that they may license, approve, or certify to the department of children's services for investigation and shall cooperate with the department of children's services in any investigations of abuse or neglect involving any such agency or program. If the department of children's services receives a report of abuse or neglect in any child care program certified by the department of education or a child care agency licensed by the department of human services, it shall immediately notify the appropriate department of its investigation.

(3)(A) The departments of children's services, education and human services shall utilize any information obtained in the course of such investigations in the determination of whether appropriate care is being provided to children who may be in the care of any child care agency or child care program that the departments of children's services, education or human services license, approve or certify.

(B) For purposes related to that determination and any appropriate licensing or approval action, the departments of education and human services shall be permitted access to the department of children's services' records; provided, that any information contained in any record of the departments of education or human services, or records relating to the investigation of the report of harm by the department of children's services shall be confidential and shall be released:

(i) Only in the proceedings concerning any certification, licensing or approval action or in-

injunctive action by the department of education or human services permitted by title 49, chapter 1, part 11, or title 71, chapter 3, part 5;

(ii) As otherwise permitted by the restrictions and conditions for the release of confidential records of the department of children's services pursuant to title 4 and chapter 1, part 4 or 6 of this title;

(iii) As otherwise permitted by the department of children's services' regulations concerning procedures for release of information of validated perpetrators of child abuse; or

(iv) Notwithstanding any other law to the contrary, including any provisions related to expunction of records under title 40, the limited release of confidential records pursuant to this section shall not alter the confidential character of such records, which shall be maintained, as necessary, to protect children.

(C) For purposes of this subdivision (a)(3), the rules of the department of children's services concerning release procedures for due process purposes shall apply to the release procedures of the departments of education and human services regarding perpetrators of child abuse validated by the department of children's services. Nothing herein shall be construed to permit the release of the name or identifying information of any person reporting child abuse or neglect under chapter 1, part 4 or 6 of this title.

(4) In the conduct of such investigations involving the alleged abuse or neglect of any child or in the evaluation of the appropriateness of any child care program or child care agency or the appropriateness of the care provided by any person, the departments of children's services, education and human services shall be granted access to the records of children in the care of the person or entity and to all personnel files of the director and employees of the person or entity and to all records of the person or entity. They shall be allowed to inspect all the premises in which children are kept or cared for and shall be allowed to interview any and all children in the care of such person or entity if the departments of children's services, education or human services determine that it is necessary to do so.

(b) If admission to the places, facilities or homes of the entities or persons involved in the care, supervision, instruction or treatment of the child is denied or delayed for any reason, the chancery, circuit or juvenile court of the county where the entity or person is located shall, upon cause shown by the department of children's services in investigations of abuse or neglect or sexual abuse involving any person or entity or in any of its licensing or approval activities, or upon cause shown by the departments of education or human services in any certification, licensing or approval activities, immediately, by ex parte order, direct the persons in

charge of such places, facilities or any persons having responsibility for the care, supervision, instruction or treatment, of the child or children to allow entrance for the review of records, inspection of the premises, and to permit any interviews with or examinations of the children as permitted pursuant to chapter 1 of this title, title 49, chapter 1, part 11, or title 71, chapter 3, part 5.

(c)(1) If the departments of children's services, education or human services determine at any time that any person employed or associated in any manner with any person or entity, or any person providing care, supervision, instruction or treatment, of children has, at any time, abused, neglected or sexually abused a child, the department with certification, licensing or approval authority may take certificate or licensing action to prevent any child care program or child care agency certified, licensed or approved by it from continuing to provide care for children if such program or agency fails or refuses to take appropriate or timely action to prevent future abuse, neglect or sexual abuse by that person.

(2) If the entity or person is subject to certification by the department of education pursuant to title 49, chapter 1, part 11, or is subject to licensure or approval by the department of human services pursuant to title 71, chapter 3, part 5, those departments may, in addition to any certificate, licensing or approval action, bring an action in the chancery, circuit or juvenile court of the county where the abuse, neglect or sexual abuse occurred or where the person resides to enjoin the entity found to have failed to protect the child or children from abuse, neglect or sexual abuse or the person who, at anytime, abused, neglected or sexually abused a child or children, from continuing currently, or in the future, to provide care, supervision, instruction or treatment for children on a full-time or part-time basis, or to enjoin the person who perpetrated the abuse or neglect from being associated in any manner with any entities or persons providing care, supervision, instruction or treatment for children.

(3) If the department of children's services determines at any time that any person employed or associated in any manner with an entity or person, or any person individually, providing care, supervision, instruction or treatment of children, has at any time abused, neglected or sexually abused a child, the department may bring an action for injunctive relief as permitted by subdivision (c)(2), whether or not the entity or person is subject to certification, licensure or approval by the departments of children's services, education or human services.

(4) In order to facilitate the protection of children, the departments of children's services, education and human services are specifically authorized to enter into inter-agency agreements for cooperative arrangements in any investigations or litigation authorized by this part.

37-5-513. Inspection of persons or entities providing child care.

(a)(1) It is the duty of the department, through its duly authorized agents, to inspect at regular intervals, without previous notice, all child care agencies or suspected child care agencies, as defined in § 37-5-501.

(2) It is the duty of the department, through its duly authorized agents, to inspect, at least twice per year, without previous notice, all nontraditional child care agencies or suspected nontraditional child care agencies.

(b)(1) The department is given the right of entrance, privilege of inspection, access to accounts, records, and information regarding the whereabouts of children under care for the purpose of determining the kind and quality of the care provided to the children and to obtain a proper basis for its decisions and recommendations.

(2) If refused entrance for inspection of a licensed, approved or suspected child care agency, the chancery or circuit court of the county where the licensed, approved or suspected child care agency may be located may issue an immediate ex parte order permitting the department's inspection upon a showing of probable cause, and the court may direct any law enforcement officer to aid the department in executing such order and inspection. Refusal by the child care agency to obey the inspection order may be punished as contempt.

(c) Any violation of the rights given in this section is a Class A misdemeanor.

(d) Upon request by the department, an approved or suspected child care agency that provides, or is suspected of providing, residential child care shall provide a census of the number and names of children currently in the agency's care.

(e)(1) Upon the escape or disappearance of a child in the care of an approved child care agency, the agency shall immediately report the disappearance of the child to the department and the chief law enforcement officer of the county in which the agency is located. The report must include, at a minimum:

- (A) The facts of the disappearance;
- (B) The time the child escaped or disappeared;
- (C) The circumstances under which the escape or disappearance occurred; and
- (D) A description of the missing child, including the child's age, size, complexion, race, and color of hair and eyes.

(2) The agency shall designate an individual who is responsible for making the required reports pursuant to subdivision (e)(1). An individual so designated by the agency who intentionally fails to comply with the reporting requirement commits a Class B misdemeanor.

Acts 2022, ch. 1126, § 10 provided that the department of children's services, the state board of education, and the department of education are authorized to promulgate rules to effectuate the purposes of this act, and that the rules must be promulgated in accordance with the Uniform Administrative Procedures Act, compiled in title 4, chapter 5.

37-5-514. Violations of licensing regulations — Probation, suspension, denial and revocation of licenses — Appeal procedures.

(a) If any complaint is made to the department concerning any alleged violation of the laws or regulations governing a child care agency, the department shall investigate such complaint and shall take such action as it deems necessary to protect the children in the care of such agency.

(b)(1) If, during the licensing period, the department determines that a child care agency is not in compliance with the laws or regulations governing its operation, and if, after reasonable written notice to the agency of the violation, the department determines that the violation remains uncorrected, the department may place the licensed agency on probation for a definite period of not less than thirty (30) days nor more than sixty (60) days, as determined by the department, and the department shall require the posting by the agency of the notice of probation. The department shall provide the agency a written basis describing the violation of the licensing rules that supports the basis for the probationary status.

(2)(A) If placed on probation, the agency shall immediately post a copy of the probation notice, together with a list provided by the department of the violations that were the basis for the probation, in a conspicuous place as directed by the department and with the agency's license, and the agency shall immediately notify, in writing, the custodians of each of the children in its care of the agency's status, the basis for the probation and of the agency's right to an informal review of the probationary status.

(B) If the agency requests an informal review within two (2) business days of the imposition of probation, either verbally or in writing to the department's licensing staff that imposed the probation, the department shall informally review the probationary status by a department licensing staff person or other designee who was not involved in the decision to impose the probation. The agency may submit any written or oral statements as argument to such staff person or designee within five (5) business days of the imposition of the probation. Written and oral statements may be

received by any available electronic means. The licensing staff person or designee shall render a decision, in writing, upholding, modifying or lifting the probationary status within seven (7) business days of the imposition of the probation.

(3) If the licensing staff person or designee did not lift the probation under subdivision (b)(2)(B), the agency may also appeal such action in writing to the commissioner within five (5) business days of the receipt of the notice of the licensing staff person, or designee's decision regarding the agency's probationary status as determined in subdivision (b)(2)(B). If timely appealed, the department shall conduct an administrative hearing pursuant to the contested case provisions of the Uniform Administrative Procedures Act, compiled in title 4, chapter 5, concerning the department's action within fifteen (15) business days of receipt of the appeal, and shall render a decision, in writing, within seven (7) business days following conclusion of the hearing. The hearing officer may uphold, modify or lift the probation.

(4) This subsection (b) shall be discretionary with the department, and shall not be a prerequisite to any licensing action to suspend, deny or revoke a license of a child care agency.

(c)(1) If the department determines that any applicant for a temporary license or for the renewal of an existing license has failed to attain, or an existing licensee has failed to maintain, compliance with licensing laws or regulations after reasonable notice of such failure and a reasonable opportunity to demonstrate compliance with licensing laws or regulations, the department may deny the application for the new or renewed license or may revoke the existing license; provided, that the department at any time may deny a temporary license if the applicant fails to meet the initial requirements for its issuance; and, provided, further, if the department determines that repeated or serious violations of licensing laws or regulations warrant the denial or revocation of the license, then, notwithstanding any provisions of § 4-5-320 or this subsection (c) to the contrary, the department may seek denial or revocation of the license regardless of the licensee's demonstration of compliance either before or after the notice of denial of the application or after notice of the revocation.

(2) Notwithstanding § 4-5-320, the notice of denial or revocation may be served personally by an authorized representative of the department who shall verify service of the notice by affidavit, or the notice may be served by certified mail, return receipt requested.

(3) If application for the temporary or annual license is denied or if an existing license is revoked, the applicant may appeal the denial or revocation by requesting, in writing, to the department a hearing before the child care agency board of review within ten (10) days of the personal delivery or mailing date of the notice of denial or revocation. Failure to timely appeal shall result in the expiration of any existing license immediately upon the expiration of the time for appeal.

(4) The hearing upon the denial or revocation shall be heard by the board of review within thirty (30) days of the date of service of the notice of denial or revocation; provided, that, for good cause as stated in an order entered on the record, the board or the administrative law judge or hearing officer may continue the hearing. In order to protect the children in the care of the agency from any risk to their health, safety and welfare, the board or administrative law judge or hearing officer shall re-set the hearing at the earliest date that circumstances permit.

(5)(A) If timely appeal is made, pending the hearing upon the denial or revocation, the child care agency may continue to operate pending the decision of the board of review unless the license is summarily suspended as provided in subsection (d).

(B) The board, as part of its decision regarding the status of the applicant's application for a license or the licensee's license, may direct that the child care agency be allowed to operate on a probationary or conditional status, or may grant or continue the license with any restrictions or conditions on the agency's authority to provide care.

(d)(1) Subject to the following provisions of this subsection (d), if the department determines at any time that the health, safety or welfare of the children in care of the child care agency imperatively requires emergency action, and incorporates a finding to that effect in its order, summary suspension of the license may be ordered by the department pending any further proceedings for revocation, denial or other action. If the department determines that revocation or denial of the license is warranted following suspension, those proceedings shall be promptly instituted and determined as authorized by this part.

(2) The department shall set forth with specificity in its order the legal and factual basis for its decision stating therein the specific laws or regulations that were violated by the agency, and shall state with specificity in the order the reasons that the issuance of the order of summary suspension is necessary to adequately protect the health, safety or welfare of children in the care of the child care agency. Summary suspension may be ordered in circumstances that have resulted in death, injury or harm to a child or that have posed or threatened to pose a serious and immediate threat of harm or injury to a child based upon the intentional or negligent failure to comply with licensing laws or regulations.

(3) In issuing an order of summary suspension of a license, the department shall use, at a minimum, the following procedures:

(A) The department shall proceed with the summary suspension of the agency's license and shall notify the licensee of the opportunity for an informal hearing within three (3) business days of the issuance of the order of summary suspension before an administrative law judge or before a hearing officer who is not an employee of the department.

(B) The notice provided to the licensee may be provided by any reasonable means and, consistent

with the provisions of subdivision (d)(2), shall inform the licensee of the reasons for the action or intended action by the department and of the opportunity for an informal hearing as permitted by subdivision (d)(3)(C).

(C) The informal hearing described by this subdivision (d)(3) shall not be required to be held under the contested case provisions of the Uniform Administrative Procedures Act. The hearing is intended to provide an informal, reasonable opportunity for the licensee to present to the hearing official the licensee's version of the circumstances leading to the suspension order. The sole issues to be considered are whether the public health, safety or welfare imperatively required emergency action by the department and what, if any, corrective measures have been taken by the child care agency following the violation of licensing laws or regulations and prior to the issuance of the order of summary suspension that eliminate the danger to the health, safety or welfare of the children in the care of the agency. The hearing official may lift, modify or continue the order of summary suspension.

(D) Subsequent to the hearing on the summary suspension, the department may proceed with revocation or denial of the license or other action as authorized by this part, regardless of the decision concerning summary suspension of the license.

(4) The department shall by rule establish any further necessary criteria that it determines are required for the determination of circumstances that warrant imposition of the summary suspension order and any other necessary procedures for implementation of the summary suspension process.

(5) If the conditions existing in the child care agency present an immediate threat to the health, safety or welfare of the children in care, the department may also seek a temporary restraining order from the chancery or circuit court of the county in which the child care agency is located seeking immediate closure of the agency to prevent further harm or threat of harm to the children in care, or immediate restraint against any violations of the licensing laws or regulations that are harming or that threaten harm to the children in care. The department may seek any further injunctive relief as permitted by law in order to protect children from the violations, or threatened violations, of the licensing laws or regulations. The use of injunctive relief as provided by this subdivision (d)(5) may be used as an alternative, or supplementary measure, to the issuance of an order of summary suspension or any other administrative proceeding.

(e)(1) In determining whether to deny, revoke or summarily suspend a license, the department may choose to deny, revoke or suspend only certain authority of the licensee to operate, and may permit the licensee to continue operation, but may restrict or modify the licensee's authority to provide certain services or perform certain functions, including, but not limited to: transportation or food service, enroll-

ment of children at the agency, the agency's hours of operation, the agency's use of certain parts of the agency's physical facilities or any other function of the child care agency that the department determines should be restricted or modified to protect the health, safety or welfare of the children. The board of review, in considering the actions to be taken regarding the license, may likewise restrict a license or place whatever conditions on the license and the licensee it deems appropriate for the protection of children in the care of the agency.

(2) The actions by the department or the board authorized by this subsection (e) may be appealed as otherwise provided in this part for any denial, revocation or suspension.

(f)(1) When an application for a license has been denied, or a license has been revoked, on one (1) occasion, the child care agency may not reapply for a license for a period of one (1) year from the effective date of the denial or revocation order if not appealed or, if appealed, from the effective date of the board's or reviewing court's order.

(2) If application for a license has been denied, or a license has been revoked, on two (2) occasions, the child care agency may not reapply for a license for a period of two (2) years from the effective date of the denial or revocation if not appealed or, if appealed, from the effective date of the board's or reviewing court's order.

(3) If an application for a license has been denied, or a license has been revoked on three (3) occasions, the agency shall not receive another license for the care of children.

(4) No person who served as full or part owner or as director or as a member of the management of a child care agency shall receive a license to operate a child care agency if that person participated in such capacity in a child care agency that has been denied a license, or that had a license revoked, on three (3) occasions.

(5)(A) The time restrictions of subdivisions (f)(1) and (2) may be waived by the board of review in the hearing in which the denial or revocation is sustained, or, if requested by the former licensee in writing to the commissioner, in a separate subsequent hearing before the board of review or, in the discretion of the commissioner, upon review by the commissioner.

(B) The agency must show to the board's or the commissioner's satisfaction that the agency has corrected the deficiencies that led to the denial or revocation, and that the child care agency can demonstrate that it has the present and future ability, and is willing, to maintain compliance with licensing laws or regulations. The decision of the board or the commissioner shall be reduced to an order, which shall be a final order pursuant to the Uniform Administrative Procedures Act, and may be appealed pursuant to § 4-5-322.

(C) No waiver may be granted for any permanent restriction that has been imposed pursuant to subdivision (f)(3).

(g)(1) In conducting hearings before the board of review on the appeal of a denial or revocation of a license or for review of summary suspension orders, it is the legislative intent that such hearings be promptly determined consistent with the safety of the children in the care of the child care agency appealing the department's licensing action and with the due process rights of the license applicants or licensees.

(2) If, however, the administrative procedures division of the office of the secretary of state certifies by letter to the recording secretary of the board of review that the division's contested case docket prevents the scheduling of a hearing on the appeal of a denial or revocation of a license before the board of review within the initial time frames set forth in this part, then the department shall have authority to appoint a hearing officer from the department to conduct the proceedings before the board. The substitute hearing officer shall have all authority as an administrative law judge of the department of state. The hearing may be continued by order of the board for the purpose of obtaining a substitute hearing officer.

(3) Hearings on summary suspension orders shall be heard by an administrative law judge from the administrative procedures division of the secretary of state's office. The administrative law judge shall have authority, as otherwise permitted in this section, to enter orders binding on the department resulting from show cause hearings involving summary suspension orders. If the administrative procedures division informs the department that the division's contested case docket prevents the scheduling of a hearing on the issuance of a summary suspension order within the initial time frames set forth in this part, the department may utilize a hearing officer from the department to conduct the show cause hearing.

(h) By July 1, 2000, any initial rules to implement this section shall be by emergency rules of the department; provided, that any permanent rules shall be promulgated pursuant to the provisions of the Uniform Administrative Procedures Act.

(i)(1) Notwithstanding a law to the contrary, the department of children's services shall revoke an agency's license if:

(A) The department determines at any time that in a period of one (1) year, the greater of two (2) employees or three percent (3%) or more of facility employees have been charged with a criminal offense for conduct alleged to:

- (i) Have occurred on the premises of the agency;
- (ii) Be in connection with the agency employee's job responsibilities; or
- (iii) Involve a child served by the agency; and

(B) The agency provides residential child care.

(2) As used in this subsection (i), "employee" includes a person who directly interacts with children served by the agency to provide services on behalf of the agency, regardless of whether the person is an

employee, independent contractor, or volunteer.

(3) A person who has served as full or part owner or director, or as a member of the management, of a child care agency with a license revoked pursuant to subdivision (i)(1) shall not receive a license to operate a child care agency for one (1) year following the date of the revocation.

37-5-516. Licensing standards committees.

(a) The commissioner shall appoint a standards committee composed of twelve (12) citizens, three (3) from each grand division of the state, and three (3) at-large for the purpose of developing or reviewing standards and regulations for each class of child care agency defined in this part. The classes of child care agencies regulated by the department shall be represented by members of the standards committee.

(b) For any new class of child care agency as defined in this part, the standards committee shall develop and recommend to the commissioner the standards and regulations for that new class of child care agency. The standards and regulations of each existing class of child care agency shall be reviewed by a standards committee beginning every four (4) years following the date of submission of its last recommendations or more frequently as the commissioner may direct.

(c) The standards committee shall act in an advisory capacity to the commissioner in recommending any initial standards or regulations or any changes to the existing standards or regulations of any class of child care agency.

(d) The committee shall cease to exist upon submitting its recommendations to the commissioner, but may be re-established by the commissioner at any time to further review its recommendations or to consider additional standards or regulations or to consider revisions to the standards or regulations.

(e)(1) In making appointments to the committee, the commissioner shall strive to ensure that at least one (1) person serving on the committee is sixty (60) years of age or older and that at least one (1) person serving on the committee is a member of a racial

minority.

(2) Except as otherwise provided in this section, in making appointments to the standards committee, the department shall strive to ensure that the membership of the standards committee includes a balance of representatives of the regulated industry and persons whose expertise would be of assistance to the department. The department shall appoint child advocates, social workers, attorneys, and other persons with knowledge and expertise in the specified area, as well as citizen members to the committee.

(f) The members of the committee shall not receive any compensation for their services but shall be reimbursed for their travel to and from the committee meetings and for their meals and lodging in accordance with the state travel procedures and regulations.

37-5-520. Licensing for nontraditional child care agencies.

(a)(1) An individual or entity operating a nontraditional child care agency that serves or intends to serve children must be licensed by the department as

provided by this section.

(2)(A) The department may issue rules pursuant to the Uniform Administrative Procedures Act, compiled in title 4, chapter 5, part 2, for the licensing of individuals or entities subject to this part and the enforcement of appropriate standards for the health, safety, and welfare of children under the care or supervision of those individuals or entities.

(B) The rules of the department that are in effect on July 1, 2000, remain in effect until modified by regulatory action of the department to the extent the rules are not inconsistent with this part.

(3) The department shall develop the rules for nontraditional child care agencies, and shall base the continued approval of the licensing of a nontraditional child care agency, upon the following criteria:

(A) The safety, welfare, and best interests of the children in the care of the agency;

(B) The capability, training, and character of the individuals providing or supervising the care to the children;

(C) The quality of the methods of care and instruction provided for the children;

(D) The suitability of the facilities provided for the care of the children;

(E) The adequacy of the methods of administration and the management of the nontraditional child care agency, the agency's personnel policies, and the financing of the agency; and

(F) The present need for the nontraditional child care agency.

(b)(1) The department shall provide reasonable assistance to applicants or licensees in meeting the child care standards of the department, unless the circumstances demonstrate that further assistance is not compatible with the continued safety, health, or welfare of the children in the agency's care, and that regulatory action affecting the agency's license is warranted. Costs and expenses arising from or related to meeting the child care standards of the department are borne entirely by the applicant or licensee.

(2) If a licensee is denied the renewal of an existing license or an existing license is revoked, or if an applicant for a license cannot meet the standards, then the department shall assist in planning for the placement of the children in licensed nontraditional child care agencies, or other suitable care, return them to their own homes, or make other plans as are necessary and advisable to meet the particular needs of the children involved.

(c) Application for a license to operate a nontraditional child care agency must be made in writing to the department in a manner as the department determines and must be accompanied by the appropriate fee set forth in subsection (f).

