| 24 | MR. VALENTINE: Yes. | 24 | number two, we will be discussing the budget, and we |
| 25 | MR. BAYNE: Yes. | 25 | may have to go to once every six months meetings. If |
| | | | |
| | | | |
| 1 | Page 6 MR. BROWN: Shouldn't it be 12? They're | 1 | Page 8 that's the case, I'm going to have to have some |
| 2 | asking for 14 and a half hours. Isn't it 12 hours or | 2 | authority some way to approve these courses so it |
| | - | 3 | |
| 3 | something? | 4 | won't interfere with our PIs getting their continuing education or renewal. And if the information is on |
| | MS. VEST: Yeah, we're going to give them | - | |
| 5 | the maximum. There is no carryovers. They can ask | 5 | the system, I can just take a look at it and get it |
| 6 | for 14, they can ask for 22. That's good. If they | 6 | approved and move on. But we'll talk about that |
| 7 | want to teach a course for 22 hours, that's great. | 7 | later. |
| 8 | But the PI is not going to get but the 12 hours | 8 | MR. BAYNE: I reviewed all of these. And |
| 9 | credit. So did we look at this one and say this one | 9 | for De Van & Associates there's actually a total of |
| 10 | is okay? | 10 | 12 hours. |
| 11 | MR. VALENTINE: Yes. | 11 | MS. VEST: Right. There's different |
| 12 | MR. BROWN: Yes, ma'am. | 12 | ones, yes. But this is the whole set here. What did |
| 13 | MS. VEST: Okay. Yeah, this is for Amber | 13 | you think about this course, Mr. Bayne? |
| 14 | Treat, so we're going to say okay for this one, the | 14 | MR. BAYNE: I'm good with it. I'm good |
| 15 | same thing. | 15 | with it. |
| 16 | MR. VALENTINE: Amber and Sarah and | 16 | MS. VEST: Okay. So we're going to say |
| 17 | Chelsea. | 17 | okay to this one? |
| 18 | MS. VEST: Yes. All of these are okay. | 18 | MR. BAYNE: Yes. |
| 19 | All right. So what's going to happen is we're going | 19 | MR. VALENTINE: Yes. |
| 20 | to go out on the computer and put it on there for | 20 | MS. VEST: All right. I believe the next |
| 20 | Administration Office of the Courts. | 20 | one is H-A-N-W-H-A, second word is T-E-C-H-W-I-N, |
| | | | |
| 22 | MR. BROWN: Okay. | 22 | third word is America. I have trouble saying them |
| 23 | MR. VALENTINE: Okay. | 23 | much less spelling them. All right. Did you have an |
| 24 | MS. VEST: Now, my question to you is: | 24 | opportunity to look at this? Of course, this is |
| 25 | If anybody took this, should I stick it up here under | 25 | for we use the same form hold on just a second. |
| | | | |

