

Tennessee Behavioral Risk Factor Surveillance Survey 2011 State and Regional Weighted Data

Adults aged 18-64 that have participated in high-risk behavior in the past year.

State and Regions	Total Respondents	High Risk Behavior ¹	Weighted Risk ²	Population at Risk ³
TENNESSEE⁴	3,296	84	4.1	145,551
Northeast	243	2	0.5	981
East	187	3	2.5	9,912
Southeast	177	5	3.8	6,439
Upper Cumberland	212	6	2.9	5,206
Mid-Cumberland	243	6	2.3	15,593
South Central	197	3	1.7	3,563
Northwest	224	2	0.8	1,139
Southwest	251	9	9.7	15,453
Shelby	255	6	1.9	9,727
Davidson	228	5	4.6	18,136
Knox	228	6	2.4	6,146
Hamilton	216	4	2.5	4,840
Madison	245	10	4.4	2,589
Sullivan	248	9	4.9	4,338

¹ Number of respondents who said they had participated in high-risk behavior in the past year. Survey inquires about intravenous drug use, treatment for sexually transmitted or venereal disease, giving or receiving money or drugs in exchange for sex, and anal sex without a condom.

² Weighted risk is the estimated percentage of adult population aged 18-64 who have participated in high-risk behavior based on the survey.

³ Population at risk is the estimated population aged 18-64 who have participated in high-risk behavior based on the survey. Note: The sum of regional estimates in this column will not add up to statewide total.

⁴ Statewide estimates include survey by cell phone and different weighting methodology.