(d)(1)(A)(i) Except as provided in subdivision (d)(1)(A)(ii), the department shall issue a temporary license to an applicant for a nontraditional child care agency license that is not the renewal of an existing license if the department determines that the applicant has presented satisfac-

tory evidence that:

(a) The facility that is proposed for the care of children:

(1) Complies with local and state building, fire, environmental, health, and safety laws and regulations; and

(2) Includes separate sleeping quarters for children of different genders;

(b) The applicant and the personnel who will care for the children are capable to care for the children;

(c) The applicant has the ability and intent to comply with the licensing law and rules; and

(d) The applicant has obtained liability insurance of no less than two million dollars (\$2,000,000).

(ii) The department shall not issue a temporary license for nontraditional child care agencies that federal law or regulations prohibit the department from licensing until all necessary licensing requirements are met.

(B) If the department determines that the conditions of the nontraditional child care agency license applicant's facility, its methods of care, or other circumstances warrant, then the department may issue a restricted license that limits the agency's authority in one (1) or more areas of operation.

(2) The purpose of the temporary license is to permit the nontraditional child care agency license applicant to demonstrate to the department that it has complied with all licensing laws and rules applicable to its classification prior to the issuance of an initial annual license.

(3) Within ninety (90) days of the issuance of the temporary license, the department shall determine if the applicant has complied with all licensing laws and rules governing the nontraditional child care agency for which the application was made.

(4)(A) If the department determines that the applicant has complied with all licensing laws and rules for the nontraditional child care agency for which the application was made, then the department shall issue an annual license.

(B) If the department determines that the conditions of the applicant's facility, its methods of care, or other circumstances warrant, then the department may issue a restricted license that limits the agency's authority in one (1) or more areas of operation.

(5)(A) In granting a license, the department may limit the total number of children who may be enrolled in the nontraditional child care agency regardless of whether the agency may have the physical capacity to care for more children.

(B) The department shall not approve a license for a nontraditional child care agency to provide care for more than twenty-five (25) children during the license period that must be transported across state lines to enter the agency's care and whose transport across state lines is not subject to the Interstate Compact for Juveniles, compiled in

chapter 4, part 1 of this title or the Interstate Compact on the Placement of Children, compiled in chapter 4, part 2 of this title.

(6) The licensee shall post the license in a clearly visible location as determined by the department so that persons visiting the agency can readily view the license.

(7) If the department fails to issue or deny an annual license within ninety (90) days of the granting of the temporary license, then the temporary license remains in effect, unless suspended, as provided in § 37-5-514, until a determination is made. If an annual license is denied following the issuance of a temporary license, and if a timely appeal is made of the denial of the annual license, then the temporary license remains in effect, unless suspended, until the board of review renders a decision regarding the denial of the annual license.

(8) If a temporary or annual license is denied, or an annual license is restricted, then the applicant may appeal the denial or restriction as provided in § 37-5-514.

(e)(1) Except as provided in this section, a license for a nontraditional child care agency is not transferable, and the transfer by sale or lease, or other manner, of the operation of the agency to another individual or entity voids the existing license immediately and a pending appeal involving the status of the license, and the agency is required to close immediately. If the transferee has made application for, and is granted, a temporary license, then the agency may continue operation under the direction of the new licensee. The new licensee in such circumstances must not be the transferor or an individual or entity acting on behalf of the transferor.

(2) If the department determines that an individual or entity has transferred nominal control of an agency to individuals or entities who are determined by the department to be acting on behalf of the purported transferor in order to circumvent a history of violations of the licensing law or rules or to otherwise attempt to circumvent the licensing law or rules or prior licensing actions instituted by the department, then the department may deny the issuance of a license to the applicant. The applicant may appeal the denial of the license as provided in § 37-5-514.

(3)(A) The department shall not void the license of an agency, nor void a pending appeal, pursuant to this subsection (e) solely for the reason that the agency is subject to judicial orders directing the transfer of control or management of a child care agency or its license to a receiver, trustee, administrator, or executor of an estate, or a similarly situated individual or entity.

(B) If the current licensee dies, and provided that no licensing violations require the suspension, denial, or revocation of the agency's license, then the department may grant family members of the licensee, or administrators or executors of the licensee, a temporary license to continue operation for a period of ninety (90) days. At the end of the

ninety-day period, the department shall determine whether an annual or extended license should be granted to a new licensee as otherwise provided in this section.

(C) This subsection (e) does not prevent the department from taking regulatory or judicial action as may be required pursuant to the licensing laws and rules that may be necessary to protect the children in the care of the agency.

(f) A nontraditional child care agency shall pay an application fee of twenty-five dollars (\$25.00). Additionally, the agency shall pay a fee of one hundred dollars (\$100) per child that the agency is licensed to care for during the licensure period.

(g) Licensure application and renewal fees collected by the department pursuant to this section must be paid into the general fund, but be earmarked for and dedicated to the department. The department shall use the earmarked fees exclusively to improve child care quality in this state by funding activities that include, but are not limited to, child care provider training activities, but excluding costs associated with conducting criminal background checks.

(h)(1) Notwithstanding title 13, chapter 7 to the contrary, upon adoption of a resolution by two-thirds (⅔) vote of the county legislative body, a zoning authority, in determining the suitability of a request for a use of property for the establishment or alteration of a nontraditional child care agency, may consider the criminal background of the persons or person making the request or the criminal background of the persons or person who will manage or operate the nontraditional child care agency. The authority may require the person to submit a fingerprint sample and a criminal history disclosure form. A criminal history records check conducted under this subdivision (h)(1) must be conducted by the Tennessee bureau of investigation or the federal bureau of investigation, or both, and the results of the check must be forwarded to the authority.

(2) The authority shall maintain the confidentiality of all criminal history records information received pursuant to this subsection (h).

(3) The zoning authority is responsible for all costs associated with obtaining the criminal background information.

(i) On or after July 1, 2022, an applicant seeking a license, including renewal of an existing license, must:

(1) Demonstrate compliance with the evidentiary requirements in subdivision (d)(1)(A)(i);

(2) Provide information regarding other entities operated by the applicant; and

(3) Disclose all contracts and agreements, including contract or agreement amendments, with third parties through which the applicant intends to provide placement, housing, or care services for children in this state.

37-5-521. Cause of action.

(1) Notify the department that the child will be transported; and

(2) Provide the department with identifying information as deemed appropriate by the department by rule.

(c) The department shall maintain the information described in subsections (a) and (b) in a database. The department shall provide access to the database to law enforcement and other individuals and entities as deemed appropriate by the department by rule and in accordance with all applicable law.

PART 6

MULTI-LEVEL RESPONSE SYSTEM FOR CHILDREN AND FAMILIES

37-5-601. Part definitions.

As used in this part, unless the context requires otherwise:

(1) "Family" means the members of a household living, on a full-time or a part-time basis, in one (1) house, condominium, apartment or other dwelling; people related by blood or ancestry, marriage, or adoption; any person who is holding out to the public as being a family member of a minor; foster parents and foster children; stepparents and stepchildren; and any other group that the department determines by policy or rule to constitute a family for purposes of this part; and

(2) "Maltreatment" means abuse as defined in § 37-1-102, or child sexual abuse as defined in § 37-1-602.

History.

Acts 2005, ch. 391, § 2.

37-5-602. Purposes.

(a) The purposes of this part are to safeguard and enhance the welfare of children and to preserve family life, by preventing harm and sexual abuse to children and by strengthening the ability of families to parent their children effectively through a multi-level response system using available community-based public and private services. It is intended that the department perform its function under this part pursuant to the belief that families can change the circumstances associated with the level of risk to a child, when they are provided with intensive and comprehensive services tailored to their strengths and needs. The department's fundamental assumptions shall be that most children are better off with their own families than in substitute care, and that separation has detrimental effects on both parents and children. Whenever possible, preservation of the family should serve as the framework for services, but, in any case, the best interests of the child shall be paramount.

(b) The further purpose of this part is to authorize and require the department to develop a demonstration program to carry out the purposes stated in subsection (a). A specific objective of the demonstration program is to reduce the incidence of children who are subjected to maltreatment. Until the program is in effect statewide, this part shall be in effect only in the areas in which the demonstration program is established.

History.

Acts 2005, ch. 391, § 3.

37-5-603. Establishment of demonstration program — State advisory committee — Reporting.

(a)(1) No later than July 1, 2006, the department shall establish a demonstration program that conforms to the requirements of this part and carries out its purposes in at least three (3) but no more than five (5) areas of the state selected by the department. The multi-level response system shall be designed to protect children from maltreatment, through the effective use of available community-based public and private services. The program should be staffed by case managers and other personnel and child protective services investigators, as called for in this part. There shall be at least one (1) area in each grand division of the state. Areas may be composed of any combination of one (1) or more counties. No later than July 1, 2007, the demonstration program shall be expanded to include a total of no less than ten (10) areas of the state selected by the department. No later than July 1, 2010, the program shall be implemented in all areas of the state.

(2) To facilitate accomplishment of the purposes of this part, the department shall establish a state advisory committee composed of representatives from the offices of the commissioners of correction, education, health, human services, mental health

and substance abuse services, and intellectual and developmental disabilities, the commission on children and youth, and any other state or community-based public or private agency or office that the department determines serves children or families in ways that might be used in the demonstration program. The department shall pursue the creation of such interagency agreements permitted by law as will enable the department to accomplish the purposes of this part.

(b) The department shall advise the governor, the judiciary committee of the senate, the civil justice committee of the house of representatives, and the health and welfare committee of the senate of the progress the department is making toward implementation of the program by providing them with a summary progress report highlighting key implementation activities, including, but not limited to, site selection, timelines, barriers to implementation, identification of needed resources, interagency cooperation, and progress in establishing local advisory committees, on October 1, 2005, and every six (6) months thereafter, until statewide implementation is achieved. After the first year of operation of the program, the department shall include in its report any recommendations for changes in the law, including whether there are any kinds of cases investigated under chapter 1, parts 4 and 6 of this title, that the experience of the department shows can be safely excluded from mandatory investigation under those parts.

Compiler's Notes.

Acts 2010, ch. 1100, § 153 provided that the commissioner of mental health and developmental disabilities, the commissioner of mental health, the commissioner of intellectual and developmental disabilities, and the commissioner of finance and administration are authorized to promulgate rules and regulations to effectuate the purposes of the act. All such rules and regulations shall be promulgated in accordance with the provisions of the Uniform Administrative Procedures Act, compiled in title 4, chapter 5.

37-5-604. Screening instrument — Assessment — Determination of level of intervention — Investigation of reports of harm or sexual abuse.

(a) Upon receipt of a report of harm pursuant to § 37-1-403, the department shall make an initial screening decision using an approved screening instrument. The screening instrument shall be developed by the department. If the report does not allege that the child has been harmed or that the child has been sexually abused, after reviewing the information available and using the screening instrument, the department shall determine whether the child is at risk of maltreatment. If the child is at risk of maltreatment, the department shall determine whether the appropriate level of intervention is:

(1) Investigation pursuant to chapter 1 of this title;

(2) Assessment of the child and the family's need for and referral to available community-based public or private services;

(3) Referral for available community-based public or private services without assessment or investigation; or

(4) No further action by the department.

(b) If the department receives a report under chapter 1, part 4 or part 6 of this title, that alleges a child has actually been harmed or sexually abused, the department shall investigate such report, with child protective services investigators, to the extent that they are available, pursuant to chapter 1, part 4 or part 6 of this title. The department also may proceed at the same time with assessment under this section.

(c) If the department determines that an assessment of the child and family is appropriate, the department shall give the parents, guardian, or others exercising parental authority, a written and oral explanation of the procedure for assessment of the child and family and its purposes. The assessment of the child and family and identification of service needs shall be based on information gathered from the family and other sources. The department shall have such face-to-face contact with the child, parents, other family members, and other sources, as is necessary to make the assessment reliable. If the parent is not present during contact with a child, the child's parent or guardian shall be contacted as soon as possible following contact with the child. The assessment of the child and family shall be completed within forty-five (45) days of receipt of the report. However, upon written justification by the department, the assessment of the child and family may be extended up to a total of sixty (60) days. The assessment of the child and family shall be in writing and shall be completed in accordance with department policy or regulations.

(d) Upon completion of the assessment of the child and family, the department shall consult with the family about available community-based public or private services to address the family's needs. When appropriate, families shall be offered services through the department, other public agencies, or community-based private agencies, which may include faith-based organizations, to promote meeting the needs of the family. The department may not require a family to participate in available public or private community-based services that it offers the family. If the family does not cooperate with the provision of community-based public or private services or provide alternative services of its own to meet such needs, then the department shall assess whether further steps should be taken to carry out the purposes of this part. If a family that declines services that are offered to them does not provide adequate alternative services of its own, the department shall inform the parents that their actions in declining services may be considered in future action by the department.

(e) If the department determines, under subsection (a), that the appropriate level of intervention is referral

for available community-based public or private services without assessment or investigation, then the department may refer the family for preventive community-based public or private services. Families have the option of declining services offered as a result of a report of harm that did not result in an investigation or assessment of the child and family. If the family declines the services, the case shall be closed, unless the local department determines that sufficient cause exists to redetermine the case as one that needs to be investigated or assessed. Any family that declines services offered to them shall be informed that their actions in declining services may be considered in evaluating any future reports of harm received by the department.

(f) The department shall commence an immediate investigation, if, at any time during the provision of services under this part, the department determines that an investigation is required by chapter 1, part 4 or part 6 of this title, and that investigation shall be conducted under those provisions. The district attorney general and law enforcement officials shall be informed of the investigation as required under those provisions.

(a) No later than October 1, 2007, the department shall submit to the governor, the health and welfare committee of the senate, the civil justice committee of the house of representatives, and the judiciary committee of the senate a report on the first full year of the demonstration program. No later than October 1, 2008, and each year thereafter until this part is implemented in all areas of the state, the department shall provide an annual report evaluating the demonstration project to the same parties. Upon request, all persons and groups to whom the annual report is distributed shall be entitled to receive a detailed explanation of the procedures used to evaluate the system and shall be given the raw data used to support the report. Outcomes to be evaluated in each of these reports shall include, but not be limited to, the following:

(v) Numbers and types of cases in which there were reports of harm or sexual abuse under chapter 1, part 4 or part 6 of this title, with respect to children in a family considered or served under this part;

(D) The extent to which the program has reduced the incidence of children who are subjected to harm or sexual abuse that would require a report under chapter 1, part 4 or part 6 of this title, or who otherwise would become eligible for services under chapter 1 of this title;

(E) To whom reports of harm or sexual abuse were determined to show that there had been no harm or sexual abuse or that those reports were invalid; and

(F) The type and amount of community-based public or private services received by families;

PART 3**PARENTAL CONSENT FOR ABORTIONS BY MINORS****37-10-301. Legislative intent and findings.**

(a) It is the intent of the general assembly in enacting this parental consent provision to further the important and compelling state interests of:

(1) Protecting minors against their own immaturity;

(2) Fostering the family structure and preserving it as a viable social unit; and

(3) Protecting the rights of parents to rear children who are members of their household.

(b) The general assembly finds as fact that:

(1) Immature minors often lack the ability to make fully informed choices that take into account of both immediate and long-range consequences;

(2) The medical, emotional, and psychological consequences of abortion are serious and can be lasting, particularly when the patient is immature;

(3) The capacity to become pregnant and the capacity for mature judgment concerning the wisdom of an abortion are not necessarily related;

(4) Parents ordinarily possess information essential to a physician's exercise of the physician's best medical judgment concerning the child; and

(5) Parents who are aware that their minor daughter has had an abortion may better ensure that their daughter receives adequate medical attention after the abortion.

(c) The general assembly further finds that parental consultation is usually desirable and in the best interests of the minor.

37-10-302. Part definitions.

As used in this part, unless the context otherwise requires:

(1) "Abortion" means the use of any instrument, medicine, drug, or any other substance or device with intent to terminate the pregnancy of a woman known to be pregnant with intent other than to increase the probability of a live birth, to preserve the life or health of the child after live birth, or to remove a dead fetus;

(2) "Emancipated minor" means any minor who is or has been married or has by court order or otherwise been freed from the care, custody and control of the minor's parents; and

(3) "Minor" means any person under eighteen (18) years of age.

Compiler's Notes.

Acts 1995, ch. 458, §§ 1, 2 provided for the revival, reenactment and placing in full effect the provisions of §§ 37-10-301 — 37-10-307, which require parental consent to perform an abortion on a minor.

37-10-303. Written consent required — Petition for waiver.

(a)(1) No person shall perform an abortion on an unemancipated minor unless such person or such person's agent first obtains the written consent of one (1) parent or the legal guardian of the minor. The consent shall be signed. The person shall obtain some written documentation, other than the written consent itself, that purports to establish the relationship of the parent or guardian to the minor and the

documentation, along with the signed consent, shall be retained by the person for a period of at least one (1) year. Failure of the person performing the abortion to obtain or retain the documentation and consent is a Class B misdemeanor, punishable only by a fine, unless the failure of the person performing the abortion to retain the required documentation was due to a bona fide, imminent medical emergency to the minor, in which case there is no violation.

(2) A person commits a Class A misdemeanor who impersonates the parent or legal guardian of an unemancipated minor for the purpose of circumventing the requirements of subdivision (a)(1).

(b) If neither a parent nor a legal guardian is available to the person performing the abortion or such person's agent, or the party from whom consent must be obtained pursuant to this section refuses to consent to the performance of an abortion, or the minor elects not to seek consent of the parent or legal guardian whose consent is required, then the minor may petition, on the minor's own behalf, or by next friend, the juvenile court of any county of this state for a waiver of the consent requirement of this section, pursuant to the procedures of § 37-10-304.

(c) If a criminal charge of incest is pending against a parent of such minor pursuant to § 39-15-302, the written consent of such parent, as provided for in subdivision (a)(1), is not required.

History.

Acts 1988, ch. 929, § 3; 1995, ch. 458, § 3; 2006, ch. 932, §§ 1, 3.

Compiler's Notes.

Acts 1995, ch. 458, §§ 1, 2 provided for the revival, reenactment and placing in full effect the provisions of §§ 37-10-301 — 37-10-307, which require parental consent to perform an abortion on a minor.

37-10-304. Applicability — Pseudonym — Counsel — Court proceedings — Appeals.

(a) The requirements and procedures under this part are available and apply to minors, whether or not they are residents of this state.

(b) The court shall ensure that the minor's identity is kept anonymous. The minor shall be allowed to proceed under a pseudonym and shall be allowed to sign all documents, including the petition, by that pseudonym. In any proceedings involving the use of a pseudonym by the minor, the court shall require one (1) copy of the petition to be filed, under seal, that contains the true name of the minor. This copy of the petition shall be kept in a separate file, under seal, and shall not be available for inspection by anyone, except as provided in subsection (h).

(c)(1) The minor may participate in proceedings in the court on the minor's own behalf or through a next friend. The court shall advise the minor that the minor has a right to court-appointed counsel and shall provide the minor with such counsel upon the minor's request. The state shall further provide a court-appointed advocate in each judicial district to give information regarding the legal process to the minor and to coordinate with the court-appointed

counsel. Such court-appointed advocates shall be compensated from funds appropriated for the reimbursement of court-appointed counsel.

(2) [Deleted by 2020 amendment.]

(d) Court proceedings under this section shall be given such precedence over other pending matters as is necessary to ensure that the court may reach a decision promptly, but in no case shall the court fail to rule within forty-eight (48) hours of the time of application; provided, that the forty-eight-hour limitation may be extended at the request of the minor. If, for any reason except the request of the minor, the court shall not have ruled within forty-eight (48) hours, the minor may deem the petition denied and immediately appeal the denial as provided in subsection (g). This provision is not deemed to restrict or forbid any other remedy now existing or hereafter enacted in such a situation.

(e) The consent requirement shall be waived if the court finds either that:

(1) The minor is mature and well-informed enough to make the abortion decision on the minor's own; or

(2) The performance of the abortion would be in the minor's best interests.

(f) A court that conducts proceedings under this section shall issue written and specific factual findings and legal conclusions supporting its decision and shall order that a confidential record of the evidence be maintained.

(g) An expedited, anonymous appeal shall be available to any minor. The appeal shall be de novo to the circuit court for the county in which the juvenile court is located. The appeal may be heard by the circuit court judge sitting in another county if necessary to meet the time limitations of this section. A notice of appeal shall be filed within twenty-four (24) hours of the decision by the juvenile court, but may be filed at any time, if the juvenile court has not ruled within forty-eight (48) hours of the filing of the petition. The record from the juvenile court must be received in the circuit court and the appeal docketed there within five (5) calendar days of the filing of the notice of appeal. The appeal shall be heard and a decision rendered by the circuit court within five (5) calendar days from when the case is docketed in the circuit court. For the purpose of expediting the appellate procedure under this section, the time requirements of this section may be reduced by the Tennessee supreme court pursuant to its rulemaking authority in order to ensure an expedited appeal. The decision of the circuit court shall be appealable to the Tennessee supreme court in an anonymous and expedited manner as provided by the rules of the Tennessee supreme court. Jurisdiction under this section will remain in the Tennessee supreme court, notwithstanding any other statute or rule to the contrary.

(h) All court files, documents, exhibits, and all other records lodged in or subject to the control of the court shall be kept confidential and under seal. Statistical summaries of these proceedings may be compiled for such reporting purposes as the supreme court may by rule require or allow. However, no information shall be released for these purposes that would tend to identify any minor who has made use of this procedure.

(i) The supreme court is respectfully requested to promulgate any rules necessary to ensure that proceedings under this part are handled in an expeditious and anonymous manner, including any amendments to the Tennessee Rules of Appellate Procedure, Tennessee Rules of Civil Procedure and Tennessee Rules of Juvenile Procedure.

(j) No fees shall be required of any minor who makes use of the procedures provided by this section.

(1) "Missing citizen" has the same meaning as defined in § 38-6-121;

(2) "Regional forensic center" means a facility accredited by the National Association of Medical Examiners at which autopsies are performed pursuant to § 38-7-105; and

(3) "Unidentified body" means human remains which are unidentified after all available methods have been exhausted.

(c)(1) In all cases in which the county medical examiner is not satisfied with the decedent's identification the body shall be referred for examination to a regional forensic center.

(2) The regional forensic center shall furnish the Tennessee bureau of investigation (TBI) and the National Missing and Unidentified Persons System created by the United States department of justice's national institute of justice (NamUs), if physically possible, with copies of fingerprints on standardized eight inch by eight inch (8" x 8") fingerprint cards or the equivalent digital image; prints or partial prints of any fingers; any forensic odontology report concerning the body; detailed personal descriptions; DNA results; and all other identifying data, including date and place of death, of all deceased persons whose deaths are in a classification requiring inquiry by the medical examiner and who remain unidentified after all available methods have been exhausted.

