

# Tennessee CTSO State Conference Updates

You are cordially invited to attend the Tennessee CTSO State Leadership Conferences as we roll out two new activities at each of these conferences.

Our first annual **Administrator VIP Day** at each state conference, which will allow directors, school counselors, and other school and district administration to spend a day with us checking out what goes on at one of our events. What you will do and see while there:

- Participate in a guided conference tour
- Witness competitive events
- Walk through industry exhibits
- Check out an advisor PD session
- Attend a conference general session
- Sit in on a student leadership workshop
- Network with and be seen supporting your teachers and your students!

State conference dates for each CTSO are listed below. Attendance for this one-day activity will be at no cost to any of our administrators that want to take a peek into the excitement that our students and advisors work toward all year long. Be on the lookout for more specific times for our VIP tour and other details regarding registration!

Also on tap is the addition of a **CTSO Community Service Project** at each of our state CTSO conferences this year. This activity will provide our students with the opportunity to give back during some of their down time at the conference. Each organization has chosen a service project that aligns with their particular CTSO. Be there to see the magic!