| 1 | It looks like there's a problem. This one here says | 1 | Methodist College, 20 hours. Well, we know what |
| 2 | for alarms. | 2 | that's it's going to be 12. You're going to |
| 3 | MR. BAYNE: Yeah, that's what I was going | 3 | MR. VALENTINE: That seems to be okay. |
| 4 | to ask. | 4 | MS. VEST: That's criminal justice, |
| | | | - |
| 5 | MS. VEST: It got in the wrong stack. | 5 | criminal cyber, and investigations are the course |
| 6 | But we use the same form for all of them. | 6 | that it took. It got kind of confusing because it |
| 7 | MR. BAYNE: Okay. So this is not | 7 | said Martin Methodist College, then it's Nova |
| 8 | applicable? | 8 | Southeastern University. From what I understand he |
| 9 | MS. VEST: Not unless you think it's good | 9 | has to take one course in order to take the second. |
| | | - | |
| 10 | for a PI. | 10 | They do a second. Now, I will put this one on the |
| 11 | MR. VALENTINE: No, we don't. | 11 | system only under his name. This is just |
| 12 | MS. VEST: It's all about the videos and | 12 | specifically for him. |
| 13 | assets control, stuff like that. That's not a PI. | 13 | MR. BAYNE: It should be because this is |
| 14 | So forgive me, we'll stick that in a different stack. | 14 | a Ph.D. This is a four-year process for this man. |
| 15 | MR. BROWN: We were ready for that one. | 15 | MS. VEST: Right. |
| | | | • |
| 16 | MR. VALENTINE: Yeah. | 16 | MR. BAYNE: 68 hours of credit. |
| 17 | MR. BROWN: We had done our | 17 | MS. VEST: But I won't put them on as a |
| 18 | investigating. | 18 | provider. |
| 19 | MS. VEST: Right. The next one is the | 19 | MR. BAYNE: Right. |
| 20 | Tennessee Division International Association for | 20 | MR. BROWN: Right. |
| | | 21 | MS. VEST: All right. Let me write that |
| 21 | Identification. This is the TBI, Tennessee Bureau of | | • |
| 22 | Investigation. | 22 | down. Excuse me. |
| 23 | MR. BROWN: I don't have any problem with | 23 | All right. Then we have the SBI Seminars |
| 24 | that. | 24 | out of Dothan, Alabama, Lawyers & Investigators, A? |
| 25 | MS. VEST: It was a conference. It's 24 | 25 | Team Approach. |

| 10 | of it, tell us what's happening in the future, what's | 10 lot of the newer information coming along and the |
| 11 | going to happen with our PIs, or how it's going to | 11 developments and so forth, and I have worked for the |
| 12 | affect our PIs. So, Mr. Duncan, would you mind | 12 Department of Defense over at the National Center for |

| 14 | take Mr. Flair's seat there. | 14 with what is going on because of other things I have |
| 15 | MR. DUNCAN: You tell me. You're the | 15 involved. So that's that's how I got involved |
| 16 | boss here. | 16 with this ocular motion deception testing and came to |
| 17 | MS. VEST: Just go over there and sit in | 17 know about it a few years ago. So what I'm going to |
| 18 | Mr. Flair's seat. | 18 try to do is just present to you what I know. I |
| 19 | MR. DUNCAN: That's fine. | 19 don't do it, I don't use it. And, again, I have no |
| 20 | MS. VEST: And use the microphone there. | 20 interest in it one way or the other, so I'm sort of a |
| 21 | It might be a lot more comfortable. | 21 neutral party here. As you would probably guess, I'm |
| 22 | MR. DUNCAN: This one? | 22 a little I lean a little toward the polygraph side |
| 23 | MS. VEST: Yes, sir. Make sure the red | 1 90 1 |

| 2 | want to take a couple of minutes of your time to just | 2 just to let you know my perspective. |
| 3 | get a little background here so you know kind of | 3 Now, as far as ocular motor deception |
| | what's going on. Former commission member, Jerry | |
| | | 4 testing that's very difficult for me to say. |
| 5 | Richards, had approached me after Director Vest had | 5 Maybe we should just use eye scan. |
| | talked with him about if he knew anyone or knew | 6 MS. VEST: Yes, sir. |
| | anything about ocular motion deception testing. And | 7 MR. DUNCAN: Anyway as far as the basis |
| 8 | he really had not gotten involved in it, but he knew | 8 of it, most of the research I've been exposed to |
| 9 | that I had. So he approached me, and I contacted | 9 indicates it is based theoretically on the same type |
| 10 | Director Vest and she asked if I would come up and | 10 of principles as polygraph in that it depends on |
| 11 | address the commission on it. And just real briefly, | 11 physiological reaction with the threat of light. And |
| 12 | as far as my background so you kind of know where I'm | 12 a lot of you are experienced investigators and so |
| 13 | coming from, I was in law enforcement and emergency | 13 forth, and you know there are things that people do |
| 14 | services and so forth for about 35 years. I retired | 14 when they lie, just not the same things for every |
| 15 | from the Georgia State Patrol over their polygraph | 15 person. But there are certain things that happen to |
| 16 | program actually. I've been a polygraph examiner for | 16 us physiologically when we lie and that's been proven |
| 17 | over 25 years now and a licensed polygraph examiner | 17 over and over and over and over through polygraph |
| 18 | and private investigator in Tennessee and a number of | 18 research and interview research and et cetera, you |
| 19 | other surrounding states. After I retired, I've | 19 know, Dr. Reid (phonetic) and all kinds of people |
| 20 | really gone to work I guess it seems like. So I | 20 have done all kind of research on that. So this is |
| 21 | wanted to let you know from that perspective. I'm | 21 just another step along those lines, but it's using |
| 22 | also the president of the American Polygraph | 22 the eyes alone as opposed to polygraph using three or |
| 23 | Association, and so I have some insights into things | 23 four or five or whatever different components. It's |
| 24 | I guess from that perspective that others may not | 24 using exclusively and the latest research has just |
| 25 | have. | 25 used the pupils themselves. They found the most |