(d)(1) When any person makes a report of a missing person to a law enforcement agency, the agency shall immediately request a member of the family or next of kin of the missing person to authorize the release to local law enforcement of the dental records of the person reported missing. If the person reported missing is still missing thirty (30) days after the report is made, the law enforcement agency shall deliver the release to the dentist or dentists of the missing

person, and request the dentist or dentists to deliver such records, including dental x-rays, to the local law enforcement agency.

(2) If the person reported missing has not been found within the first thirty (30) days and no family or next of kin exists or can be located, the law enforcement agency may execute a written declaration, stating that an active investigation seeking the location of the missing person is being conducted and that the dental records are necessary for the exclusive purpose of furthering the investigation. Such written declaration, signed by a law enforcement officer, is sufficient authority for the dentist or dentists to release the missing person's dental records, including dental x-rays, to the local law enforcement agency, and shall not be the basis for disciplinary action pursuant to § 63-5-124. Upon receipt of a properly executed release and request or declaration, the dentist or dentists shall forward the dental records, including dental x-rays, to local law enforcement, where a file shall be maintained concerning persons reported as missing and who have not been reported as found. (f) If the TBI receives the report of a missing citizen, the TBI shall maintain a record of the case file. The TBI shall promulgate rules relating to the dissemination of the records. The rules shall require that, pursuant to this subsection (f), the process of releasing the records shall take no longer than forty-eight (48) hours from the time the TBI receives a report that a citizen, for whom there is a previous record, is missing. The record may be disseminated if the individual to whom the record pertains is reported missing on a subsequent occasion or if needed for evidentiary purposes in any civil litigation against the TBI or its personnel that arises from the investigation. In the event that there are grounds for a criminal action arising from the investigation, nothing in this subsection (f) shall prohibit the TBI from allowing the records to remain until criminal action is concluded or otherwise resolved.

(g) The information contained in the TBI's missing person files shall be made available to NamUs and to law enforcement agencies attempting to locate missing persons.

(h) No law enforcement agency shall establish or maintain any policy which requires the observance of a waiting period before accepting and investigating a missing child report. Upon receipt of a report of a missing child, a law enforcement agency shall enter the child into the National Crime Information Center (NCIC) pursuant to federal bureau of investigation mandate, which is two (2) hours from the time the child is reported missing to law enforcement.

(i) When a person previously reported missing has been found, the sheriff, chief of police, medical examiner, regional forensic center, or other law enforcement agency shall report to the TBI and to NamUs within twenty-four (24) hours that the person has been found.

(j) Nothing in this section prohibits law enforcement agencies or regional forensic centers from maintaining case files related to missing citizens or unidentified bodies.

(k) Nothing in this section supersedes the authority of the regional forensic center to obtain dental records, including charts and x-rays in cases in which these records are necessary for the identification of human remains as authorized in § 38-7-117.

(d) At least thirty (30) days prior to trial, the state shall file with the court a written notice identifying the multiple acts of sexual abuse of a child upon which the violation of this section is based. The notice shall

include the identity of the victim and the statutory offense violated. Upon good cause, and where the defendant was unaware of the predicate offenses listed in the notice, the trial court may grant a continuance to facilitate proper notification of the incidents of sexual abuse of a child and for preparation by the defense of such incidents specified in the statement.

(e) The jury must agree unanimously that the defendant:

(1)(A) During a period of ninety (90) or more days in duration, committed three (3) or more acts of sexual abuse of a child; or

The state shall not be required to elect submission to the jury of the several counts. The jury shall be instructed to return a verdict on all counts in the indictment. In the event that a verdict of guilty is returned on a separate count that was included in the notice of separate incidents of sexual abuse of a child and the jury returns a verdict of guilty for a violation of this section, at the sentencing hearing the trial judge shall merge the separate count into the conviction under this section and only impose a sentence under this section. A conviction for a violation of this section bars the prosecution of the individual incidents of sexual abuse of a child as separate offenses described in the pretrial notice filed by the state and presented to the jury. A prosecution for a violation of this section does not bar a prosecution in the same action for individual incidents of sexual abuse not identified in the state's pretrial notice. The state shall be required to elect as to those individual incidents of sexual abuse not contained in the pretrial notice prior to submission to the jury. A conviction for such elected offenses shall not be subject to merger at sentencing.

(g) Notwithstanding any other law to the contrary, a person convicted of a violation of this section shall be punished by imprisonment and shall be sentenced from within the full range of punishment for the offense of which the defendant was convicted, regardless of the range for which the defendant would otherwise qualify.

If the mercantile establishment does not send a written demand or other document to the adult, parent or guardian, the district attorney general must be notified and must consent, either orally or in writing, to the use of this section in lieu of criminal prosecution.

(j) Whenever a retail merchant, the merchant's agent, or the merchant's employee apprehends an adult or minor who has committed theft as described in subsection (a), the merchant, agent, or employee shall not at that time enter into any written agreement to accept civil damages in lieu of criminal penalties or actually accept any civil damages.

Compiler's Notes.

Former § 39-15-201 concerned criminal abortion and attempt to procure criminal miscarriage, penalties, lawful previability abortions and attempts to procure miscarriage, and requirements.

The sentencing commission terminated June 30, 1995. Sentencing Commission Comments have been retained, but do not reflect 1995 or subsequent legislation.

39-15-202. Consent of pregnant woman required prior to abortion — Information provided by doctor — Waiting period — Penalty for violation — Requirements inapplicable in certain cases.

(a) Except in a medical emergency that prevents compliance with this subsection (a), no abortion shall be performed or induced upon a pregnant woman unless the woman has provided her informed written consent, given freely and without coercion. Such consent shall be treated as confidential.

(b) In order to ensure that a consent for an abortion is truly informed consent, except in a medical emergency that prevents compliance with this subsection (b) or any of the requirements of subdivisions (b)(1)-(5), no abortion shall be performed or induced upon a pregnant woman unless she has first been informed orally and in person by the attending physician who is to perform the abortion, or by the referring physician, of the following facts and has signed a consent form acknowledging that she has been informed as follows:

(1) That according to the best judgment of her attending physician or referring physician she is pregnant;

(2)(A) The probable gestational age of the unborn child at the time the abortion is to be performed, based upon the information provided by her as to the time of her last menstrual period or after a history, physical examination, and appropriate laboratory tests;

(B) If an ultrasound is performed as part of the examination prior to performing the abortion, the person who performs the ultrasound shall offer the woman the opportunity to learn the results of the ultrasound. If the woman elects to learn the results of the ultrasound, the person who performs the ultrasound or a qualified healthcare provider in the facility performing the ultrasound shall, in addition to any other information provided, inform the woman of the presence or absence of a fetal heartbeat and document the patient has been informed;

(3) That if twenty-four (24) or more weeks have elapsed from the first day of her last menstrual period or twenty-two (22) or more weeks have elapsed from the time of conception, her unborn child may be viable, that is, capable of sustained survival outside of the womb, with or without medical assistance, and that if a viable child is prematurely born alive in the course of an abortion, the physician performing the abortion has a legal obligation to take steps to preserve the life and health of the child;

(4) That numerous public and private agencies and services are available to assist her during her pregnancy and after the birth of her child, if she chooses not to have the abortion, whether she wishes to keep her child or place the child for adoption, and that her attending physician or referring physician will provide her with a list of the agencies and the services available if she so requests; and

(5) The normal and reasonably foreseeable medical benefits, risks, or both of undergoing an abortion or continuing the pregnancy to term.

(c) Except in a medical emergency that prevents compliance with this subsection (c), at the same time the attending physician or referring physician provides the information required by subsection (b), that physician shall inform the pregnant woman of the particular risks associated with her pregnancy and continuing the pregnancy to term, based upon the information known to the physician, as well as the risks of undergoing an abortion, along with a general description of the method of abortion to be used and the medical instructions to be followed subsequent to the abortion.

(d)(1) Except in a medical emergency that prevents compliance with this subdivision (d)(1), no abortion shall be performed until a waiting period of forty-eight (48) hours has elapsed after the attending physician or referring physician has provided the information required by subsections (b) and (c), including the day on which the information was provided. After the forty-eight (48) hours have elapsed and prior to the performance of the abortion, the patient shall sign the consent form required by subsection (b).

(2) If any court temporarily, preliminarily, or permanently enjoins enforcement of subdivision (d)(1) or

declares it unconstitutional, then the waiting period imposed by subdivision (d)(1) shall be twenty-four (24) hours, subject to the same medical emergency exception. If the injunction or declaration is subsequently vacated or reversed, the waiting period shall revert to forty-eight (48) hours.

(e) Except in a medical emergency that prevents compliance with subsection (b), the physician performing or inducing the abortion shall provide the pregnant woman with a duplicate copy of the consent form signed by her.

(f)(1) For purposes of subsections (a), (b), (c), (d), and (e), a medical emergency is a condition that, on the basis of the physician's good faith medical judgment, so complicates a medical condition of a pregnant woman as to necessitate an immediate abortion of her pregnancy to avert her death or for which a delay will create serious risk of substantial and irreversible impairment of major bodily function.

(2) When a medical emergency compels the performance of an abortion, the physician shall inform the woman, prior to the abortion if possible, of the medical reasons supporting the physician's judgment that an abortion is necessary to avert her death or to avert substantial and irreversible impairment of major bodily function.

(3) In any case in which a physician has determined that a medical emergency exists that excuses compliance with subsection (a), (b), (c), or (d), the physician shall state in the pregnant woman's medical records the basis for such determination.

(g) For purposes of this section, "the physician", "the attending physician", or "the referring physician" means any person who is licensed to practice medicine or osteopathy in this state.

(h)(1) An intentional or knowing violation of subsection (a), (b), (c), or (d), or subdivision (f)(2) by a physician is a Class E felony.

(2) An intentional, knowing, or reckless violation of subsection (e) or subdivision (f)(3) by a physician is a Class A misdemeanor.

(3) In addition to subdivisions (h)(1) and (2), any physician who intentionally, knowingly, or recklessly violates this section is guilty of unprofessional conduct and such physician's license for the practice of medicine and surgery or osteopathy shall be subject to suspension or revocation in accordance with the procedures provided under title 63, chapters 6 and 9.

(i)(1)(A) Any private physician's office, ambulatory surgical treatment center, or other facility or clinic in which abortions, other than abortions necessary to prevent the death of the pregnant female, are performed shall conspicuously post a sign in a location defined in subdivision (i)(1)(C) so as to be clearly visible to patients, which reads:

Notice: It is against the law for anyone, regardless of the person's relationship to you, to coerce you into having or to force you to have an abortion. By law, we cannot perform an abortion on you unless we have your freely given and voluntary consent. It is against the law to perform an abortion on you against your will. You have the right to contact any

local or state law enforcement agency to receive protection from any actual or threatened criminal offense to coerce an abortion.

(B) The sign required pursuant to subdivision (i)(1)(A) shall be printed in languages appropriate for the majority of clients of the facility with lettering that is legible and that is Arial font, at least 40-point bold-faced type.

(C) A facility in which abortions are performed that is a private physician's office or an ambulatory surgical treatment center shall post the required sign in each patient waiting room and patient consultation room used by patients on whom abortions are performed. A hospital or any other facility in which abortions are performed that is not a private physician's office or ambulatory surgical treatment center shall post the required sign in the admissions or registration department used by patients on whom abortions are performed.

(2)(A) An ambulatory surgical treatment center or other licensed facility shall be assessed a civil penalty by the board for licensing health care facilities of two thousand five hundred dollars (\$2,500) for each day of violation in which:

(i) The sign required in subdivision (i)(1)(A) was not posted during business hours when patients or prospective patients were present; and

(ii) An abortion other than an abortion necessary to prevent the death of the pregnant female was performed in the ambulatory surgical treatment center or other licensed facility.

(B) A licensed physician shall be assessed a civil penalty by the physician's title 63 medical licensing board of one thousand dollars (\$1,000) for each day of violation in which:

(i) The sign required in subdivision (i)(1)(A) was not posted during business hours when patients or prospective patients were present at the private physician's office or clinic; and

(ii) The physician performed an abortion in the private physician's office.

(3) The penalty provided for in subdivision (i)(2) is in addition to any other remedies applicable under other law, and subdivision (i)(2) does not preclude prosecution and conviction under any applicable criminal law.

(j)(1) A physician may not perform an abortion unless the physician has admitting privileges at a hospital licensed under title 68 that is located:

(A) In the county in which the abortion is performed; or

(B) In a county adjacent to the county in which the abortion is performed.

(2) The physician who performs an abortion or a healthcare provider licensed pursuant to title 63 under the supervision of the physician shall notify the patient of the location of the hospital at which the physician has privileges and where the patient may receive follow-up care by the physician if complications arise.

(a) A physician performing an abortion shall keep a record of each procedure and of the disposition of the aborted fetus or aborted fetal tissue. The physician shall make a report to the commissioner of health with respect thereto at the time and in the form as the commissioner may reasonably prescribe. If the procedure is solely a medication termination and the expulsion of the aborted fetus or aborted fetal tissue does not take place at the facility or clinic where the procedure took place, the physician shall not be required to keep a record of the disposition or report such disposition to the commissioner.

(b)(1) The physician shall note in the section regarding the disposition of the aborted fetus or aborted fetal tissue the method of disposition.

(a) For purposes of this section, unless the context otherwise requires:

(1) "Partial-birth abortion" means an abortion in which the person performing the abortion partially vaginally delivers a living fetus before killing the fetus and completing the delivery; and

(2) "Vaginally delivers a living fetus before killing the fetus" means deliberately and intentionally delivers into the vagina a living fetus, or a substantial portion of a living fetus, for the purpose of performing a procedure the physician knows will kill the fetus, and kills the fetus.

(b) No person shall knowingly perform a partial-birth abortion.

(c) Subsection (b) shall not apply to a partial-birth abortion that is necessary to save the life of the mother whose life is endangered by a physical disorder, illness or injury.

(d)(1) A defendant accused of an offense under this section may seek a hearing before the state medical board that licenses the physician, on whether the physician's conduct was necessary to save the life of the mother whose life was endangered by a physical disorder, illness or injury.

(2) The findings on that issue are admissible on that issue at the trial of the defendant. Upon a motion of the defendant, the court shall delay the beginning of the trial for not more than thirty (30) days to permit the hearing to take place.

§ 37-1-605, because the physician has been requested to perform an abortion on a minor who is less than thirteen (13) years of age, the physician shall, at the time of the report, also notify the official to whom the report is made of the date and time of the scheduled abortion and that a sample of the embryonic or fetal tissue extracted during the abortion will be preserved and available to be turned over to the appropriate law enforcement officer conducting the investigation into the rape of the minor.

(2) If a minor who is at least thirteen (13) but no more than seventeen (17) years of age requests a physician to perform an abortion and the physician has reasonable cause to believe there is child sexual abuse involved as defined by § 37-1-602, the physician shall report the abuse pursuant to § 37-1-605. This subdivision (b)(2) shall apply only when a physician performs elective abortion services as a part of their practice.

(c)(1) In the transmission of the embryonic or fetal tissue sample to the appropriate law enforcement officer, in order to protect the identity and privacy of the minor, all identifying information concerning the minor shall be treated as confidential and shall not be released to anyone other than the investigating and prosecuting authorities directly involved in the case of the particular minor.

39-15-211. Abortion prohibited if fetus viable — Affirmative defense — Rebuttable presumption — Revocation of license.

(a) As used in this section and in § 39-15-212:

(1) "Abortion" means the use of any instrument, medicine, drug, or any other substance or device with intent to terminate the pregnancy of a woman known to be pregnant with intent other than to increase the

probability of a live birth, to preserve the life or health of the child after live birth, or to remove a dead fetus;

(2) "Gestational age" or "gestation" means the age of an unborn child as calculated from the first day of the last menstrual period of a pregnant woman;

(3) "Medical emergency" means a condition that, in the physician's good faith medical judgment, based upon the facts known to the physician at the time, so complicates the woman's pregnancy as to necessitate the immediate performance or inducement of an abortion in order to prevent the death of the pregnant woman or to avoid a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman that delay in the performance or inducement of the abortion would create;

(4) "Pregnant" means the human female reproductive condition, of having a living unborn child within her body throughout the entire embryonic and fetal stages of the unborn child from fertilization to full gestation and childbirth;

(5) "Serious risk of the substantial and irreversible impairment of a major bodily function" means any medically diagnosed condition that so complicates the pregnancy of the woman as to directly or indirectly cause the substantial and irreversible impairment of a major bodily function. Such conditions include preeclampsia, inevitable abortion, and premature rupture of the membranes and, depending upon the circumstances, may also include, but are not limited to, diabetes and multiple sclerosis, but does not include any condition relating to the woman's mental health;

(6) "Unborn child" means an individual living member of the species, homo sapiens, throughout the entire embryonic and fetal stages of the unborn child from fertilization to full gestation and childbirth; and

(7) "Viable" and "viability" mean that stage of fetal development when the unborn child is capable of sustained survival outside of the womb, with or without medical assistance.

(b)(1) No person shall purposely perform or induce, or attempt to perform or induce, an abortion upon a pregnant woman when the unborn child is viable.

(2) It shall be an affirmative defense to any criminal prosecution brought under subdivision (b)(1) that the abortion was performed or induced, or attempted to be performed or induced, by a licensed physician and that the physician determined, in the physician's good faith medical judgment, based upon the facts known to the physician at the time, that either:

(A) The unborn child was not viable; or

(B) The abortion was necessary to prevent the death of the pregnant woman or to prevent serious risk of substantial and irreversible impairment of a major bodily function of the pregnant woman. No abortion shall be deemed authorized under this subdivision (b)(2)(B) if performed on the basis of a claim or a diagnosis that the woman will engage in conduct which would result in her death or substantial and irreversible impairment of a major bodily function or for any reason relating to her

mental health.

(3) Except in a medical emergency that prevents compliance with the viability determination required by § 39-15-212, the affirmative defense set forth in subdivision (b)(2)(A) does not apply unless the physician who performs or induces, or attempts to perform or induce, the abortion makes the viability determination required by § 39-15-212 and, based upon that determination, certifies in writing that, in such physician's good faith medical judgment, the unborn child is not viable.

(4) Except in a medical emergency that prevents compliance with one (1) or more of the following conditions, the affirmative defense set forth in subdivision (b)(2)(B) does not apply unless the physician who performs or induces, or attempts to perform or induce, the abortion complies with each of the following conditions:

(A) The physician who performs or induces, or attempts to perform or induce, the abortion certifies in writing that, in such physician's good faith medical judgment, based upon the facts known to the physician at the time, the abortion is necessary to prevent the death of the pregnant woman or to prevent a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman;

(B) Another physician who is not associated in a practice with the physician who intends to perform or induce the abortion certifies in writing that, in such physician's good faith medical judgment, based upon the facts known to the physician at the time, the abortion is necessary to prevent the death of the pregnant woman or to prevent a serious risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman;

(C) The physician performs or induces, or attempts to perform or induce, the abortion in a hospital that has appropriate neonatal services for premature infants. This requirement does not apply if there is no hospital within thirty (30) miles with neonatal services and the physician who intends to perform or induce the abortion has admitting privileges at the hospital where the abortion is to be performed or induced;

(D) The physician who performs or induces, or attempts to perform or induce, the abortion terminates or attempts to terminate the pregnancy in the manner that provides the best opportunity for the unborn child to survive, unless that physician determines, in such physician's good faith medical judgment, based upon the facts known to the physician at the time, that the termination of the pregnancy in that manner poses a significantly greater risk of the death of the pregnant woman or a significantly greater risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman than would other available methods of abortion;

(E) The physician certifies in writing the available methods or techniques considered and the reasons for choosing the method or technique em-

ployed; and

(F) The physician who performs or induces, or attempts to perform or induce, the abortion has arranged for the attendance in the same room in which the abortion is to be performed or induced, or attempted to be performed or induced, at least one (1) other physician who is to take control of, provide immediate medical care for, and take all reasonable steps necessary to preserve the life and health of the unborn child immediately upon the child's complete expulsion or extraction from the pregnant woman.

(5) For purposes of this section, there shall be a rebuttable presumption that an unborn child of at least twenty-four (24) weeks gestational age is viable.

(6) A violation of subdivision (b)(1) is a Class C felony.

(7) The applicable licensing board shall revoke the license of any person licensed to practice a healthcare profession in this state who violates subdivision (b)(1), in accordance with the Uniform Administrative Procedures Act, compiled in title 4, chapter 5, without regard to whether the person has been charged with or has been convicted of having violated subdivision (b)(1) in a criminal prosecution. In any proceeding brought by the board of medical examiners or the board of osteopathic examination to revoke the license of a physician for violating subdivision (b)(1), a physician who has not been convicted in a criminal prosecution of having violated subdivision (b)(1) may raise the affirmative defense set forth in subdivision (b)(2).

(8) A pregnant woman upon whom an abortion is performed or induced, or attempted to be performed or induced, in violation of subdivision (b)(1) is not guilty of violating subdivision (b)(1), or of attempting to commit or conspiring to commit a violation of subdivision (b)(1).

(c) Neither this section nor § 39-15-212 repeals or limits § 39-15-202, § 39-15-209, or any other law that restricts or regulates the performance of an abortion or attempt to procure a miscarriage.

39-15-212. Viability determination.

(a) Except in a medical emergency that prevents compliance with this subsection (a), no physician shall perform or induce, or attempt to perform or induce, an abortion upon a pregnant woman after the beginning of the twentieth week of pregnancy, as measured by gestational age, unless, prior to the performance or inducement of the abortion, or the attempt to perform or induce the abortion, the physician determines, in the physician's good faith medical judgment, that the unborn child is not viable. In making the good faith

medical determination, the physician shall perform a medical examination of the pregnant woman and assess gestational age, weight, bi-parietal diameter, and other factors that the physician in the physician's good faith medical judgment would consider in determining whether an unborn child is viable.

(b) Except in a medical emergency that prevents compliance with this subsection (b), no physician shall perform or induce, or attempt to perform or induce, an abortion upon a pregnant woman after the beginning of her twentieth week of pregnancy (as measured by gestational age), without first entering the determination made in subsection (a) and the associated findings of the medical examination and assessment described in subsection (a) in the medical record of the pregnant woman.

(c) A violation of subsection (a) or (b) is a Class A misdemeanor.

(d) The appropriate licensing authority shall suspend, for a period of not less than six (6) months, the medical license of a physician who violates subsection (a) or (b).

(a) As used in this section:

(1) "Abortion" means the use of any instrument, medicine, drug, or any other substance or device with intent to terminate the pregnancy of a woman known to be pregnant with intent other than to increase the probability of a live birth, to preserve the life or health of the child after live birth, to terminate an ectopic or molar pregnancy, or to remove a dead fetus;

(2) "Fertilization" means that point in time when a male human sperm penetrates the zona pellucida of a female human ovum;

(3) "Pregnant" means the human female reproductive condition of having a living unborn child within her body throughout the entire embryonic and fetal stages of the unborn child from fertilization until birth; and

(4) "Unborn child" means an individual living member of the species, homo sapiens, throughout the entire embryonic and fetal stages of the unborn child from fertilization until birth.

