

# TRANSFORMING THE WAY MANUFACTURERS SOURCE, VALUE AND MANAGE REUSABLE & RECYCLEABLE MATERIALS

**Join the Tennessee Materials Marketplace and divert waste from landfills, generate significant cost savings and create new business opportunities.**

The Tennessee Materials Marketplace is a facilitated transaction platform that actively connects businesses to develop and scale new reuse and recycling market opportunities. By using the Materials Marketplace, businesses can reduce disposal costs, generate additional revenue, contribute to sustainability goals and save money on materials.

Supported By

## HOW IT WORKS

The Materials Marketplace is **free** to join, and there is **no cost** to list and search for materials. You'll pay only when you complete a transaction - either a % on the amount of the transaction or, if the deal is no-charge, then a % on the amount of avoided disposal costs.

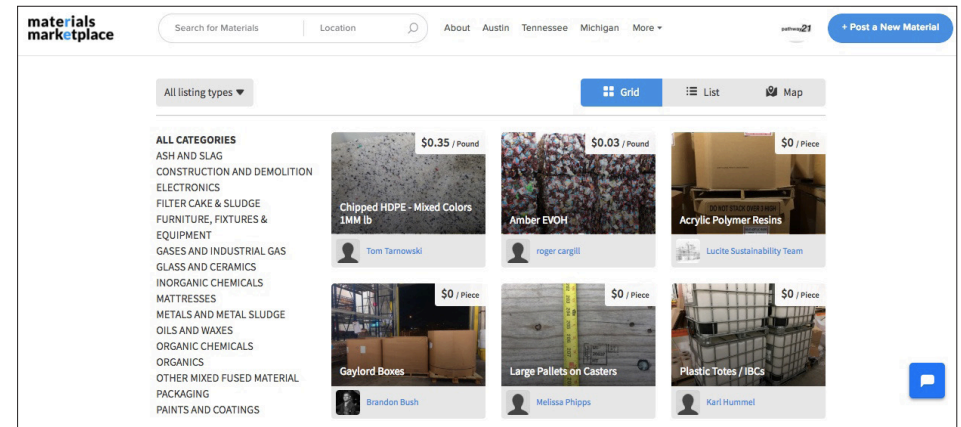

The platform and marketplace facilitators will help to make sure your postings are staged for success. Once opportunities are identified, you can connect with other users and platform assistance is available to help with any transaction.

## THE PLATFORM

The Tennessee Materials Marketplace is a secure, cloud-based platform. It captures the power of the web and convenience of mobile to put material reuse at your fingertips:

- material listings include details needed
- logistics & transaction tools save time
- platform works to find connections for you
- mobile-friendly interface makes posting and searching easy