| 1 | validity, reliability, and accuracy in pupil change, | 1 MR. DUNCAN: Now, here is sort of the |
| 2 | actually getting larger. And that ties back, we | 2 clincher of this, that is on a specific issue, one |
| 3 | think, to a couple of things. And there's | 3 thing. Now, others are touting, and I have heard it |
| 4 | disagreement in the field right now, not only in the | 4 personally, so I can testify to it. I've heard it |
| 5 | ocular motion field but in the polygraph field as | 5 from sales people that this is the greatest thing |
| 6 | well, as to if it is truly fight or flight response | 6 since peanut butter for screening, but the accuracy |
| 7 | or if it's a cognitive response, i.e., are we having | 7 figures that I have seen published are not near close |
| 8 | to think more about lying than we do about telling | 8 to this 80 percentile, in the mid 80s, in screening |
| 9 | the truth. And that that sort of makes sense to | 9 tests because and you have to understand if if |
| 10 | me. I'm not a physiologist or a psychologist either | 10 I can say, Chairman Valentine, did you park on the |
| 11 | one, but it kind of makes sense to me it's harder to | 11 street? |
| 12 | lie than it is to be truthful. So that cognitive may | 12 MR. VALENTINE: (Nods head |
| 13 | be part of it and the emotion of being caught in a | 13 affirmatively.) |
| 14 | lie may be part of it. That's sort of the thinking | 14 MR. DUNCAN: That's an easy one, isn't |
| 15 | now and what the research tends to indicate although | 15 it? It's very hard for you to get away from that or |
| 16 | that is just theory. | 16 to rationalize around it. You either did or you |
| 17 | Now, the latest research that has been | 17 didn't. |