(b) A person who performs or attempts to perform an abortion commits the offense of criminal abortion. Criminal abortion is a Class C felony.

(c)(1) Notwithstanding subsection (b), a person who performs or attempts to perform an abortion does not commit the offense of criminal abortion if the abortion is performed or attempted by a licensed physician in a licensed hospital or ambulatory surgical treatment center and the following conditions are met:

(A) The physician determined, using reasonable medical judgment, based upon the facts known to the physician at the time, that the abortion was necessary to prevent the death of the pregnant woman or to prevent serious risk of substantial and irreversible impairment of a major bodily function of the pregnant woman; and

(B) The physician performs or attempts to perform the abortion in the manner which, using reasonable medical judgment, based upon the facts known to the physician at the time, provides the best opportunity for the unborn child to survive, unless using reasonable medical judgment, termination of the pregnancy in that manner would pose a greater risk of death to the pregnant woman or substantial and irreversible impairment of a major bodily function.

(2) An abortion is not authorized under subdivision (c)(1)(A) and a greater risk to the pregnant woman does not exist under subdivision (c)(1)(B) if either determination is based upon a claim or a diagnosis that the pregnant woman will engage in conduct that would result in her death or the substantial and irreversible impairment of a major bodily function or for any reason relating to the pregnant woman's mental health.

(d) Medical treatment provided to the pregnant woman by a licensed physician which results in the accidental death of or unintentional injury to or death of the unborn child shall not be a violation of this section.

(e) This section does not subject the pregnant woman upon whom an abortion is performed or attempted to criminal conviction or penalty.

(f) While this section is in effect, this section supercedes §§ 39-15-211, 39-15-212, 39-15-214, 39-15-215, 39-15-216, 39-15-217, and 39-15-218.

39-15-214. Findings — Purpose.

(a) **Findings.** The general assembly finds:

(1) As the Supreme Court has stated in *Planned Parenthood v. Casey*, 505 U.S. 833, 852 (1992), “Abortion is a unique act” and is “fraught with consequences...for the woman who must live with the implications of her decision.” As the Supreme Court stated in *Gonzales v. Carhart*, 550 U.S. 124, 159 (2007) “it seems unexceptionable to conclude some women come to regret their choice to abort the infant life they once created and sustained. Severe depression and loss of esteem can follow.” The Supreme Court has acknowledged, in *Casey* at 882, that the effect of an abortion on the life of the unborn child is “relevant, if not dispositive” information for the patient’s decision;

(2) Current standards of medical care mandate the performance of an ultrasound prior to the performance of inducing of an abortion. Determining accurate information regarding gestational development is important for purposes of informed consent, as well as making essential preparation for the procedure itself;

(3) In this state ultrasounds are regularly provided to women seeking an abortion to determine if they are eligible for a medication abortion, and to review other factors related that cannot be determined prior to an examination of the patient;

(4) In the forty-seven (47) years since the United States Supreme Court’s ruling in *Roe v. Wade*, 410 U.S. 113 (1973), there have been substantial advances in scientific methods and medical technology that have significantly expanded knowledge and understanding of prenatal life and development, and the effects of abortion on the physical and psychological health of women;

(5) At conception, a new and genetically distinct human being is formed;

(6) The state has a legitimate, substantial, and compelling interest in protecting the rights of all human beings, including the fundamental and absolute right of unborn human beings to life, liberty, and all rights protected by the Fourteenth and Ninth Amendments to the United States Constitution;

(7) The presence of a fetal heartbeat is medically significant because the heartbeat is a discernible sign of life at every stage of human existence;

(8) An unborn child’s heart begins to beat at five (5) weeks gestational age, and blood begins to flow during the sixth week;

(9) Depending on what type of equipment is utilized, an unborn child’s heartbeat can be detected as early as six (6) to eight (8) weeks gestational age;

(10) An unborn child’s heartbeat can consistently be made audible using a handheld Doppler fetal heart rate device by twelve (12) weeks gestational age;

(11) A pregnancy can be confirmed through the detection of the unborn child’s heartbeat;

(12) By the beginning of the second trimester, physicians view the absence of a fetal heartbeat as an instance of fetal death;

(13) It is standard medical practice to monitor an unborn child’s heartbeat throughout pregnancy and

labor to measure the heart rate and rhythm of the unborn child, which averages between one hundred ten (110) and one hundred sixty (160) beats per minute. This monitoring is used as an indicator of the health of the unborn child;

(14) Since the Supreme Court’s decision in *Roe v. Wade*, medical professionals have expanded their understanding of life in utero to include, among other indicia, the presence of a heartbeat, brain development, a viable pregnancy or viable intrauterine pregnancy during the first trimester of pregnancy, and the ability to experience pain;

(15) The presence of a fetal heartbeat is the best indicator of a viable pregnancy. The detectability of a fetal heartbeat is a strong predictor of survivability to term, especially if the heartbeat is present at eight (8) weeks gestational age or later;

(16) When a fetal heartbeat is detected between eight (8) and twelve (12) weeks gestational age, the rate of miscarriage is extremely low, with approximately ninety-eight percent (98%) of naturally conceived pregnancies carrying to term;

(17) At eight (8) weeks gestational age, an unborn child begins to show spontaneous movements, and reflexive responses to touch. The majority of an unborn child’s body is responsive to touch by fourteen (14) weeks gestational age;

(18) Peripheral cutaneous sensory receptors, which are the receptors that feel pain, develop in an unborn child at around seven (7) to eight (8) weeks gestational age. Sensory receptors develop in the palmar regions during the tenth week of gestational age, growing throughout the unborn child’s body by sixteen (16) weeks gestational age;

(19) An unborn child’s nervous system is established by six (6) weeks gestational age. At this stage, the basic patterning of the early nervous system is in place and is the basis for tremendous growth and increased complexity built upon this basic pattern. The earliest neurons of the cortical brain, responsible for thinking, memory, and higher level functions, are established by the fourth week;

(20) Synapses are formed in the seventh week, and the neural connections for the most primitive responses to pain are in place by ten (10) weeks gestation;

(21) Substance P, a peptide functioning as a neurotransmitter in the transmission of pain, is present in the spinal cord of an unborn child at eight (8) weeks gestational age, while enkephalin peptides, which serve as neurotransmitters in pain modulation, are present at twelve (12) to fourteen (14) weeks gestational age;

(22) There is significant evidence, based on peer-reviewed scientific studies, that unborn children are capable of experiencing pain by no later than twenty (20) weeks gestational age. Pain receptor nerves are already present throughout the human body by twenty (20) weeks gestation, and the cortex, which begins development at eight (8) weeks, has a full complement of neurons at twenty (20) weeks;

(23) There is evidence that an unborn child is capable of feeling pain as early as twelve (12) to

fifteen (15) weeks gestational age. The scientific evidence shows that significant cortical neuronal connections are in place by ten (10) to twelve (12) weeks gestation, and that connections between the spinal court and thalamus are nearly complete by twenty (20) weeks gestation;

(24) A growing body of medical evidence and literature supports the conclusion that an unborn child may feel pain from around eleven (11) to twelve (12) weeks gestational age, or even as early as five and a half (5½) weeks. At only eight (8) weeks gestation, an unborn child exhibits reflexive movement during invasive procedures resulting from spinal reflex neuro pathways, showing that the unborn child reacts to noxious stimuli with avoidance reactions and stress responses. By sixteen (16) weeks gestational age, pain transmission from a peripheral receptor to the cortex is possible. Significant evidence also shows hormonal stress responses by unborn children as early as eighteen (18) weeks;

(25) Mothers considering abortion express concern over the medical information on fetal neurological development and an unborn child's ability to feel pain while in utero, and providing this information to mothers who are considering abortion is an important part of empowering mothers to make a fully-informed choice on whether or not to seek an abortion;

(26) Medical evidence shows that younger infants are hypersensitive to pain. Neuronal mechanisms that inhibit or moderate pain sensations do not begin to develop until thirty-four (34) to thirty-six (36) weeks gestation and are not complete until a significant time after birth. Newborn and preterm infants are hyperresponsive to pain compared to adults or older infants;

(27) The recognition of fetal pain has led to improvements and changes in how physicians approach fetal surgery and fetal anesthesia. The presence of neural connections and the ability to feel pain as early as the fifteenth week now necessitate treating the unborn child as a separate patient from the mother for purposes of utilizing direct analgesia to fetal patients, who clearly elicit stress responses to pain;

(28) Fetal surgeons at specialized units in St. Louis, Nashville, Cincinnati, Kansas City, Boston, and elsewhere, in response to their recognition of fetal pain, routinely use anesthesia and analgesia for unborn and premature infants undergoing surgery as young as eighteen (18) weeks gestation;

(29) The leading textbook on clinical anesthesia recognizes the significant body of evidence indicating the importance of mitigating fetal stress responses to pain stimuli. It is presumed that an unborn child's ability to fully experience pain occurs between twenty (20) and thirty (30) weeks, and that the fetal experience of pain may be even greater than that of term neonate or young children due to the immaturity of neurodevelopment that helps inhibit pain;

(30) Mothers considering abortion express concern over the medical information on fetal neurological development and an unborn child's ability to feel

pain while in utero;

(31) The infliction of unnecessary pain upon a living being is generally prohibited by state and federal law. The legislature has prohibited the unnecessary infliction of pain on living beings in a variety of circumstances in an effort to protect the innocent from harm;

(32) The life of an unborn child is recognized and protected from violence by federal law and by the laws of most states. The killing of an unborn child is considered homicide in thirty-eight (38) states, with at least twenty-eight (28) of those states criminalizing the act from conception. Nearly every state and the District of Columbia have wrongful death statutes that allow for liability and recovery for the death of an unborn child or subsequent death of an infant who is born and later dies because of injuries caused while in utero;

(33) The United States Supreme Court created the viability standard for evaluating abortion-related laws and regulations in *Roe v. Wade*, 410 U.S. 113 (1973), and reaffirmed this approach in *Planned Parenthood v. Casey*, 505 U.S. 833 (1992);

(34) At the time *Roe v. Wade* was decided, the court recognized that viability was not likely until approximately twenty-eight (28) weeks gestational age;

(35) Since the Supreme Court's decisions in *Roe v. Wade* and *Planned Parenthood v. Casey*, advances in science, technology, and treatment methods have resulted in children surviving and thriving at younger preterm ages than ever before;

(36) In recent years, scientific advances and advances in neonatal care of lowered the gestational limits of survivability well into the second trimester;

(37) The age at which a preterm infant can survive has decreased from twenty-eight (28) weeks to less than twenty-two (22) weeks. Survival of preterm infants has increased significantly over time assuming physicians provide active care for the young infants, lowering the age of survival from twenty-eight (28) weeks to twenty-four (24) weeks. Moreover, infants born as early as twenty-two (22) weeks can survive with the provision of care and treatment. The youngest preterm infant to survive was born at only twenty-one (21) weeks and four (4) days;

(38) In 1978, the first infants weighing less than seven hundred fifty (750) grams were successfully ventilated;

(39) By the 1990s, survival of infants born weighing between five hundred (500) and seven hundred (700) grams, roughly between twenty-four (24) to twenty-six (26) weeks, became possible;

(40) Technological developments in the 1980s and 1990s, such as improved tracheal instillation of surfactant for respiratory distress syndrome and antenatal corticosteroids, resulted in survival of infants born between twenty-three (23) to twenty-four (24) weeks;

(41) In recent years, resuscitation and survival of infants born weighing less than four hundred (400) grams, or approximately twenty-two (22) to twenty-three (23) weeks gestational age, has further de-

creased the age of viability;

(42) The provision of active prenatal and postnatal care has significantly increased the number of prematurely born children who survive until hospital discharge;

(43) Abortions performed at any gestational age pose a risk to the mother. Abortion increases the risks of subsequent preterm birth and placenta previa, life-threatening hemorrhage, postpartum hemorrhage, and cesarean delivery;

(44) Abortions performed later in pregnancy pose an even higher medical risk to the health and life of women, with the relative risk increasing exponentially at later gestational ages after eight (8) weeks gestational age;

(45) The relative risk of death for pregnant women who had an abortion performed or induced upon her at eleven (11) to twelve (12) weeks gestational age is between three (3) and four (4) times higher than an abortion at eight (8) weeks gestational age or earlier;

(46) The relative risk of death for pregnant women who had an abortion performed or induced upon her at thirteen (13) to fifteen (15) weeks gestational age is almost fifteen (15) times higher than an abortion at eight (8) weeks gestational age or earlier;

(47) The relative risk of death for pregnant women who had an abortion performed or induced upon her at sixteen (16) to twenty (20) weeks gestational age is almost thirty (30) times higher than an abortion at eight (8) weeks gestational age or earlier;

(48) The relative risk of death for pregnant women who had an abortion performed or induced upon her at twenty-one (21) weeks gestational age or later is more than seventy-five (75) times higher than an abortion at eight (8) weeks gestational age or earlier;

(49) Women who have an abortion suffer from post-traumatic stress disorder at a rate slightly higher than veterans of the Vietnam war. Women who have an abortion have an eighty one percent (81%) increased risk of mental trauma after an abortion. Abortion has been shown to correlate with many other mental health disorders as well;

(50) The United States is one of only seven (7) countries in the world that permits elective abortion past twenty (20) weeks;

(51) Only seventeen (17) countries permit abortion without any restriction beyond week twelve (12) weeks gestational age;

(52) The United States is an outlier within the international community related to the regulation of abortion. Of the countries that permit elective abortion, nine (9) limit elective abortion before the twelfth week of gestation, thirty-six (36) limit elective abortion at twelve (12) weeks gestation, six (6) limit elective abortion between twelve (12) and twenty (20) weeks gestation, and only seven (7) permit elective abortion past twenty (20) weeks or have no gestational limit;

(53) The historical development of abortion is undeniably tied to bias and discrimination by some organizations, leaders, and policies towards impoverished and minority communities, including the

imposition of forced sterilization of the intellectually disabled, poor, minority, and immigrant women. These historic policies should be rejected and left on the ash heap of history;

(54) As Justice Clarence Thomas wrote in his opinion concurring in the denial of certiorari in *Box v. Planned Parenthood of Indiana and Kentucky, Inc.*, 139 S. Ct. 1780, 1783 (2019), “the use of abortion to achieve eugenic goals is not merely hypothetical.” This historical practice of abortion was rooted not in equality but in discrimination based on age, sex, and disability;

(55) In the early twentieth century, the eugenics movement had grown popular across elite institutions in the United States, with many distinguishing between so-called fit and unfit individuals along racial lines and expressing concern over the increased birth-rate among non-white populations. Such abhorrent distinctions were also made between able-bodied persons and persons eugenicists referred to as “feeble-minded,” “deformed,” “diseased,” blind, deaf, or “dependent,” a term used to include orphans and the poor. Laws were adopted prohibiting marriages between the disabled and other “unfit” individuals and requiring their sterilization. More than sixty thousand (60,000) people were involuntarily sterilized between 1907 and 1983;

(56) Planned Parenthood founder Margaret Sanger argued in the early twentieth century that birth control would open the way to the eugenicist. Sanger argued that birth control could be used to reduce the “ever increasing, unceasingly spawning class of human beings who never should have been born at all;

(57) This argument was later adopted by abortion advocates, such as Planned Parenthood President Alan Guttmacher, who endorsed abortion for eugenic purposes. Guttmacher argued in the 1950’s that abortion should be used to prevent the birth of disabled children. Legal scholar Glanville Williams, whose book was cited in the majority opinion in *Roe v. Wade*, argued in a book published in the 1950’s that a “eugenic killing by a mother ...cannot confidently be pronounced immoral;

(58) Some continue to support the goal of reducing undesirable populations through selective reproduction;

(59) Today, the individualized nature of abortion creates a significant risk that prenatal screening tests and new technologies will be used to eliminate children with unwanted characteristics;

(60) There is substantial evidence from across the globe and in the United States that the elimination of children with unwanted characteristics is already occurring. The abortion rate for children diagnosed with Down syndrome in utero approaches one hundred percent (100%) in Iceland, ninety eight percent (98%) in Denmark, ninety percent (90%) in the United Kingdom, and seventy seven percent (77%) in France. Even in the United States, the abortion rate for children with Down Syndrome is sixty seven percent (67%). Widespread sex-selective abortions in

Asia have led to as many as one hundred sixty (160) million “missing” women. In India, as a result of the abortion of 300,000-700,000 female unborn children each year over several decades, there are currently about fifty (50) million more men than women in the country. Recent evidence also suggests that sex-selective abortions of girls are common among certain populations in the United States;

(61) Sex-selective abortion results in an unnatural sex ratio imbalance that can impede members of the numerically predominant sex from finding partners, encourage the commoditization of humans in the form of human trafficking, and create other societal harms. Sex-selective abortion also reinforces discriminatory and sexist stereotypes toward women by devaluing and dehumanizing females;

(62) In this state, from 2008 through 2017, the rate of abortion per one thousand (1,000) women was nearly four (4) times higher for nonwhite women than white women, with a rate of 7.6 on average for all women, 4.6 for white women, and 16.0 for non-white women. The ratio of abortions to one thousand (1,000) live births in this state from 2008-2017 was nearly three (3) times higher for nonwhite women than white women, with an average of 138.2 for all women, 85.1 for white women, and 294.4 for non-white women;

(63) The use of abortion as a means to prefer one (1) sex over another or to discriminate based on disability or race is antithetical to the core values equality, freedom, and human dignity enshrined in both the United States and Tennessee Constitutions. The elimination of bias and discrimination against pregnant women, their partners, and their family members, including unborn children, is a fundamental obligation of government in order to guarantee those who are, according to the Declaration of Independence, “endowed by their Creator with certain unalienable Rights” can enjoy “Life, Liberty, and the pursuit of Happiness”;

(64) This state has historically protected its interest in preserving the integrity of the medical profession by enacting a comprehensive statutory framework for ensuring the integrity of the medical profession in title 63;

(65) The general assembly first adopted an act creating the Board of Medical Examiners in 1901, with the mission to protect the health, safety, and welfare of the people of this state and to ensure the highest degree of professional conduct;

(66) As the Supreme Court of the United States acknowledged in *Gonzales v. Carhart*, 550 U.S. 124, 157 (2007) (citing *Washington v. Glucksberg*, 521 U.S. 702, 731 (1997)), “the government has an interest in protecting the integrity and ethics of the medical profession.” Under U.S. Supreme Court precedents, it is clear the State has a significant role to play in regulating the medical profession;

(67) Physician involvement in medical practices that cause fetal pain has been rejected by the international community;

(68) Physician involvement in medical practices that facilitate discrimination is antithetical to the United States and Tennessee constitutions’ affirma-

tion of equal protection under the law;

(69) The integrity and public respect of the medical profession are significantly harmed by physician involvement in practices that have been rejected by the international community, facilitate discrimination, or otherwise create a disdain for life;

(70) This state has a legitimate, substantial, and compelling interest in valuing and protecting unborn children;

(71) This state has a legitimate, substantial, and compelling interest in protecting the physical and mental health of the mother;

(72) This state has a legitimate, substantial, and compelling interest in promoting human dignity;

(73) This state has a legitimate, substantial, and compelling interest in encouraging childbirth over abortion;

(74) This state has a legitimate, substantial, and compelling interest in safeguarding an unborn child from the serious harm of pain by an abortion method that would cause the unborn child to experience pain;

(75) This state has a legitimate, substantial, and compelling interest in resolving untenable inconsistencies and incongruities in state law which permits some unborn children to be killed by abortion, while requiring that unborn children be protected and valued in non-abortion circumstances including, but not limited to, criminal provisions related to the infliction of harms against persons, state programs intended to aid prenatal healthcare, and state sponsored healthcare for unborn children;

(76) This state has a legitimate, substantial, and compelling interest in protecting the integrity and ethics of the medical profession, including by prohibiting medical practices that might cause the medical profession to become insensitive, even disdainful, to life, including the life of the unborn child; and

(77) This state has a legitimate, substantial, and compelling interest in preventing discrimination.

(b) Purpose.

(1) The purpose of this section is to provide legislative intent and reasoning underlying the enactment of laws to protect maternal health, and to preserve, promote, and protect life and potential life throughout pregnancy, including, but not limited to, §§ 39-15-215 — 39-15-217.

(2) The unique nature of abortion and its potential physical and mental health risks, as well as the ultimate result of the death of an unborn child, necessitates that this state ensure every woman considering an abortion is provided with adequate comprehensive information before deciding to obtain an abortion. The mandatory provision of an ultrasound prior to the abortion substantially furthers this compelling state interest.

(3) The presence of a fetal heartbeat is a medically significant indicator of life and the potential successful development of an unborn child. This state’s legitimate, substantial, and compelling interest in protecting unborn children warrants the restriction of abortion in cases where the heartbeat is detectable.

(4) The unnecessary infliction of pain upon the life of an unborn child is inconsistent with Tennessee law that would otherwise protect the life and health of an unborn child, undermines the integrity of and public trust in the medical profession, and conflicts with the this state's legitimate, substantial, and compelling interest in protecting the life of an unborn child, protecting the integrity of the medical profession, resolving the conflict in state laws intended to protect the health of the unborn child, and protecting the life, physical health, and mental health of women. Therefore, it is necessary to enact protections against the infliction of pain, and death, upon an unborn child who is capable of experiencing pain.

(5) Advances in science and medical practice have decreased the gestational age of an unborn child's viability to survive. This state's legitimate, substantial, and compelling interest in protecting the life of an unborn child, protecting the integrity of the medical profession, resolving the conflict in state laws intended to protect the health of the unborn child, and protecting the life, physical health, and mental health of women require the enactment of a series of gestational age restrictions on the provision of an abortion.

(6) The historical use of abortion as a means to discriminatory ends is fundamentally objectionable and conflicts with this state's legitimate, substantial, and compelling interest in preventing discrimination and discriminatory practices. Therefore, it is necessary for this state to enact protections that prevent sex, racial, and disability discrimination against unborn children.

(7) Life begins at conception, and nothing in chapter 764 of the Public Acts of 2020 shall be interpreted or construed to suggest that it is the intent or purpose of the legislature to condone abortion of an unborn child at any time after conception. The legislature specifically acknowledges the provisions of § 39-15-213 that will prohibit all abortion effective on the thirtieth day after issuance of a judgment overruling, in whole or in part, *Roe v. Wade*, as modified by *Planned Parenthood v. Casey*, or adoption of an amendment to the Constitution, restoring state authority to prohibit abortion.

History.

Acts 2020, ch. 764, § 2.

