Course #402

Collection Systems Board Sanctioned Training

This course will examine the collection system and the procedures used to operate a collection system. The student will refamiliarize themselves with the collection system and have the opportunity to focus on content areas that were unsuccessful on the certification examination. A student study guide will be provided at the beginning of class.

It is intended for individuals who are currently working toward obtaining a certification in collection systems and has failed the grade 1 or 2 operator certification exam twice. **There is a prerequisite of two grade 1 or 2 failed exam attempts.**