So what the federal government has done, the current status or current state if you will, this a caveat, Dr. Kircher is involved with the eye detector people. And his is the most current research I have, it was published in 2018. Excuse me. And just in a nutshell what they did is they took a relatively large sample group of people and they had some of them commit a crime, you know, steal some money and another part of that group not steal money. And then they tested them using ocular motion, and they used several different things. They and I mentioned earlier they came up with the most the most telling was pupil change size. They also tried time and answering in the same experiment they used time and answering and errors and movement, eye movement, and several other parameters, but the pupil change was the thing that they found that was most discerning of deceptive. And, again, in a nutshell what they came up with on a specific issue I'll come back to that in a second is somewhere in the neighborhood of their lowest was about 82 percent and the highest was | different things like, for example, in preemployment testing in law enforcement arenas and so forth. So the accuracy has not even been anywhere near as close, nor is it in polygraph. We lose accuracy in polygraph. Some of those figures are down, you know, in the high sixty 68 something percent I think the Office of Technological Assessment study of the 90s came out with. We know now we're on up we're much better than that because of our instrumentation and procedures and so forth but still a lower a lower accuracy rate even in polygraph. But the accuracy rate in the screening has not been very good. | 1 | Page 37 it to be true. But the federal government, the | 1 | Page 39 Because a lot of the a lot of the |
| 2 | assessment the National Center for Credibility | 2 | interest in this was in being able to screen people |
| 3 | Assessment, they wanted some independent study. And | 3 | faster and cheaper particularly in |
| 4 | I think we all kind of like to see that, somebody | 4 | counterintelligence and so forth. That was one of |
| 5 | that doesn't have a dog in the fight. | 5 | the big interests of the federal government, that and |
| 6 | MR. BAYNE: A second opinion. | 6 | prescreening of employees before you know, before |
| 7 | MR. DUNCAN: Yes, sir. Exactly. Someone | 7 | the polygraph because it's much quicker, it's much |
| 8 | who, once again, does not profit from it, not that | 8 | cheaper, you don't have to train someone to the |
| 9 | they've done anything wrong or incorrect but it's | 9 | extent because it takes you know, it's the |
| 10 | just not it just makes us all feel better, I | 10 | shortest polygraph schools that we have that the |
| 11 | think, and makes it much more easy to market and | 11 | American Polygraph Association accredits is ten |
| 12 | accept. | 12 | weeks. And some of them are 14 weeks. And then you |
| 13 | So the federal government I understand | 13 | have an internship and everything. So it's a pretty |
| 14 | it's a large sum and I guess that's sort of relative, | 14 | lengthy process to get a polygraph examiner. And |
| 15 | but it is classified the amount of money they have | 15 | then the instrumentation is expensive whereas this |
| 16 | funneled into Oak Ridge Laboratories to do a | 16 | the instrumentation is I think leased or rented. |
| 17 | completely independent study. And they I | 17 | Sort of the take back I understand from |
| 18 | understand it's big money to | 18 | this, though, is that you test the person with the |
| 19 | MR. BAYNE: So it was funded to the ORNL? | 19 | ocular motion deception test and you send the results |
| 20 | MR. DUNCAN: Yeah, it was given to them | 20 | to the company and you pay them a fee and they or |
| 21 | to independently research. And the feeling was not | 21 | you send your data, I'm sorry, your data to the |
| 22 | that the the National Center for Credibility | 22 | company, you pay them a fee, and they send you the |
| 23 | Assessment, they actually have done research on this | 23 | result back. Deceptive or non deceptive. |
| 24 | as well. But they are so heavily tied into polygraph | 24 | So what it does it's not polygraph. |
| 25 | I think some of the folks involved said let's get | 25 | Because in polygraph and once again I'm a little |
| | | | |
| 1 | Page 38 someone totally removed so nobody can say, you know, | 1 | Page 40 biassed here and I'll admit it. But polygraph you |
| 2 | you skewed it toward polygraph. Because if it's your | 2 | get a lot of information. Polygraph examiners are |
| 3 | profession, you're bound to have some natural bias. | 3 | information gatherers. If many of you have used |
| 4 | I think it's virtually impossible not to. So they | 4 | polygraph or been affiliated with it, like in |
| 5 | have funneled a tremendous amount of money from what | 5 | preemployment screening or whatever, it's more |
| 6 | I was told into Oak Ridge, and Oak Ridge jumped right | 6 | important a lot of times to our client or whoever |
| 7 | on it. So I know it had to be a big chunk, if you'll | 7 | we're doing the exams for to get the surrounding |
| 8 | pardon my vernacular there. But they jumped right on | 8 | information, whether it be from a legal perspective, |
| 9 | it, and they were tasked with coming back with some | 9 | either side, prosecution or defense, or from a you |
| 10 | data by the end of the fall of this year. Now if | 10 | know, a potential employee or employer to be able to |
| 11 | that occurs, I will be I will be elated. Because | 11 | provide them with information on that subject so they |
| 12 | it's it's a big research project, and I understand | 12 | can make a wise and informed decision, whether they |
| 13 | they're going to have to use a large number of people | 13 | should hire them or not, you know, to obviously |
| 14 | in order to have validity for the testing and just to | 14 | negate negligent hiring suits and so forth. So it's |
| 15 | do a test like that and to do all the calculations | 15 | a totally different thing. But it appears by the |
| 16 | necessary for it to meet the modern day parameters of | 16 | research Kircher did to work on this specific issue |
| 17 | scientific research it's going to take some time. | 17 | quite well, just a few points below polygraph |
| 18 | But they are, I understand, working on it full board | 18 | average. Because polygraph now we're looking into |
| 19 | at this point in time. So I anticipate and I it | 19 | the mid 80s, upper 80s to the mid 90s, in specific |
| 20 | 's my understanding again, although the exact | 20 | issue testing percentage-wise. And both, of course |
| 21 | parameters they were using and the exact methodology | 21 | you know, we have to account for people that don't |
| 22 | were also classified, I understood from somebody that | 22 | cooperate, people who give wrong answers, people that |
| 23 | was involved since the inception that it's going to | 23 | move or we have artifacts in the testing that won't |
| 24 | look at probably specific issue, one certain thing, | 24 | give it. So, you know, it's it's worth looking at |
| 25 | and screening. | 25 | obviously to the federal government and others. I |