39-15-215. Section definitions — Physician requirements prior to pregnant woman giving informed consent to have abortion — Obstetric ultrasound — Affirmative defense of medical emergency — Violations — Report to board of medical examiners — Severability — Intent.

(a) As used in this section:

(1) "Abortion" has the same meaning as defined in § 39-15-211;

(2) "Auscultate" means to examine by listening for sounds made by internal organs of the fetus, includ-

ing a fetal heartbeat, in accordance with standard medical practice utilizing current medical technology and methodology;

(3) "Gestational age" or "gestation" has the same meaning as defined in § 39-15-211;

(4) "Medical emergency" has the same meaning as defined in § 39-15-211; provided, that a medical emergency does not include a claim or diagnosis related to the woman's mental health or a claim or diagnosis that the woman will engage in conduct which would result in her death or substantial and irreversible impairment of a major bodily function;

(5) "Obstetric ultrasound" or "ultrasound" means the use of ultrasonic waves for diagnostic or therapeutic purposes, specifically to monitor a developing fetus; and

(6) "Ultrasound technician" means a person at least eighteen (18) years of age who:

(A) Has earned a technical certificate from a sonography program accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) or Canadian Medical Association (CMA);

(B) Is currently certified by the American Registry for Diagnostic Medical Sonography (ARDMS) in the specialty in which the person is currently practicing;

(C) Is currently certified by the American Registry of Radiologic Technologists (ARRT) in sonography;

(D) Is in the process of applying for registration with the ARDMS, provided that the applicant satisfies the requirements for registration within ninety (90) days of becoming employed as a sonographer; or

(E) Is in the process of applying for registration with the ARRT, provided that the applicant satisfies the requirements for registration within ninety (90) days of becoming employed as a sonographer.

(b) Prior to a pregnant woman giving informed consent to having an abortion, as required by § 39-15-202, the physician who is performing or inducing, or attempting to perform or induce, an abortion, shall:

(1) Determine the gestational age of the unborn child in accordance with generally accepted standards of medical practice;

(2) Inform the pregnant woman the gestational age of the unborn child;

(3) Perform an obstetric ultrasound in accordance with generally accepted standards of medical practice using current medical technology and methodology applicable to the gestational age of the unborn child and reasonably calculated to determine whether a fetal heartbeat exists;

(4) Auscultate the fetal heartbeat of the unborn child, if any, so that the pregnant woman may hear the heartbeat if the heartbeat is audible;

(5) Provide a simultaneous explanation of what the ultrasound is depicting, which must include the presence and location of the unborn child within the uterus, the dimensions of the unborn child, the presence of external members and internal organs if

present and viewable, the number of unborn children depicted, and, if the ultrasound image indicates that fetal demise has occurred, inform the woman of that fact;

(6) Display the ultrasound images so that the pregnant woman may view the images;

(7) Record in the pregnant woman's medical record the presence or absence of a fetal heartbeat, the method used to test for the fetal heartbeat, the date and time of the test, and the estimated gestational age of the unborn child; and

(8) Obtain from the pregnant woman prior to performing or inducing, or attempting to perform or induce, an abortion, a signed certification that the pregnant woman was presented with the information required to be provided under this subsection (b), that the pregnant woman viewed the ultrasound images or declined to do so, and that the pregnant woman listened to the heartbeat if the heartbeat was audible or declined to do so. The signed certification must be in addition to any other documentation requirements under this part and must be on a form prescribed by the commissioner of health and be retained in the woman's medical record.

(c)(1) The physician who is to perform or induce, or attempt to perform or induce, an abortion may delegate the responsibility to perform the obstetric ultrasound to an ultrasound technician, provided that the ultrasound technician is qualified and permitted by law to perform an obstetric ultrasound that complies with the requirements of subsection (b). An ultrasound technician performing an obstetric ultrasound under this subdivision (c)(1) shall perform the obstetric ultrasound in a manner that complies with subsection (b), and the physician may rely on the signed certification obtained by the qualified technician under subdivision (b)(8) to establish that an ultrasound was performed in compliance with this section, unless the physician knows, or in the exercise of reasonable care should know, that an ultrasound was not performed in accordance with this section.

(2) The physician who is to perform or induce, or attempt to perform or induce, an abortion may accept a certification from a referring physician that the referring physician has performed an obstetric ultrasound that complies with the requirements of subsection (b). The referring physician performing an obstetric ultrasound under this subdivision (c)(2) shall perform the obstetric ultrasound in a manner that complies with subsection (b), and the physician may rely on the signed certification obtained by the referring physician under subdivision (b)(8) to establish that an ultrasound was performed in compliance with this section, unless the physician knows, or in the exercise of reasonable care should know, that an ultrasound was not performed in accordance with this section.

(d) When the ultrasound images and heartbeat sounds are provided to and reviewed with the pregnant woman, this section shall not be construed to prevent the pregnant woman from averting her eyes from the

ultrasound images or requesting the volume of the heartbeat be reduced or turned off if the heartbeat is audible. The physician or ultrasound technician performing the ultrasound shall be permitted to comply with the request of the pregnant woman. The physician, the ultrasound technician, and the pregnant woman shall not be subject to any penalty if the pregnant woman refuses to look at the displayed ultrasound images or to listen to the heartbeat if the heartbeat is audible.

(e)(1) Subject to compliance with subdivision (e)(2), it is an affirmative defense to criminal prosecution for a violation of a provision of this section that, in the physician's reasonable medical judgment, a medical emergency prevented compliance with the provision.

(2) In order for the affirmative defense in subdivision (e)(1) to apply, a physician who performs or induces, or attempts to perform or induce, an abortion because of a medical emergency must comply with each of the following conditions unless the medical emergency also prevents compliance with the condition:

(A) The physician who performs or induces, or attempts to perform or induce, the abortion certifies in writing that, in the physician's good faith, reasonable medical judgment, based upon the facts known to the physician at the time, compliance with the provision was prevented by a medical emergency;

(B) The physician certifies in writing the available methods or techniques considered and the reasons for choosing the method or technique employed;

(C) If the unborn child is presumed to be viable under § 39-15-211 or determined to be viable under § 39-15-212, the physician performs or induces, or attempts to perform or induce, the abortion in a hospital. The hospital must have appropriate neonatal services for premature infants unless there is no hospital within thirty (30) miles with neonatal services and the physician who intends to perform or induce the abortion has admitting privileges at the hospital where the abortion is to be performed or induced;

(D) If the unborn child is presumed viable under § 39-15-211 or determined to be viable under § 39-15-212, the physician who performs or induces, or attempts to perform or induce, the abortion terminates or attempts to terminate the pregnancy in the manner that provides the best opportunity for the unborn child to survive, unless that physician determines, in the physician's good faith medical judgment, based upon the facts known to the physician at the time, that the termination of the pregnancy in that manner poses a significantly greater risk of the death of the pregnant woman or a significantly greater risk of the substantial and irreversible impairment of a major bodily function of the pregnant woman than would other available methods of abortion; and

(E) If the unborn child is presumed viable under § 39-15-211 or determined to be viable under § 39-

15-212, the physician who performs or induces, or attempts to perform or induce, the abortion has arranged for the attendance in the same room in which the abortion is to be performed or induced, or attempted to be performed or induced, at least one (1) other physician who is to take control of, provide immediate medical care for, and take all reasonable steps necessary to preserve the life and health of the unborn child immediately upon the child's complete expulsion or extraction from the pregnant woman.

(f) Performing or inducing, or attempting to perform or induce, an abortion in violation of the requirements of this section is a Class C felony.

(g) A violation of subsection (c) by an ultrasound technician or referring physician whose performance of an ultrasound pursuant to subsection (c) is relied upon by a physician in performing or inducing, or attempting to perform or induce, an abortion is a Class E felony.

(h) A pregnant woman upon whom an abortion is performed or induced, or attempted to be performed or induced, in violation of this section is not guilty of violating this section or attempting to commit or conspiring to commit a violation of this section.

(i) When a physician is criminally charged with a violation of this section, the physician shall report the charge to the board of medical examiners in writing within seven (7) calendar days of acquiring knowledge of the charge. The report must include the jurisdiction in which the charge is pending, if known, and must also be accompanied by a copy of the charging documents, if available. A district attorney general shall promptly notify the board of medical examiners when a physician is charged with a violation of this section.

(j) If any provision or provisions of this section or the application thereof to any person, circumstance, or period of gestational age is found to be unenforceable, unconstitutional, or invalid by a court of competent jurisdiction, the same is hereby declared to be severable and the remainder of the section shall remain effective. The general assembly hereby declares that it would have enacted this section and each of its provisions, even if any provision of this section or the application thereof to any person, circumstance, or period of gestational age is later found to be unenforceable, unconstitutional, or invalid.

(k)(1) It is the specific intent of the general assembly in this section to exercise to the greatest extent permitted by law the legitimate, substantial, and compelling state interest in protecting maternal health, and in preserving, promoting, and protecting life and potential life throughout pregnancy by enacting more protective requirements than provided for under this part as it existed prior to July 13, 2020.

(2) When this section is in direct conflict with this part as it existed prior to July 13, 2020, the more protective requirements of this section control over any less protective provision in this part. This section shall not be construed as a repeal, either express or implied, of any provision of this part as it existed prior to July 13, 2020.

(3) The general assembly specifically intends that this part as it existed prior to July 13, 2020, shall

remain and be enforceable if, and for so long as, any provisions of this section, or any part or parts thereof, are enjoined or otherwise barred by a court of competent jurisdiction.

(4) This section does not repeal or modify in any way § 39-15-213, as enacted by chapter 351 of the Public Acts of 2019, which shall control upon becoming effective. This section shall remain and be enforceable if, and for so long as, any provisions of § 39-15-213, or any part or parts thereof, are enjoined or otherwise barred by a court of competent jurisdiction.

judgment, the unborn child does not have a fetal heartbeat at the time of the abortion. (2) In order for the affirmative defense in subdivision (e)(1) to apply, a physician who performs or induces, or attempts to perform or induce, an abortion because of a medical emergency must comply with each of the following conditions unless the medical emergency also prevents compliance with the condition:

Acts 2020, ch. 764, § 2.

39-15-218. Section definitions — Posting of sign about chemical abortion — Required warning about chemical abortion — Required statement in medical discharge instructions — Required information prior to abortion due to medical emergency — Department of Health materials and website — Violations — Civil penalty — Civil action for damages — Attorney's fees — Ruling on woman's anonymity.

(a) Notwithstanding any provision of law to the contrary, for purposes of this section:

(1) "Abortion" means the use or prescription of any instrument, medicine, drug, or other substance or device to intentionally:

(A) Kill the unborn child of a woman known to be pregnant; or

(B) Terminate the pregnancy of a woman known to be pregnant, with an intention other than:

(i) After viability, to produce a live birth and preserve the life and health of the child born alive; or

(ii) To remove a dead unborn child;

(2) "Chemical abortion" means the use or prescription of an abortion-inducing drug dispensed with intent to cause the death of the unborn child;

(3) "Medical emergency" means a condition that, in reasonable medical judgment, so complicates the medical condition of the pregnant woman as to necessitate the immediate abortion of her pregnancy to avert the death of the pregnant woman or for which a delay will create serious risk of substantial and irreversible physical impairment of a major bodily function, not including psychological or emotional conditions. No condition is a medical emergency if based on a claim or diagnosis that the woman will engage in conduct that the woman intends to result in the death or in substantial and irreversible physical impairment of a major bodily function of the woman; and

(4) "Stable internet website" means a website that, to the extent reasonably practicable, is safeguarded from having its content altered other than by the department of health.

(b) This section applies to a private office, ambulatory surgical treatment center, as defined in § 68-11-201, or other facility, as defined in § 68-11-201, or clinic, if more than fifty (50) elective abortions were provided in the private office, ambulatory surgical treatment center, facility, or clinic, other than abortions necessary to prevent the death of the pregnant woman, during the previous calendar year. Each private office, ambulatory surgical treatment center, facility, or clinic shall conspicuously post a sign in a location described in subsection (d) in a manner clearly visible to patients, which reads as follows:

Recent developing research has indicated that mifepristone alone is not always effective in ending a pregnancy. It may be possible to avoid, cease, or even reverse the intended effects of a chemical abortion utilizing mifepristone if the second pill has not been taken. Please consult with a healthcare professional immediately.

(c) The sign required pursuant to subsection (b) must be printed with lettering that is legible and at least three-quarters of an inch (0.75") boldfaced type.

(d) A private office or an ambulatory surgical treatment center shall post the required sign in each patient waiting room and patient consultation room used by patients on whom abortions are performed. A hospital or any other facility that is not a private office or ambulatory surgical treatment center shall post the required sign in each patient admission area used by patients on whom abortions are performed.

(e) Except in the case of a medical emergency, a chemical abortion involving the two-drug process of dispensing mifepristone first and then misoprostol shall not be performed or induced or attempted to be performed or induced unless the woman is informed by the physician who is to perform the abortion at least forty-eight (48) hours before the abortion, that:

(1) It may be possible to reverse the intended effects of a chemical abortion utilizing mifepristone if the woman changes her mind, but that time is of the essence; and

(2) Information on and assistance with reversing the effects of a chemical abortion utilizing mifepristone is available on the department of health website.

(f) After the first drug involved in the two-drug process is dispensed in a chemical abortion utilizing mifepristone, the physician or an agent of the physician shall provide written medical discharge instructions to the pregnant woman, which must include the following statement:

Recent developing research has indicated that mifepristone alone is not always effective in ending a pregnancy. It may be possible to avoid, cease, or even reverse the intended effects of a chemical abortion utilizing mifepristone if the second pill has not been taken. Please consult with a healthcare professional immediately.

(g) When a medical emergency compels the performance of an abortion, the physician shall inform the woman prior to the abortion, if possible, of the medical indications supporting the physician's professional medical judgment that an abortion is necessary to prevent the woman's death or that a delay of forty-eight (48) hours will create serious risk of substantial and irreversible physical impairment of a major bodily function, not including psychological or emotional conditions.

(h) Within ninety (90) days after October 1, 2020, the department of health shall publish, in English and in each language that is the primary language of two percent (2%) or more of this state's population, and make available on the department's website as provided in subsection (i), the printed materials required by this subsection (h) in a manner that ensures that the information is easily understood by the general public. The materials must be designed to inform the woman of the possibility of reversing the effects of a chemical abortion utilizing mifepristone if the woman changes her mind and information on and assistance with the resources that may be available to help reverse the effects of a chemical abortion.

(i) The department of health shall develop and maintain a stable internet website to provide the information described in subsection (h). The department shall not collect or retain any information regarding website visitors or users. The department shall monitor the website on a daily basis to prevent and correct tampering. The website must be maintained at a minimum resolution of seventy (70) dots per inch. All pictures appearing on the website must be a minimum of two hundred (200) by three hundred (300) pixels. All letters on the website must be a minimum of twelve-point font. All information and pictures must be accessible with an industry standard browser, requiring no additional plugins.

(j) Any person who knowingly or recklessly performs or induces or attempts to perform or induce an abortion in violation of this section commits a Class E felony. No

penalty may be assessed against the woman upon whom the abortion is performed or induced or attempted to be performed or induced. No penalty or civil liability may be assessed for failure to comply with subdivision (e)(2) unless the department of health has made the information available on the website at the time the physician is required to inform the woman.

(k) The department of health shall assess any private office, ambulatory surgical treatment center, or other facility or clinic that negligently fails to post a sign required by subsection (b) a civil penalty of ten thousand dollars (\$10,000). Each day on which an abortion, other than in the case of a medical emergency, is performed in any private office, ambulatory surgical treatment center, or other facility or clinic during which the required sign is not posted is a separate violation.

(l) Any person upon whom an abortion has been performed that was not in compliance with this section, the father of the unborn child who was the subject of the abortion, or if the woman was younger than eighteen (18) years of age at the time of the chemical abortion or has died as a result of the chemical abortion, the grandparent of the unborn child may bring an action against the person who performed the abortion in knowing or reckless violation of chapter 764 of the Public Acts of 2020 for actual and punitive damages. Any person, upon whom an abortion that was in violation of this section has been attempted, may bring an action against the person who attempted to perform the abortion in knowing or reckless violation of chapter 764 of the Public Acts of 2020 for actual and punitive damages. A court shall not award damages to a plaintiff if the pregnancy resulted from the plaintiff's criminal conduct.

(m) If judgment is rendered in favor of the plaintiff in any action brought pursuant to this section, then the court shall also award the plaintiff reasonable attorney's fees. If judgment is rendered in favor of the defendant and the court finds that the plaintiff's suit was frivolous and brought in bad faith, then the court shall award the defendant reasonable attorney's fees.

(n) In each civil or criminal proceeding brought under this section, the court shall rule whether the anonymity of any woman upon whom an abortion has been performed or attempted must be preserved from public disclosure if the woman does not give her consent to such disclosure. The court, upon motion or sua sponte, shall make such a ruling and, upon determining that the woman's anonymity must be preserved, shall issue orders to the parties, witnesses, and counsel and direct the sealing of the record and exclusion of individuals from courtrooms or hearing rooms to the extent necessary to safeguard the woman's identity from public disclosure. The order must be accompanied by specific written findings explaining why the anonymity of the woman must be preserved from public disclosure, why the order is essential to that end, how the order is narrowly tailored to serve that interest, and why no reasonable, less restrictive alternative exists. In the absence of written consent of the woman upon whom an abortion has been performed or at-

tempted, anyone who brings an action under subsection (l) shall do so under a pseudonym. This section must not be construed to conceal the identity of the plaintiff or witnesses from the defendant.

(o) This section does not affect a provider's legal obligations pursuant to § 39-15-202.

(2) The commissioner of health shall promulgate rules in accordance with the Uniform Administrative Procedures Act, compiled in title 4, chapter 5, as necessary to effectuate the purposes of this section.

(3) The commissioner of health may consider the following when promulgating rules to effectuate the purposes of this section:

- (r)(1) An abortion facility does not violate this section if, upon the request of a law enforcement officer made prior to final disposition of fetal remains, the abortion facility retains the fetal remains and permits the law enforcement officer to collect a portion or all of the fetal remains as evidence in a criminal investigation, as long as the abortion facility subsequently makes final disposition of any remaining fetal remains in accordance with this section.
- (2) An abortion facility that retains fetal remains pursuant to this subsection (r):
- (A) Shall retain all of the fetal remains of the unborn child that may remain following the collection of evidence by the law enforcement officer; and
 - (B) Except for those portions of the fetal remains collected as evidence by the law enforcement officer, shall not dispose of any portion of the fetal remains of that unborn child independently of other fetal remains of the same unborn child.
- (3) A law enforcement officer that obtains fetal remains pursuant to this subsection (r), shall provide to the abortion facility documentation describing the fetal remains collected as evidence, and the abortion facility shall retain that documentation with the other documentation the abortion facility is required to retain under this section.
- (s)(1) A completed form described in subdivision (m)(1) is confidential and is not a public record open for inspection.

**PART 4
CHILDREN**

39-15-401. Child abuse and child neglect or endangerment.

(a) Any person who knowingly, other than by accidental means, treats a child under eighteen (18) years of age in such a manner as to inflict injury commits a Class A misdemeanor; provided, however, that, if the abused child is eight (8) years of age or less, the penalty is a Class D felony.

(b) Any person who knowingly abuses or neglects a child under eighteen (18) years of age, so as to adversely affect the child's health and welfare, commits a Class A misdemeanor; provided, that, if the abused or neglected child is eight (8) years of age or less, the penalty is a Class E felony.

(c)(1) A parent or custodian of a child eight (8) years of age or less commits child endangerment who knowingly exposes such child to or knowingly fails to protect such child from abuse or neglect resulting in physical injury or imminent danger to the child.

(2) For purposes of this subsection (c):

(A) "Imminent danger" means the existence of any condition or practice that could reasonably be expected to cause death or serious bodily injury;

(B) "Knowingly" means the person knew, or should have known upon a reasonable inquiry, that abuse to or neglect of the child would occur which would result in physical injury to the child. The risk must be of such a nature and degree that the failure to perceive it constitutes a gross deviation from the standard of care that an ordinary parent or legal custodian of a child eight (8) years of age or less would exercise under all the circumstances as viewed from the defendant's standpoint; and

(C) "Parent or custodian" means the biological or adoptive parent or any person who has legal custody of the child.

(3) A violation of this subsection (c) is a Class A misdemeanor.

(d)(1) Any person who negligently, by act or omission, engages in conduct that places a child in imminent danger of death, bodily injury, or physical or mental impairment, commits a Class A misdemeanor; except that, if the abused child is eight (8) years of age or less, the penalty is a Class D felony.

(2) For purposes of this subsection (d), a person engages in conduct that places a child in imminent danger of death, bodily injury, or physical or mental impairment if the person's conduct related to the controlled substance methamphetamine or any other controlled substance listed in chapter 17, part 4 of this title, except a Schedule VI controlled substance, exposes the child to the controlled substance and an analysis of a specimen of the child's blood, hair, fingernail, urine, or other bodily substance indicates the presence of methamphetamine or any other controlled substance listed in chapter 17, part 4 of this title, except a Schedule VI controlled substance, in the child's body.

(e)(1) Any court having reasonable cause to believe that a person is guilty of violating this section shall have the person brought before the court, either by summons or warrant. No arrest warrant or summons shall be issued by any person authorized to issue the warrant or summons, nor shall criminal charges be instituted against a child's parent, guardian or custodian for a violation of subsection (a), based upon the allegation that unreasonable corporal punishment was administered to the child, unless the affidavit of complaint also contains a copy of the report prepared by the law enforcement official who investigated the allegation, or independent medical verification of injury to the child.

(2)(A) As provided in this subdivision (e)(2), juvenile courts, courts of general session, and circuit and criminal courts, shall have concurrent jurisdiction to hear violations of this section.

(B) If the person pleads not guilty, the juvenile judge or general sessions judge shall have the power to bind the person over to the grand jury, as in cases of misdemeanors under the criminal laws of this state. Upon being bound over to the grand jury, the person may be prosecuted on an indictment filed by the district attorney general and, notwithstanding § 40-13-103, a prosecutor need not be named on the indictment.

(C) On a plea of not guilty, the juvenile court judge or general sessions judge shall have the power to proceed to hear the case on its merits, without the intervention of a jury, if the person requests a hearing in juvenile court or general sessions court and expressly waives, in writing, indictment, presentment, grand jury investigation and a jury trial.

(D) If the person enters a plea of guilty, the juvenile court or general sessions court judge shall sentence the person under this section.

(E) Regardless of whether the person pleads guilty or not guilty, the circuit court or criminal court shall have the power to proceed to hear the case on its merits, and, if found guilty, to sentence the person under this section.

(f) Except as expressly provided, this section shall not be construed as repealing any provision of any other statute, but shall be supplementary to any other provision and cumulative of any other provision.

