Adoption Fee Schedule

Schedule of Fees for Adoption-Related Services 2024

Tennessee Department of Children's Services | Division of Child Welfare Licensing

Effective January 1, 2024- December 31, 2024

Introduction

The following document is a comprehensive list of all agencies licensed to provide adoption-related services within the State of Tennessee and includes each agency's associated fee schedules. All data, including contact information, service rates, service descriptions, etc. is self-reported by each licensed agency. This information is collected, compiled and published annually by the Tennessee Department of Children's Services Division of Child Welfare Licensing.

Please note that this information is provided in a truncated format and therefore lists only general fee schedule information. Additional fee information for specific services may be obtained by contacting each agency directly. All fee schedule data is subject to change, so please confirm current service rates with the individual agencies.

Some agencies may not be represented on this schedule if they become licensed after the publication date. A current, itemized fee schedule should be requested from *any* agency you are considering for adoption services.

If you are attempting to verify information on an agency that has not been included in this schedule, please contact the DCS Division of Licensing at EI_DCS.Licensing@tn.gov for additional information.

A Note from the Licensing Office Regarding Consumer Awareness

There are many Tennessee children currently in need of a loving, permanent family and the process of opening one's home to a child in need can be one of the most significant events in the life of a child and that child's adoptive parents.

The State of Tennessee offers many quality options for adoption-related services. However, as with any fee-based business transaction, it is still very important to take time to become familiar with the process, and to compare the costs, quality and scope of services among each of the agencies providing adoption-related services.

We encourage each prospective adoptive family to research an agency's itemized fees; accreditation status; licensing status and history, etc. and to please read any agency contracts carefully. Tennessee's laws and regulations are in place to help protect both the child and the family (as consumers) but once a legal and binding contract has been signed,

our offices have very few avenues for corrective action or for assisting a disappointed client seeking redress.

Please also ensure that the agency you are engaging is licensed to provide adoption-related services within the State of Tennessee. Many internet-based adoption services are not effectively regulated and only those programs licensed in Tennessee are covered by Tennessee regulations and consumer-protection laws. Only the agencies reflected on this list or otherwise confirmed by our office are licensed to work with Tennessee children and families.

If you are in doubt, please contact us. We want to help ensure your adoption journey offers a beautiful and rewarding experience for all involved and a little “homework” goes a long way toward ensuring that outcome.

Please feel free to contact the DCS Division of Licensing if we can ever be of assistance to you.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark Anderson". The signature is fluid and cursive, with the first name "Mark" being more prominent.

Mark Anderson, Director
Tennessee Department of Children's Services
Division of Licensing