| 1 | don't think it's it does what polygraph does. | 1 | screening and so forth that didn't turn out. |
| 2 | Again, I'll tell you, I'm probably biassed toward it | 2 | And I will mention one other study that |
| 3 | with that being my passion. But it is a it | 3 | is not published. You won't hear about this because, |
| 4 | appears to maybe have some validity and reliability, | 4 | again, I understand it was classified, not by us but |
| 5 | some viability in some applications, but not in the | 5 | by another country. But a lot of testing was done in |
| 6 | place of polygraph in my opinion. And that's Steve's | 6 | Columbia on testing what they call assets, people |
| 7 | opinion, Steve Duncan's opinion, on that. | 7 | that are providing information and so forth. I wish |
| 8 | So once again I have the research paper. | 8 | I had written down exactly what I was told, but it |
| 9 | If anybody wants to take a look at it | 9 | was along these lines. It did not work well in that |
| 10 | MR. BAYNE: Is that Kircher's research? | 10 | application. But I think there was some other |
| 11 | MR. DUNCAN: Yes, sir, it is. And it's | 11 | confounds involved with language and education, |
| 12 | published, Detecting Concealed Information Deception | 12 | educational level of some or their informants, not |
| 13 | Recent Development Cambridge MA, Academic Press, in | 13 | understanding the instructions and different |
| 14 | 2018. | 14 | dialects. And I think there were some other |
| 15 | MR. BAYNE: Of course I would be | 15 | confounds that probably hurt it, but it was so bad |
| 16 | interested. | 16 | that they never published or released the percentage |
| 17 | MR. DUNCAN: I can tell you. | 17 | results. And I think I think the project just |
| 18 | MR. BAYNE: Really, seriously. | 18 | didn't work as they predicted, and it showed worse |
| 19 | MR. DUNCAN: If you're going to read it, | 19 | than it probably performs because of so many you |
| 20 | allow a little time because some of it is a little | 20 | know, if you try to do research and it doesn't follow |
| 21 | dry, as much research is. But, yes, sir, if you want | 21 | your parameters, then it's pretty worthless to |
| 22 | to | 22 | anybody. It's not worth saying we only did 30 |
| 23 | MR. BAYNE: Can we somehow get it | 23 | percent accuracy when it's when that's not |
| 24 | available to us? | 24 | accurate. |