(g) A violation of this section may be a lesser included offense of any kind of homicide, statutory assault, or sexual offense, if the victim is a child and the evidence supports a charge under this section. In any case in which conduct violating this section also constitutes assault, the conduct may be prosecuted under this section or under § 39-13-101 or § 39-13-102, or both.

(h) As used in this section, "adversely affect the child's health and welfare" may include, but is not limited to, adverse effects on the emotional and mental health and welfare of the child, the natural effects of starvation or dehydration, or acts of female genital mutilation, as defined in § 39-13-110.

(i) The court may, in addition to any other punishment otherwise authorized by law, order a person

convicted of child abuse to refrain from having any contact with the victim of the offense, including, but not limited to, attempted contact through internet services or social networking websites; provided, that the person has no parental rights to such victim at the time of the court's order.

39-15-502. Offense of financial exploitation of elderly or vulnerable person.

(a) It is an offense for any person to knowingly financially exploit an elderly or vulnerable adult.

(b) A violation of this section shall be punished as theft pursuant to § 39-14-105; provided, however, that the violation shall be punished one (1) classification higher than is otherwise provided in § 39-14-105.

(c)(1) If a person is charged with financial exploitation that involves the taking or loss of property valued at more than five thousand dollars (\$5,000), a prosecuting attorney may file a petition with the circuit, general sessions, or chancery court of the county in which the defendant has been charged to freeze the funds, assets, or property of the defendant in an amount up to one hundred percent (100%) of the alleged value of funds, assets, or property in the defendant’s pending criminal proceeding for purposes of restitution to the victim. The hearing on the petition may be held ex parte if necessary to prevent additional exploitation of the victim.

(2) Upon a showing of probable cause in the ex parte hearing, the court shall issue an order to freeze or seize the funds, assets, or property of the defendant in the amount calculated pursuant to subdivision (c)(1). A copy of the freeze or seize order shall be served upon the defendant whose funds, assets, or

property has been frozen or seized.

(3) The court's order shall prohibit the sale, gifting, transfer, or wasting of the funds, assets, or property of the elderly or vulnerable adult, both real and personal, owned by, or vested in, such person, without the express permission of the court.

(4) At any time within thirty (30) days after service of the order to freeze or seize funds, assets, or property, the defendant or any person claiming an interest in the funds, assets, or property may file a motion to release the funds, assets, or property. The court shall hold a hearing on the motion no later than ten (10) days from the date the motion is filed.

(d) In any proceeding to release funds, assets, or property, the state has the burden of proof, by a preponderance of the evidence, to show that the defendant used, was using, is about to use, or is intending to use any funds, assets, or property in any way that constitutes or would constitute an offense under subsection (a). If the court finds that any funds, assets, or property were being used, are about to be used, or are intended to be used in any way that constitutes or would constitute an offense under subsection (a), the court shall order the funds, assets, or property frozen or held until further order of the court.

(e) If the prosecution of a charge under subsection (a) is dismissed or a nolle prosequi is entered, or if a judgment of acquittal is entered, the court shall vacate the order to freeze or seize the funds, assets, or property.

The right of action against a wrongdoer shall not abate or be extinguished by the death of the elderly or vulnerable adult, but passes as provided in § 20-5-106, unless the alleged wrongdoer is a relative, in which case the cause of action passes to the victim's personal representative.

39-15-503. Permissive inferences.

For purposes of determining whether an offense was committed under § 39-15-502:

(1) Any transfer of property valued in excess of one thousand dollars (\$1,000) in a twelve-month period, whether in a single transaction or multiple transactions, by an elderly or vulnerable adult to a nonrelative whom the transferor has known for fewer than two (2) years before the first transfer and for which the transferor did not receive reciprocal value in goods or services creates a permissive inference that the transfer was effectuated without the effective consent of the owner.

(2) Subdivision (1) applies regardless of whether the transfer or transfers are denoted by the parties as a gift or loan except that it shall not apply to a valid loan evidenced in writing and which includes definite repayment dates. In the event repayment of any such loan is in default, in whole or in part, for more than sixty (60) days, the inference described in subdivision (1) applies. Subdivision (1) does not apply to persons or entities that operate a legitimate financial institution.

(3) This section does not apply to valid charitable donations to nonprofit organizations qualifying for tax exempt status under the internal revenue code.

(4) A court shall instruct jurors that they may, but are not required to, infer that the transfer of money or property was effectuated without the effective consent of the owner, with the intent to deprive the owner of the money or property, upon proof beyond a reasonable doubt of the facts listed in subdivision (1). The court shall also instruct jurors that they may find a defendant guilty only if persuaded that each element of the offense has been proved beyond a reasonable doubt.

The state may request the motion in any court, juvenile, general sessions, criminal, or circuit, having jurisdiction over the accused and may initiate the motion at any stage of the proceedings after the accused's initial appearance.

(b) The court shall consider an affidavit executed by the elderly or vulnerable adult's treating physician stating that the elderly or vulnerable adult is unable to attend court due to illness or other mental or physical disability as prima facie evidence of the need to preserve witness testimony by the taking of the adult's out-of-court deposition.

(c) The court shall order the defendant's attendance to the out-of-court deposition. The defendant may waive the defendant's attendance in writing.

A person who violates § 39-17-1504, § 39-17-1506, § 39-17-1507 or § 39-17-1508 is subject to a civil penalty of not more than five hundred dollars (\$500) for the person's second violation, not more than one thousand dollars (\$1,000) for the person's third violation and not more than one thousand five hundred dollars (\$1,500) for the person's fourth or subsequent violation. A civil penalty shall be assessed in the following manner:

(1) The commissioner shall issue the assessment of civil penalty against any person responsible for the violation;

In the case of distribution of any tobacco, smoking hemp, vapor product, or smokeless nicotine product by mail, a person who obtained a statement from the addressee that the addressee is at least twenty-one (21) years of age is not liable for a civil penalty so long as that distributor of the tobacco, smoking hemp, vapor product, or smokeless nicotine product informed the addressee that § 39-17-1504 prohibits the distribution of tobacco, smoking hemp, vapor products, and smokeless nicotine products to a person under twenty-one (21) years of age.

I promise to obey this law, and I understand that monetary or criminal penalties may be imposed on me if I violate this law.

(2) If the commissioner assesses a penalty against the store owner or manager, the owner or manager may present to the commissioner a copy of the statement

described in subdivision (e)(1) that was signed by the employee who made the sale to a minor, along with a sworn statement by the owner or manager that the employee had signed the statement prior to the sale to the minor, and the name and address of the employee who made the sale. If the owner or manager does not know which employee made the sale to the minor, the owner or manager may present to the commissioner copies of the statements described in subdivision (e)(1) that were signed by all employees working at the store on the day the sale was made, along with a sworn statement that these employees had signed those statements prior to the sale to the minor.

(3) When the store owner or manager presents to the commissioner the statements described in subdivision (e)(2):

(A) If the violation is the second violation determined to have occurred at that store, the penalty against the store owner or manager shall be eliminated; or

(B) If the violation is the third or subsequent violation determined to have occurred at that store, the commissioner shall consider that evidence and any other evidence with respect to the amount of the penalty against the owner or manager.

PART 17**CHILD CURFEW****39-17-1701. Short title.**

This part shall be known and may be cited as the “Child Curfew Act of 1995.”

History.

Acts 1995, ch. 314, § 1.

39-17-1702. Curfew established — Exceptions — Duties of apprehending authority.

(a) It is unlawful for any minor between seventeen (17) and eighteen (18) years of age to remain in or upon any public street, highway, park, vacant lot, establishment or other public place within the county during the following time frames:

(1) Monday through Thursday between the hours of eleven o'clock p.m. (11:00 p.m.) to six o'clock a.m. (6:00 a.m.); and

(2) Friday through Sunday between the hours of twelve o'clock (12:00) midnight to six o'clock a.m. (6:00 a.m.).

(b) It is unlawful for any minor sixteen (16) years of age and under to remain in or upon any public street, highway, park, vacant lot, establishment or other public place within the county during the following time frames:

(1) Monday through Thursday between the hours of ten o'clock p.m. (10:00 p.m.) to six o'clock a.m. (6:00 a.m.); and

(2) Friday through Sunday between the hours of eleven o'clock p.m. (11:00 p.m.) to six o'clock a.m. (6:00 a.m.).

(c) It is unlawful for a parent or guardian of a minor to knowingly permit or by inefficient control to allow the minor to be or remain upon any street or establishment under circumstances not constituting an exception to, or otherwise beyond the scope of subsections (a) and (b). The term “knowingly” includes knowledge that a parent or guardian should reasonably be expected to have concerning the whereabouts of a minor in that parent’s legal custody. The term “knowingly” is intended to continue to keep neglectful or careless parents up to a reasonable community standard of parental responsibility through an objective test. It is not a defense that a parent was completely indifferent to the activities or conduct or whereabouts of the minor child.

(d)(1) The following are valid exceptions to the operation of the curfew:

(A) At any time, if a minor is accompanied by the minor’s parent or guardian;

(B) When accompanied by an adult authorized by a parent or guardian of the minor to take the parent or guardian’s place in accompanying the minor for a designated period of time and purpose within a specified area;

(C) Until the hour of twelve-thirty a.m. (12:30 a.m.), if the minor is on an errand as directed by the minor’s parent;

(D) While engaged in a lawful employment activity, or while going directly to or returning directly from the minor’s home and place of lawful employment. This exception shall also apply if the minor is in a public place during the curfew hours in the course of the minor’s lawful employment. To come within this exception, the minor must be carrying written evidence of employment that is issued by the employer;

(E) Until the hour of twelve-thirty a.m. (12:30 a.m.) if the minor is on the property of or the sidewalk directly adjacent to the place where the minor resides or the place immediately adjacent to the place where the minor resides, if the owner of the adjacent building does not communicate an objection to the minor and the law enforcement officer;

(F) When returning home by a direct route from (and within thirty (30) minutes of the termination of) a school activity or an activity of a religious or other voluntary association, or a place of public entertainment, such as a movie, play or sporting event. This exception does not apply beyond one o'clock a.m. (1:00 a.m.).

(G) In the case of reasonable necessity, but only after the minor’s parent has communicated to law enforcement personnel the facts establishing the reasonable necessity relating to specified streets at a designated time for a described purpose including place or origin and destination. A copy of the communication, or the record of the communication, an appropriate notation of the time it was received and of the names and addresses of the parent or guardian and minor constitute evidence of qualification under this exception;

(H) When exercising First Amendment rights protected by the United States Constitution, such as the free exercise of religion, freedom of speech and the right of assembly. A minor shall show evidence of the good faith of the exercise and provide notice to the city officials by first delivering to the appropriate law enforcement authority a written communication, signed by the minor, with the minor’s home address and telephone number, addressed to the mayor of the county specifying when, where and in what manner the minor will be on the streets at night during hours when the curfew is still otherwise applicable to the minor in the exercise of a First Amendment right specified in the communication; and

(I) When a minor is, with parental consent, in a motor vehicle engaged in good faith interstate travel.

(2) Each of the exceptions contained in subdivision (d)(1), and the limitations are severable.

(e) When any child is in violation of this section, the apprehending officer shall act in one (1) of the following ways:

(1) In the case of a first violation, and if in the opinion of the officer the action would be effective, take the child to the child's home and warn and counsel the parents or guardians;

(2) Take the minor into custody and transport the minor to a designated curfew center;

(3) Issue a summons to the child or parents or guardians to appear at the juvenile court; or

(4) Bring the child into the custody of the juvenile court for disposition.

(f)(1) A minor violating this section shall commit an unruly act disposition of which shall be governed pursuant to title 37.

(2) Any parent, guardian, or other person having the care, custody and control of a minor violating this section commits a Class C misdemeanor and shall be fined no more than fifty dollars (\$50.00) for each offense. Each violation of this section shall constitute a separate offense.

(b) Upon receipt of the request for termination, the TBI shall review documentation provided by the offender and contained in the offender's file and the SOR, to determine whether the offender has complied with this part. In addition, the TBI shall conduct fingerprint-based state and federal criminal history checks, to determine whether the offender has been convicted of any additional sexual offenses, as defined in § 40-39-202, or violent sexual offenses, as defined in § 40-39-202.

(c) The TBI shall remove an offender's name from the SOR and notify the offender that the offender is no longer required to comply with this part if it is deter-

If an offense in a jurisdiction other than this state is not identified as a sexual offense in this state, it shall be considered a prior conviction if the elements of the offense are the same as the elements for a sexual offense; and

(C) "Separate period of incarceration or supervision" includes a sentence to any of the sentencing alternatives set out in § 40-35-104(c)(3)-(9). (3) If it is determined that the offender would not be required to register if the offense was committed on or after July 1, 2006, that the offender has not been convicted of any additional sexual offenses or violent sexual offenses and that the offender has substantially complied with this part and any previous versions of this part, the TBI shall remove the offender's name from the SOR and notify the offender that the offender is no longer required to comply with this part.

(4) If it is determined that the offender would still be required to register even if the statutory rape had been committed on or after July 1, 2006, or that the

offender has been convicted of any additional sexual offenses or violent sexual offenses during the period of registration or has not substantially complied with this part and the previous versions of this part, the TBI shall not remove the offender's name from the SOR and shall notify the offender that the offender has not been relieved of this part.

(B) The procedure, criteria for removal and other requirements of this section shall otherwise apply to an offender subject to removal after five (5) years as specified in subdivision (i)(1)(A).

(3)(A) If a person convicted of an offense was not required to register as an offender prior to July 1, 2010, for an offense now classified as a sexual offense, the person may file a request for termination of registration requirements with TBI headquarters in Nashville, no sooner than five (5) years from July 1, 2010, or the date the person first registered with the SOR, whichever date is later.

(2) If the number of at-risk children seeking to enroll in an LEA’s voluntary pre-kindergarten program on the date of the initial enrollment deadline does not meet the maximum class size of the pre-kindergarten classroom provided by the LEA as part of the LEA’s voluntary pre-kindergarten program, then the LEA may enroll children who are not at-risk children, but who reside within the geographic area served by the LEA and who are:

(A) Four (4) years of age, with or without a disability, on or before August 15;

(B) Three (3) years of age on or before August 15 and:

(i) Who have been in the Tennessee Early Intervention System (TEIS); or

(3) Have at least one (1) educational assistant per classroom who holds a child development associate credential or associate degree in early childhood

education, or who is actively working toward acquiring such credentials; provided, however, that if a person with such credentials is unavailable, then educational assistants who hold a high school diploma and who have relevant experience working with children in pre-kindergarten or other early childhood programs may be employed to satisfy this requirement;

(4) Provide a minimum of five and one-half (5.5) hours of quality instructional time per day;

(5) Use an educational, age-appropriate curriculum that is aligned with the early learning standards approved by the department of education and that includes, at a minimum, literacy, writing, math, and science skills;

49-6-105. Application for funding and approval — Collaborative agreements.

(a) LEAs may apply to the department of education for funding and approval of one (1) or more pre-kindergarten programs. LEAs may contract and enter into collaborative agreements for operation of these programs with nonschool system entities in the geographical area served by the LEA, including, but not limited to, nonprofit and for-profit child care providers and Head Start programs. LEAs shall not contract or collaborate with any child care provider licensed by the department of human services, unless that provider has attained the highest designation under the rated licensing system administered by the department of human services, pursuant to title 71, chapter 3, part 5.

(b) As part of the application process, the LEA shall include a statement that it has given consideration to how to serve all children four (4) years of age within the geographical area served by the LEA, in the event programs are later authorized for all children, regardless of at risk status. The long range plan shall include the proposed sources of local matching funds required under §§ 49-6-103 — 49-6-110. Where applicable, the LEA is encouraged to include a resolution of support from the local governing body indicating intent to appropriate the required local matching funds. Applications that target establishing programs for at-risk children not served by an existing program shall be

given preference in the application process. Documentation of local financial support shall also be considered as a factor in the application process. LEAs are encouraged to collaborate with nonschool system entities where such collaboration provides an efficient means for expansion of pre-kindergarten classrooms authorized under §§ 49-6-103 — 49-6-110.

(c) The commissioner of education shall establish the system for submitting applications and, subject to available funding, programs shall be approved on a competitive basis.

(d) An LEA shall include as part of its application:

(1) A plan for ensuring coordination between voluntary pre-kindergarten classrooms and elementary schools within the LEA, with the goal of ensuring that elementary grade instruction builds upon pre-kindergarten classroom experiences;

(2) A plan for engaging parents and families of voluntary pre-kindergarten students throughout the school year; and

(3) A plan for delivering relevant and meaningful professional development to voluntary pre-kindergarten teachers, specific to ensuring a high quality pre-kindergarten experience.

(e) LEAs that receive pre-kindergarten program approval under §§ 49-6-103 — 49-6-110 shall utilize the pre-k/kindergarten growth portfolio model approved by the state board of education, or a comparable alternative measure of student growth approved by the state board of education and adopted by the LEA, in the evaluation of pre-kindergarten and kindergarten teachers pursuant to § 49-1-302.

(f) Each LEA shall notify all teachers evaluated using a growth portfolio model of training and professional development opportunities available on growth portfolio models.

(g) Prior to the 2018-2019 school year, the department of education shall study the pre-k/kindergarten growth portfolio model, including the portfolio rubric, the method for the collection and submission of student work artifacts, and scoring. The study shall include feedback from pre-kindergarten and kindergarten teachers, as well as other teachers using other growth portfolio models.

(h)(1) Notwithstanding subsection (e) or § 49-1-302(d)(2)(B)(ix), the state shall not require pre-kindergarten and kindergarten teachers employed in an LEA that receives pre-kindergarten program approval under §§ 49-6-103 — 49-6-110 to be evaluated using the pre-k/kindergarten growth portfolio model approved by the state board of education, or a comparable alternative measure of student growth approved by the state board of education and adopted by the LEA, for the 2019-2020 or 2020-2021 school year.

(2) This subsection (h) does not prohibit an LEA or public charter school from evaluating pre-kindergarten and kindergarten teachers using the pre-k/kindergarten growth portfolio model approved by the state board of education, or a comparable alternative measure of student growth approved by the state board of education and adopted by the LEA or public

charter school, for the 2019-2020 or 2020-2021 school year. If an LEA or public charter school chooses to evaluate its pre-kindergarten and kindergarten teachers, for the 2020-2021 school year, using the pre-k/kindergarten growth portfolio model approved by the state board of education, or a comparable alternative measure of student growth approved by the state board of education and adopted by the LEA or public charter school, then the LEA or public charter school must notify the department by March 1, 2021.

(3) If an LEA or public charter school chooses to evaluate its pre-kindergarten and kindergarten teachers, for the 2019-2020 or 2020-2021 school year, using the pre-k/kindergarten growth portfolio model approved by the state board of education, or a comparable alternative measure of student growth approved by the state board of education and adopted by the LEA or public charter school, then data generated from the pre-k/kindergarten growth portfolio model, or the comparable alternative measure of student growth, shall not comprise the student growth portion of a teacher's evaluation, as described in § 49-1-302(d)(2)(B)(ii), unless such use results in a higher final evaluation score for the teacher.

(4) As used in this subsection (h), "final evaluation score" has the same meaning as defined in § 49-1-302(d)(8).

(i) Selection of voluntary pre-kindergarten program sites must take into consideration the areas of greatest need, which may be determined by, but not limited to:

(1) School service areas with high percentages of children from families with incomes that meet the eligibility requirements for free or reduced-price lunch, as determined pursuant to 42 U.S.C. § 1771; or

(2) Access to early childhood education and pre-kindergarten programs within the county.

49-6-1601. Procedures to follow if knowledge or reasonable cause to suspect child abuse — Completion of child abuse training program — Child abuse coordinator.

(a) Notwithstanding § 37-5-107 or § 37-1-612, if a school teacher, school official, or other school personnel has knowledge or reasonable cause to suspect that a child who attends the school may be a victim of child abuse or child sexual abuse sufficient to require reporting pursuant to § 37-1-403 or § 37-1-605, then the school teacher, school official, or other school personnel must follow the procedures outlined in subsection (d).

(b) Each LEA and each public charter school shall ensure that all school officials and employees working directly with students of the respective LEA or public charter school annually complete the child abuse training program required in § 37-1-408.

(c) Each LEA and each public charter school shall designate a child abuse coordinator and an alternate child abuse coordinator for each school within the LEA or public charter school. The designation of an alternate child abuse coordinator is not required when only one (1) adult is employed by or responsible for the care of children at a school. The child abuse coordinator and the alternate child abuse coordinator must:

(1) Have access to an area providing privacy and access to a telephone for reporting suspected child abuse and child sexual abuse;

(2) Receive training in regard to:

(A) Mandatory reporting;

(B) Multidisciplinary protocols;

(C) Advocacy centers;

(D) The importance of limited interviews; and

(7) Maintain confidential files in accordance with §§ 37-5-107 and 37-1-612 regarding all reported suspicions of child abuse and child sexual abuse.

(d)(1)(A) If a child voluntarily discloses information about possible abuse to a school teacher, school official, or other school personnel, then the child must be provided a quiet and private place to speak and the person receiving the information must listen openly and speak at the child's level in a positive, non-judgmental tone.

(B) The person receiving the information from the child must:

(i) Allow the child to say what happened in the child's own words;

(ii) Avoid conducting an investigation by asking the child detailed questions;

(iv) Refrain from making any statements to the child about the alleged abuse, the alleged abuser, or the consequences of the child reporting the alleged abuse; and

This subdivision (d)(1)(B)(v) does not relieve a school teacher, school official, or other school personnel from the duty to report alleged abuse under federal law.

(2) School teachers, school officials, and other school personnel should be observant of any bruising, injury, markings, or other unusual behavior that may be the result of child abuse or neglect, and immediately report any suspicions to the school's child abuse coordinator. (A) Encourage the third party to report the suspicion to the department of children's services and law enforcement;

(B) Notify the school's child abuse coordinator; and

(C) Report all information received from the third party to the department of children's services and law enforcement.

(4) School teachers, school officials, and other school personnel must maintain confidentiality of all information regarding any child abuse or child sexual abuse report made pursuant to this section and all information regarding the suspected child abuse or child sexual abuse must be maintained by the school child abuse coordinator in a confidential file separate from the child's educational file.

(5) School child abuse coordinators, school teachers, school officials, and other school personnel shall not provide any information relevant to the suspected child abuse or child sexual abuse to the child's parent or guardian, and must refer any questions from the child's parent or guardian to the investigating law enforcement agency and the department of children's services. This subdivision (d)(5) does not apply when federal law or regulation mandates disclosure, the parent to whom the notification is made is not alleged to be the perpetrator or in any way complicit in the abuse or neglect, and the notification is done in conjunction with the department of children's services.

