

## I. TFACTS Release Contents (17)

Remedy #	Summary	Functional Area	Release Note	Release Date
1207138	Assessments were not displaying on list page after being submitted for approval and then recalled. TFACTS was setting status of the work-item incorrectly which caused it to not display.	Assessments	The status of a recalled work item will be set to 'Pending' correctly which will restore the display of the item on approval tab and list page.	01/21/2016
1167550	Unable to end Home Study Writer assignments on Resource Home work items.	Assignments	TFACTS was not automatically deleting the Home Study Writer assignments whenever the actual Home Study is deleted. The trigger was modified to automatically delete any associated assignment records whenever the home study record has been marked for deletion.	01/12/2016
1152026	CFT Member list not sorted in any certain order which makes it difficult to find and manage members when the team is large.	CFTM	The CFT Member list is now sorted alphabetically.	1/28/2016
1218815	The 'CPS Case Completion Coming Due' alert is not going away after the employee's assignment has been ended.	CPS Investigation	The problem is the alert was looking for any assignments and not just the active ones. This has been resolved and alert correctly terminates.	1/28/2016
1168002	Unable to access eligibility record via following navigation path: TFACTS History link>Title IV-E Eligibility History>eligibility ID.	Eligibility	Broken navigation path resolved.	01/28/2016

# TFACTS Release Report

## January 2016

1205712	Error message when attempting to increase subsidy rate for a child 12 years of age or older.	Subsidy	TFACTS was not using the age of the child based on the action date when validating the rate limit to use for the recommended and approved per diem. Subsidy Specialists will now be able to enter Subsidy Modification Reviews for children turning 12 years of age with rates exceeding \$24.81 per day.	01/12/2016
1206282	Evidence Based Service details screen display issue if double quotes (") contained in text field(s).	Placement	Evidence Based Service details screen now displays the saved Add Service Session information even when double quotes (") and/ or back slash (\) have been entered into the Other Type Text field and/or the Narrative field.	01/15/2016
1167788	System error linking visitation plan to perm plan.	Perm Plan	The error was caused by an incorrect sequence on the CP_VISITATION_PLAN_LINK table in database. This has been corrected and now visitation plans can be linked to perm plan without encountering system error.	01/15/2016
1170467	The Eligibility Override By field on an EFCS record is being changed every time the record is modified even if the override information has not changed.	IL Eligibility	TFACTS will now only update the Override By field when the eligibility override result is changed.	01/08/2016
1214192	Unable to assign EFC Worker after adding an IL Eligibility record to a case.	IL Eligibility	The problem is when the user added the EFCS Program Eligibility record, the system could not find an open case to associate that record with which is why no assignments can be made. The solution is to not allow an IL Program Eligibility record to be added if the case is closed.	01/21/2016

## January 2016

1218349	System error when attempting to end EFC effective date. System is incorrectly including custody episodes that were marked in error when determining if the EFCSEligibility Begin Date is greater than or equal to the child's custody episode termination date.	IL Eligibility	System is incorrectly including custody episodes that were marked in error when determining if the EFCS Eligibility Begin Date is greater than or equal to the child's custody episode termination date	1/28/2016
1207523	The Intake - Tracking Tool Tab screen displays as in01d_s02_track_tab_track and according to screen specs should be in01d_s01. The wrong code name causes the wrong help topic to display.	System Admin	The Intake - Tracking Tool page now displays correct code name.	01/15/2016
1204951	Workload page display incorrect code name. The wrong code name causes the wrong help topic to display.	System Admin	Workload page now displays correct code name.	01/12/2016
1215911	The Priority Tool screen name is the same as the Tracking Tool screen name and I think the Priority Tool screen name should be in01e_s01.	System Admin	Screen name corrected	1/28/2016
1193908	MyWork F2F button currently lists the total number of children who have been placed in custody and assigned to the worker.	Workload	MyWork F2F button now lists the number of unmet required Case Manager/Child face to face meetings for the worker in focus.	01/08/2016
1180678	Workload displays no work items.	Workload	A case name included a double quote in the string that caused a parsing error which resulted in blank display. Error has been resolved.	01/08/2016