| 6 | it next summer. I would anticipate | 6 | MR. DUNCAN: And like I said, I'll be |
| 7 | MR. BAYNE: An unclassified version of | 7 | glad to help you folks in any way I can. |
| 8 | it? | 8 | MR. BAYNE: Quick question if I may? |
| 9 | MR. DUNCAN: Right, right, right. And | 9 | MR. DUNCAN: Yes, sir. |
| | | | |
| 10 | some of it we may never see because some of the stuff | 10 | MR. BAYNE: Is it simply is it as |
| 11 | we never see. I've worked on a couple of projects | 11 | simple as pupil size change, or is it pupil size |
| 12 | for them, and we're still forbidden from discussing | 12 | change and the direction. |
| 13 | it just from a national security perspective. I hate | 13 | MR. DUNCAN: What they said in the |
| 14 | that, and I know everybody else does, too. But if | 14 | they looked at movement as well. |
| 15 | they tell you they'll put you in jail if you talk | 15 | MR. BAYNE: As well as movement. |

| | • | | |
| 17 | will probably it wouldn't surprise me if they | 17 | movement. And I know where you're going with that, |
| 18 | didn't do a presentation at the American Polygraph | 18 | NLP, neurolinguistic patterning, I taught that for |
| 19 | Association seminar next year. It would not surprise | 19 | many years. And now they're telling us it's not |
| 20 | me if they get the data back by then and are able | 20 | accurate even though I've used it in hundreds of |
| 21 | to because what they'll do is they'll take that | 21 | cases. But what they found was and they looked at |
| 22 | data and confirm it and so forth. So we're still | 22 | the movement, they looked at the size change, they |
| 23 | it's still too new to really hang your hat on, I | 23 | looked at a number of parameters. It mentions |
| 24 | think. And this is in Steve Duncan's opinion again. | 24 | several of them in here. But the pupil size, |
| | | | |
| 25 | But it may have some promise. I just don't know yet. | 25 | according to Kircher, seemed to be the most |
| | | | |
| | Page 46 | | Page 48 |
| 1 | I would like to see that independent research and see | 1 | diagnostic of |
| 2 | what Oak Ridge because they'll tell us exactly | 2 | MR. BAYNE: Diminishes for deception? |

| 3 | | | |
| 4 | MR. VALENTINE: Well, thank you very | 4 | again, and I think I understood that right. But if |
| 5 | much. We appreciate you coming here | 5 | you read it and I'm wrong, tell me because that was |
| 6 | MR. DUNCAN: Yes, sir. | 6 | kind of my understanding. Now, of course, that |
| 7 | MR. VALENTINE: and enlightening us on | 7 | wasn't pertinent to my discussion today so I didn't |
| 8 | all of this research. | 8 | look deeper into it. Change was the effector there. |
| 9 | MR. DUNCAN: I appreciate your time. And | 9 | But I guess I can kind of see that from my limited |

| 1 | MS. VEST: Oh, yes, sir. All right. If | 1 | only way we can is more people coming in, more people |
| 2 | you would, we'll look under my section here. It's | 2 | renewing. I gave you already a printout of a |
| 3 | the monthly reports that we sent out. We do have | 3 | seven-year spread that we went out and looked. It's |
| 4 | March, April, May, and June, but I'm going to cut | 4 | not a big decrease, but it's as you can see, every |
| 5 | right over to June. And actually it just tells you | 5 | year has decreased. And unfortunately what you have |
| | • • • • • | | |
| 6 | about the meetings that Jesse and Ashley and I do try | 6 | there for this year is just for six months. And for |
| 7 | to get together and have. And I have a meeting on | 7 | us to come out even with last year I think we need at |
| 8 | the finances with the assistant commissioner that you | 8 | least another 70 people apply. That's probably |
| 9 | just met. I have other meetings with him with your | 9 | probably not going to happen for the rest of the |
| 10 | information as well. But you'll see I still have | 10 | year. I'm not sure, but we've got our fingers |
| 11 | three commission members that are vacant. We have | 11 | crossed. But I wanted you to see that because you |
| 12 | Alan Rousseau, Rick Jones, and the polygraph where | 12 | had asked me before how the surrounding states, which |
| 13 | Jerry Richards has left. | 13 | I am doing that again, another study, a little bit |
| 14 | Yes, sir? Did you sign in, Mr. Duncan? | 14 | more in depth, and asking about the fees that they |
| 15 | MR. DUNCAN: I didn't. I guess I need to | 15 | are charging, how many people. I'm having to use the |