(e) For purposes of this section, "school" means any public or privately operated child care agency, as defined in § 71-3-501; child care program, as defined in § 49-1-1102; preschool; nursery school; kindergarten; elementary school; or secondary school.

application is approved, then the student may participate in the program beginning with the school year identified in the application. If a participating student exits the program, then the student's parent, or the student, as applicable, may reapply to participate in the program in accordance with the application process and timeline established by the department under this subdivision (a)(2)(B);

(3) An approval process for a Category I, II, or III private school to become a participating school;

(5) For the fifth school year of operation, and for each school year thereafter, fifteen thousand (15,000) students.

(d)(1) Notwithstanding subsection (c), if, in the application period for a school year, the number of program applications received by the department does not exceed seventy-five percent (75%) of the maximum number of students that may participate in the program for that school year under subsection (c), then the maximum number of students that may participate in the program for that school year must remain in place for subsequent school years until the number of applications during a subsequent program application period exceeds seventy-five percent (75%) of that maximum number.

(2) Once the number of applications during a subsequent program application period exceeds seventy-five percent (75%) of the maximum number that has remained in place under subdivision (d)(1), then, during the next school year for which an increase is practicable, the maximum number of students that may participate in the program for that school year shall increase to the number of students provided for under subsection (c) that is in excess of the most recent maximum number of students allowed to

(a)(1) The general assembly recognizes this state's legitimate interest in the continual improvement of all LEAs and particularly the LEAs that have consistently had the lowest performing schools on a historical basis. (C) The OREA's initial report to the general assembly under this subdivision (a)(2) must include the information outlined in subdivisions (a)(2)(A)(i)-(iii) for each of the three (3) preceding school years in which the program enrolled participating students.

(b) If any provision of this part or this part's application to any person or circumstance is held invalid, then the invalidity must not affect other provisions or applications of this part that can be given effect without the invalid provision or application, and to that end the provisions of this part are severable.

(c) Notwithstanding subsection (b), if any provision of this part is held invalid, then the invalidity shall not expand the application of this part to eligible students other than those identified in § 49-6-2602(3).

(a)(1) Each local board of education and each public charter school governing body shall adopt a policy regarding a teacher's ability to relocate a student from the student's present location to another location for the student's safety or for the safety of others.

(2) The use of reasonable or justifiable force, as defined in §§ 39-11-603, 39-11-609, 39-11-610, 39-11-612, 39-11-613, 39-11-614, 39-11-621, and 39-11-622, if required to accomplish this task due to the unwillingness of the student to cooperate, is allowed. If steps beyond the use of reasonable or justifiable force are required, then the student must be allowed to remain in place until local law enforcement officers or school resource officers can be summoned to relocate the student or take the student into custody until a parent or guardian can retrieve the student.

(3) The policy required under this subsection (a) must authorize teachers to intervene in a physical

altercation between two (2) or more students, or between a student and an LEA employee or public charter school employee, as applicable, using reasonable or justifiable force upon a student, if necessary, to end the altercation by relocating the student to another location.

(b) The policy required under subsection (a) must:

After the teacher files the report required under this subsection (c), the student is subject to additional disciplinary action that may include suspension or expulsion from the school. The principal or the principal's designee must notify the teacher involved of the actions taken to address the behavior of the relocated student.

(d) Each principal shall fully support the authority of each teacher in the principal's school to relocate under this section.

The referral must be kept in a student discipline file, and shall not become a part of the student's permanent record. If an LEA or school has adopted an electronic system of making disciplinary referrals instead of using written referrals, then the teacher making the referral must be notified of the action taken, but the notification may be made either electronically or in writing. The principal or the principal's designee must respond to a teacher's disciplinary referral of a student by employing appropriate discipline management techniques that are consistent with the LEA's or school's policy. (2)(A) Any child who will not become five (5) years of age until after December 31 shall not enter school during that school year; provided, that LEAs having semiannual promotions may admit, at the beginning of any semester, children who will become five (5) years of age within sixty (60) days following the opening of the semester.

(B) Notwithstanding subdivision (b)(2)(A), if the director of schools finds through evaluation and testing, at the request of the parent or legal guardian, that a child who is five (5) years of age on or before September 30 is sufficiently mature emotionally and academically, then the child may be permitted to enter kindergarten.

(3) Where a student meets the requirements of the state board of education for transfer or admission purposes, the student may be admitted by a local board of education, notwithstanding any other provision or act to the contrary.

(c)(1) Every parent, guardian or other legal custodian residing within this state having control or charge of any child or children between six (6) years of age and seventeen (17) years of age, both inclusive, shall cause the child or children to attend public or nonpublic school, and in event of failure to do so, shall be subject to the penalties provided in this part. (h) To assist local boards of education and public charter school governing bodies in determining the effectiveness of student discipline policies and classroom supports provided to teachers to help address student behavior, each school shall annually report to the director of schools or to the head of the public charter school, as applicable, by July 1, 2022, and by each July 1 thereafter, the number of requests submitted by the school's teachers during the immediately preceding school year to remove a student from the teacher's classroom pursuant to subsection (a). The report must document the actions taken by the teacher's principal, or the principal's designee, in response to each request for a student's removal. Each director of schools must compile the data provided in each school's report and issue a district-wide report to the local board of education by August 1 immediately following the July 1 deadline for school reports.

(b)(1) Tuition and fees may be charged by any county to pupils not residing in that county. Tuition and fees may also be charged by any county to all pupils for voluntary programs that occur outside the required one hundred eighty (180) instructional days, unless the state funds the entire cost of the instruction.

49-6-3004. School term.

(a) Each public school system shall maintain a term of no less than two hundred (200) days, divided as follows:

(1) One hundred eighty (180) days for classroom instruction;

(2) Ten (10) days for vacation with pay for a two hundred-day term, eleven (11) days for vacation with pay for a two hundred twenty-day term, and twelve (12) days for vacation with pay for a two hundred forty-day term;

(3) Five (5) days for in-service education;

(4) One (1) day for teacher-parent conferences;

(5) Four (4) other days as designated by the local board of education upon the recommendation of the director of schools; and

(6)(A) In the event of a natural disaster or serious outbreaks of illness affecting or endangering students or staff during a school year, the commissioner of education may waive for that school year the requirement under subdivision (a)(1) of one

hundred eighty (180) days of classroom instruction, if a request is submitted to the commissioner by the director of schools. The waiver request may be for the entire LEA or for individual schools within the LEA;

(B) Notwithstanding subdivisions (a)(1) and (6)(A), the commissioner of education shall waive the requirement under subdivision (a)(1) of one hundred eighty (180) days of classroom instruction for the 2019-2020 school year. This subdivision (a)(6)(B) does not prohibit a school from continuing classroom instruction after being issued a waiver from the commissioner pursuant to this subdivision (a)(6)(B).

(b) Vacation days shall be in accordance with policies recommended by the local director of schools and adopted by the local board of education.

(c)(1)(A) In-service days shall be used according to a plan recommended by the local director of schools in accordance with this section and other applicable statutes and adopted by the local board of education, a copy of which plan shall be filed with the commissioner of education on or before June 1 of the preceding school year and approved by the commissioner. The commissioner shall require that in-service training include at least two (2) hours of suicide prevention education for all teachers and principals each school year. This education may be accomplished through self-review of suitable suicide prevention materials. The commissioner shall also encourage the use of two (2) of the in-service training days to provide training to teachers, principals and other school personnel, and, to the extent possible, school board members, on issues of prevention and intervention strategies for students in the area of behavioral/emotional disorders. The training shall place an emphasis on understanding the warning signs of early-onset mental illness in children and adolescents and may be conducted by school counseling personnel, such as psychologists, social workers, guidance counselors or health faculty, by mental health clinicians or by approved personnel from mental health advocacy organizations using curricula approved by the departments of education and mental health and substance abuse services. In addition to other training and resources authorized by this chapter, the department of education shall, within available resources, collaborate with institutions of higher education to formally address dyslexia and similar reading disorders by providing kindergarten through twelfth grade (K-12) educators and teachers web-based or in-person training providing effective instruction for teaching students with dyslexia using appropriate scientific research and brain-based multisensory intervention methods and strategies.

(B) Each local board of education shall require that each employee of the LEA who works directly with students in the LEA receive, once every three (3) years, in-service training on the detection, intervention, prevention, and treatment of human

trafficking in which the victim is a child, which must be accomplished through the viewing of a video recording approved by the LEA. The plan recommended by the director of schools and adopted by the local board of education under subdivision (c)(1)(A) must specify the amount of in-service credit that an employee will receive for viewing the video required in this subdivision (c)(1)(B). The local board of education shall maintain a record of each employee who completes the in-service training required in this subdivision (c)(1)(B). This subdivision (c)(1)(B) does not excuse an LEA from having to comply with the in-service training and reporting requirements of § 37-1-408.

(2) The needs of apprentice teachers shall be given priority in the planning of in-service activities. Apprentice teachers shall be assisted by supervising teachers in the development of competencies required by the local board of education.

(3) The plan shall also give priority to staff development activities. Staff development activities shall include an assessment of teacher and administrator evaluations made previously by the local school system. Career level III teachers and career level III supervisors shall be assigned to aid those teachers seeking to improve teaching competencies.

(d) The state board of education shall develop a policy governing professional development activities during in-service education within the guidelines adopted by the general assembly.

(e)(1) A local board of education or private or church-related school that exceeds the full six and one-half (6½) hours instructional time required by law by one-half (½) hour daily for the full academic year shall be credited with the additional instructional time. The excess instructional time may be accumulated in amounts up to, but not exceeding, thirteen (13) instructional days each year, and applied toward meeting instructional time requirements missed due to dangerous or extreme weather conditions and for serious outbreaks of illness affecting or endangering students or staff. Upon approval by the commissioner, the excess instructional time may be used in case of natural disaster or dangerous structural or environmental conditions rendering a school unsafe for use. This excess accumulated instructional time may be used for early student dismissal for faculty professional development under rules promulgated by the board of education. Such time may be used in whole day (six and one-half (6½) hour) increments and may be used for faculty professional development, individualized education program (IEP) team meetings, school-wide or system-wide instructional planning meetings, parent-teacher conferences, or other similar meetings. The board shall consult with the commissioner in developing the rules. All proposals for use of excess time for professional development and instructional planning meetings shall be approved by the commissioner. Additionally, the commissioner is authorized to approve directly proportional variations from the one-half-hour extension of the school day and the corresponding accumulation of thirteen (13) days of adjustments to the instruc-

tional time requirements.

(2) Any unused accumulated days for excess instructional time shall not carry over to a school year other than the year in which the time was accumulated.

(f) Beginning with the 2010-2011 school year and every year thereafter, LEAs shall commence the school year no earlier than August 1 unless the LEA's board of education votes by a majority of its membership to establish a year-round or alternative calendar for all or any of the schools within its jurisdiction in accordance with department of education attendance policies.

(g) The length of term selected by a local board, and the length of the school day corresponding to that term, shall not affect either the amount or timing of payments made to the LEA under the Tennessee investment in student achievement formula (TISA) or otherwise, if the LEA operates for the full chosen term. Equally, the length of term and the length of day shall not affect the compensation of any teacher employed for the length of that term.

(h) Any LEA operating a virtual school or virtual education program shall make available the same length of time for learning opportunities per academic year as required under this section to any student participating in its program. The LEA shall, however, also permit a student to move at the student's own pace. The student shall demonstrate mastery, competency and completion of a course or subject area to be given credit for the course or subject area. If a student successfully completes a course or grade level more than thirty (30) days before the end of the term, the student shall begin work in the next appropriate course or grade. The academic program shall continue until the end of the academic year.

(i)(1) An LEA may provide up to two (2) days each semester of the required one hundred eighty (180) days of classroom instruction pursuant to subdivision (a)(1) via remote instruction in accordance with this subsection (i).

(2) An LEA may require a class, school, or all schools of the LEA to utilize remote instruction in the event of dangerous or extreme weather conditions or of serious outbreaks of illness affecting or endangering students or staff.

(3) An LEA may require a class, school, or all schools of the LEA to utilize remote instruction on days that the school administers end-of-course assessments or the assessment required pursuant to § 49-6-6001(b)(1); provided, that the students who are administered the end-of-course assessments or the assessment required pursuant to § 49-6-6001(b)(1) take the assessments in person.

(4) An LEA that provides remote instruction pursuant to this subsection (i) shall provide:

(A) Students enrolled in kindergarten access to at least four (4) hours of instruction each day; and

(B) Students enrolled in grades one through twelve (1-12) access to at least six and one-half (6½) hours of instruction each day.

(5) In tracking daily student attendance and compliance with state school attendance and truancy

intervention laws, an LEA shall implement policies and procedures for the LEA to request and receive daily visual, verbal, or written confirmation of student participation in instructional time; determine excused versus unexcused student absences; and implement interventions to address student absences during remote instruction.

(6) An LEA that provides remote instruction pursuant to this subsection (i) shall comply with all state and federal laws, rules, and policies.

(7) An LEA shall:

(A) Make school meals available to students in accordance with the school nutrition program requirements on days that remote instruction is provided pursuant to this subsection (i); and

(B) Make services required by a student's individualized education program (IEP) available to the student on days that remote instruction is provided pursuant to this subsection (i).

(8) As used in this subsection (i), "remote instruction" means instruction that takes place when a teacher does not provide in-person instruction to students within the traditional school setting.

(b) In all cases described in subsection (a), the board shall first obtain the recommendation in writing from the director of schools of the system and the principal of the school to which the child or children belong.

(c) No child who is refused attendance in a school nearer to the child's residence having equivalent grade levels and curriculum shall be required to attend public or nonpublic school as provided in § 49-6-3001.

49-6-3007. List of students — Reports of attendance — Enforcement of compulsory attendance — List of truant students.

(a) By the beginning of each school year, the director of schools shall furnish, or cause to be furnished through the attendance supervisor, to the principal of each school a list of students who will attend the school together with the names of the students' parents or guardians. The lists must be taken from the census enumeration on file in the office of the director of schools or from any other available and reliable source.

(b) After the opening of school, each principal of a public school must report to the director of schools the names of all students on the list furnished to the principal who have not appeared for enrollment.

(c) A principal or head of school of a public, nonpublic, or church-related school must report to the director of schools of the LEA in which the school is located the names, ages, and residences of all students in attendance at the school within thirty (30) days after the beginning of the school year. The principal or head of school of a public, nonpublic, or church-related school must make other reports of attendance in the school, including transfers of students, as may be required by the local board of education, the state board of education, or the department of education. Notwithstanding subsection (f), this subsection (c) applies to any student less than six (6) years of age who is enrolled in kindergarten in any school to which this subsection (c) is applicable.

(d) All public, nonpublic, and church-related schools shall keep daily reports of attendance, verified by the teacher making the record, that shall be open to inspection at all reasonable times by the director of schools of

the LEA in which the school is located, or the director's duly authorized representative. Notwithstanding subsection (f), this subsection (d) applies to any child less than six (6) years of age who is enrolled in kindergarten in any school to which this subsection (d) is applicable.

(e)(1) By the beginning of each school year, the principal or head of school of a public, nonpublic, or church-related school shall give written notice to the parent, guardian, or person having control of a student subject to compulsory attendance that the parent, guardian, or other person having control of the student must monitor the student's school attendance and require the student to attend school. The written notice must inform the parent, guardian, or other person having control of a student that a student who accumulates five (5) days of unexcused absences during the school year is subject to the LEA's progressive truancy interventions and that continued unexcused absences may result in a referral to juvenile court. The five (5) days of unexcused absences need not be five (5) consecutive days of unexcused absences.

(2) The principal of a public school must report promptly to the director of schools, or to the attendance supervisor, the names of all students who have withdrawn from school or who have accumulated three (3) days of unexcused absences. Upon a student's accumulation of three (3) days of unexcused absences, the director of schools or the attendance supervisor may serve, or cause to be served, upon the parent, guardian, or other person having control of a child subject to compulsory attendance who is unlawfully absent from school, written notice that the child's attendance at school is required by law.

(3) Additionally, the principal of a public school must report promptly to the director of schools, or to the attendance supervisor, the names of all students who have withdrawn from school or who have accumulated five (5) days of unexcused absences. Each successive accumulation of five (5) days of unexcused absences by a student must also be reported.

(4)(A) When a student accumulates five (5) days of unexcused absences, the director of schools or attendance supervisor shall serve, or cause to be served, upon the parent, guardian, or other person having control of a child subject to compulsory attendance who is unlawfully absent from school written notice that the child's attendance at school is required by law. The director of schools or attendance supervisor shall send a new notice after each successive accumulation of five (5) unexcused absences.

(B) After the child has accumulated five (5) unexcused absences, and after given adequate time, as determined by director of schools or attendance supervisor, the child's parent, guardian, or other person having control of the child has failed to turn in documentation to excuse those absences, the director of schools or attendance supervisor shall implement the truancy intervention requirements of the second tier of the progressive truancy plan as described in § 49-6-3009.

(C) This section does not prohibit a local board of education from adopting a progressive truancy plan that allows the LEA to take intervention actions before those required in this subsection (e). Such actions may include any of the truancy intervention actions required for the second or third tier of the LEA's progressive truancy plan.

(f) Except as otherwise provided by § 49-6-3001 or § 49-6-3005, this section is applicable to a child less than six (6) years of age and the child's parent, guardian, or other person having control of a child, when such person has enrolled the child in a public school; provided, that a child may be withdrawn within six (6) weeks of initial enrollment without penalty.

(g) For the purposes of this part, for recording and coding student absences from school because of disciplinary actions, the following definitions apply:

(1) "Expulsion" means removal from attendance for more than ten (10) consecutive days or more than fifteen (15) days in a month of school attendance. Multiple suspensions that occur consecutively constitute expulsion. The LEA is not eligible to receive funding for an expelled student;

(2) "Remand" means assignment to an alternative school. The student so assigned shall be included in average daily attendance and average daily membership and shall continue to be counted as present for funding purposes. The department of education shall establish a set of codes to be used for reporting reasons that students are remanded to an alternative school; and

(3) "Suspension" means dismissal for any reason from attendance at school not exceeding ten (10) consecutive days. Multiple suspensions shall not run consecutively, nor shall multiple suspensions be applied to avoid expulsion from school. The LEA remains eligible to receive funding for a suspended student.

(h)(1)(A) An LEA may enter into an agreement with the local law enforcement agency serving the LEA's area and the appropriate local government in that area to assist in the enforcement of compulsory attendance upon complying with the following conditions:

(i) Creation by the local board of education of an advisory council to assist the board in formulating the agreement. The board must include representatives of teachers, parents, administrators, and other community representatives;

(ii) Receipt of input from neighborhood groups and other interested parties; and

(iii) At least one (1) public hearing on the proposed agreement prior to its adoption by the board.

(B) The agreement must provide for:

(i) Training teachers, principals, social workers, and other school personnel concerning truancy issues;

(ii) Training of involved law enforcement personnel in the truancy law, including categories of students to which the law does not apply, such as nonpublic school students or home school stu-

dents; and

(iii) Safeguards to protect students from discriminatory or selective enforcement and to protect the civil rights of students and parents.

(C) If an LEA enters into an agreement, then every public school principal or teacher employed by the LEA must report promptly to the director of schools, or the director's designated representative, the names of all students who accumulated five (5) days of unexcused absences and continue to report each subsequent unexcused absence. The five (5) days of unexcused absences need not be five (5) consecutive days of unexcused absences.

(2) If a student accumulates five (5) days of unexcused absences, the director of schools shall serve, or cause to be served, upon the parent, guardian, or other person having control of the student written notice that the student's attendance at school is required. The notice must inform the parent, guardian, or other person having control of the student of this subsection (h).

(3) Under the agreement, and for purposes of this section and § 37-1-102(b)(32)(A), a student who accumulates three (3) days of unexcused absences may be deemed habitually truant.

(4) The director of schools or the director's representative may issue a list of truant students to the local law enforcement agency for the purpose of allowing the law enforcement agency to take the student into temporary custody when the student is found away from the school premises, without adequate excuse, during school hours, in a public place, in any public or private conveyance, or in any place of business open to the public, unless accompanied by a parent, guardian, or other person having control of the student. The agreement shall specify that the law enforcement officer's sole function is to deliver the student to:

(A) The parent, guardian, or other person having control of the student;

(B) The principal of the school in which the student is enrolled;

(C) A truancy center established by the LEA; or

(D) The juvenile court, if the juvenile court and the local law enforcement agency have entered into a local interagency agreement.

(5) The powers conferred under such agreements may be exercised without warrant and without subsequent legal proceedings.

(6) This subsection (h) does not apply to students enrolled in nonpublic schools, home schools under § 49-6-3050, or church-related schools under § 49-50-801.

(7) Upon issuance of a standing order by the juvenile court, LEA officials shall be allowed to release student record information to local law enforcement agencies and to juvenile justice system officials to assist the officials in effectively serving the student whose record is released. Officials and authorities receiving the information shall not disclose the information to any other party without prior written consent of the parent. Release of a student record

must comply with the Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g), § 10-7-504, and other relevant state and federal privacy laws.

(a) The director of schools of any local school system, or the director of schools' designated representative, has the right to visit and enter any office, factory or business house employing children belonging to schools within the director of schools' jurisdiction and to require properly attested certificates of attendance or employment permit of any child in a day school or a valid work permit for the child.

(b) When reasonable doubt exists as to the age of any child who violates this part, the director of schools or the director of schools' designated representative shall require satisfactory proof of age.

(c) Any parent, guardian or other person having charge or control of any child embraced within this part who makes a false statement concerning the age of the child or the time that the child has attended school commits a Class C misdemeanor.

49-6-3009. Educational neglect — Progressive truancy plans that implement tiers of intervention — Referral to juvenile court.

(a) Any parent, guardian, or other person who has control of a child, and who violates this part commits educational neglect, which is a Class C misdemeanor.

(b) Each day's unlawful absence constitutes a separate offense.

(c) A director of schools or attendance supervisor shall devise and recommend, and the local board of education shall adopt, a progressive truancy plan that implements tiers of intervention for students who violate compulsory attendance requirements prior to the filing of a truancy petition or a criminal prosecution for educational neglect. These interventions must be designed to address student conduct related to truancy in the school setting and minimize the need for referrals to juvenile court.

