**Subject:** Camden Update 10-23-2017

Dear Camden Citizens –

Below is a summary of items that have occurred at EWS from Saturday 10/14 through Friday 10/20. My previous update covered the period through Friday 10/13.

Pat.

- Continued to ship Aluminum Processing Waste Cell leachate off-site for disposal
- Performed routine daily gas system and cover operation and maintenance activities
- Performed daily ammonia monitoring
- Both stationary ammonia monitors and the portable ammonia monitor were calibrated
- Sample pump on ammonia monitor located on the red barn was replaced
- Continuing site clean-up and housekeeping activities
- Continued to place additional clay on temporary Aluminum Processing Waste cell cover to repair areas with small desiccation cracks
- Continued engineering work on the Industrial Waste Cell closure design
