

# Hach Water Analysis Workshops

**Introduction to Chlorine Analysis 4.0 hours credit all classifications**

**Attendees receive a Pocket Colorimeter II Kit which includes a Pocket Colorimeter II, a Fixed Volume Pipet, Tips, Ampule Breaker, 250 mL Beaker, Chlorine Std 25-30 mg/L, Wash Bottle, Kimwipes, SpecV Chlorine, plus 4 hours of training.**

**Cost: \$400.00 (PCII Kit & Class)  
\$125 for the class alone**

This workshop is designed to offer a simple overview of the use of chlorine and chloramine disinfectants. We will discuss the proper sampling techniques, colorimetry theory, and hand-held instrument measuring procedures. The theory will be demonstrated with hands-on testing that includes unknown samples, spiking, and standards. At the conclusion of the course the attendee will have the tools needed to sample and report disinfection values with confidence!