Two of each and then one public member. MS. VEST: All right. That's kind of the stuff we're looking into, Mr. Chairman. MR. VALENTINE: Yeah. MS. VEST: Like I said, you're already commissioned. To make any particular changes I'm sure would have to be done on the hill. So we would have to have everybody's input there to make any changes. But I'm just letting you know in the office we're all looking at this. I'm doing my best to make sure that we can have the PI profession regulated. We may have to do some changes. We may come out and have three or \$4,000 left or whatever. As you know, I have to start July 1st over with a zero balance |

Certified public accountant is unclaimed properties getting paid to locate moneys, something a CPA firm does? I don't know. So that's why I brought it to you. MR. BROWN: I feel like it should be a licensed PI. MR. JONES: I think so, too. There's going to be certain aspects of that where they're going to cross lines in investigative services. MR. ROUSSEAU: Do we have an opinion from our attorney? MS. THOMAS: Well, my honest opinion, if they are exempted and they are operating under their accountancy firm, they are exempt. And at that point if if the commission is saying they are exempt, then we can't require them to hold a PI license under that firm. So like when Cody said if they're going to branch out, if they're going to become KPMG Investigations, of course, that would be a different arm of it that would need a license. But if part of their business is to research this unclaimed property, I think that would still fall under the exemption. That's my opinion. |

| 1 2 3 4 5 6 7 8 9 10 11 12 | Page 74 executive order number five we are required to do a refresher course on the Sunshine Act for all of our boards and commissions. I believe Cody and her staff sent out to you a PowerPoint presentation to that regard, so I'm just going go over it really quickly. The biggest thing is everything is an open record. That includes e-mails, photographs, any documents that we hold. If I get a public records request, that is something that can be distributed or provided in response to that. As far as public meetings, any meeting of a governing body is considered a public meeting. A | Page 76 where the public can access it. And I know she publishes that on the website, like I said, a week before. And then the agenda is outside the door on meeting days. Any violation of the Sunshine Act or the Public Meetings Act, it would nullify any decision that the Board has made. All that commission action, all those costs would be assessed against the annual budget, and those decisions would be null and void and we would have to hold another public meeting and go over that again. And the final part that I wanted to point |
| 13 | governing body is defined as two or more members. | 13 out to the Board refers again to the North Carolina |
| 14 | This is not to say that you all cannot go to lunch | 14 dental case that just sets forth that the Board or |

| 17 | starts to turn into a discussion or deliberation | 17 include active state supervision. And the way the |
| 18 | about board business, that technically is a public | 18 Department has implemented that is we do have a |
| 19 | meeting. And it would have to be noticed before any | 19 policy director who reviews all of our board meetings |
| 20 | of that board business could be discussed. The only | 20 to determine that the action the Board is taking is |
| 21 | meeting that is not considered a public meeting would | 21 not being anticompetitive in any way. |
| 22 | be an executive session, and that's very specific. | 22 So like I said, we did just have to |

As far as Jerry Richards' position is concerned, I do have quite a few polygraph people that are interested. I've already vetted them. The names have already been submitted. Hopefully this new process that we're doing will speed up the appointments. And we we appreciate our board members whose terms have expired but then continued to serve. And actually that's all I've got, Mr. Chairman. MR. VALENTINE: Very good. Do we have anyone appearing for the continuing education | 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 8 9 20 21 22 23 | |
