Course #505

Distribution Systems Tutoring

The course is structured like a traditional tutoring session. Because the class size is limited to five (5) students per instructor, the student will have the opportunity to receive personal instruction on topics of concern.

It is intended for individuals who are currently working toward obtaining a certification in distribution systems and needs additional assistance in studying for the certification exam. The student should bring topics of interest with them to class.

There is a prerequisite of attending any FTC class.

General Topics

- ▶ Pipe Installation & Maintenance
- ▶ Valves & Pumps
- ▶ Fire Hydrants
- ▶ Services & Meters
- ▶ Water Storage
- ▶ Cross Connection Control
- ▶ Safety, Rules, and Recordkeeping