(d) Progressive truancy plans adopted by local boards of education pursuant to subsection (c) must be

applied prior to referral to juvenile court as described in § 49-6-3007(e)(1). Beginning with the 2021-2022 school year, progressive truancy plans must include a first tier of truancy prevention that is applicable to all enrolled students, and a second and third tier of truancy intervention required for students who have accumulated a minimum of five (5) days of unexcused absences. Beginning with the 2021-2022 school year, progressive truancy plans must meet the following requirements:

(1) Tier one of the progressive truancy plan must include schoolwide, prevention-oriented supports;

(2) Tier two must be implemented upon a student's accumulation of five (5) unexcused absences, as specified in the LEA's progressive truancy plan, and must include, at a minimum:

(A) A conference with the student and the parent, guardian, or other person having control of the student;

(B) A resulting attendance contract to be signed by the student, the parent, guardian, or other person having control of the student, and an attendance supervisor or designee. The contract must include:

(i) A specific description of the school's attendance expectations for the student;

(ii) The period for which the contract is in effect; and

(iii) Penalties for additional absences and alleged school offenses, including additional disciplinary action and potential referral to juvenile court;

(C) Regularly scheduled follow-up meetings, which may be with the student and the parent, guardian, or other person having control of the student to discuss the student's progress;

(D) An individualized assessment by a school employee of the reasons a student has been absent from school; and

(E) If necessary, referral of the child to counseling, community-based services, or other in-school or out-of-school services aimed at addressing the student's attendance problems; and

(3) Tier three must be implemented if the truancy interventions under tier two are unsuccessful. Tier three may consist of one (1) or more of the following:

(A) School-based community services;

(B) Participation in a school-based restorative justice program;

(C) Referral to a school-based teen court; or

(D) Saturday or after-school courses designed to improve attendance and behavior.

(e) In-school suspension or out-of-school suspension must not be used as part of the progressive truancy plans adopted by schools for unexcused absence from class or school.

(f)(1) Notwithstanding subsections (d) and (g), if any tier of progressive truancy intervention is unsuccessful with a student and the school can document that the student's parent or guardian is unwilling to cooperate with the truancy intervention requirements outlined in the progressive truancy plan, then

the director of schools, or the director's designee, may report the student's absences to the appropriate judge pursuant to subsection (g) without first having to implement subsequent intervention tiers, if any.

(2) For purposes of this subsection (f), evidence of a parent's or guardian's unwillingness to cooperate with the truancy intervention requirements outlined in the progressive truancy plan includes, but is not limited to, a parent's or guardian's failure or refusal, on multiple occasions, to attend conferences, return telephone calls, attend follow-up meetings, enter into an attendance contract, or actively participate in any of the tiers of truancy intervention outlined in subsection (d) or in the local board of education's progressive truancy plan.

(g) If an LEA has applied a progressive truancy plan that complies with subsection (d) and interventions under the plan have failed to meaningfully address the student's school attendance, the director of schools, after written notice to the parent, guardian, or other person having control of the student, shall report the student who is unlawfully absent from school to the appropriate judge having juvenile jurisdiction in that county. Each case must be dealt with in such manner as the judge may determine to be in the best interest of the student, consistent with §§ 37-1-132, 37-1-168, and 37-1-169. In the event a student in kindergarten through grade twelve (K-12) is adjudicated to be unruly because the student has accumulated five (5) days or more of unexcused absences during any school year, the judge may assess a fine of up to fifty dollars (\$50.00) or five (5) hours of community service, in the discretion of the judge, against the parent or legal guardian of the student.

(h) Each referral to juvenile court for conduct described in subsection (g) and § 49-6-3007(h)(4)(D) must be accompanied by a statement from the student's school certifying that:

(1) The school applied the progressive truancy interventions of the progressive truancy plan adopted under subsection (d) for the student; and

(2) The progressive truancy interventions failed to meaningfully address the student's school attendance.

(i) A court shall dismiss a complaint or referral made by an LEA under this section that is not made in compliance with subsection (h).

(j) Notwithstanding any other law, each LEA having previously adopted an effective progressive truancy intervention program that substantially conforms to this section may present the intervention program to the commissioner of education for approval in lieu of strict compliance with this section. If the commissioner does not approve the intervention plan, the LEA shall modify the plan according to the commissioner's recommendations and resubmit the revised plan for approval by the commissioner.

(k) Each head of school of a nonpublic or church-related school shall recommend, and the governing board of the school shall adopt, a policy addressing compulsory attendance and truancy that describes the interventions that the school will employ for violations

of the compulsory attendance laws. The policy shall provide that the director of schools or the attendance supervisor in the LEA where the student's home of record is located will be notified in the event that a student at a nonpublic or church-related school is expelled or withdraws from school.

(l) Parents, guardians, or other persons having control of a student who is required to attend remedial instruction under § 49-6-3021 commit educational neglect, as defined in subsection (a), if the student is truant from the instruction.

(m) For purposes of this section, all references to "intervention," "truancy intervention," or "progressive truancy intervention" are deemed references to the truancy interventions of the second and third tiers of a progressive truancy plan.

PART 34**SUSPENSION OF STUDENTS****49-6-3401. Suspension of students — Expulsion of students — Exception for self-defense.**

(a) Any principal, principal-teacher or assistant principal of any public school in this state is authorized to suspend a pupil from attendance at the school, including its sponsored activities, or from riding a school bus, for good and sufficient reasons. Good and sufficient reasons for suspension include, but are not limited to:

- (1) Willful and persistent violation of the rules of the school;
- (2) Immoral or disreputable conduct or vulgar or profane language;

(3) Violence or threatened violence against the person of any personnel attending or assigned to any public school;

(4) Willful or malicious damage to real or personal property of the school, or the property of any person attending or assigned to the school;

(5) Inciting, advising or counseling of others to engage in any of the acts enumerated in subdivisions (a)(1)-(4);

(6) Marking, defacing or destroying school property;

(7) Possession of a pistol, gun or firearm on school property;

(8) Possession of a knife and other weapons, as defined in § 39-17-1301 on school property;

(9) Assaulting a principal, teacher, school bus driver or other school personnel with vulgar, obscene or threatening language;

(10) Unlawful use or possession of barbitol or legend drugs, as defined in § 53-10-101;

(11) One (1) or more students initiating a physical attack on an individual student on school property or at a school activity, including travel to and from school or a school activity;

(12) Making a threat, including a false report, to use a bomb, dynamite, any other deadly explosive or destructive device, including chemical weapons, on school property or at a school sponsored event;

(13) Any other conduct prejudicial to good order or discipline in any public school; and

(14) Off campus criminal behavior that results in the student being legally charged with an offense that would be classified as a felony if the student was charged as an adult or if adjudicated delinquent for an offense that would be classified as a felony if the student was an adult, or if the student was convicted of a felony, and the student's continued presence in school poses a danger to persons or property or disrupts the educational process. Notwithstanding § 37-1-131 or any other law to the contrary, the principal of the school in which the student is enrolled and the director of schools shall determine the appropriate educational assignment for the student released for readmission.

(b)(1) Any principal, principal-teacher or assistant principal may suspend any pupil from attendance at a specific class, classes or school-sponsored activity without suspending the pupil from attendance at school pursuant to an in-school suspension policy adopted by the local board of education. Good and sufficient reasons for in-school suspension include, but are not limited to, behavior:

(A) That adversely affects the safety and well-being of other pupils;

(B) That disrupts a class or school sponsored activity; or

(C) Prejudicial to good order and discipline occurring in class, during school-sponsored activities or on the school campus.

(2) In-school suspension policies shall provide that pupils given an in-school suspension in excess of one (1) day from classes shall attend either special

classes attended only by students guilty of misconduct or be placed in an isolated area appropriate for study. Students given in-school suspension shall be required to complete academic requirements.

(c)(1) Except in an emergency, no principal, principal-teacher or assistant principal shall suspend any student until that student has been advised of the nature of the student's misconduct, questioned about it and allowed to give an explanation.

(2) Upon suspension of any student other than for in-school suspension of one (1) day or less, the principal shall, within twenty-four (24) hours, notify the parent or guardian and the director of schools or the director of schools' designee of:

(A) The suspension, which shall be for a period of no more than ten (10) days;

(B) The cause for the suspension; and

(C) The conditions for readmission, which may include, at the request of either party, a meeting of the parent or guardian, student and principal.

(3) If the suspension is for more than five (5) days, the principal shall develop and implement a plan for improving the behavior, which shall be made available for review by the director of schools upon request.

(4)(A) If, at the time of the suspension, the principal, principal-teacher or assistant principal determines that an offense has been committed that would justify a suspension for more than ten (10) days, the person may suspend a student unconditionally for a specified period of time or upon such terms and conditions as are deemed reasonable.

(B) The principal, principal-teacher or assistant principal shall immediately give written or actual notice to the parent or guardian and the student of the right to appeal the decision to suspend for more than ten (10) days. All appeals must be filed, orally or in writing, within five (5) days after receipt of the notice and may be filed by the parent or guardian, the student or any person holding a teaching license who is employed by the school system if requested by the student.

(C) The appeal from this decision shall be to the board of education or to a disciplinary hearing authority appointed by the board. The disciplinary hearing authority, if appointed, shall consist of at least one (1) licensed employee of the LEA, but no more than the number of members of the local board.

(D) The hearing shall be held no later than ten (10) days after the beginning of the suspension. The local board of education or the disciplinary hearing authority shall give written notice of the time and place of the hearing to the parent or guardian, the student and the school official designated in subdivision (c)(4)(A) who ordered the suspension. Notice shall also be given to the LEA employee referred to in subdivision (c)(4)(B) who requests a hearing on behalf of a suspended student.

(5) After the hearing, the board of education or the disciplinary hearing authority may affirm the deci-

sion of the principal, order removal of the suspension unconditionally or upon such terms and conditions as it deems reasonable, assign the student to an alternative program or night school or suspend the student for a specified period of time.

(6) If the decision is determined by a disciplinary hearing authority, a written record of the proceedings, including a summary of the facts and the reasons supporting the decision, shall be made by the disciplinary hearing authority. The student, principal, principal-teacher or assistant principal may, within five (5) days of the decision, request review by the board of education; provided, that local school board policy may require an appeal to the director of schools prior to a request for review to the board. Absent a timely appeal, the decision shall be final. The board of education, based upon a review of the record, may grant or deny a request for a board hearing and may affirm or overturn the decision of the hearing authority with or without a hearing before the board; provided, that the board may not impose a more severe penalty than that imposed by the hearing authority without first providing an opportunity for a hearing before the board. If the board conducts a hearing as a result of a request for review by a student, principal, principal-teacher or assistant principal, then, notwithstanding any provision of the open meetings laws compiled in title 8, chapter 44, or other law to the contrary, the hearing shall be closed to the public, unless the student or student's parent or guardian requests in writing within five (5) days after receipt of written notice of the hearing that the hearing be conducted as an open meeting. If the board conducts a hearing as a result of a request for review by a student, principal, principal-teacher, or assistant principal that is closed to the public, then the board shall not conduct any business, discuss any subject or take a vote on any matter other than the appeal to be heard. Nothing in this subdivision (c)(6) shall act to exclude the department of children's services from the disciplinary hearings when the department is exercising its obligations under § 37-1-140. The action of the board of education shall be final.

(d) In the event the suspension occurs during the last ten (10) days of any term or semester, the pupil may be permitted to take final examinations or submit required work that is necessary to complete the course of instruction for that semester, subject to the action of the principal, or the final action of the board of education upon any appeal from an order of a principal continuing a suspension.

(e) Students under in-school suspension shall be recorded as constituting a part of the public school attendance in the same manner as students who attend regular classes.

(f) Nothing in this title shall require an LEA to enroll a student who is under suspension or expelled in an LEA either in Tennessee or another state. The director of schools for the school system in which the suspended student requests enrollment shall make a recommendation to the local board of education to

approve or deny the request. The recommendation shall occur only after investigation of the facts surrounding the suspension from the former school system. Nothing in this subsection (f) shall affect children in state custody or their enrollment in any LEA. Any LEA that accepts enrollment of a student from another LEA may dismiss the student if it is determined subsequent to enrollment that the student had been suspended or expelled by the other LEA.

(g)(1) It is the legislative intent that if a rule or policy is designated as a zero tolerance policy, then violations of that rule or policy must not be tolerated and violators shall receive certain, swift, and proportionate punishment.

(2) Notwithstanding this section or another law to the contrary, a student has committed a zero tolerance offense if the student:

(A) Brings to school or is in unauthorized possession on school property of a firearm, as defined in 18 U.S.C. § 921;

(B) Commits aggravated assault as defined in § 39-13-102 or commits an assault that results in bodily injury as defined in § 39-13-101(a)(1) upon any teacher, principal, administrator, any other employee of an LEA, or a school resource officer;

(C) Is in unlawful possession of any drug, including any controlled substance, as defined in §§ 39-17-402 - 39-17-415, controlled substance analogue, as defined by § 39-17-454, or legend drug, as defined by § 53-10-101, on school grounds or at a school-sponsored event; or

(D) Threatens mass violence on school property or at a school-related activity pursuant to § 39-16-517.

(3) Nothing in this section prohibits the assignment of students who are subject to expulsion from school to an alternative school.

(4) Disciplinary policies and procedures for all other student offenses, including terms of suspensions and expulsions, must be determined by local board of education policy.

(5) For purposes of this subsection (g):

(A) “Expelled” means removal from the student’s regular school program at the location where the violation occurred or removal from school attendance altogether, as determined by the school official; and

(B) “Zero tolerance offense” means an offense committed by a student requiring the student to be expelled from school for at least one (1) calendar year that can only be modified on a case-by-case basis by the director of schools or the head of a charter school.

(h) The commissioner of education shall report on an annual basis to the education committee of the senate and the education administration committee of the house of representatives regarding disciplinary actions in Tennessee schools. The reports must include the reason for the disciplinary action, the number of students suspended or expelled, the number of students who committed zero tolerance offenses pursuant to subsection (g), the number of students who have been

placed in an alternative educational setting, and the number of students suspended, expelled, or otherwise dismissed from an alternative school. Data must be sorted by school as well as by various demographic factors, including grade, race, and sex.

(i) Notwithstanding subsection (a) or (b) or any other law to the contrary, if a pupil is determined, via a fair and thorough investigation made by the principal or the principal’s appointed representative, to have acted in self-defense under a reasonable belief that the student, or another to whom the student was coming to the defense of, may have been facing the threat of imminent danger of death or serious bodily injury, which the student honestly believed to be real at that time, then, at the principal’s recommendation, the student may not face any disciplinary action.

49-6-3402. Alternative schools for suspended or expelled students — Mandated attendance — Remote instruction.

(a) Local boards of education may establish alternative schools for students in grades one through six (1-6) who have been suspended or expelled from the regular school program. At least one (1) alternative school or alternative program shall be established and available for students in grades seven through twelve (7-12) who have been suspended or expelled as provided in this part. In providing alternative schools, any two (2) or more boards may join together and establish a school attended by students of any such school system; furthermore, any board may, by mutually acceptable agreement with another board, send its suspended or expelled students to any alternative school already in operation.

(b) Alternative schools and alternative programs shall be operated pursuant to rules of the state board of education pertaining to them, and instruction shall proceed as nearly as practicable in accordance with the instructional programs at the student’s home school. All course work completed and credits earned in alternative schools or alternative programs shall be transferred to and recorded in the student’s home school,

which shall grant credit earned and progress thereon as if earned in the home school.

(c)(1)(A) Attendance in an alternative school or alternative program is mandatory for students in grades seven through twelve (7-12) who have been suspended for more than ten (10) days or expelled from the regular school program if there is space and staff available.

(B)(i) Notwithstanding subdivision (c)(1)(A), attendance in an alternative school or alternative program is not mandatory for students in grades seven through twelve (7-12) who have been expelled from the regular school program for committing a zero tolerance offense.

(ii) This subdivision (c)(1)(B) does not prohibit a director of schools, or a director's designee, from assigning a student who has been expelled from the regular school program for committing a zero tolerance offense to an alternative school or alternative program.

(iii) The director of schools, or the director's designee, shall determine whether to assign a student who has been expelled from the regular school program for committing a zero tolerance offense to an alternative school or alternative program on a case-by-case basis.

(C)(i) Notwithstanding subdivision (c)(1)(A), a director of schools, or a director's designee, is not required to assign a student in grades seven through twelve (7-12) who has been suspended for more than ten (10) days or expelled from the regular school program for an offense of violence or threatened violence, or an offense that threatened the safety of persons attending or assigned to the student's school, to an alternative school or alternative program if:

(a) The alternative school or alternative program is located on the same grounds as the regular school program from which the student was suspended or expelled; or

(b) The director of schools, or the director's designee, determines that assigning the student to the alternative school or alternative program may endanger the safety of the students or staff of the alternative school or alternative program.

(ii) This subdivision (c)(1)(C) does not prohibit a director of schools, or a director's designee, from assigning a student who has been suspended for more than ten (10) days or expelled from the regular school program for an offense of violence or threatened violence, or an offense that threatened the safety of persons attending or assigned to the student's school, to an alternative school or alternative program. The director of schools, or the director's designee, shall determine whether to assign a student to an alternative school or alternative program under this subdivision (c)(1)(C) on a case-by-case basis.

(D) Attendance in an alternative school or alternative program is voluntary for students in grades one through six (1-6) who have been suspended or

expelled from the regular school program unless the local board of education adopts a policy mandating attendance in either instance.

(2)(A) A student who is assigned to an alternative school or alternative program is subject to all rules pertaining to the alternative school or alternative program.

(B) The director of schools, or the director's designee, may remove a student from the alternative school or alternative program if the director, or the director's designee, determines that:

(i) The student has violated the rules of the alternative school or alternative program; or

(ii) The student is not benefiting from the student's assignment to the alternative school or alternative program, and all interventions available to help the student to succeed in the alternative school or alternative program have been exhausted unsuccessfully.

(C) The director of schools, or the director's designee, may remove a student from the alternative school or alternative program under subdivision (c)(2)(B) for the duration of the student's original suspension or expulsion. The student's removal under subdivision (c)(2)(B) does not constitute grounds for any extension of the student's original suspension or expulsion.

(D) The director of schools, or the director's designee, shall make the final decision on removal.

(3) If a student is under suspension or expulsion and transfers to another LEA during the student's suspension or expulsion period, then the director of schools, or the director's designee, of the LEA to which the student transfers may review the grounds of the student's suspension or expulsion, but is not required to enforce the suspension or expulsion. If the director of schools, or the director's designee, elects to enforce the student's suspension or expulsion, then, notwithstanding subdivision (c)(1), the LEA to which the student transferred is not required to assign the student to an alternative school or alternative program for the remainder of the suspension or expulsion period. This subdivision (c)(3) does not limit or impair an LEA's ability to deny enrollment to a student who is under suspension or expulsion in another LEA or state pursuant to § 49-6-3401(f).

(d) Any student attending an alternative school shall continue to earn state education funds in the student's home school system and shall be counted for all school purposes by that system as if still in attendance there.

(e) A pupil who has been properly found to be eligible for special education and related services shall be placed and served in accordance with the laws and rules relating to special education.

(f)(1) The state board of education, in its rules and regulations for the operation of alternative schools, shall require documentation of the reasons for a student attending an alternative school and provide safeguards to assure that no child with disabilities or other special student is arbitrarily placed in an

alternative school. The state board of education, in its rules and regulations, shall require that all alternative school classrooms have working two-way communication systems making it possible for teachers or other employees to notify a principal, supervisor or other administrator that there is an emergency. Teachers and other employees shall be notified of emergency procedures prior to the beginning of classes for any school year.

(2) The state board of education shall provide a curriculum for alternative schools to ensure students receive specialized attention needed to maximize student success. Alternative schools shall offer alternative learning environments in which students are offered a variety of educational opportunities, such as learning at different rates of time or utilizing different, but successful, learning strategies, techniques and tools.

(g) Notwithstanding this section or other law to the contrary, local boards of education may establish evening alternative schools for students in grades six through twelve (6-12).

(h)(1) LEAs establishing alternative schools or contracting for the operation of alternative schools shall develop and implement formal transition plans for the integration of students from regular schools, including public charter schools, to alternative schools and from alternative schools to regular schools, including public charter schools. The plans shall be targeted to improve communication between regular and alternative school staff, provide professional development opportunities shared by regular school staff and alternative school staff, align curricula between regular schools and alternative schools, develop quality in-take procedures for students returning to regular school and provide student follow-up upon return to regular school.

(2) The state board of education shall adopt policies or guidelines to assist LEAs in developing transition plans.

(i) Alternative schools and alternative programs may provide remote instruction to students attending the school or program.

(1) The state board of education shall promulgate rules to establish guidelines for tracking daily student attendance and compliance with state school attendance and truancy intervention laws for alternative schools and alternative programs providing remote instruction.

(2) An alternative school or alternative program that provides remote instruction pursuant to this subsection (i) shall comply with all state and federal laws, rules, and policies.

(3) An LEA that has established a virtual school pursuant to chapter 16, part 2 of this title may enter into an agreement with an LEA that has not established a virtual school pursuant to chapter 16, part 2 of this title for the LEA's virtual school to provide remote instruction to students enrolled in either LEA who have been suspended or expelled from the regular school program. An agreement entered into pursuant to this subdivision (i)(3) is an approved alternative program for purposes of this section.

49-6-4203. Legislative intent.

(a) It is the intent of the general assembly in enacting this part to secure a safe environment in which the education of the students of this state may occur.

(b) The general assembly recognizes the position of the schools in loco parentis and the responsibility this places on principals and teachers within each school to secure order and to protect students from harm while in their custody.

(c) It is the intent of this part to extend further, rather than limit, the authority of principals and teachers to secure order and provide protection of students within each school.

(d) The general assembly further recognizes that a rising level of violent activity and use of drugs is occurring in some public schools, especially in urban areas, and that these activities threaten the well-being of all students in those schools.

(e) The general assembly further finds that:

(1) The removal of dangerous weapons, drug paraphernalia and drugs from school property is necessary to lessen hazards to students and that removal can only be accomplished by searches of areas of the school buildings or grounds where those materials may be stored;

(2) On occasions when the use of dangerous weapons or drugs has reached a life or health threatening level, searches of students themselves may be necessary to protect the larger student body, and that often the searches must be conducted in emergency situations;

(3) Individual circumstances and local particularities require that individual principals must be relied on to exercise their professionally trained judgments in determining what action is appropriate within this part; and

(4) The presence on school property of students with drugs in their bodies may pose a threat to the safety and well-being of that student and other students, may be disruptive of school classes and other programs and may interfere with the educational opportunities and progress of all students.

(b) Individual circumstances requiring a search may include incidents on school property, including school buses, involving, but not limited to, the use of dangerous weapons, drugs or drug paraphernalia by students that are known to the principal or other staff members, information received from law enforcement, juvenile or other authorities indicating a pattern of drug dealing or drug use by students of that school, any assault or attempted assault on school property with dangerous weapons or any other actions or incidents known by the principal that give rise to reasonable suspicion that dangerous weapons, drugs or drug paraphernalia are held on school property by one (1) or more students.

(c) A notice shall be posted in the school that lockers and other storage areas, containers, and packages brought into the school by students or visitors are subject to search for drugs, drug paraphernalia, dangerous weapons or any property that is not properly in the possession of the student.

(4) The search is not conducted for the sole purpose of discovering evidence to be used in a criminal
